SUSTAINABILITY PROJECT:

At Twedex we're passionate about protecting the environment. That's why we've partnered with Trees4Travel – a charity that enables travel organisations to offset their carbon footprint. This is part of our wider sustainability strategy.

How it works:

- 1. We calculate your trip's carbon footprint using T4T's CO2 calculator**
- 2. T4T calculates the number of trees we need to plant in order to offset the carbon footprint of the trip**
- 3. We divide the total cost by the total number of students**
- 4. This cost is then added to the package price**
- 5. Your trip is certified as 'Green', and all students will receive an e-certificate that certifies they have participated in a carbon neutral trip.**

Total T4T supplement fee for your trip: 200 AED per person.

PASSPORTS AND VISA APPLICATIONS

Please ensure that your child's passport has at least 6 months on it from the date of return (8th February 2025).

Some nationalities require a e-visa to enter Indonesia. Please see the following [website](#) for more information.

All passengers are also required to complete this [health declaration form](#) – it is recommended to complete this before departure.

WHAT OUR SCHOOLS SAY:

ROMANIA CULTURE TRIP

The residential to Romania through Twedex was brilliant. The students were challenged to step out of their comfort zone, socially, physically and educationally. It ticked all our boxes for an all-encompassing trip.

JAPAN SKI TRIP

This was a life changing experience for the students in my school. The amazing culture of Japan mixed with the thrill of skiing on some of the best slopes in the world. The staff could have not been more helpful throughout the adventure. We can't wait to do it all again!
