

August 28, 2024

Dear Business Owner or Family:

We would like to invite you to participate in our Adopt-a-Classroom project within Hillview Elementary School of the Grove City Area School District. With the partnership of local businesses, we have created the Adopt-a-Classroom program for Kindergarten through fifth grade classrooms. This program invites local businesses and/or families to sponsor one of the over 50 classrooms in our elementary program.

Each business/family will contribute \$100, or more, to the classroom. The money will be used to enrich the math, science, arts and literacy curricula. Teachers will select materials such as computer programs, library books and math materials that will help students better meet or exceed the PaCore academic standards and supplement their learning..

Each business will in turn be recognized with a sign near the classroom door to identify your business or family name. Also, recognition will be given in our newsletters, brochures and displays. In addition, each business will be encouraged to display a notice in their establishment informing customers that the business supports quality education.

If you are interested in participating, please complete the participation form and return it to the school in the enclosed envelope. Thank you for your consideration!

Sincerely,

Tammi Martin
