

To our valued Education Professionals,

Our Dunkin' franchise has spent the last several years building relationships within our local communities. This year we would like to offer the programs we have been building in some of our communities to all of our communities. Below are some programs we have run in different communities that may be of interest to you, as well as some exciting new programs. If you are interested in any of the programs or have ideas on how we can help your schools in other ways, please reach out via email.

- Providing free donut (or other item) coupons for use in reading or other incentive programs
- Providing coffee, donuts, bagels, etc. for teacher in-service days or parent teacher conferences at a discounted rate (wholesale accounts available)
- Running a contest for students to design a donut. The winner would have their donut featured for one week.
- Partnership opportunities for fundraising
- Discount cards for all staff including educators and support staff provided at no cost
- Youth sports awards, including coupons, for all athletes provided at no cost along with discount cards for all coaches and coach helpers
- Please let me know if you need anything else.

Along with these offers, we also invite you to stop in during the months of September and October to enjoy our Free Coffee Mondays for all education staff (anyone who works or volunteers at an education facility) and a Free Donut with any purchase each day from 2pm to 5pm (a good reason to treat yourself AFTER your school days!).

Thank you for your consideration!
