STANLEY/STELLA

Since its launch in 2012, Stanley / Stella has focused **on simplicity**, highlighting the essence of the garment. The driving force of its founder Jean Chabert: to **break codes**, be a game changer who reinvents fashion for a better world.

We want to inspire positive change through our collections and partners from our communities, offering products that **respect** people, the environment and the customers.

We aim at producing more **authentic** and more **responsible** clothes that you are proud to wear and sell. Pieces that initiate change in the textile industry, made in a more human, ethical and ecological way.

SUSTAINABILITY

Sustainability is at the core of our business culture. We are committed to continuously improving how we create and operate, from the cotton farm to the collection, to how we manage our waste. We always act with transparency for people, the planet, and society.

EXCELLENCE

For you, as for us, every detail counts. We make no compromise when it comes to reaching for excellence. In every aspect of our business, we aim to surpass our own results. Our collections and actions should always raise the standards and change the perception of the textile industry.

PEOPLE

Everything at Stanley/Stella is about people. It is our essence. From our dealers and suppliers to our employees and customers, we ensure everyone feels listened to and is treated with respect and dignity. We actively strive to create an ecosystem with a positive spirit.

INNOVATION

Stanley/Stella is driven by innovation and our entrepreneurial spirit. We believe choosing the right partners empowers innovation. We are always experimenting to improve our products, our digital services and our entire supply chain.
