

Activities Booklet

AUTUMN TERM 2024

We are delighted to present the Activities Brochure for Autumn. This is a packed programme that is sure to excite, entertain and educate. Activities are at the heart of life at Bede's and whatever your interests, we're sure that you'll find something that you will love doing.

These co-curricular activities enable everyone to develop their strengths, qualities and their self-confidence in order to help them flourish. They teach courage, curiosity and compassion, as well as making many lifelong friendships and memories that last far beyond Bede's. Playing a full and wholehearted part within the Activities programme is key in developing the connection needed with others in order to build our kind hearted community. It is also integral in fulfilling our mission for everyone in the School to find joy in the pursuit of brilliance. Therefore we hope that everybody finds their niche, enabling them to release their talents within a world of opportunities. You are at Bede's for several years, but these experiences help to form who you are for the rest of your life.

Therefore please take this opportunity to get involved, try something new, make friends and get active. A huge thank you to all the staff who contribute to this wonderfully diverse programme as, without their hard work and creativity, none of this would have been possible.

Activities fall under 4 different categories - Sport, Clubs & Societies, Languages & Culture and Creative & Performing Arts. Every pupil of the school needs to sign up for three activities per week - and would recommend a range of activities that include at least one that is a sporting/exercise choice. Some activities are only suitable for certain year groups and you'll see that these are highlighted in each individual section. Certain activities have an extra cost associated with them, and these will also be highlighted.

Sporting Activities are important in making sure that you're fit & active, whether it's a team or individual sport, we encourage all students to pick at least one sporting activity. For those students who live for sport, we want to make the most of the months ahead. For everyone else, we want you to stay fit & healthy as we believe in good health and exercise for all.

There are Languages & Culture Activities providing the chance to support pupils with their studies, or extend them and push them further within an impressive supra-curricular programme. Studying Classical Greek, Researching Chemistry or learning Japanese are amongst the wide range of Languages & Culture Activities.

In Societies & Clubs pupils can join a Film Club, spend time in our fantastic Zoo or get those baking skills up-to-scratch (and hopefully bake some cakes for parents to enjoy). There's an eclectic mix of Societies & Clubs with something new to try for everyone.

Finally there are the Performing & Creative Arts Activities: amongst the highlights are our superb drama teachers offering a range of theatrical related activities, the music department hosting choirs & bands a-plenty or pupils can join the Art Department in a wide range of opportunities.

Most activities are Open to All, meaning that anyone can join the activity. Some activities are Invite Only in which case many pupils will have already been invited, however you can email the teacher in charge of that activity to also request an invite. If you have any questions about an activity, you can contact the teacher in charge of the activity who is listed in each listing.

We hope that Parents & Guardians spend half an hour reading through this programme - and deciding, with their children, which activities to choose. It's important to strike the right balance with the four different themes and pupils may benefit from some guidance with this.

There's never been a more important time to develop hobbies, passions and interests to run alongside our academic programme. Research tells us that they definitely assist in the development of a sense of well-being, promoting positive mental health and building self-confidence. We hope that pupils are looking forward to the programme as much as the staff who are running these exciting activities. Please do share with us photos, videos and stories about all that is going on.

Enjoy reading this brochure and remember to sign up to your Activities on **Wednesday 4 September**.

Phil Wise

Deputy Head Operations

All activities are free (except where stated)

Pupils should pick a variety of activities

Pupils are expected to select three activities a week

To join 'Invite Only', email Mr Richards to request access
