## \*NOTES:

Capital Outlay (Bonds Payable) - In October 2013 the Florida Development Finance Corporation (FDFC) issued \$73 million in tax exempt bonds to finance the acquisition and construction of 5 charter schools under Renaissance Charter Schools Inc.(REN) The facilities are owned by Red Apple Development (RAD). Red Apple is a sister company of Charter Schools USA. RAD entered in to 5 lease agreements with REN, which are classified as capital leases. (Although is important to note, title never passes to the charter school). The bonds are secured by the pledged revenue of the charter schools. Payments are made from the revenue passed-through the District. REN is required to deposit all revenues received by the district and any other revenues with the trustee during the term of the lease. During Fiscal Year 2019, the Capital Trust Agency (the "Agency") issued \$84,210,000 in Tax Exempt Educational Facilities Revenue Bonds, Series 2019A and \$1,770,000 in Taxable Educational Facilities Revenue Bonds, Series 2019B pursuant to an Indenture of Trust between the Agency and a Trustee to make a loan to Renaissance Charter School, Inc. ("REN"), a division of which the School exists to finance the acquisition of the facilities and equipment and refinance prior debt of four charter schools existing under REN. (The FDFC is not an extension of the Executive Office of the Governor (EOG), a public agency of the State of Florida (State), nor is it a division of Enterprise Florida, Inc. (EFI).

<u>Land lease agreement</u> - Concurrent with the Series 2019 Bond issuance, subsidiaries of Red Apple Development, LLC ("RAD") entered into four land lease agreements with REN. The land which is owned by RAD is leased by REN on behalf of the schools under a 45-year lease.

<u>Maintains positive financial trends</u> – The financial indicators appear to show overall negative trends and it is important to understand that some positive trends may be misleading and require clarification. Net Assets continues in a deficit. Even though the indicators show unrestricted days of cash as roughly 41, which appears as a great improvement from the previous year, this is attributable to an amount due and payable to CSUSA of \$725,805. Once the school satisfies this obligation, unrestricted cash would fall to approximately \$133,000. This would bring unrestricted days of cash to 6.35, well below the recommended minimum of 30 days. Fund balance may appear to be a significant amount, but the entire amount is restricted or non-spendable.

<u>Maintain adequate fund balance</u> – FY20 Ending General Fund balance per audit was \$1,353,679, however \$1,292,861 is restricted for debt service and \$60,800 is non-spendable. This leaves no assigned or unassigned General Fund Balance and indicates the school does not have adequate fund balance to withstand financial emergencies.

<u>Maintain steady FTE counts</u> – The school has shown a steady decline in FTE over the previous four fiscal years, totaling roughly 18%. Enrollment is the main source of revenue for the charter school, this may lead to issues in the future if enrollment is not increased and/or maintained.

<u>COVID-19</u> - In March 2020, the World Health Organization declared the outbreak of a coronavirus (COVID 19) a pandemic. As a result, the local and global financial markets are experiencing significant declines and creating economic uncertainties. At this time, it is unknown precisely how this negative outlook will impact the School's financial statements in the future.
