Satisfactory: The processes are generally effective (1) **no more than three** indicators are rated non-complaint, (2) **none** of the indicators are material repeat findings, and (3) the school is not in a deteriorating financial condition or there are no issues of material non-compliance identified by the district.

Needs Improvement: The processes are only partially effective (1) **no more than ten** indicators are rated non-complaint, (2) **no more than three** of the indicators are repeat findings, and (3) the school is not in a deteriorating financial condition or there are no issues of material non-compliance identified by the district.

Unsatisfactory: Neither of the above (1) more than ten indicators are rated non-compliant, or (2) the school meets criteria for deteriorating financial condition or there are issues of material non-compliance identified by the district.

***NOTES:**

Maintains positive financial trends – While the financial indicators appear to show neutral or positive signs it is important to understand this is mainly due to financing activities/borrowed funds, not regular operations. Based on the school’s audit, the school has received roughly \$1,500,000 in financial assistance from related parties over the past four years of operation. Non-interest bearing advance in the amount of \$600,000 was received from Somerset Academy Inc.. An additional long-term advance in the amount of \$900,000 was received from Somerset Academy Canyons Middle School. \$600,000 of this advance was used to repay the original advance from Somerset Academy Inc. Additionally, since the start of operations the school has received multiple recoverable grants from Somerset Academy, Inc. which total \$640,000.

Maintain adequate fund balance – As with the note regarding positive financial indicators, it is important to understand that ending General Fund balance is only positive due to financing activities/borrowed funds. General Fund expenditures exceeded revenues by roughly \$155,475.

COVID-19 - In March 2020, the World Health Organization declared the outbreak of a coronavirus (COVID 19) a pandemic. As a result, the local and global financial markets are experiencing significant declines and creating economic uncertainties. At this time, it is unknown precisely how this negative outlook will impact the School’s financial statements in the future.
