

EDGENUITY VIRTUAL

VIRTUAL INSTRUCTIONAL PROGRAMS

Virtual instruction provides a flexible learning environment for students. Our courses are designed to be engaging and interactive, allowing students to learn at their own pace and in their own environment. This approach is particularly beneficial for students who may have difficulty in a traditional classroom setting.

Virtual instruction offers a variety of learning options, including self-paced courses and live, interactive sessions. Students can choose the option that best fits their needs and schedule. This flexibility is a key feature of Edgenuity Virtual, ensuring that every student has access to high-quality education.

Virtual instruction is available for students in grades K-5, middle school, and high school. Our courses cover a wide range of subjects, including math, science, social studies, and language arts. This comprehensive offering ensures that students can find the courses they need to succeed.

- Video lessons have recorded lessons using real-world examples to explain concepts.
- All instructors are Florida-certified and are experts in their subject areas. Our teachers are highly responsive.
- Meaningful assignments and interactive lessons make learning more fun and promote concept retention.
- Because there is a strong support team to help each student achieve academic goals, it's easier to stay focused on instruction and complete assignments on time.
- The student experience offers powerful learning tools that help organize information—whether in note-taking, reading, or writing an essay.
- Students are able to monitor their progress and grades in real time—ensuring that students take ownership of their learning.

Because courses are tablet-friendly students may complete courses anytime and anywhere.

Elementary Programs

Virtual education for elementary students (K-5) is provided through our district partnerships with K12-a Stride Company and Edgenuity Virtual Academy.

Prior to enrolling, careful consideration must be given to the choice of virtual education for each child and family. Full-time virtual school students participate in all Statewide Assessments such as F.A.S.T. and must take them in-person on specified dates.

Elementary students use a combination of online and offline activities. A parent or guardian serves as the Learning Coach and must be with the student during each school day to provide services and record required attendance 5 days a week.

ENROLLMENT OPTIONS

When deciding if Virtual Education is a good fit for your child, consider that the majority of the learning is navigated by the student independently.

PART-TIME ENROLLMENT

Individual course enrollments are available to District and Home Education students during the school year with the Franchise, Canvas, and Edgenuity.

FULL-TIME ENROLLMENT

PBVS full-time is a fully accredited diploma granting online public education option. Students complete virtual classes from home and follow the School District of Palm Beach County calendar.

Eligible students have successfully completed the previous school year, are reading at or above grade level, and the student and parent are both interested in taking an active role in the learning process. More details about grade level eligibility can be found on our website.

PBVS FULL-TIME student requirements:

- Participate in all state standardized testing ****in-person**** as required by state statute
- Attend ****in-person**** orientation
- Complete a full course schedule (5 courses elementary / 6 credits secondary)
- Determine a daily schedule to complete a given weekly pace chart and consistently submit quality work
- Have daily dedicated access to a computer and internet
- Be a motivated, independent learner as you complete pre-set curriculum through self-directed online learning
