

- I. The School Board is committed to providing all students and staff with technology-based learning opportunities. Unmanned remotely controlled aerial systems (“drone(s)”) have value in an instructional setting. Use of drones is a privilege which comes with responsibilities to which students and staff must adhere.
- II. Drones are defined as any powered, aerial vehicle that when operated outdoors is subject to Federal and/or State regulations.
- III. Staff and students shall only operate drones in accordance with this policy and applicable Federal guidelines. Any inappropriate use must be reported to the Superintendent or his/her designee.
- IV. A teacher wishing to use/demonstrate any drones in an instructional related setting must adhere to the guidelines of this policy and applicable Federal guidelines. A clear connection between drone technology and the approved course curriculum must exist.
- V. Drone Use Pre-Qualification Guidelines
 - A. Any staff member who requests to use drones in their curriculum program must provide educational objective supporting documentation and obtain permission from their administrator.
 - B. Any staff member who requests to use drones in an athletic program must meet the Florida High School Athletic Association (FHSAA) guidelines and seek permission from their administrator.
 - C. Any staff member who has been granted permission to use drones in their curriculum or athletic program must obtain remote operator certificate (FAA Part 107 Guidelines).
 - D. All drones owned and operated by the District are to be registered with the Federal Aviation Administration (FAA).
 - E. Only drones produced by approved drone manufacturers can be used for educational purposes and by the District for operations and maintenance of District property.
- VI. Operation Guidelines

- A. Staff and students shall not operate drones within five (5) miles of any airport without prior notification and acknowledgment from airport authorities. Written documentation for notification should be logged and kept on file by the notifying staff member.
- B. Students operating drones on school grounds must: be enrolled in a program that includes the use of drones in its curriculum and have been trained in the use of drones by the teacher.
- C. Students shall not operate drones without the direct supervision and presence of a teacher.
- D. All proper safety equipment must be used by any operator(s) and observer(s) to include eye and ear protection.
- E. The use of any drone on school grounds must be approved in advance by the principal or a district administrator.
- F. Drone operators (staff and students) must maintain safe control and line-of-sight at all times during operation and are prohibited from flying drones over playing fields, seating and spectator areas where and when people are present, as well as parking areas where and when people and/or vehicles are present. Broadcast from a remote location does not constitute line of sight.
- G. Staff and students shall not operate drones above an altitude of 400 feet above ground level or within 400 feet of a structure as outlined in FAA Part 107 guidelines.
- H. Any district or teacher provided drone operated on school grounds must be of relatively low power, be equipped with blade guards, weight less than 0.55 lbs., and not be subject to FAA registration requirements. Staff and students shall not operate a drone with a weight of more than 55 lbs.
- I. Staff and students shall not operate drones before sunrise or after sunset or in adverse weather conditions.

- J. Staff and students shall not operate drones within proximity to or above individuals, crowds, or vehicles, to include parking lots, bleachers, sporting events, school-based activities or functions.
- K. Students are not permitted to bring drones to school.
- L. If used outside, and if the drone were to be flown/blown onto a building roof, off-campus location, or another restricted area, the teacher/coach must report it immediately to school administration and appropriate support staff, i.e. custodial staff, or technical services if the drone is located on the roof. Students shall not be used to retrieve the drone under any such circumstances.
- M. Any variance from this policy requires the prior written authorization from both the Director of Safety and Security and the Supervisor of Risk Management.

VII. Inappropriate Use

- A. Staff and students shall not operate drones under circumstances where profit would be generated.
- B. Staff and students shall not operate drones broadcasting or recording images of people or property where the reasonable expectation of privacy exists or over areas that are normally deemed private by social norms, such as restrooms, locker rooms, or residential areas.
- C. Staff and students shall not operate drones indoors, i.e. no flying in classrooms.

VIII. Drone Injuries or Incidents

- A. Any injuries or property damage resulting from District drone use shall immediately be reported to the operator's direct supervisor and to the Risk Management Department. Further use of the drone in question will be suspended until an investigation of the events takes place and clearance for use is provided.

B. Any scenarios not addressed within this policy shall be governed by the appropriate Federal Aviation Administration regulations.

C. Violations of this policy may result in disciplinary action for staff and/or students and/or revocation of drone use privileges.
