What do School Counselors Do?

- Meet with students individually to assist with concerns relating to anxiety, sadness, conflict with friends or family, school concerns, anger, self-esteem, coping skills, stress management, etc.
- Meet with students in small groups to help students manage a variety of issues in a setting with peers that are dealing with similar issues
- Conduct classroom lessons on social emotional learning, careers, mindfulness, bullying, etc.
- Provide support to parents/guardians, teachers, and administration to help best meet student needs

STUDENTS	FAMILIES	SCHOOL STAFF	ADMINISTRATION	COMMUNITY

Career Development				
504 Case managers	504 Case managers			

The School Counselors are here to provide support in anyway that we can!

How Can My Child See the Counselor?

- Students can ask their teachers to speak with a counselor
- Teachers may call/email the counselor about a student they think may benefit from speaking with their counselor
- Parents may call/email the counselors and request for their child to meet with the counselors
- Administrators may ask counselors to speak with students

I'LL BE THERE FOR YOU

Conflict vs. Bullying

We often teach students about the difference between conflict and bullying to help students better manage conflicts and learn when to report bullying situations.

Conflict: a disagreement or argument in which both sides are able to express their views.

Bullying: negative behaviors directed towards someone that hurt, harm, and/or humiliate; the behaviors are based on a characteristic of the individual being targeted (ex. Race, gender, ability, appearance, culture, sexual orientation).

With **conflict**, school counselors can bring students together and help them resolve the conflict.

With **bullying**, school counselors conduct a HIB investigation with all parties involved, including witnesses.

Mindfulness

S

Mindfulness is the moment-to-moment awareness of oneself without judgement.

Mindfulness practices help increase coping skills in children and have been shown to reduce stress and anxiety, improve attention and focus, increases social and emotional intelligence. We often use these techniques when working with our students.

Some mindfulness activities for children include:

Guided Meditations

Square/Belly Breathing

5 Senses Game

Progressive Muscle Relaxation

Yoga

Glitter Jars

Heartbeat Exercise

Coloring

Creating a Mantra

mantras
to start + end your day with

I am kind.

I can make a change.

I am a good friend.

I am unique.

I am willing to learn.

I am brave.

I am worthy.

I am a good listener.

Today I am going to do my best.
