Ethnic Diversity

Saratoga High School is home to 1,117 students, 293 of whom are in our Class of 2025. 15 ethnic groups are represented by our student body. In addition, 36 languages are spoken among the families in our school community.

Demographics

2024-2025 Enrollment	1,117
Class of 2025 Students	293
23-24 Average Class Size	28.1
2024 Graduation Rate	99.6%

Grading Policy

SHS reports both the student's total weighted and unweighted grade point averages. While AP and Honors courses with a C- or better from SHS are assigned an extra grade point, + and - are not weighted in the student's GPA. Honors/AP courses taken outside of SHS, including community college courses are not given an extra grade point. All other SHS courses are on a 4.0 scale.

We do not rank our students.

Our Curriculum

Saratoga High School's curriculum is an academically challenging, college preparatory program.

- Classes meet for 85-minute periods on alternating block days.
- Students may take up to seven classes per semester.
- Saratoga High School is an open access school, allowing students to take any grade-level appropriate course as they choose.
- Starting their Junior year, students are permitted to take two Science courses.
- Students are required to complete minimum of 220 semester units.

Academic Rigor

Eight or more AP or Honors courses throughout a student's four years of high school is considered to be the most rigorous course load.

Special School Programs

College Advantage at West Valley College

College Advantage is a unique program that invites high performing seniors who have at least a 3.5 unweighted GPA. Students enroll in college courses only, but receive an SHS diploma upon completion of graduation requirements.

Middle College at West Valley College

Middle College at West Valley College is a rigorous program for students who have the social and academic skills to successfully function independently in college level classes. Students take history and English classes with other high school students, but take additional college classes of their choosing. The program is housed entirely on the West Valley College campus, so students are not actively enrolled at SHS. Students receive a diploma from Saratoga High School and are allowed to participate in school activities.

Media Arts Program (MAP)

MAP invites students to celebrate their learning in an academy setting with a focus on rigorous academic standards in English and Social Studies. While developing skills in media-related performance and production technologies, students gain experience with cutting edge programs for video, animation, graphic design, and other media. Instruction emphasizes collaboration, communication, and creativity as students work with their peers, teachers, and industry professionals. Successful completion of MAP coursework satisfies graduation requirements in English 9-12, Social Studies requirements for 10-11th grades, and 12th grade Government. Students will also satisfy Applied Arts and Visual and Performing Arts credits.

Project Lead the Way (PLTW)/STEM

Each year-long course covers a unique set of topics in a variety of engineering fields. The curriculum of each course has been designed to be independent of other engineering courses. This allows students to take any or all of the three introductory courses without having taken the prior course(s). The capstone course, Engineering Design and Development, is an open-ended design course and requires students to have taken two prior engineering courses or have permission of the teacher. All of the four courses use project-based learning and focus on the 4 C's: critical-thinking, creativity, collaboration, and communication.

Silicon Valley Career Technical Education (SVCTE)

SVCTE educates eligible high school students for success in careers and college in a professional, hands-on environment. Courses are offered within 11 industry sectors where junior and senior high school students can explore and develop technical skills that will lead them to higher education or into the workplace.
