College and Career Readiness

WHAT IS IT?

- **College & Career Readiness** is a collection of comprehensive resources, workshops, and expert-led classes focused on college entrance exams like the SAT and ACT and college applications, as well as career readiness to prepare you for certain activities like writing resumes, interviewing, landing an internship or job, achieving a professional certification, and establishing critical skills.

HOW DOES IT HELP?

- **Best Test Scores:** Varsity Tutors' resources can help you study for your college entrance exam by teaching you about the questioning methodology and providing you with plenty of opportunities to practice problems prior to taking your exam. These resources have been proven to increase exam scores for students, even helping some achieve perfect scores.
- **Best Chance Admissions:** You can learn from admissions professionals about the methods used to review application essays and admission interviews.
- **Best Chance Interviews:** To prepare for your future career, you can learn about the methods recruiters use to interview and select candidates for internships or salaried positions to ensure your application stands out.
- **Professional Certifications:** Varsity Tutors offers resources to prepare you for professional certifications like the Bar Exam, CPA, Real Estate License, Nursing, and more.
- **Life Skills:** You can learn crucial skills for success in adulthood like managing personal finances, cooking, time management, mindfulness, Microsoft tools, new languages, and more.

HOW DO I GET TO IT

1. Sign into Varsity Tutors
2. In the navigation bar, click on **Subjects**
3. Click on the **Test Prep, College Admissions, or Professional Certifications** subject that you'd like to learn
4. On the Subject details page, start by clicking on **(+Add to my learning)**
 - a. Find all Live Classes, Video Lessons, Assessment tests, and Practice Problems related to this subject on this page
5. You can also find great college & career resources by clicking on **Classes & Self-Guided** in the navigation bar, then **On-Demand Lessons**

HOW DOES IT WORK?

- We recommend starting with an assessment test to understand where your strengths and areas of improvement are, then finding classes and resources that will help you build the skills you need to boost your proficiency level.
