Student Expectations:

- **Daily Login and Participation:** Each student is required to log into their courses daily and actively participate in live streaming sessions via Google Meet. This regular participation is crucial for staying engaged with the class and keeping up with the coursework.
- **Independent Platform Use:** Students must use their school-issued email addresses to access Canvas, where they can independently navigate to their courses, Google Meet, email, and drive. This access is essential for managing their educational resources and maintaining effective communication.
- **Engagement in Learning Activities:** Students are expected to fully participate in both synchronous sessions on Google Meet and complete the asynchronous activities provided in their Canvas classrooms. This blended approach is designed to enhance learning opportunities and cater to different learning styles and paces.
- **STEAM Students:** Students enrolled at RVHS attending the STEAM Academy will participate in online and asynchronous learning during periods 1-4, according to their regular academic schedule. They will attend their specialized STEAM courses online via the Canvas platform and live links during periods 7-9.
