### EXTRA MILE AWARD

Heather White was named the Extra Mile Award winner for December. Heather works as a special education para. Heather comes to work every day with a positive attitude, always showing patience with her special education students as well as the other students in the classroom. Heather treats all her students the same and doesn't think of them as a special education student or a non-special education student. She works in both Pre-K inclusion classrooms at Stark and is always doing more than what is in her "job description". She helps the teacher and other paras in the classroom with anything that needs to be done with no complaints. She is a wonderful addition to our Pre-K team!
