## EXTRA MILE AWARD

If you look up team player in the dictionary, you should see a picture of Ms. Spann. She serves all of our students K-5 in Math EIP. She has mentored many of our students and served as a familiar face and embrace for one of her students the first week of school. She analyzes data and looks at different ways to teach math to reach all students. In addition to putting students first, she takes on the stance of servant leadership in consistently asking how she can support teachers as well. She has been a mentor to many of our new teachers over the years and looks forward to it each year. Not only does she support new teachers, but she also takes on the team leader role streamlining communication to the specials team, as well as sharing ideas in leadership meetings. She has been the chair of the awards committee in years past and assisted with many other school-wide events. She is always the first to volunteer in helping with extended learning opportunities including Summer School, After School, and Saturday School. She was recently nominated and accepted into the Aspiring Leaders program for BCSS. She is a valued member of the JES family and a true Difference Maker!

## CONSENT AGENDA

The Board approved:

- 2021-2022 CTAE Budget
- Safety Grant Application
- Surplus Property and Textbooks
- Out of District Travel (a) Request from JHS NJROTC to attend the Leadership Trainings at Fort Stewart/Hunter Army Airfield/King's Bay Submarine Base, September 24-26, 2021

## SCHOOL SYSTEM

### CTAE CONSTRUCTION

The CTAE Department at Jackson High School is making a difference for students in our community by attaining or maintaining industry-certified programs. Construction teacher, Ben Lowe, has successfully undergone the year-long review to achieve industry certification for the construction program at JHS. The Construction program joins the Healthcare Science program as industry-certified pathways. Students who complete industry-certified pathways are better prepared to meet Georgia's workforce demands in the 21st Century. CTAE Director, Dr. Sohmer McKibben, has a goal to have all CTAE programs certified by 2024. Special thanks to Mr. Luke Fletcher for presenting this award.
