

## Request for quotes

### ***Surveillance camera purchase and installation***

#### ***Craven County School System***

**\*\*No equipment substitutions are allowed for consideration\*\***

The Craven County School System is requesting quotes for the following surveillance camera work:

*Havelock High School*

*101 Webb Boulevard*

*Havelock, NC 28532*

- SCOPE OF WORK
  - Havelock High School
    - Salient VMS install with clean, point, focus and label all cameras properly. 51 existing cameras total, combination of IP and analogue. Would require decoders to convert analogue cameras to IP (site visit and evaluation needed).
    - Install a new Salient VMS server with RAID 5 storage. Server is built for 4MP resolution, 30 days retention, 15fps dual stream recording. with 25% growth factored in.
    - Once the new server is online, confirm camera locations to verify functionality, map out, clean, point, focus, and label cameras as needed for optimal viewing and to put the cameras in proper viewing order on the new server.
    - Will require a site visit.

*New Bern High School*

*4200 Academic Drive*

*New Bern, NC 28562*

- SCOPE OF WORK
  - New Bern High School
    - Salient VMS install with clean, point, focus and label all cameras properly. 67 existing cameras total, combination of IP and analogue. Would require decoders to convert analogue cameras to IP (site visit and evaluation needed).
    - Install a new Salient VMS server with RAID 5 storage. Server is built for 4MP resolution, 30 days retention, 15fps dual stream recording. with 25% growth factored in.
    - Once the new server is online, confirm camera locations to verify functionality, map out, clean, point, focus, and label cameras as needed for optimal viewing and to put the cameras in proper viewing order on the new server.
    - Will require a site visit.

*West Craven High School*

*2600 Streets Ferry Road*

*Vanceboro, NC 28586*

- SCOPE OF WORK
  - West Craven High School
    - Salient VMS install with clean, point, focus and label all cameras properly. 50 existing cameras total, combination of IP and analogue. Would require decoders to convert analogue cameras to IP (site visit and evaluation needed).
    - Install a new Salient VMS server with RAID 5 storage. Server built for 4MP resolution, 30 days retention, 15fps dual stream recording. with 25% growth factored in.
    - Once the new server is online, confirm camera locations to verify functionality, map out, clean, point, focus, and label cameras as needed for optimal viewing and to put the cameras in proper viewing order on the new server.
    - Will require a site visit.

*West Craven Middle School*

*515 NW Craven Middle School Road*

*New Bern, NC 28562*

- SCOPE OF WORK
  - West Craven Middle
    - Salient VMS install with clean, point, focus and label all cameras properly. 35 existing cameras total, combination of IP and analogue. Would require decoders to convert analogue cameras to IP (site visit and evaluation needed).

- Install a new Salient VMS server with RAID 5 storage. Server built for 4MP resolution, 30 days retention, 15fps dual stream recording. with 25% growth factored in. Once the new server is online, confirm camera locations to verify functionality, map out, clean, point, focus, and label cameras as needed for optimal viewing and to put the cameras in proper viewing order on the new server.
- Will require a site visit.
