Q17 - What do you enjoy most about your child/ren attending school in Godley ISD?

Q9 - What do you enjoy most about your child/ren attending school in Godley ISD?

Godley 6th Grade Campus

What do you enjoy most about your child/ren attending school in Godley ISD?

To help the students grow up

awards and activity's

The small town atmosphere, everyone is a wildcat!

The staff at G6 is outstanding.

Small class room size

Awesome Staff, POSITIVE conservative views & a just setting an all around great VIBE, which is leading the way for much success in our kids futures

The friends they have made. And how close it is to my family

The attention given

Caring teachers/staff. Feel like children are safe.

He is getting a quality education in smaller class sizes and loves school.

Kids being involved in the community

While academics is not focused on very much which I don't like, I do like how a picture is always painted of fun, etc. Although it seems disingenuous, I do like the happy narrative that is painted, but it seems "fake"

The teachers are wonderful, its a friendly environment

Theh have friends

Staff

The teachers all do an amazing job at helping students achieve goals and advance to next level.

Godley Middle School

What do you enjoy most about your child/ren attending school in Godley ISD?

Small town feeling, teachers that are involved and communicate well on parentsquare, ease of parents seeing homework on Google classroom

The teachers and staff

What do you enjoy most about your child/ren attending school in Godley ISD?

It's the teachers and faculty that really make the difference

awards and activity's

Still a small town feel

Most of the people are very easy to work with.

The teachers

The amount of options they are given to pursue their interests.

Being a large school, yet still feeling "small town" vibes and the children developing fairly good relationships with staff.

They enjoy the after school athletics

New tennis addition to the middle school

Opportunity to participate in different things

Everything

My child loves this district.

The attention given

Some great teachers (Armstrong), decent academics, my child enjoys going & feels safe

We feel it is a great educational experience where they can learn in a safe environment.

Actually getting to use my tax dollars

Very friendly staff and welcoming attitudes

Texas History Teacher

I love the small school size. The ability of the teachers to focus more on students success.

Mrs. Penney, Coach Campbell and Mrs. Lindamood

Family and small town feel

Communication

The ability to reach out to teachers with any questions. Family friendly atmosphere.

He can make closer friends

What do you enjoy most about your child/ren attending school in Godley ISD?

I love that my kids are known by teachers on all campuses and are learning in an ever growing and changing environment

My son enjoys going to school which was not the case at his prior school

The teachers are wonderful, its a friendly environment

The opportunity for their future learning.

Accommodating to medical needs.

Opportunities

No complaints

Godley High School

What do you enjoy most about your child/ren attending school in Godley ISD?

Q la licenciada q le traducia es excelente la mejor

Select few teachers and administrative staff that go over & above to help kids.

Education and sense of family

There are some amazing teachers who have gone above and beyond to make a connection with my students.

The character of people.

Most of the people

I feel we have exchange students. They usually bring high grades to the school so why cant they graduate. With there class .i mean they have went beyond to get to come here. They at least get to walk the stage give them an appreciation paper. Or something. And let them be able to buy a gown and hat. It would make America look good. And your school .

Godley providing great education

Spirit

The teachers

The school hours

The amount of options they are given to pursue their interests.

Being a large school, yet still feeling "small town" vibes and the children developing fairly good relationships with staff.

He is thriving in band making so many friends and learning and pushing himself to be better.

New tennis addition to the middle school

What do you enjoy most about your child/ren attending school in Godley ISD?

Nothing the school and staff are terrible

Small town community

Opportunity to participate in different things

Community and small student population

The opportunities

I love the small town still.

Godley is a good environment for my child. I wish the focus of the district was more on academics

The classes are small and everyone knows everyone.

The attention given

That she is almost done

Actually getting to use my tax dollars

Their grades and how dedicated they are thank you teachers

Keep the children in tip top shape educationally

Access to trades

I use to love the structure & consistency they provided but they didn't provide that this year. I feel they can't keep up with the growth.

I enjoy knowing the staff that work at my son's school. I also enjoy knowing that my mom graduated from Godley in '66, I graduated from Godley in '89, my oldest son graduated from Godley in 2017, now my youngest this year. So Godley schools are top notch in my book.

Ability to grow and be their own person

I love that my kids are known by teachers on all campuses and are learning in an ever growing and changing environment

Some staff has worked well with my kid thru years of medical problems

Smaller school

The small town feel although we are getting bigger. The variety of CTE options.

I graduated from Godley as well as my siblings and my older child and my nieces and nephews and loved that my children could experience the same

The opportunity for their future learning.

Theater

Q18 - What are your hopes and dreams for Godley ISD?

Godley 6th Grade Campus

What are your hopes and dreams for Godley ISD?

To get the students ready to participate in the real world and not be afraid

that the bullying stops

To grow but stay "small town"

To continue to support small class room size

Awesome District!, Keep it up. Yall are continuing to grow in such a fantastic ways& thankful to be a part!

Update more than just the football field. The rest of the schools are falling apart. Pay your staff better you got a lot of workers that arnt paid livable wages. Where is the ag facilities. Set these kids up for their futures by adding as many high school "tech certs" as possible so that they are truly set up for success. Education is supposed to be more than just making sure that no one is left behind

More paid sports

For your staff to treat parents equally

To grow while keeping a small town district feel. To improve making necessary expansions/repairs to buildings and grounds creatively/frugally.

To continue to keep small class sizes and offer a wide range of classes

That we can go back to when children were held accountable for their actions and not just given a slap on the wrist. Enforce rules for everyone not just a select few and get a handle on the drugs that are at the school, that is parents aren't supposed to know about.

Honors classes to be more challenging than regular classes

That advanced academics, high level academics, and academics in general will be at the least, as highlighted as much as sports, CTE, and extracurricular stuff. If the word "school" was removed, I would think it was a summer camp, not an academic learning space.

Provide better transparency and communication

To better maintain existing schools before building new buildings

Godley Middle School

What are your hopes and dreams for Godley ISD?

That the ISD grows and is able to manage the amount of new homes/families coming in. That they rethink their athletic program so that it's not just a who knows who that make the teams, not just popular kids are good at sports.

Solid communication for growth plan

I hope that the resources available to the kids will continue to grow. GISD is a wonderful place for a child to learn.

What are your hopes and dreams for Godley ISD?

that the bullying stops

For the school nurses to inform the parents about people with their asthma flaring up In a forming the parents that if they're sick to call right away

Growth but keep the small town feel

A more personalized, interesting educational experience. The STAAR tests have had such a negative impact on educational experiences for students, but we realize that is out of the district's control.

Be an amazing school district

For it to continue to be a safe environment for our children to learn and grow. For our community and school to come together to support one another in the best interests of our children.

Finding staff who are a little more engaged, and find ways to teach students more hands on.

The have great teachers and not learning from a computer taught program

Bathrooms for tennis courts, more budget for other activities not all for football

Keep a small town feel, know my kid

For my kid to learn more and become a succesful student in school

Helping my children learn and get through school.

More paid sports

Continued growth and opportunities for tge students without sacrificing quality educations and safety

Quit trying to keep up sith the jones. School buildings are tools for a job. They dont have to be modern marvels of architecture

More resources for kids with learning challenges

Focus on education and good teachers.

That each campus/ teacher were more communicative. That they built up student success and provided them with skills to be successful in academics like organization, communication and study skills.

To have life changing teachers in the middle and high school levels that are able to connect with students and encourage them as they pursue things they are passionate about.

Cohesive communication, boys coaches not soley focused on football, JROTC

That they provided more options for CTE learning and teach basics not based on state testing

Better academics, transparency & financial responsibility

We are able to continue hands on learning that prepare our students to be self sufficient and productive citizens in the community.

What are your hopes and dreams for Godley ISD?

That we can go back to when children were held accountable for their actions and not just given a slap on the wrist. Enforce rules for everyone not just a select few and get a handle on the drugs that are at the school, that is parents aren't supposed to know about.

That we will continue to evolve and add programs that enrich the kids futures

Offer more broad programs at the HS level.

Growth in academic achievement.

For staff to care for all students and not just a select few

Great success

Godley High School

What are your hopes and dreams for Godley ISD?

Q sea mas comprensible para los alumno en especial para lo q no tienen el idioma aprendido

Increase teacher pay! and....My children are athletes and the program is good for some, but there is other successes in this district & will prob carry a child further in their future, but they just don't get the acknowledgment they deserve, or it doesn't seem to be as important as the athletic program. You have more leaders on your campus but didn't get recognize because it appeared on the outside they were not an athlete! You missed a lot of true leaders that were not present on that stage.

To provide credits so students can graduate with an Associate when finishing HS.

To design future schools/school spaces with more safety and security in mind. The design of newest facilities constructed create many safety/security concerns. From the open, unsupervised commute of students from high school to middle school during a school day, to the overwhelming amount of glass walls and windows used in a building that should make safety its number one concern. Aesthetics should never trump safety and I feel that has been done repeatedly.

They keep growing and teaching good character. We need more good people in the world.

Better coaches and mental health awareness/actions taken to benefit students.

We want to help the education. First and pay the teachers better then work on buses and a bus barn then sports. I know sports is a big thing but the education is the key to most success .

To get rid of State testing and quit trying to scare parents into thinking our kids won't graduate without them

Be an amazing school district

More school activities, clubs, more sports, student programs, sport events fundraisers

For it to continue to be a safe environment for our children to learn and grow. For our community and school to come together to support one another in the best interests of our children.

To begin working with each child, their goals, their learning abilities, trust, building these seniors to prepare for life after high school

Finding staff who are a little more engaged, and find ways to teach students more hands on.

That the school will have an auditorium where they can hold concerts, plays and dance contests. It could also bring in revenue.

What are your hopes and dreams for Godley ISD?

Bathrooms for tennis courts, more budget for other activities not all for football

To be one of the best districts in Dfw

All students would enjoy attending godley isd.They would feel valued and cared for.

None gald my student is done

Keep a small town feel, know my kid

To be a complete school! To be known for excellence in all areas!

For EVERY STUDENT to advance and have an oppotunity at something they aren't familiar with

Not being taught to a state test as the main curriculum

Better teachers that care about the students.

I hope that the district will become more focused on academics and teachers not playing on their phones in class or always being gone from the classrooms.

The discipline is out of control and we need better than bare-minimum teachers up there. Every day I get to hear about how my child did nothing in class. I know my isn't lying because I know the teachers. They are doing the least possible to get by or they are coaching and many are not certified for what they are even teaching. I want my kid to be challenged in the classroom and actually learn.

More paid sports

To offer other career driven classes and real world experiences versus so many sports

Godley needs to listen to children that are bullied

Quit trying to keep up sith the jones. School buildings are tools for a job. They dont have to be modern marvels of architecture

That they have great teachers and staff

Auditorium to support all the kids

That they would better prepare our future generations for their Future. THEY NEED MORE STAFF.

That they be more fiscally responsible abd transparent. Stop focusing so hard on sports and focus on making sure these students can read, do math, and type correctly.

That we keep exceeding everyones expectations such as with the WILD & other additions to our schools. These are things I wish we wouldvehad when I was in school.

That we can go back to when children were held accountable for their actions and not just given a slap on the wrist. Enforce rules for everyone not just a select few and get a handle on the drugs that are at the school, that is parents aren't supposed to know about.

Better communication with teachers

What are your hopes and dreams for Godley ISD?

That we will continue to evolve and add programs that enrich the kids futures

Focus on ALL kids, not just the rich or sports kids. And the kids will actually start to receive the certifications they earned. 2023 grads didn't

For my child to survive the rapid influx of city students.

I would love to see more engagement:interaction in classes. Many of the kids say their learning is done on the Chromebook and could be done from home. They love the classes that have more discussion and classroom involvement.

To focus building schools that focus more on education and safety of the children rather than building buildings that are more "fancy" and have areas that are not conducive to adequate learning environments. Less "fancy" = more classrooms that will accommodate the growth in our area.

Offer more broad programs at the HS level.

For the high school to finally be able to finish being built it's been years in the making. Also that we have an auditorium for the band in theater to hold performances

I would like to see Brent Lewis stay as the Head BB Coach and move him to the area he is certified in.

For staff to care for all students and not just a select few
