

FRESHMAN SEMINARS

The mission of the Ninth Grade Academy at Dutchtown High School is to provide high school freshmen a more personalized, engaging, and responsive learning environment with the intended purpose of ensuring a successful transition from middle to high school so that students may graduate on time and have a rewarding high school experience that will prepare them for post-secondary options. Dutchtown High School is dedicated to preparing our scholars for their future. One Friday per month, ninth grade scholars will have the opportunity to learn from leaders and entrepreneurs in the community about various career opportunities. The overarching theme for the 2023-2024 Freshman Seminars is "Leading and Serving for a Better Future."

OCTOBER 6TH SEMINAR

Graduation and Beyond!

The topic for our October 6th Freshman Seminar is "Public Safety, Healthcare, and the Law." During Instructional Focus, ninth graders will hear from guest speakers about what their careers entail and what education is needed for those fields. Speakers will speak for approximately 10-15 minutes with each group of students.

If you have experience in the public safety, healthcare, or law fields and would like to share your expertise with our students, please email Dr. Joanna Anglin at joanna.anglin@henry.k12.ga.us.
