Leadership Connection

What a "Paw"some beginning to our school year. Our halls have been filled with smiles, learning, and leaders. During the month of August our 4th and 5th graders are diving deep into habit 1-Be Proactive. Being proactive means students realize they are in charge of only themselves. They are in charge of how they handle themselves physically, academically and emotionally. The focus is also to stop and think before you make choices and decisions instead of reacting. Encourage your students to take initiative each and every day.

Reminders:

- Make sure you have returned all back to school forms
- Make sure you have connected to Dojo
- Help your student remember to bring their chomebook fully charged each day.
- Students are tardy after 7:30 and must be accompanied by an adult to sign-in at the attendance office.

4th grade News

TM

MATH SKILLS

- place value
- addition
- subtraction
- multiplication facts

ELA Skills

- narrative writing
- compare and contrast
- authors perspective
- short vowels
- long vowels
- plot/conflict
