Month of: September

Physical Education

Hello! I am Mrs. Bence. I am teaching Physical Education this year. I am looking forward to seeing your child develop their motor skills, apply strategies and tactics to their movement, understand the importance of health and fitness, exhibit responsible personal and social behavior, and recognize the value of physical activity for health, enjoyment, challenge, self-expression, and social interaction! You can contact me at zimmeke@cpsboe.k12.oh.us

Library

Happy September!! My name is Ms. Sophi and this is my first year at AMIS, and I am the Library Teacher. I am looking forward to showing your learner the value and fun of reading! We will be learning the ways to handle, take care of, and organize our books. We will also practice talking about how reading can come to life, or be about real life... or sometimes a fantastic world that is completely made up! They will get the chance to select books that sound appealing to them, push themselves, and become literature lovers.

Music

Music Drumming curriculum, as well as working on our "Hispanic Heritage Rhythm Project".

Grades K-1 are beginning lesson #4 in our Essential Elements music text, and continuing to learn about beat, rhythm, quarter notes, paired 8th notes, and quarter rests.

Grades 2-3 are working on new songs for music class, as well as understanding how singing can help with their reading skills.

They are also continuing in EE music and learning about creating their own rhythms using quarter notes, 8th notes, quarter rests and 16th notes.

Grade 4 is working hard and learning a lot about music as they use their recorders in class. They already know three notes (B, A, and G) and a few songs. It's a very new and exciting experience for them

Technology

Greetings, I am Mr. Valentine, your child's Technology/STEM Teacher. This course focuses on learning about Technology (the "Human Made World"). We learn about how STEM (Science, Technology, Engineering, and Mathematics) is used to invent, create, make, and design all the things we use daily in our lives. I encourage a TRY IT attitude, creative thinking, and a willingness to take calculated risks to stretch ourselves. I look forward to watching your child grow as a learner. Feel free to contact me at valenda@cpsboe.k12.oh.us
