A 504 is a formal plan that documents accommodations, aids, and related services for a student with a disability. The plan allows students with disabilities equal access to learn beside peers in the general education classroom. A 504 does not provide specially designed instruction to meet a child's unique learning needs. If you are unsure of whether to refer your child for a 504 or an IEP, please reach out to your child's school to learn more information.

Return this form to your child's school counselor.
