

Center-Based Programming

Rosemount-Apple Valley-Eagan Public Schools

DISTRICT196

One District. Infinite Possibilities.

Educating our students to reach their full potential

Special Education is specialized instruction specific to the student at no cost to parents. The instruction is designed to meet the unique needs of a child with a disability.

Center-based classrooms in our inclusive learning community foster high levels of learning in order to support our work of helping students in reaching their full potential. We build communication, functional, social, emotional, and behavioral skills in addition to the core academics, differentiated for individual students.

Center-based programming in District 196

THRIVE

Serves students with unique health needs who have significant educational needs in the areas of communication and functional skills, and require a highly supported, small group instructional environment.

CONNECT

Serves students who have significant educational needs in social communication and self regulation, and require a highly supported, small group instructional environment.

SKILLS

Serves students who have educational needs in functional and academic skills. Students may receive instruction in the classroom, community environments and/or job training sites, as specified in the individual education plan.

ACHIEVE

Serves students who have educational needs in emotional, behavioral and self-regulation skills in a supported environment.

STRATEGIES

Serves students who have educational needs in social communication and self regulation skills in a supported environment.

**Providing comprehensive special education services
in a nurturing learning environment in support of the
District 196 mission of educating students to reach
their full potential.**

ABOUT OUR PROGRAM

- We are committed to providing equitable opportunities through high quality practices to accelerate growth for all Special Education students.
- We provide a full continuum of services for students with disabilities.
- We serve approximately 4,500 students who range in age from birth through 22.
- Most students receive services in their neighborhood school and, when possible, in their general education classroom setting.
- We believe Special Education is an instructional service, not a place.
