School Year Calendar and Day:

The Board of Education, upon the Superintendent's recommendation and subject to State regulations, annually establishes the dates for opening and closing classes, teacher institutes and in-services, the length and dates of vacations, and the days designated as legal school holidays. The school calendar shall have a minimum of 185 days to ensure 176 days of actual student attendance. BOE Policy 6:20

Attendance:

The Compulsory School Attendance policy applies to individuals who have custody or control of a child: (a) between the ages of six (on or before September 1st) and 17 years (unless the child has graduated from high school), or (b) who is enrolled in any of grades, kindergarten through 8, in the public school regardless of age. Subject to specific requirements in State Law, the following students are not required to attend public school: (1) any child attending a private school or parochial school, (2) any child who is physically or mentally unable to attend school, (3) any child lawfully and necessarily employed, (4) any child over 12 and under 14 years of age while in confirmation classes, and (5) any child absent because of religious reasons, including to observe a religious holiday, for religious instruction, or because his or her religion forbids secular activity on a particular day(s) or time of day. The parent/guardian of a student who is enrolled must authorize all absences from school and notify the school in advance or at the time of the student's absence. Because the Board of Education discourages vacation trips during the normal school year, absences of this nature will be considered unexcused absences, and no make-up work will be permitted, nor will lesson plans be provided. There are no penalties and/or zeros issued for work missed during a vacation. Tardiness is highly discouraged, as it interferes with the educational program. In the event a student is tardy, they must report to the office and secure a tardy slip. Excessive tardiness may be considered to be unexcused absences. Students may be required to make up the time before or after school. BOE Policy 7:70

Fees:

The Superintendent will recommend to the Board of Education a schedule of fees, if any, to be charged students for the use of textbooks, consumable materials, extracurricular activities, and other school student fees. Students must also pay for the loss of or damage to school books or other school owned materials.

Fees for textbooks, other instructional materials, as well as fines for loss or damage of school property are waived for students who meet the eligibility criteria for a waiver as described in the district policy. The Superintendent shall ensure that a notice of waiver applicability is provided to parents/guardians with every bill for fees and/or fines, and that applications for waivers are widely available and distributed according to State law and Ill. State Board of Education (ISBE) rule and that provisions for assisting parents/guardians in completing the application are available. The Superintendent or designee shall establish a process for determining a student's eligibility for a waiver of fees in accordance with State law requirements. BOE Policy 4:140

Transportation:

The District shall provide free transportation for any student in the District who resides: (1) at a distance of one and one-half miles or more from his or her assigned school, unless the Board of Education has certified to the Illinois State Board of Education that adequate public transportation is available, (2) if adequate public transportation is not available, within one and one-half miles from his or her assigned school where walking to or from school or to or from a pick-up point or bus stop would constitute a *serious safety hazard* due to either (a) vehicular traffic or rail crossing or (b) a *course or pattern of criminal activity*, as defined in the Ill. Streetgang Terrorism Omnibus Prevention Act, [740 ILCS 147/](#). The District may provide and charge a fee for transportation for other students residing within one and one-half miles from their assigned school. A student's parent(s)/guardian(s) may file a petition with the Board requesting transportation due to the existence of a serious safety hazard. Free transportation service and vehicle adaptation is provided for a special education student if included in the student's individualized educational program. The District may provide transportation to and from school-sponsored activities. Non-public school students shall be transported in accordance with State law. Homeless students shall be transported in accordance with [Section 45/1-15](#) of the Education for Homeless Children Act. Foster care students shall be transported in accordance with [Section 6312\(c\)\(5\)\(B\)](#) of the Elementary and Secondary Education Act.

Bus schedules and routes shall be determined by the bus company and Business Manager and shall be altered only with the Business Manager's approval and direction. In setting the routes, the pick-up and discharge points will be as safe for students as possible. No school employee may transport students in school or private vehicles unless authorized by the administration. Every vehicle regularly used for the transportation of students must pass safety inspections in accordance with State law and Illinois Department of Transportation regulations. The Business Manager may increase student ridership and routes less than 1.5 miles as necessary to achieve tiering efficiency with other district partners, as well as loading and route balancing. BOE Policy 4:110

For safety and security reasons, a prior written or oral consent of a student's custodial parent/guardian is required before a student is released during school hours: (1) at any time before the regular dismissal time or at any time before school is otherwise officially closed, and/or (2) to any person other than a custodial parent/guardian.

Food Services:

Good nutrition shall be promoted in the District's meal programs and in other food and beverages that are sold to students during the school day. The Superintendent shall manage a food service program that complies with this policy and is in alignment with Board of Education policy [6:50](#), *School Wellness*.

Food or beverage items sold to students as part of a reimbursable meal under federal law must follow the nutrition standards specified in the U.S. Dept. of Agriculture rules that implement the National School Lunch and Child Nutrition Acts. Schools being reimbursed for meals under these laws are *participating schools*. BOE Policy 4:120

Student Health, Accidents, and Illness:

A student's parent/guardian(s) shall present proof that the student received a health examination, with proof of the immunizations against, and screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health (IDPH), within one year prior to:

1. Entering kindergarten or the first grade
2. Entering the sixth grade; and
3. Enrolling in an Illinois school, regardless of the student's grade

State law provides regulations regarding what immunizations and/or screenings are required, the District/School Nurse will provide parents with this information. BOE Policy 7:100

Exclusion from School:

Unless an exemption or extension applies, the failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. New students who register after October 15 of the current school year shall have 30 days following registration to comply with the health examination and immunization regulations. Details regarding exclusion from school due to failure to comply with the regulations will be provided by the District Certified School Nurse. BOE Policy 7:100

Eye Examination:

Parents/guardians are encouraged to have their children undergo an eye examination whenever health examinations are required. Parents/guardians of students entering kindergarten or an Illinois school for the first time shall present proof before October 15 of the current school year that the student received an eye examination within one year prior to entry of kindergarten or the school. A physician licensed to practice medicine in all of its branches or a licensed optometrist must perform the required eye examination. BOE Policy 7:100

Dental Examination:

All children in kindergarten and the second and sixth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the Illinois Department of Public Health. If a child in the second or sixth grade fails to present proof by May 15, the school may hold the child's report card until the child presents proof: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15. The Superintendent or designee shall ensure that parents/guardians are notified of this dental examination requirement at least 60 days before May 15 of each school year. BOE Policy 7:100

Exemptions:

In accordance with rules adopted by the Illinois Department of Public Health, a student will be exempted from this policy's requirements for:

1. Religious grounds, if the student's parents/guardians present the IDPH's Certificate of Religious Exemption form to the Superintendent or designee.

2. Health examination or immunization requirements on medical grounds, if the examining physician, advance practice registered nurse, or physician assistant provides written verification.
 3. Eye examination requirement, if the student's parents/guardians show an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist.
 4. Dental examination requirement, if the student's parents/guardians show an undue burden or a lack of access to a dentist.
- BOE Policy 7:100

Medication at School:

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication. No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed "School Medication Authorization Form" is submitted by the student's parent/guardian. BOE Policy 7:270

Self-Administration of Medication:

A student may possess and self-administer an epinephrine auto-injector (EpiPen®) and/or medication prescribed for asthma for use at the student's discretion, provided the student's parent/guardian has completed and signed a "School Medication Authorization Form." The District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine auto-injector, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine auto-injector, asthma medication, and/or a medication required under a qualifying plan. BOE Policy 7:270

Student Illness/Accidents:

The Board recognizes that parents/guardians might request District employees to withhold emergency care for students in the event of a life-threatening circumstance. However, it is the policy of this District that when any student enrolled in the District experiences sudden illness or injury District staff should provide emergency health care to preserve life and prevent disability. "Do Not Resuscitate" ("DNR") orders or other orders to forgo life-sustaining treatment will not be honored by school personnel absent an order of a court or appropriate governmental agency. District staff will provide any such orders to emergency medical personnel when they assume responsibility for Queen Bee School District students.

Parents/guardians who submit such orders are to be advised of the following procedures:

- When Queen Bee staff receives notification from a parent/legal guardian that such an order is being made, the Building Principal will notify the parent/guardian that the District will not honor such a request and a copy of this policy will be provided.
- The order will immediately be placed in the student's medical file.
- District personnel who have been trained in emergency rescue procedures (e.g., CPR, AED) are expected to administer first aid including lifesaving resuscitation procedures to a student in the event of an accident, choking, respiratory and/or life-threatening emergency.
- Community emergency rescue personnel (911) will be called immediately and school personnel will continue resuscitation procedures until relieved by emergency rescue personnel.
- The student's parents/legal guardian will be contacted immediately or as soon as possible after injury giving rise to the need for emergency medical assistance. If the parents/guardians cannot be reached, the emergency number listed in the child's student information file will be called.
- When emergency rescue personnel arrive at the school site, school personnel will transfer responsibility for the student to the emergency personnel and simultaneously provide the emergency team with a copy of the order.

- Once the student begins transport from the school to an emergency room or medical facility, the order becomes the responsibility of the parent/guardian and physicians.
- The order may be addressed in a student's Individualized Education Program or Section 504 Plan. BOE Policy 7:275

PLEASE BE CERTAIN THAT THE SCHOOL HAS A CURRENT EMERGENCY NUMBER THAT CAN BE CALLED AND THAT ANY CHANGES ARE REPORTED TO THE SCHOOL OFFICE IMMEDIATELY. We require two (2) emergency numbers for each child's file.

Allergy Policy:

School attendance may increase a student's risk of exposure to allergens that could trigger anaphylaxis. It is not possible for the District to completely eliminate the risk of an anaphylactic emergency when a student is at school, and Anaphylaxis Prevention, Response and Management Program using the cooperative effort among students' families, staff members, students, and health care providers, emergency medical services, and the community helps The District reduce these risks and provide accommodations and proper treatment for anaphylactic reactions. BOE Policy 7:285

Wellness Policy:

Student wellness, including good nutrition and physical activity, shall be promoted in the District's educational program, school-based activities, and meal programs. This policy shall be interpreted consistently with Section 204 of the Child Nutrition and WIC Reauthorization Act of 2004 and the Healthy Hunger-Free Kids Act of 2010 (HHFKA). BOE Policy 6:50

Visitor Policy:

All visitors to school property are required to report to the Building Principal's office or other school personnel onsite and receive permission to remain on school property. All visitors must sign a visitors' log, show identification, and wear a visitor's badge. When leaving the school, visitors must return their badge. On those occasions when large groups of parents/guardians, friends, and/or community members are invited onto school property or when community members are attending Board meetings, visitors are not required to sign in but must follow school officials' instructions. Persons on school property without permission will be directed to leave and may be subject to criminal prosecution.

Any person wishing to confer with a staff member should contact that staff member to make an appointment. Conferences with teachers are held, to the extent possible, outside school hours or during the teacher's conference/preparation period. Access shall be facilitated according to guidelines from the Superintendent or designee. BOE Policy 8:30

Convicted Child Sex Offender:

State law prohibits a child sex offender from being present on school property or loitering within 500 feet of school property when persons under the age of 18 are present, unless the offender meets either of the exceptions as outlined by the Illinois State Code. The offender is a parent/guardian of a student attending the school and has notified the Building Principal of his or her presence at the school for the purpose of: (i) attending a conference with school personnel to discuss the progress of his or her child academically or socially, (ii) participating in child review conferences in which evaluation and placement decisions may be made with respect to his or her child regarding special education services, or (iii) attending conferences to discuss other student issues concerning his or her child such as retention and promotion; or the offender received permission to be present from the Board, Superintendent, or Superintendent's designee. If permission is granted, the Superintendent or Board President shall provide the details of the offender's upcoming visit to the Building Principal. In all cases, the Superintendent, or designee who is a certified employee, shall supervise a child sex offender whenever the offender is in a child's vicinity. BOE Policy 8:30

Enforcement of Visitor Policy:

Any staff member may request identification from any person on school property; refusal to provide such information is a criminal act. The Building Principal or designee shall seek the immediate removal of any person who refuses to provide requested identification. Any person who engages in conduct prohibited by this policy may be ejected from school property. The person is also subject to being denied admission to school events or meetings for up to one calendar year. BOE Policy 8:30

Student Conduct:

All students are entitled to enjoy the rights protected by the U.S. and Illinois Constitutions and laws for persons of their age and maturity in a school setting. Students should exercise these rights reasonably and avoid violating the rights of others. Students who violate the rights of others or violate District policies or rules will be subject to disciplinary measures.

Students may, during the school day, during noninstructional time, voluntarily engage in individually or collectively initiated, non-disruptive prayer or religious-based meetings that, consistent with the Free Exercise and Establishment Clauses of the U.S. and Illinois Constitutions, are not sponsored, promoted, or endorsed in any manner by the school or any school employee. *Noninstructional* time means time set aside by a school before actual classroom instruction begins or after actual classroom instruction ends. BOE Policy 7:130

Each of the grade level centers has a Code of Conduct that regulates the implementation of disciplinary action. Parents and students are required to read this document and provide the school with a signed document declaring their understanding of the program, including consequences for engaging in behaviors inconsistent with the school expectations. The Code of Conduct outlines all procedures relative to suspension, expulsion, and the appealing of decisions. The Code of Conduct is regulated by state and federal policy, which is outlined on the District website.

Prevention of and Response to Bullying, Intimidation, and Harassment:

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment
4. Through the transmission of information from a computer that is accessed at a non-school related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying, through this means has, occurred and it does not require a district or school to staff or monitor any non-school-related activity, function, or program

Bullying, including cyber-bullying, is defined in Section 27-23.7 of the School Code (105 ILCS 5/27-23.7). The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District's goal of providing all students with a safe learning environment free of bullying and harassment and including restorative measure as an alternative to exclusionary discipline. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District named officials or any staff member. Building Principals serve as the Complaint Manager. Anonymous reports are also accepted. BOE Policy 7:180

Required Notifications

Residence:

Only students who are residents of the District may attend a District school without tuition charge, except as otherwise provided below or in State law. A student's residence is the same as the person who has legal custody of the student. A person asserting legal custody over a student, who is not the child's natural or adoptive parent, shall complete a signed statement, stating: (a) that he or she has assumed and exercises legal responsibility for the child, (b) the reason the child lives with him or her, other than to receive an education in the District, and (c) that he or she exercises full control over the child regarding daily educational and medical decisions in case of emergency.

If the Superintendent or designee determines that a student attending school on a tuition-free basis is a non-resident of the District for whom tuition is required to be charged, he or she on behalf of the Board of Education shall notify the person who enrolled the student of the tuition amount that is due. The notice shall detail the specific reasons why the Board believes that the student is a non-resident of the District and shall be given by certified mail, return receipt requested. The person who enrolled the student may challenge this determination and request a hearing as provided by the School Code, 105 ILCS 5/10-20.12b.

A student whose family moves out of the District during the school year will be permitted to attend school for the remainder of the year without payment of tuition. When a student's change of residence is due to the military service obligation of the student's legal custodian, the student's residence is deemed to be unchanged for the duration of the custodian's military service obligation if the student's custodian made a written request. The District, however, is not responsible for the student's transportation to or from school.

If, at the time of enrollment, a dependent child of military personnel is housed in temporary housing located outside of the District, but will be living within the District within six months after the time of initial enrollment, the child is allowed to enroll, subject to the requirements of State law, and must not be charged tuition. BOE Policy 7:60

Homeless Children:

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce records normally required to establish residency. The term "homeless children and youth" is defined by the McKinney-Vento Act and specifies that it is individuals who lack a fixed, regular, and adequate nighttime residence. Board of Education policy 6:140, Education of Homeless Children, and its implementing administrative procedure, govern the enrollment of homeless children. BOE Policy 7:60

Education Rights of Students Who Are Homeless:

The school district is required to designate a person to serve as "Homeless Liaison." The liaison can help with problems related to enrollment, request transportation on behalf of the children, help obtain immunizations or immunization records and birth certificates, and help mediate disputes with the school district. They are also there to help youth without parents or guardians. If you think your family may qualify for homeless services, or your family is having financial difficulties, please contact your school principal or your school social worker. Your information will always be treated confidentially.

A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction by a school employee, regardless of how or where the information is stored, except as provided in State or federal law. The District may release directory information as permitted by law, but a parent/guardian shall have the right to opt-out of the release of directory information regarding his or her child. BOE Policy 7:340

Non-Discrimination:

Equal educational and extracurricular opportunities shall be available for all students without regard to color, race, nationality, religion, sex, sexual orientation, ancestry, age, physical or mental disability, gender identity, status of being homeless, immigration status, order of protection status, actual or potential marital or parental status, including pregnancy. BOE Policy 7:20

Title IX Sexual Harassment Grievance Procedure:

Sexual harassment affects a student's ability to learn and an employee's ability to work. Providing an educational and workplace environment free from sexual harassment is an important District goal. The District does not discriminate on the basis of sex in any of its education programs or activities, and it complies with Title IX of the Education Amendments of 1972 (Title IX) and its implementing regulations ([34 C.F.R. Part 106](#)) concerning everyone in the District's education programs and activities, including applicants for employment, students, parents/guardians, employees, and third parties. BOE Policy 2:265

Title IX Sexual Harassment Prohibited

Sexual harassment as defined in Title IX (Title IX Sexual Harassment) is prohibited. Any person, including a District employee or agent, or student, engages in Title IX Sexual Harassment whenever that person engages in conduct on the basis of an individual's sex that satisfies one or more of the following:

1. A District employee conditions the provision of an aid, benefit, or service on an individual's participation in unwelcome sexual conduct; or
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the District's educational program or activity; or
3. *Sexual assault* as defined in [20 U.S.C. §1092\(f\)\(6\)\(A\)\(v\)](#), *dating violence* as defined in [34 U.S.C. §12291\(a\)\(11\)](#), *domestic violence* as defined in [34 U.S.C. §12291\(a\)\(12\)](#), or *stalking* as defined in [34 U.S.C. §12291\(a\)\(36\)](#).
