BOARD AND SUPERINTENDENT RELATIONS**2.31**

The operation of a public school system is a complex undertaking. Important to success is the quality of relationship that exists between the Board and the Superintendent and his/her staff. Often complicated questions which cannot be anticipated will arise; faith, understanding, and patience are essential to teamwork. Advance knowledge that certain codes of conduct and principles will be observed by the Superintendent and board members promotes confidence, trust, and provides for understanding and cooperation.

The Tuscaloosa County Board of Education considers the formulation and adoption of policies as its most important function. The execution and implementation of adopted policies shall be the function of the Superintendent.

Delegation by the Board of its executive powers to the Superintendent provides freedom for the Superintendent to manage the schools within the Board's policies and frees the Board to devote its time to policy-making and judicial and evaluative functions.

The Board shall hold the Superintendent responsible for carrying out its policies within established guidelines and for keeping the Board informed about school operations. In an effort to keep the Board informed the Superintendent shall promptly notify Board members of any happenings of an emergency nature that occur in the schools.

OPENING AND CLOSING OF SCHOOLS**3.24**

The time set for the official opening and closing of the schools of the Tuscaloosa County School System are fifteen (15) minutes prior to the time students are to report to homeroom/first class and fifteen (15) minutes after the last class period each day. Between these times and throughout the school day, school personnel will be on duty and available to supervise care for students. By presentation of this policy, the Board hereby notifies parent/guardians that school personnel are not available to assume responsibility for students who arrive on a school campus before and remain after the times noted above, except that school personnel shall be on duty to assume responsibility for students transported via School System-owned buses.

CARE OF STUDENTS BEFORE AND AFTER SCHOOL

3.24.1

Parents' Responsibilities

Parents/guardians are expected to take responsibility for seeing that their child arrives before the beginning of school and is picked up after the end of school within the time frames noted above. If for any reason parents are not able to comply with the times noted, a conference should be scheduled with the principal to discuss the matter.

Students Not Picked Up Promptly After School

Due to the necessity of having to supervise students closely and the fact that teachers and other school personnel have many responsibilities after the regular school day, parents/guardians must assume the responsibility for picking up their child(ren) promptly after the school day ends. In situations where parents do not abide by the school dismissal schedule and fail to pick up their child(ren) within the specified time frame, the school principal and appropriate personnel shall develop and publish incremental procedures to elicit parent cooperation and compliance, up to and including the instigation of neglect charges against the parent/guardian and notification of law enforcement and/or the Department of Human Services.

Before and After-School Supervision Plan

Each school principal shall develop a plan for supervising students who arrive prior to the time set for the opening of school and for students who remain after the time set for the closing of school. Such plan should incorporate the following minimal requirements:

- A. The plan should be written.
- B. The plan should direct students arriving early to report immediately to a designated room/location/site, etc. The room/location/site should be properly supervised by an appropriate number of staff members.
- C. The plan should direct students remaining on the school premises after school closes for any extended length of time to report to a designated room/location/site, etc.
- D. The room/location/site should be supervised by an appropriate number of staff members.

Notification

School principals are hereby directed to give notice to the parents/guardians of all students in their respective school of the content and intent of this policy. The notification shall be given in written form (newsletters, student handbooks, newspaper articles, etc.) at the beginning of each school year. Further, the Board directs that the content and intent of this policy be made a part of the Tuscaloosa County School System's newspaper advertisement at the beginning of each school year.

Care of Students after School-Sponsored Events

The schools of the Tuscaloosa County School System offer a variety of after-school, extra-curricular activities, which contribute greatly to the total educational experiences of students. Students' involvement in such activities contributes to their physical, mental, social, and emotional growth and development. Events, such as plays, athletic contests, debates, scholars bowl, beauty contests, band presentations, choral groups, etc. are vital components of each school's curriculum. The Board supports and encourages such after-school learning opportunities for students of the School System. However, the Board is also cognizant that such activities necessitate additional work and time on the part of teachers, school administrators, and others to develop and conduct such meaningful extra-curricular

events. While the Board encourages parents/guardians to contribute to such school- sponsored events, the Board further encourages parents/guardians to do their part in assisting school personnel by assuming responsibility for their child(ren) promptly after participating in or attending such activities.

Limits of Care: School System's Responsibility

The Board expects that school administrators will assign sponsor and personnel to supervise and monitor before, during, and for up to thirty (30) minutes after all extra-curricular events sponsored by the schools of the School System in order to ensure the safety and well-being of students who must remain on school premises until picked up by their parents/guardians. Further, the Board expects that school administrators will announce to parents/guardians that they are expected to pick up their child(ren) promptly after such events in order to permit school personnel to return to their homes at reasonable hours.

Students Not Picked Up Promptly After School-Sponsored Events

In situations where parents/guardians repeatedly fail to pick up their child(ren) promptly following after-school, extra-curricular activities within the specified time frame, the school principal and appropriate personnel shall develop and publish incremental procedures to elicit parent cooperation and compliance, up to and including the instigation of neglect charges against the parent/guardian and notification of law enforcement and/or the Department of Human Services.

PROHIBITION OF HARASSMENT

3.43

- I. The Tuscaloosa County Board of Education prohibits harassment against any employee, applicant for employment, student, or student applicant based upon race, color, religion, gender, age, ethnicity, national origin, marital status, disability, political or religious beliefs, or social and family background. This policy also applies to non-employment volunteers who work subject to the control of school authorities.
- II. The Superintendent shall develop procedures which shall be used by persons alleging harassment.
- III. Sexual Harassment by Students-The Tuscaloosa County Board of Education desires to maintain an academic environment in which all students are treated with respect and dignity. A vital element of this atmosphere is the Board's commitment to equal opportunities and the eradication of discriminatory practices including sexual harassment. Sexual harassment is specifically prohibited by state and federal law and instances of harassment may result in both civil and criminal liability on the part of the individual harasser as well as the Tuscaloosa County Board of Education. Sexual harassment's destructive impact wastes human potential, demoralizes students, and perpetuates the tendency toward further unacceptable behavior. For these reasons, the Tuscaloosa County Board of Education forbids harassment against any student on the basis of gender. The Board will not tolerate harassment activity by any of its students.
 - A. Definition – Sexual harassment consists of unwelcome sexual advances, requests for sexual favors, and other inappropriate verbal or physical conduct of a sexual nature, wherever such harassment occurs on school property or at a school-sponsored event, that is aimed at coercing an unwilling person into a sexual relationship whether or not it involves physical contact, or that substantially interferes with a student's academic performance, or creates an intimidating, hostile, or offensive school environment. Examples of sexual harassment may include but are not limited to the following:
 1. Verbal harassment or abuse of a sexual nature;
 2. Subtle pressure for sexual activity;
 3. Repeated remarks to a person with sexual or demeaning implications, *e.g.*, a person's body, clothes or sexual activity;

 5. Suggesting or demanding sexual involvement accompanied by implied or explicit threats;
 6. Display of sexually suggestive objects, pictures, or written materials;
 7. Sexual harassment does not refer to occasional compliments or welcomed interactions of a socially acceptable nature.
 - B. Specific Prohibition - It is sexual harassment for a student to subject another student or a school employee to any unwelcome conduct of a sexual nature on school property or at a school-sponsored event. Students who engage in such conduct shall be subject to penalties as described herein.
 - C. Procedures - Any student who alleges sexual harassment by an employee or another student should report the harassment to the building Principal, assistant Principal(s), guidance counselor(s) or Superintendent's designee. Filing of a complaint or otherwise reporting sexual harassment will not affect the student's status, extracurricular activities, grade or any other assignments. The complaint should be in writing, state the act or acts, state the date(s), state the names of witnesses, and be signed by the complainant.
 1. The right to confidentiality, both of the complainant and of the accused, will be respected, consistent with the Board's legal obligations and with the necessity to

investigate allegations of misconduct and take corrective action when this conduct has occurred.

2. In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, nature of the conduct, and the context in which the alleged conduct occurred will be investigated. The Superintendent or designee has the responsibility of investigating and resolving complaints of sexual harassment.

- D. Penalties - A substantiated charge against a student shall subject that student to disciplinary action consistent with the Code of Student Conduct.

IV. Sexual Harassment by Employees – Definition – Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors and other inappropriate verbal, non-verbal or physical conduct of a sexual nature when:

- A. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or a student's education;
- B. Submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting such individual;
- C. Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or student's educational performance or creating an intimidating, hostile or offensive work or school environment.

- D. Examples of sexual harassment may include, but are not limited to, the following:

5. Suggesting or demanding sexual involvement accompanied by implied or explicit threats;
6. Display of sexually suggestive objects, pictures, or written materials.

- E. Sexual harassment does not refer to occasional compliments or welcomed interactions of a socially acceptable nature.

- F. Any suspected child abuse shall be reported in accordance with state law.

- G. Specific Prohibition – Sexual harassment in any form is prohibited. All claims of sexual harassment will be subject to prompt and thorough investigation.

1. It is sexual harassment for an administrator or supervisor to use his/her authority to solicit sexual favors or attention from subordinates, including, but not limited to, incidents when the subordinate's failure to submit will result in adverse treatment, or when the subordinate's acquiescence will result in preferential treatment. Administrators and supervisors who either engage in sexual harassment or tolerate such conduct by other employees shall be subject to penalties.
2. It is sexual harassment for a non-administrator and non-supervisory employee to subject another such employee to any unwelcome conduct of a sexual nature. Employees who engage in such conduct shall be subject to penalties.
3. It is sexual harassment for a Tuscaloosa County Board of Education employee to use his or her authority to solicit sexual favors or attention from students. Board employees who either engage in sexual harassment or tolerate such conduct by other employees shall be subject to penalties.

- H. Procedures –

1. It is the responsibility of any employee to promptly report any occurrence of

alleged sexual harassment. This policy on sexual harassment shall be communicated to all employees to inform them that a procedure exists for reporting claims of sexual harassment, that management will promptly investigate all alleged incidents of sexual harassment, and appropriate corrective action will be taken. Complaints should be reported to the Superintendent or designee and should be in writing, state the act(s), state the date(s), state the name(s) of witnesses and be signed by the complainant.

2. Investigations will be conducted with discretion. The right to confidentiality, both of the complainant and of the accused, will be respected, consistent with the Board's legal obligations and with the necessity to investigate allegations of misconduct and take corrective action when this conduct has occurred. Claims found to be factually supported will be promptly acted upon. No employee or student shall be retaliated against, in any manner, for reporting conduct which is believed to be a violation of this rule or for participating in an investigation of a possible violation of this rule.
 3. In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, nature of the conduct, and the context in which the alleged conduct occurred will be investigated. The Superintendent or designee has the responsibility of investigating and resolving complaints of sexual harassment.
- I. Penalties – Necessary disciplinary action, up to and including termination, may result if sexual harassment occurs. Any employee who makes false allegations of sexual harassment will be subject to appropriate disciplinary action, up to and including termination.

FEDERAL PROGRAMS/TITLE I PROGRAM

4.87

Title I services will be offered in schools within the School System that qualify according to state and federal guidelines and legislation. Eligible students are those whom the school identifies as failing or most at risk of failing to meet the state's challenging student performance standards and having greatest academic need for special assistance. The Board requires that the following criteria be met for all qualified Title I programs (Schoolwide or Targeted Assistance) within the School System:

- Improve teaching so that Title I students will meet challenging state content performance standards.
- Implement effective instructional strategies that increase the amount and quality of learning time for at-risk students and that deliver an enriched and accelerated curricula.
- Ensure that school-based planning takes place.
- Promote effective parent participation.

Title I Schoolwide programs use their funds to upgrade the entire program of the school. Schools are encouraged to use research-based school instructional strategies that provide an accelerated and enriched curriculum and increase the amount and quality of learning time. The programs must be integrated with other resources and initiatives. The intent is still to assist disadvantaged children, but this goal will be achieved by upgrading the entire education environment.

Title I Targeted assistance programs will target only individually identified students and must use their funds only for programs that provide services for those identified as in greatest need of assistance. However, these targeted assistance programs must meet the same requirements of schoolwide programs such as emphasizing accelerated curricula and extended learning times; coordinating their activities with other school reform activities; and providing adequate professional development for teachers and others serving Title I students.

Title I Teachers

Teachers paid from Title I funds are employees of the Board and are subject to the same regulations as other teachers.

 - A. Immunization as required for the prevention of those communicable diseases designated by the State Health Officer;
 - B. Proof of residency (copy of power bill, telephone bill, rent receipt, etc.) of the parent(s), legal custodian(s), and/or legal guardian(s); and,
 - C. Proof of guardianship or custody when warranted.
 - D. Exceptions may be granted as provided in Alabama statutes and federal law.
 - E. Birth Certificate or other document for age verification purposes in kindergarten and 1st grade. (Examples: U.S. or foreign birth certificate; religious, hospital, or physician's statement; baptismal certificate; adoption record; previously verified school records; or other record acceptable to the school principal). Failure of the parent or legal guardian to provide a birth certificate will not deny, nor delay, a student's enrollment.
 - F. Providing a social security number for school enrollment purposes is completely voluntary and failure to do so will not deny, nor delay, a student's enrollment. The use of a social security number is solely for the purpose of identification of a student in our student management system. A unique identification number can be assigned by the local school system for any student whose parent(s) or legal guardian(s) do not wish to provide that information.
- II. The school principal shall determine grade placement of students from a private or non-public school or from home education based on state regulations and Tuscaloosa County Board of Education rules regarding transfer of credit as well as other factors including test data, age, and previous school records.
- III. A child whose fifth (5th) birthday is on or before September 1st shall be entitled, based on age, to admission to kindergarten classes. A child whose sixth (6th) birthday is on or before December 31st shall be entitled, based on age, to admission to first grade classes. A child whose birthday is after December 31st is not admissible to first grade classes in the School System that year, except that an underage child who completes a mandated kindergarten program in another state may be admitted upon approval of the Board of Education on a space available basis.
- IV. Admission may be denied to a resident student who is seventeen (17) years of age or older based upon a review of the student's disciplinary history, attendance, academic progress or who may have criminal charges pending or criminal convictions, unless the student qualifies for services under applicable state and federal law. If a student is denied admission at the local school level, the student may appeal the local school's decision to the Superintendent and his/her designee.
- V. Any student seventeen (17) years of age or older who has not registered within the first five (5) school days of the beginning of a new school term/semester will be denied admission unless extenuating circumstances are approved by the Superintendent or his/her designee and/or the student qualifies for services under applicable state and federal law. In such instances, any student seventeen (17) years of age or older may be enrolled and is eligible for educational services until age of twenty-one (21).
- VI. Regardless of age, when a student facing some type of disciplinary action is withdrawn from school prior to receiving the punishment, said student (and his/her parent/legal guardian) should be informed that prior to admission/readmission to any Tuscaloosa County school, the disciplinary action would have to be completed. This includes any suspension, work assignment, or referral to the Superintendent or Board of Education for a hearing and applies to students re-enrolling in the Tuscaloosa County School System or who are enrolling from another school system.
- VII. The school principal shall determine the residence of a student based upon the residence of

his/her parents or legal guardian. If the principal is unable to determine the residence of the student, assistance from the Office of Student Services shall be requested.

- VIII. **Residence:** A legal residence within an appropriate school zone shall determine enrollment eligibility for the Tuscaloosa County School System. When the actual residence of a student comes into question, the Office of Student Services may investigate and in its discretion, require additional proof of full-time, actual residency within the attendance zone or county, as the case may be.
- IX. **Attendance Zone:** A student must attend the school(s) within the school zone in which his/her parent(s) or guardian(s) has established legal residence, except when school assignment has been approved as a part of the system-wide instructional program, under the employee transfer provision, or when a senior whose parent(s) or guardian(s) establishes residence outside the area served by the School System or outside the school zone. At the discretion of the parent(s) or guardian(s), the student may complete his/her senior year at the school he/she currently attends. The School System shall not be responsible for the student's transportation. Exceptions may be granted as provided in Alabama statutes and federal law.
- X. **Children of Board Employees:** Children of regular or full-time employees of the Board, retired Board employees, Board members, or Board employees who became deceased during their employment may enroll in the school zoned for their residence or any school of the School System. Enrollment of children in any school outside their residence school zone must be approved by the Superintendent or designee based upon a written request. The approval of such requests will be based upon space available considerations with the understanding that the Board will not be responsible for transportation.
- XI. **Adult Students:** An adult student 19 years of age and older may establish a legal residence based on applicable state laws.
- XII. **Equal Access:** Children who are homeless, migrant, immigrant, non-English speaking, in foster care, or disabled shall have equal access to the same free appropriate public education, including public preschool education, provided to other children and youth. Such children will be provided the opportunity to participate in the same state educational programs and to meet the same state student performance standards as all other children without being isolated or stigmatized. HONOR GRADUATES**5.23**

In an effort to encourage academic excellence and achievement on the part of students throughout the School System, the Board hereby directs that each high school principal, with the assistance of appropriate staff members, institute the selection of a valedictorian, a salutatorian, and honor graduates as a way of appropriately honoring those students who have pursued and attained high academic goals.

Valedictorian and Salutatorian Selection Criteria

The following are the criteria for determining who may be eligible for valedictorian and salutatorian in the schools of the School System:

- A. For the Classes of 2014 – 2016, the student with the highest numerical grade average who qualifies for the Alabama High School Diploma with Advanced Endorsement with Honors or High Honors or the Alabama High School Diploma with Career Technical Endorsement with Honors or High Honors shall be the class valedictorian. The student with the second highest numerical grade average who qualifies for a diploma endorsement with Honors or High Honors shall be the class salutatorian. In the case of a tie (after carrying the grade average out 4 decimal places and rounding off to 3 places), students having the same average will be recognized as co-valedictorians or co-salutatorians. The diploma endorsements with Honors or High Honors mean that a student has taken all advanced or higher level courses. For the Classes of 2017 and beyond, the student with the highest numerical grade average who qualifies for the Alabama High School Diploma with Academic Distinction shall be the class valedictorian. The student with the second highest numerical grade average who qualifies for Academic Distinction shall be the class salutatorian. In the case of a tie (after carrying the grade average out 4 decimal places and rounding off to 3 places), students having the same average will be recognized as co-valedictorians or co-salutatorians. Academic Distinction means that a student has taken all advanced or higher level courses.
- B. In calculating the numerical grade average, all semester grades will be used.
- C. Advanced Placement (AP) grades will be weighted by adding 10 points to each final grade earned in an AP class. In the case of a transfer student who has AP grades, only those courses recognized as AP by The College Board will be weighted. All Pre-Advanced Placement (Pre-AP) grades will be weighted by adding 5 points to each final grade earned in a Pre-AP class.
- D. The candidates for valedictorian and salutatorian must have been enrolled at the high school for one full school year prior to the date of their graduation. The candidates for other end-of-year honors must have been enrolled prior to the beginning of the second semester of the senior year.
- E. The numerical grade average for the candidates will be computed on course work taken beginning with the freshman year (unless Carnegie units/credits had been awarded to the candidates from an accredited institution while the candidates were enrolled in eighth grade) through the second term/semester of the senior year.
- F. If letter grades are present on a candidate's transcript, the candidate must have the respective school(s) attended submit the grades in numerical form. If school officials of the school the student attended cannot or will not convert the letter grades to numerical grades, the letter grades will be transposed to numerical grades as follows: A+=99, A=95, A-=90, B+=89, B=85, B-=80, C+=79, C=75, C-=70, D+=69, D=65, D-=60, F=55.
- G. Any extraordinary situations or circumstances that may arise will be resolved by the school principal in consultation with the Superintendent or designee.

Honor Graduates Selection Criteria

The honor graduates shall be graduating seniors who have pursued the Alabama High School Diploma with Advanced Endorsement with Honors or High Honors (or for the Classes of 2017 and beyond who have pursued the Alabama High School Diploma with Academic Distinction), all courses required for graduation, and who have an overall grade point average (GPA) of 4.00 (on a 4-point scale) on all courses taken during the freshman year (unless Carnegie units/credits had been awarded to the candidates from an accredited institution while the candidates were enrolled in eighth grade) through the second term/semester of the senior year. Advanced Placement (AP) courses (approved by The College Board) will be weighted when calculating grade point averages in the following manner: A = 5, B = 4, C = 3, D = 2. All Pre-Advanced Placement (Pre-AP) grades will be weighted when calculating grade point averages in the following manner: A = 4.5, B = 3.5, C = 2.5, D = 1.5.

STUDENT PROMOTION AND RETENTION**5.26***Grades K-5*

The process of making decisions as to promotion and retention of students in grades K through 5 should take into consideration a variety of factors including age, maturity, motor coordination, capacity for learning, and academic progress. The determination process should involve the principal and teacher(s) with the authority for determining promotion and retention resting entirely with the teacher(s) and Principal, except that a kindergarten student may be retained only upon approval/agreement of the student's parent(s) or guardian(s).

If a student needs to be retained based on the teacher's professional judgment of the student's academic performance and/or other factors, the parent(s) or guardian(s) of that student would be informed as early in the school year as possible. In all cases, the decision of whether a student should be promoted or retained shall be made on the basis of which grade placement provides the student a better chance of progressing in his/her educational development.

Grades 6-8

Students enrolled in grades six (6) through eight (8) must pass all four (4) core academic courses (English, mathematics, science and social studies) as well as one additional course in order to be promoted to the next higher grade. Students who do not pass the required core courses/subjects for promotion are strongly encouraged to attend an approved summer school. Students who do not pass the required courses/subjects each year will be retained at their current grade level for the next school year with the following exceptions:

1. A student who does not meet the established criteria for promotion may be retained one time in grades 6 through 8 if the student has been previously retained in grades K-5.
2. A student who does not meet the established criteria for promotion may be retained two times in grades 6 – 8 if the student has not been previously retained in grades K-5.
3. A student should not be retained in grades 6 – 8 if the student will reach his/her sixteenth birthday during the following academic year.

Grades 9-12

Students must earn the minimum number of Carnegie units (credits) necessary for grade placement **above grade 9** as indicated below:

10th Grade–5**11th Grade–11****12th Grade–17****Graduation (Total)–24***Summer School and Credit Recovery Options*

A student who does not pass coursework in a logical and sequential order should be strongly encouraged to attend an approved summer school to earn the required credit(s) necessary for orderly progression through the courses required for graduation.

Special Education Students

Promotion of any student in a special education program, with the exception of gifted students, must be based on his/her accomplishments of goals stated in the IEP in conjunction with all other regular program requirements. However, a special education student (except gifted) may not be placed at any grade level unless the student has attended school for a commensurate number of years equal to the proposed grade placement; i.e., for a special education student to be placed at the sixth (6th) grade level, he/she must have been enrolled in school for at least five (5) years.

DUE PROCESS

5.29

The Board recognizes that observance of applicable substantive due process entails two basic considerations: (1) any objective sought relative to student governance must be legally defensible, e.g., based upon a rational or compelling state interest; and (2) the means taken to accomplish such objective must be within the constitutional limitations applicable to the in loco parentis position of school officials within the School District. To assure compliance with these two substantive aspects, the Board has approved the following guidelines as applicable to all policies, rules, and regulations.

- I. Each local school policy, rule, or regulation shall specify its purpose as it relates to accomplishment of a legally defensible objective.
- II. Each local regulation shall be based on a Board policy.
- III. All policies, rules, and regulations at any level shall be consistent with local, county, or city ordinances, statutes of the State of Alabama, and administrative regulations of duly authorized agencies; e.g. State Board or State Department of Education.
- IV. Both policies of the Board and regulations designated by local school administrators shall be specific and precise.
- V. No Board policies or local school codes of conduct shall deny any student his/her constitutional rights.
- VI. Discharge of administrative responsibilities and exercise of authority shall recognize applicable legal parameters placed upon the in loco parentis position of school officials.
- VII. Authority exercised by administrators, teachers or school officials, shall be capable of withstanding close judicial scrutiny and be free from arbitrary, capricious, discriminatory, or otherwise illegal practices.
- VIII. Students, parents, citizens, teachers, and administrators should be participants in developing local school codes of conduct.

Procedural due process within the School District shall relate primarily to the area of discipline and disciplinary measures, e.g., short-term suspension, long-term suspension, and expulsion.

The degree of procedural due process afforded in each of the above situations shall be dependent upon: (1) the gravity of the offense a student is alleged to have committed; and (2) the severity of the contemplated penalty.

Before being punished for violation of Board policies or school regulations, a student shall have the right of the following minimum due process procedures:

- I. The student shall be given oral or written notice of the charges against him;
- II. The evidence against the student shall be explained to him; and
- III. The student shall be given an opportunity to present his own version of the facts concerning the charges.

When a student is facing possible long-term suspension (more than 10 days) or expulsion, the Board shall afford the student the following:

- I. The right to an administrative hearing;
- II. The right to be represented by an attorney and to present evidence on his/her behalf;
- III. The opportunity to question witnesses;
- IV. A written record at the hearing and a written record of the decision; and,
- V. The right of appeal to the Tuscaloosa County Board of Education.

A school may not unilaterally expel or cease the provision of educational services to a student with a disability whose education is governed by an individualized education plan (IEP).

PHYSICAL RESTRAINT AND SECLUSION

5.30.2

I. Policy Purpose

- A. The Tuscaloosa County School System acknowledges that maintaining a school environment conducive to school learning requires that the environment be orderly and safe. Accordingly, physical restraint of a student may sometimes be necessary in order to protect the student or other individuals.
- B. The purpose of this policy is to ensure that physical restraint is administered only when needed to protect a student and/or member of the school community from imminent, serious physical harm, and to prevent or minimize any harm to a student as a result of the use of physical restraint.
- C. The Tuscaloosa County School System places an emphasis under this policy on the prevention and de-escalation of inappropriate behavior, which reduces the risk of injury to students and program staff, as well as the care, safety, and welfare of our students.

II. Definitions

- A. Physical restraint is direct physical contact from an adult that prevents or significantly restricts a student's movement. The term physical restraint does not include mechanical restraint or chemical restraint. Additionally, physical restraint does not include: providing limited physical contact and/or redirection to a student in order to promote safety or to prevent self-injurious behavior; providing physical guidance or prompting to a student when teaching a skill; redirecting attention; providing guidance to a location; providing comfort; or providing limited physical contact as reasonably needed to prevent imminent destruction to school or another person's property.
- B. Chemical restraint is any medication that is used to control violent physical behavior or to restrict the student's freedom of movement that is not a prescribed treatment for a medical or psychiatric condition of the student.
- C. Mechanical restraint is the use of any device or material attached to or adjacent to a student's body that is intended to restrict the normal freedom of movement and which cannot be easily removed by the student. The term does not include an adaptive or protective device recommended by a physician or therapist when used as recommended by the physician or therapist to promote normative body positioning and physical functioning, and/or to prevent self injurious behavior. The term also does not include seatbelts and other safety equipment when used to secure students during transportation.
- D. Seclusion is a procedure that isolates and confines the student in a separate, locked area until he or she is no longer an immediate danger to himself/herself or others. Seclusion occurs in a specifically constructed or designated room or space that is physically isolated from common areas and from which the student is physically prevented from leaving. Seclusion does not include situations in which a staff member trained in the use of de-escalation techniques or restraint is physically present in the same unlocked room as the student; time-out as defined herein; in-school suspension; detention; or a student-requested break in a different location in the room or in a separate room.
- E. Time-out is a behavioral intervention in which the student is temporarily removed from the learning activity. Time-out is appropriately used and is not seclusion when:
 - 1. The non-locking setting used for time-out is appropriately lighted, ventilated, and heated or cooled.
 - 2. The duration of the time-out is reasonable in light of the purpose of the time-out and the age of the child; however, each time-out should not exceed 45 minutes.
 - 3. The student is reasonably monitored by an attending adult who is in reasonable

physical proximity of the student and has sight of the student while in time-out.

4. The time-out space is free of objects that unreasonably expose the student or others to harm.

III Prohibitions

- A. The use of physical restraint is prohibited in the Tuscaloosa County School System and its educational programs except in those situations in which the student is an immediate danger to himself or others and the student is not responsive to less intensive behavioral interventions, including verbal directives or other de-escalation techniques. Physical restraint is prohibited when used as a form of discipline or punishment.
- B. All physical restraint must be immediately terminated when the student is no longer an immediate danger to himself or others or if the student is observed to be in severe distress during the restraint. Any method of physical restraint in which physical pressure is applied to the student's body that restricts the flow of air into the student's lungs is prohibited in the Tuscaloosa County School System and its educational programs.
- C. The use of chemical restraint is prohibited in the Tuscaloosa County School System and its educational programs.
- D. The use of mechanical restraint is prohibited in the Tuscaloosa County School System and its educational programs.
- E. The use of seclusion is prohibited in the Tuscaloosa County School System and its educational programs.

IV Requirements

- A. Each local school's principal or his/her designee and each educational program of the School System that utilize physical restraint under this policy will provide staff with guidelines and procedural information regarding physical restraint and will arrange for the appropriate training of those designated staff members that may be called upon to physically restrain a student. This training of designated staff members shall be provided as a part of a program which addresses prevention and de-escalation techniques as well as positive behavioral intervention strategies. The training of designated staff members will be based on evidence-based techniques and strategies when possible. Each local school's principal or his/her designee or program coordinator shall be responsible for providing periodic reviews.
- B. Each local school's principal or his/her designee and each educational program that utilize physical restraint will maintain written or electronic documentation on training provided at the local school regarding physical restraint and the list of participants in each training session. Records of such training will be made available to the Alabama Department of Education or any member of the public upon request.
- C. The use of physical restraint will be monitored by each local school's principal or his/her designee or program's coordinator on an on-going basis to ensure fidelity of implementation. Follow-up training will be provided following any situations in which procedures are not being followed.
- D. Each local school's principal or his/her designee and each educational program that utilize physical restraint shall ensure that following an incident of restraint or seclusion of a student, all school personnel involved in the incident and appropriate administrative staff participate in a debriefing session for the purpose of planning to prevent or reduce the reoccurrence of the use of restraint. - E. Each local school's principal or his/her designee and each educational program that utilize physical restraint will provide written notification to a student's parent or legal guardian when physical restraint is used on a student within a reasonable time following the restraint not to exceed one school day from the use of restraint.

 - G. Each student's parent or legal guardian will be provided information regarding the school or program's policies governing the use of physical restraint. This information will be provided to parents at the beginning of each school year or upon the student's enrollment if the student enrolls after school has started. To effectuate this requirement, the School System's website and student handbook/code of conduct will contain the following statement:
 - 1. As a part of the policies and procedures of the Tuscaloosa County School System, the use of physical restraint is prohibited in the Tuscaloosa County School System and its educational programs except in those situations in which the student is an immediate danger to himself or others and the student is not responsive to less intensive behavioral interventions including verbal directives or other de-escalation techniques. Physical restraint is expressly prohibited when used as a form of discipline or punishment. The use of other physical restraint, chemical restraint, mechanical restraint, or seclusion is prohibited in the Tuscaloosa County School System and its educational programs.
 - 2. The use of restraint may occur along with other emergency actions such as the school seeking assistance from law enforcement and/or emergency medical personnel which could result in a removal of the student by such personnel.
 - 3. Significant violations of the law including assaults on students and staff will be reported to the police. As soon as possible after the restraint or removal of a student (and no longer than one school day following the occurrence), the parent or legal guardian will be provided written notification.

INTERROGATIONS AND SEARCHES

5.31

I. Search of Property

The Tuscaloosa County Board of Education fully recognizes the implications of constitutional law in the area of student privacy. The Board is equally aware that such tangible personal property items as student desks, student lockers, and related properties are and remain the property of the Board.

The Board is charged with maintenance of such property and thus authorizes inspection for any maintenance-related reasons. With respect to opening of lockers or desks for other reasons, the following shall apply through the Tuscaloosa County School System.

Desks, lockers and other equipment at school belong to the school board and, although assigned to particular students for use, may be entered and searched by school officials whenever said school officials have reasonable belief that some object, item, article, substance or other material is contained therein which is illegal, harmful to the safety of the student himself or the student body as a whole, or significantly disruptive of or dangerous to the overall discipline of the school.

Vehicles driven by students and parked on school property are subject to search with or without the consent of students. Students shall not be allowed to park automobiles on campus until such time that a student vehicle registration has been properly completed and returned to the school. Such forms shall be maintained on file at the school.

Any items which are specifically prohibited by law, by Board policy, or by fair and reasonable local school regulations may be impounded by school officials. In such cases, students shall be given a receipt for said impounded items. Such prohibited items shall include, but not be limited to the following:

- A. Any weapons;
- B. Drugs of any sort;
- C. Alcoholic beverages;
- D. Pornographic or otherwise obscene material; or
- E. Any other object, digital or electronic device, controlled substance or material which would be a violation or evidence of a violation of federal or state law, of Board policy, or of the local school's fair and reasonable regulations.

If possible, the student or students shall be contacted prior to any search of a desk or locker assigned to such student, and the desk or locker shall be opened in his/her presence. A witness from the professional staff shall be present during the inspection at all times when students cannot be contacted.

The content of this policy shall be communicated to all students and staff at the beginning of each year.

II. Search of a Student's Person

The Board authorizes teachers and administrative personnel who have reasonable belief that a student(s) is in possession of weapons, illegal drugs or other items harmful to the student or students or to the welfare of the student body to search the person of said student(s) under the following conditions:

- A. Any such action shall not be taken unless there is a reasonable belief of violation of law or policy which can be substantiated if necessary;
- B. Any such action shall not be deliberately intended to embarrass, harass, or intimidate the student(s);
- C. Parents/Guardians shall be notified, in writing, of all such searches of a student's person. A

copy of said notice shall be retained by the principal.

The search of a student's person shall be with the knowledge, and under the supervision, of the principal or his/her designee.

Any search of a student's person shall be done privately by a teacher or administrator of the same sex as the student to be searched. At least one witness who is an administrator or teacher, also of the same sex as said student, shall be present throughout the search. A record of the search shall be made. One copy shall be filed in the principal's office. One copy shall be sent to the Superintendent of Education. Students shall be given a receipt for all items impounded.

Reasonable belief of a violation of law or policy may be based upon information from such sources as faculty members, reliable students, a law enforcement officer, visual evidence or any of these factors.

III. Detection of Illegal Drugs

The Board authorizes law enforcement agencies to make periodic, unannounced visits to any of its schools for the purpose of detecting the presence of illegal drugs. Such visits are unannounced to anyone except the Superintendent and building Principal.

IV. Interrogation

A student enrolled in the Tuscaloosa County School System shall not be interrogated by any non-school authority without the knowledge of the school principal or the assistant principal. When law enforcement officers make it known that they wish to talk to a student while under the supervision of the school, the student will be informed by the principal or assistant principal that the student has three choices:

- A. He/she may converse by telephone with his/her parent/guardian.
- B. He/she may decline to talk to the officers until his/her parent/guardian is present.
- C. He/she may talk with the officers either in or outside the presence of a school official.

School officials will make every reasonable effort in every case to notify the parent/guardian, unless it is believed not to be warranted by school officials or law enforcement based upon the nature of the investigation. In those instances where a parent/guardian cannot be present within a reasonable period of time, school officials must allow interviews by law enforcement officials to proceed in the absence of the parent/guardian.

No student shall be removed by law enforcement from the school without a warrant or petition being officially served.

USE OF METAL DETECTORS

5.31.2

In order to provide and maintain the safest and most secure environment for students, school personnel and authorized visitors, the Tuscaloosa County Board of Education authorizes the use of metal detectors, both handheld and walk through, by trained school Board employees and/or law enforcement officials with the knowledge and approval of the local school principal and Superintendent or designee. The primary purpose for which this policy is enacted is to discover and to deter individuals from bringing weapons and similar contraband onto school property. Nothing herein shall prevent the local school administration and/or law enforcement officials from seizing any weapons and similar contraband found during the use of such metal detectors on school property. While this policy allows the use of metal detectors in the schools and at school events, nothing herein shall be intended to, nor shall be construed, to create an obligation to use a metal detector at any time or in any particular school.

In implementing the use of metal detectors, the following guidelines will be followed:

- I. Metal detector screening means the use of walk through and/or handheld instruments to scan for metal items on a person or in a person's belongings, including though not limited to a backpack, book bag or purse.
- II. Metal detectors may be used on an as-needed basis where reasonable suspicion exists that a student or visitor has a weapon or similar contraband in his/her possession, or on a random basis.
- III. A random search does not require the presence of reasonable suspicion on the part of school personnel or law enforcement officials working in conjunction with school personnel.
- IV. Random searches are those conducted on all or fewer than all students or visitors being screened on a particular day. When fewer than all students or visitors are being screened, the local school administrator or designee shall obtain a random search number from the Superintendent or designee, which number shall be recorded both by the Superintendent or designee and the local administrator in a secure place. The local school administrator or designee shall approve the search of only those individual students or visitors who occupy the designated number in the line as those persons enter the school building.
- V. Nothing herein shall prevent a student or visitor from being subjected to a search where reasonable individualized suspicion exists in the mind of the local school administrator or designee of the presence of a weapon or similar contraband. Neither a mere hunch nor a generalized suspicion is a sufficient basis for conducting such a search.
- VI. When practicable, the individual scanning students and/or visitors with a handheld detector should be of the same gender as the individual being scanned. If no sworn law enforcement official of the same gender as the person being scanned is immediately available, then an employee of the Board should witness the scan. All scans, whether by walk through or handheld metal device should be in the presence of and witnessed by a local school employee unless exigent circumstances require immediate action to protect any student, employee or visitor from a physical threat or unless exigent circumstances prevent the presence of such school employee.
- VII. Weapons and other similar contraband discovered during the use of a metal detector scan shall be turned over to and retained by law enforcement officials participating in the search. If a school administrator or designee is not present when such weapon and/or contraband is discovered, then such local school administrator or designee shall be notified immediately and undertake to follow other Board policies, rules and regulations regarding the Board's Code of Conduct and assess such discipline on any student as may be appropriate. Such administration of discipline shall comply in all respects in documentation and recording requirements with Board policy.
- VIII. If during the conduct of a search under this policy, unlawful or dangerous items or articles other than weapons or similar contraband are discovered, then the local school official in charge should

TUSCALOOSA COUNTY POLICY MANUAL

take all such action as he/she deems necessary either under the laws of Alabama and/or the system's Code of Conduct, as the case may be.

UNANNOUNCED VISITS BY LAW ENFORCEMENT**5.31.3**

To provide and maintain a safe and secure environment for students, staff, and visitors, the Tuscaloosa County Board of Education supports the requirement of the Alabama Administrative Code, §290-030-010-.06, to permit law enforcement agencies to make periodic, unannounced visits to any school within the school system. Such visits shall be for the purpose of detecting the presence of illegal drugs or warrants. Such visits shall be unannounced except to the Superintendent of schools and principals of the individual schools that are subject to the visitation.

In accordance with the Code of Alabama, 16-1-24.1, the possession of illegal drugs, alcohol, or weapons will result in immediate suspension from school and possible criminal charges being brought against the student(s).

USE OF CANINE LAW ENFORCEMENT**5.31.4**

In order to maintain drug-free schools and deal with problems associated with drug use and drug trafficking, the Tuscaloosa County Board of Education allows law enforcement officials to make periodic, unannounced visits to any public school in the school system to detect the presence of illegal drugs or weapons. The Superintendent and the principal shall be given prior notice.

In implementing the use of drug-sniffing dogs, these guidelines will be followed:

- I. Although reasonable cause is not necessary under law in using dogs to sniff unoccupied automobiles, buses, and lockers, principals will use reasonable care in the search process.
- II. Only the principal or designee with approval from the Superintendent or designee shall implement the use of drug-sniffing dogs in schools.
- III. In the search for drugs, drug-sniffing dogs will be handled by trained dog-handlers under the supervision of the principal or designee and an appropriate law enforcement official.
- IV. Dogs will not be allowed to sniff students or employees.
- V. Dogs will not be brought into the school while large numbers of students are occupying the halls or other gathering places such as lobbies, buses, cafeterias, restrooms, and auditoriums.

DEADLY WEAPONS

5.32

Possession of a deadly weapon on school property or on a school bus with the intention to do bodily harm is a Class C felony. All persons, other than authorized law enforcement personnel, are prohibited from bringing or possessing any deadly weapon or dangerous instrument on school property, and specific penalties for students and school personnel who violate this policy, notwithstanding any criminal penalties, may also be imposed.

The Tuscaloosa County Board of Education authorizes the Superintendent or designee to immediately and automatically suspend any student found in possession of a deadly weapon. A deadly weapon shall be defined as anything manifestly designed, made or adapted for the purpose of inflicting death or serious physical injury. Deadly weapons are not to be carried by students on school grounds, on school buses and/or at any school-sponsored event, during or after regular school hours.

A student determined to have brought to school or have in his/her possession a firearm defined in Section 921 Title 18 of the U.S. Code in a school building, on school grounds, or at other school-sponsored functions shall be expelled for a period of one (1) year. The Board and the Superintendent may modify the expulsion requirement on a case-by-case basis.

The Tuscaloosa County Board of Education directs the Superintendent to provide the State Department of Education a description of the circumstances surrounding each expulsion pursuant to this policy. This description shall include:

1. The name of the school concerned.
2. The number of students expelled
3. The types of weapons concerned.

No person found guilty of violating a weapons policy may be readmitted to the public schools of this state without psychiatric or psychological counseling and an accompanying report in writing to the Board that the person does not represent a threat to the safety of any student or employee of the school system.

Discipline of Tuscaloosa County School System students with disabilities who violate this deadly weapons policy shall be determined on a case-by-case basis in accordance with the requirements of the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act.

Any person who violates the provisions of this policy may be arrested on the appropriate warrant signed by the principal or appropriate school authority.

If pursuant to a Tuscaloosa County Board of Education hearing, any person is found guilty of violating this policy, such person shall not be admitted to school until any criminal charges or offenses arising from such conduct have been disposed of by proper authorities and such violator(s) have satisfied all other requirements imposed by the Board as a condition for readmission.

EXPULSION

5.33

Expulsion is defined as any denial of school attendance for a period longer than ten (10) school days (defined as ten (10) days per semester for non-special education students and ten (10) days per year for special education students). The authority to expel a student is vested only in the Board. The Board shall have the duty to review the evidence advanced by the principal, other School System personnel, and other interested parties in support of the recommendation for an expulsion and to hear and review any rebuttal advanced by the student, parent(s) or guardian(s), or representative. The Board and its administrators may consider mitigating circumstances, including risk of harm, intent, age and grade of student, before imposing punishment.

Expulsion may be for any portion of the school year, for a definite period of time extending beyond the remainder of the school year, or it may be permanent.

A student under expulsion from the Tuscaloosa County School System shall not be physically present upon any school system grounds, campus and/or property of the school system, without prior written authority of the Superintendent first obtained. Such exclusion shall include athletic team sports, events, games, meetings or otherwise. Violation may subject such student to additional discipline, including the extension of his/her period of expulsion and/or referral for appropriate action by law enforcement officials.

The Board may require that at the end of an expulsion period, the student and his/her parents or guardians appear before the superintendent and/or the Board to determine if changes in behavior on the part of the student have occurred which indicate a willingness and ability to function in the school setting. Moreover, the Board may require that the expelled student participate in activities which would reasonably be assumed to change the behavior in a positive direction as a condition for re-admittance to school.

SPECIAL EDUCATION STUDENTS

A student with disabilities may not be expelled from school for any misbehavior that has a direct and significant relationship to that student's area of disability. If the IEP committee determines that the behavior in question does not have a direct and significant relationship to the student's area of disability, the public education agency may expel the student; however, a complete cessation of education service is not permissible.

STUDENT/PARENT GRIEVANCE PROCEDURES

The term grievance shall apply to matters which fall within the discretionary powers of the Principal, Superintendent, and/or Board, but shall not apply to areas where the Principal, Superintendent, and/or Board has no authority to act. It is the expectation of the Superintendent that all grievances shall be resolved at the earliest step possible through the informal process.

INFORMAL PROCESS BY LEVELS:

1. The student who believes an injustice has been done to him/her shall first attempt to resolve his/her grievance by consultation with the teacher. The teacher shall respond verbally to the student and follow up in writing within 2 school days and place the answer in the student's hand.
2. If the student still believes that the issue has not been resolved to his/her satisfaction, he/she should submit a fully completed Level 2 form, along with all required attachments, to the Principal and/or designee within 2 school days after the conference with the teacher. The Principal and/or designee shall meet with the student within 2 days of receiving the statement/form. Only the parent or legal guardian shall be permitted to join or represent the student in the conference with the Principal. The Principal shall submit a written response within 2 school days after the conference.

If the matter has not been resolved by the informal process, the grievance will begin the formal process.

FORMAL PROCESS BY LEVELS:

1. If the grievance is not resolved at Level I or Level 2 the student along with his/her parent or legal guardian may appeal the decision in writing to the Superintendent. The appeal must be made within five (5) school days following receipt of the written response from the Principal. The Superintendent or his/her designee shall review the grievance within five (5) school days following receipt of a fully completed Step 3 form, along with all required attachments. If the Superintendent or his/her designee determines that additional time is needed to develop the factual record, the grievance may be put on hold for fifteen (15) additional school days (or longer if by mutual agreement) to allow time for investigation. A written response shall be made to the student through his/her parent or legal guardian, and Principal from the Superintendent or his/her designee within ten (10) school days following the end of his/her review.
2. If the grievance is not resolved at Level III and it involves an alleged violation of state or local board policy or state or federal law or state rule by a final administrative decision, it may be appealed in writing to the School Board. This written appeal must be made within ten (10) school days following the written response from the Superintendent at Step III. A fully completed Step 4 form, along with all required attachments, shall be turned in to the Superintendent's Office. The Board's consideration of these appeals will take place in closed session and will be limited to the written record unless the board determines that additional information is necessary. The Board may affirm, reverse, or modify the decision of the Superintendent. The Step III decision will be reversed if the board determines that there has been a material violation of board policy or state or federal law or regulation, or that the decision is unsupported by substantial evidence in view of the entire record as submitted. The board shall offer a final written decision within thirty (30) school days.

Level 3 and Level 4 will be a review of the documentation provided ONLY. The Superintendent and the School Board reserve the right to call a hearing if they see it necessary.

Out of school Suspension

5.33.2

The Board recognizes its authority to maintain good order and discipline within the schools of the School System. Therefore, the Board gives the school Principal the authority to suspend a student from school for just cause. However, the Principal shall be required to advise the Superintendent of all student out-of-school suspensions.

AUTHORITY

The school Principal or designee has the authority to suspend students from school for up to ten (10) school days (10 days per semester for non-special education students and 10 days per academic year for special education students) in accordance with the administrative response options of the Violation Classification Sections of the Student Code of Conduct.

NOTIFICATION PROCEDURES

The following minimal notification procedures shall be followed in out-of-school suspension cases:

- I. Prior to suspension, the student will be accorded informal due process procedures as specified, i.e. a notice of the charge(s) against him/her, evidence supporting the charge(s), and an opportunity to explain his/her side of the situation.
- II. The local school Principal or designee shall complete and provide the student with a copy of the School System's "Notice of Suspension" form prior to departure from campus.
- III. The Principal or designee shall make every attempt to notify promptly (same day) the student's parent or guardian by telephone to explain the circumstances and the terms of the impending suspension.
- IV. A copy of the completed "Notice of Suspension" form shall be sent within twenty-four (24) hours to the parent or guardian stating the reason(s) such action was taken and the necessary terms of the suspension. The completed form shall be mailed to the address provided in school records.

STUDENTS LEAVING SCHOOL SITES

No suspended student shall be allowed to leave the school campus during the school day until the student's parent, guardian, or proper authority assumes responsibility for him/her. When a student's parent, guardian, or other designated individual(s) cannot be notified, the student must remain on the school campus until the end of the school day. At the end of the school day, the student will return home via normal transportation methods.

IMMEDIATE REMOVAL OF STUDENTS

Immediate removal of a student from a school campus is justified only when his/her presence threatens himself/herself, endangers school property, or seriously disrupts the orderly educational process. If immediate removal is necessary, a parent or guardian must be notified by phone or personally by the Principal or designee.

FORCED REMOVAL OF STUDENTS

In extreme emergencies, Principals are given the authority to call upon law enforcement agencies to remove students who create material and/or substantial disruption by endangering himself/herself, school personnel, other students, or school property. The Principal shall advise the Superintendent by phone regarding forced removals and shall follow the oral contact with a written confirmation to the Superintendent.

LENGTH OF OUT-OF-SCHOOL SUSPENSIONS

The out-of-school suspension of a student shall not exceed ten (10) school days (10 days per semester for non-special education students and 10 days per academic year for special education students). The

number of days of suspension shall be based on the applicable administrative response options of the Violation Classification Sections of the Student Code of Conduct.

READMISSION REQUIREMENTS

Parents failing to enroll students and ensuring their proper behavior and attendance are subject to fines and imprisonment under state law.

Excused/Unexcused Absences

If any child fails to attend school without a legal excuse for more than three (3) days, that child and the person having custody of that child, shall be referred to Early Warning. - IV. Legal quarantine
- V. Emergency conditions as determined by the principal and/or Superintendent

Schoolwork missed due to excused absences may be made up, and a grade shall be awarded. Students shall have two (2) days for each day of excused absence to complete and return make-up work. It is the responsibility of the student to request and return make-up work.

Attendance Requirements for Remote Learners

Remote learner attendance will be monitored based upon appropriate course progression as measured by the completion of weekly assignments, quizzes, and/or tests as outlined in the student's learning plan. Students are required to remain on-pace and complete all assignments to be considered present and attending. Simply logging into the learning management system (LMS) or course is not considered attending for purposes of Alabama's Compulsory School Attendance Law.

ANAPHYLAXIS PREPAREDNESS—EPI PEN PROGRAM**5.63****Background:**

The Tuscaloosa County School System recognizes the growing concern with severe life-threatening allergic reactions, especially with regard to food items. Other common causes of anaphylaxis include allergies to latex, medications, and insect stings.

Pathophysiology and treatment:

Anaphylaxis can affect almost any part of the body and cause various symptoms.

The most dangerous symptoms include breathing difficulties and a drop in blood pressure or shock, which are potentially fatal.

Medications

- Epinephrine
- Antihistamines

Treatment of anaphylaxis is centered on treating the rapidly progressing effects of the histamine release in the body with epinephrine. The allergen should also be removed immediately.

Creating an Allergen-Safe School Environment:

Three levels of prevention in creating an allergen-safe environment, as provided by the Tuscaloosa County Board of Education include:

- I. Primary prevention – promotes health and protects against threats before problems occur with food allergy and anaphylaxis awareness and training
- II. Secondary prevention – detects and treats problems early, as in a first-time reaction at school with staff or students. Early treatment of anaphylaxis saves lives.
- III. Tertiary prevention - Protecting a student from exposure to offending allergens is the most important way to prevent life-threatening anaphylaxis.

Avoidance of exposure to allergens is the key to preventing a reaction. The risk of exposure to allergens for a student is reduced when the school personnel, medical provider and parent/guardian work together to develop a management plan for the student. Educating the entire school community about life-threatening allergies is important in keeping students with life-threatening allergies safe.

Identifying the School Team

The following procedures are in place as funds, state or local, are available to do so. Based upon available funds, rather than providing Epinephrine Pens at all school locations, provisions may be made to provide Epinephrine Pens in school locations that have extended response times from first responders due to their geographic location.

School District administration – school administrators will support the Anaphylaxis Preparedness Program by helping to monitor the medication supply for availability by keeping it in a secure but accessible location. Each school needs to provide a secure but easily accessible cabinet for storage of Epinephrine Pens. These cabinets should be clearly marked. Support will also be provided to assure school staff are trained and retrained as deemed necessary.

- I. School Nurse – school nurses will be the Anaphylaxis Preparedness site coordinator for each campus. Each school nurse will work with the principal to ensure staff are trained and retrained as deemed necessary. The school nurses will also monitor the safety and security of the medication by checking the expiration date and inspecting the medication to see if any tampering has occurred. The school nurse will respond to emergencies when possible and continue to

function in the role as a school nurse.

- II. School Medical Director – As funds, state or local, are available the Tuscaloosa County School System will obtain the services of a local physician to serve as the medical director providing authorization for this program. The Medical Director will assist with program oversight and strive to meet practices offered through research on the topic of anaphylaxis, offering his guidance for the nursing protocols and prescriptive authority.
- III. Teachers- will be provided information each year on the Anaphylaxis Preparedness school program (preferably through an online link), the signs and symptoms of anaphylaxis, the location of the medication, and forms. Teachers will be offered training each year to recognize and respond to anaphylactic emergencies.
- IV. Food Service Personnel – will be provided information each year on the school program, the signs and symptoms of anaphylaxis, the location of the medication, and the forms. The food service personnel will be offered training each year to recognize and respond to anaphylactic emergencies.
- V. Coaches - will be provided information each year on the school program, the signs and symptoms of anaphylaxis, the location of the medication, and the forms. Coaches will be offered training each year to recognize and respond to anaphylactic emergencies.
- VI. Transportation Personnel - will be provided information each year on the school program, the signs and symptoms of anaphylaxis, the location of the medication, and the forms. Bus drivers will be offered training each year to recognize and respond to anaphylactic emergencies.

Action Steps for Anaphylaxis Management

1. Provide necessary precautions and general training for staff in transportation, classrooms, the cafeteria, or the gymnasium.
2. Training conducted by licensed nurse for all adults in a supervisory role in the recognition and emergency management of a specific medical condition for specific students.
3. Create Individual Health Care Plans (IHP), Emergency Care Plans (ECP), 504 Plans, or Individualized Educational Plans (IEP) as indicated.
4. Have standing emergency medical protocols for nursing staff.
5. As funding is available, maintenance of stock supplies of life saving emergency medications, such as EpiPens, will be housed in all schools for use in anaphylaxis emergencies.
6. Specific legal documents, duly executed in accordance with the regulations and laws with medical orders, will be followed regarding the care of specific students with severe life-threatening conditions.
7. Self-administration by students as assessed by the school nurse to carry life-saving medication will be allowed with prior approval by the medical provider, and according to health practice and procedures.
8. Assure appropriate and reasonable building accommodations are in place within a reasonable degree of medical certainty.

Medication Safety

As funding, state or local, is available, Epinephrine auto-injectors will be maintained by the school system to include resupplying as necessary. The Superintendent, and/or his designee, is authorized to develop proper documentation to manage the procedural components of this policy.

Introduction

According to the Centers for Disease Control and Prevention, suicide is the tenth leading cause of death in the United States. For youth between the ages of 10 and 24, suicide is the 2nd leading cause of death and the 3rd leading cause in Alabama. The Jason Flatt Act works within a state's requirements for In-Service or Certification Training by adding youth suicide awareness and prevention as part of that state's training for educators. The Jason Flatt Act was passed in order to equip education institutions and their personnel to recognize and act on signs of suicide risk in order to provide prevention, intervention and postvention with students at risk, their families and the communities who may be affected.

The Jason Flatt Act, which amends Section 16-28B-8 of the Code of Alabama 1975, provides that "To the extent that the legislature shall appropriate funds, or to the extent that any local board may provide funds from other sources, each school system shall implement the following standards and policies for programs in an effort to prevent student suicide":

Section 1. Prevention of Suicide

The Jason Flatt Act was passed in order to equip Alabama school districts and their personnel to recognize and act on signs of suicide risk in order to provide prevention, intervention, and postvention with students at risk, their families and the communities who may be affected. School systems will:

- I. Develop individual, family, and group counseling services related to suicide prevention.

- VII. Support cooperative efforts between school personnel and community suicide prevention program personnel.
- VIII. Promote school-based or community-based, or both, alternative programs outside of the classroom.
- IX. Develop strategies to assist survivors of attempted suicide, students, and school personnel in coping with the issues relating to attempted suicide, suicide, the death of a student, and healing.

- XIII. Provide annual training for all certified employees in suicide awareness and prevention. This

training may be provided within the framework of existing in-service training programs or as a part of required professional development offered by the local school system.

Section 2. Description of Behavior Expected of Students

Students are expected to treat other students with courtesy, respect, and dignity and comply with the Code of Student Conduct. Students are expected and required to (1) comply with the requirements of the law, policies, regulation(s), and rules prohibiting harassment, violence, or intimidation and (2) to comply with the system's prevention strategies related to suicide prevention, intervention, and postvention support.

Section 3. Responsibility of Reporting

Any person involved in a cause of action or omission resulting from the implementation of this suicide prevention policy or resulting from any training, or lack thereof, required by this section, shall be subject to state immunity law.

TECHNOLOGY ACCEPTABLE USE POLICY

5.90

PURPOSE:

The purpose of the Tuscaloosa County School System is to provide an effective, challenging, and engaging education for all students.

POLICY STATEMENT:

The primary goal of the technology environment is to support the educational and instructional endeavors of students and employees of Tuscaloosa County School System. Use of any and all technology resources is a privilege and not a right.

INTRODUCTION:

To ensure that students receive a quality education and that employees are able to work in a professional and intellectually stimulating environment, it is the policy of the Tuscaloosa County School System to provide all students and employees with access to a variety of technology resources. All Tuscaloosa County students and staff must acknowledge and adhere to this policy. The creation of a large and varied technology environment demands that technology usage be conducted in legally and ethically appropriate ways consistent with the Purpose Statement and instructional goals of the Tuscaloosa County School System. We recognize that the use of technology always requires attempts to balance the benefits against the possibilities of danger, security problems, and abuse. Rapid changes in technology and growth in the range of content available makes this balance a constant challenge.

Thus, it is the intention of the Tuscaloosa County School System that all technology resources be used in accordance with any and all school system policies and procedures as well as local, state, and federal laws and/or guidelines governing the usage of technology and its component parts. Additionally, it is implied that all students and employees of the Tuscaloosa County School System will use the provided technology resources so as not to waste them, abuse them, or interfere with or cause harm to other individuals, institutions, or companies. The administrators of each school are responsible for establishing specific practices to enforce this policy at individual schools.

Aspects of this policy may specifically address technology equipment personally owned by school system employees and/or students and brought into school facilities or onto school campuses to access school resources and/or personal resources. All personal technologies used on any Tuscaloosa County campus are subject to this policy and may be used only if such usage is in compliance with all school system policies, procedures, and guidelines as well as local, state, and federal laws. No technologies may be purchased, brought on campus, or used to access school system resources that interfere with or adversely affect functions or operations of school system technology resources or infrastructure.

All electronic content stored on any external storage medium or personal off-site storage location that is brought to or accessed from a Tuscaloosa County campus is subject to all school system policies and guidelines as well as local, state, and federal laws. Any questions about this policy, its interpretation, or specific circumstances shall be directed to the Director of Technology before proceeding. Violations of this policy will be handled in a manner consistent with comparable situations requiring disciplinary and/or legal action.

The Tuscaloosa County School System Technology Department issues further specific guidelines detailing appropriate and legal use of copyright, email, technology resource purchasing and disposal, web page creation and maintenance, and the publication of student work. These guidelines are updated as best

practices dictate and as case law emerges. These guidelines are considered appendices of the Tuscaloosa County School System Technology Usage Policy. Students and staff are expected to be aware of and follow the guidelines that are updated as needed and posted on the Tuscaloosa County School System web site Board Policies section and on the Technology page and referenced in the Employee Handbook, Parent Student Information Guide and/or the Student Code of Conduct.

I. ACCESS and USAGE:

- A. The use of all Tuscaloosa County School System technology resources is a privilege not a right, and inappropriate or suspected inappropriate use will result in a cancellation of those privileges pending investigation. Moreover, users of Tuscaloosa County School System technology must be aware that the Tuscaloosa County School System cannot assume any liability arising from the illegal or inappropriate use of technology resources.
- B. Users should not purchase or dispose of software, hardware, peripherals, or other technology-related devices without consulting the technology staff. - F. Employees/Students are prohibited from connecting any type of router, wireless Wi-Fi controller, bridging device or non-approved network switch to the local area or wide area network. Employees/Students are prohibited from establishing any private wireless or cabled local area network without obtaining written permission from the Information Technology Department. Any devices that are discovered will be confiscated by the Technology Department and at the discretion of the Director of Technology may or may not be returned to the personal owner. The system considers these types of devices as a possible security breach.
- G. Individuals must not attempt to disrupt any technology services or data integrity by engaging in inappropriate activities. Examples include but are not limited to spreading viruses, spamming, excessive network and/or Internet activity, or modification of equipment or infrastructure.
- H. Student/Employee open access Internet connectivity for BYOD and visiting devices are subject to the conditions outlined in this policy and all other school system policies and guidelines as well as local, state, and federal laws. Students/Employees will be required to register their personal devices before obtaining access rights to these resources. Guest presenters will be provided access through the local school administrators and system technology staff. Due to the ability of broadband

technologies that may reside in some of these personal devices (Smart-phones, MIFI, 3G-4G and future technologies), the system has no means to monitor the use or sites accessed from these devices while on school property. Users are responsible for proper conduct when using this form of technology communication at school or work. The board of education, school system, schools and employees of the system assume no responsibility or liability for the theft, loss, or damage to any personal devices or the inappropriate and/or misconduct use of an individual's device using non-system provided broadband or Wi-Fi connectivity. The system does not require students or employees to bring their own devices to school; however, we do believe such devices do provide students and teachers a resource tool that aids them in their education and job. During Testing all students must comply with the applicable procedures and guidelines established by the Assessment Department of the Alabama State Department of Education, ACT, College Board and/or system. Please see DIGITAL DEVICE POLICY IN A STANDARDIZED TEST SETTING in this policy and/or the Parent Student Information Guide. The system strongly advises all students not to bring cellular or other electronic devices on the campus or the testing location during the administration of standardized test.

In the event that this type of information is stored on a portable/external device or cloud based network and that device is lost or stolen, or if the security of this data is believed to have been breached in any way, the Director of Technology should be notified immediately.
- K. The system Director of Technology and local school Administrator will determine when inappropriate use has occurred, and they have the right to deny, revoke, or suspend specific user accounts

II. PRIVACY:

- A. To maintain network integrity and to ensure that the network is being used responsibly, if any policy violation or inappropriate behavior is suspected, the Director of Technology and local school Administrator reserve the right to inspect any and all communications/data activity, including data stored by individual users on school devices. Users should be aware that activities may be monitored at any time without notice. In the event the suspected equipment is a personal device users may be asked to voluntarily allow system personnel the right to inspect their equipment. If permission is not granted and depending on the severity of the inappropriate use, a user's rights to bring the device on campus or system property may be denied or the system may elect to pursue legal or criminal action if warranted.
- B. Users should not have any expectation that their use of technology resources, including user files stored on the Tuscaloosa County School System's network, will be private and will be secure from access by others. IV. COMPUTER SOFTWARE COPYRIGHT, SELECTION AND DUPLICATION:

It is the intent of the Tuscaloosa County School System to adhere to the provisions of copyright laws as they relate to computer/electronic software and/or applications. It is also the intent of the school system to comply with license agreements and policy statements contained in software packages used in the school system. The Board recognizes that computer software piracy is a major problem for the industry and that violations of computer copyright laws contribute to higher costs, necessitate greater efforts to prevent copying, and lessen incentives for the development of good educational software. All of these results are detrimental to effective uses of computers in the education setting. Therefore, in an effort to discourage violation of copyright laws and to prevent such illegal activities, the following guidelines shall control computer software selection and duplication in the school system:

- A. The ethical and practical problems caused by software piracy will be taught to educators and students in all schools of the school system.
- B. School system employees are expected to adhere to the provisions of the 1976 Copyright Act as amended in 1980 and the Digital Millennium Copyright Act of 1998 governing the use of computer software. Section 117 states that the owner of a computer program may make one copy of a program to be used as an archival copy unless licensing provisions obtained with the software state otherwise. Backup copies are not to be used on a second school computer at the same time an original is in use. A revision of the law passed in 1992 brought software piracy to felony status with fine up to \$250,000 and up to five years in prison for systematic violations.
- C. Software shall not be placed on a network system without a designated network version or

- a license agreement. When permission is obtained from the copyright holder to use software on a network system, efforts will be made to secure this software from illegal copying.
- D. Illegal copies of copyrighted programs may not be created or used on school system equipment.
 - E. Any legal or insurance protection of the school system will not be extended to employees who intentionally violate copyright laws.
 - F. It is the responsibility of the Administrator at each work site to establish practices that will enforce the school system copyright policies.
 - G. All staff members (including instructional assistants) and students are expected to abide by the provisions of this policy.
 - H. Either the system Director of Technology or the local school Administrator is authorized to sign license acknowledgements for a school within the system. Copies of any system-wide license agreements must be signed by the system Director of Technology of Technology and/or Superintendent and distributed to all schools that will use the software. All binding contracts/agreements must be signed by the Superintendent.
 - I. The system technology staff is responsible for installation of all software in use on the wide area network. The system technology staff or the local Administrator or their designee is responsible for installation of all software in use on the local area network and/or individual devices within and purchased by Tuscaloosa County School System. Technology assistants or other designated staff may install software on technology devices with permission by the system Director of Technology of Technology and/or local school Administrator.

The following computer programs are permissible for use in classrooms throughout the school system:

- A. Programs in the public domain (as long as the software applications do not provide utilities for hacking, bypassing, spying, or intentional disruption or non-approved access to the system's network resources.)
- B. Programs covered by a licensing agreement with the software author, vendor, or developer, whichever is applicable.
- C. Programs donated or loaned to the school (not illegal copies) having a written record that a bona fide contribution exists.
- D. Programs purchased by individual schools and having a written record that a bona fide purchase exists.
- E. Programs purchased by the user and having a written record that a bona fide purchase exists and can be produced by the user upon demand by the Superintendent or the Superintendent's designee.

- G. Programs written or developed by school system employees and students for the specific purpose of use in the classrooms of the school system.
- H. The Board, by this presentation, hereby notifies all employees and the general public of the intent of this policy.

It is also the policy of the school system that there is no copying of copyrighted or proprietary programs on computers belonging to the school system.

Email is a school business or educational communication tool, and users are obliged to use this tool in a responsible, effective, and lawful manner. Although by its nature email seems to be less formal than other written communication, the same laws apply. Any email is discoverable in a due process situation or other legal action. In addition, any email exchanged by a school system employee is public record. Other legal risks of email for Tuscaloosa County School System and/or their network users include the following:

- Sending emails with any libelous, defamatory, offensive, racist or obscene remarks;
- Forwarding emails with any libelous, defamatory, offensive, racist or obscene remarks;
- Forwarding confidential information;
- Forwarding or copying messages without permission or implied permission;
- Knowingly sending an attachment that contains a virus that severely affects another network.

By following the guidelines in this document, the email user can minimize the legal risks involved in the use of email. If any user disregards the rules set out in these guidelines, the user will be fully liable, and Tuscaloosa County School System will disassociate itself from the user as far as legally possible.

- Do not send or forward emails containing libelous, defamatory, offensive, racist or obscene remarks. If you receive an email containing libelous, defamatory, offensive, racist or obscene remarks, promptly notify your supervisor.
- Use caution if you forward a message without implied permission or without acquiring permission from the sender first, especially if it contains sensitive or personal information.
- Do not forge or attempt to forge email messages.

TUSCALOOSA COUNTY POLICY MANUAL

- Do not send email messages using another person's or a bogus email account.
- Do not copy a message or attachment belonging to another user without the permission or implied permission of the originator.
- Do not disguise or attempt to disguise your identity when sending email.

Best Practices

Tuscaloosa County School System considers email as an important means of communication and recognizes the importance of proper email content and of speedy replies in conveying a professional image and in delivering good customer service. The use of email in education, however, is proliferating, and the precise legal issues regarding appropriate use are yet to be determined. We are confident that—

- Any email exchanged by school system employees about individual students is public record.
- Any email pertaining to a particular student is discoverable in a due process situation or other legal action.
- The nature of email lends itself to impulsive, overly informal, and sometimes unprofessional communication.

Therefore, the Tuscaloosa County School System urges users to adhere to the following guidelines:

Guidance on Email between School Employees and Parents/Guardians

Examples of generally **appropriate** use of email between school employees and parents/guardians:

- Teachers invite parents to provide email addresses and then send out emails to those addresses reporting on classroom activities, projects, and assignments. These messages are generic and do not refer to specific students.
- Teachers may initiate or respond to email from a parent or guardian about a specific child, exchanging objective not subjective information such as the student's attendance, participation, homework, and performance in class.

Examples of **inappropriate** use of email between school employees and parents/guardians:

- Using email to report on serious problems regarding individual students.
- Using email to discuss confidential and sensitive matters, including:
 - Medical/psychiatric/psychological diagnoses and treatments;
 - Contents of special education and/or Section 504 evaluations, intervention plans, IEPs, 504 plans, disciplinary matters;
 - Family problems and other sensitive family information.
- Using email language that is subjective, judgmental, unprofessional, pejorative, and/or labeling. Examples:
 - "Have you considered that Johnny might have ADHD?"
 - "Overall, I think that Johnny is unmotivated/lazy."
 - "I don't think there is anything wrong with Johnny except his negative attitude."

Email between teachers and parents should be positive and/or general in nature when possible. Discussions involving serious problems and any and all protected information (medical, psychological, psychiatric, Special Education, Section 504, and disciplinary matters) should occur in person or by telephone.

Parents may initiate inappropriate email exchanges. Example:

"Johnny is in your American history class and is failing. His father is an alcoholic and we are divorced. Johnny has ADHD and clinical depression. Can you please tell me how he is doing in your class and what I can do to help him?"

That kind of message should be deleted, and the teacher receiving it should call the parent who sent it.

Alternately, the teacher could reply to it, deleting everything from the body of the email sent by the parent, and then respond with directions about how the teacher can be reached by telephone or in person.

Guidance on Email between School Employees Concerning Students

Examples of generally **appropriate** use of email between school employees:

- Emails that provide positive information, objective comments, and/or neutral information regarding school performance. In other words, conducting straightforward business, staying away from sensitive and confidential areas.

Examples of **inappropriate** use of email between school employees:

Using email to report on serious problems regarding individual students. Using email to discuss confidential and sensitive matters, including:

- Medical/psychiatric/psychological diagnoses and treatments;
- Contents of special education and/or Section 504 evaluations, intervention plans, IEPs, 504 plans, disciplinary matters;
- Family problems and other sensitive family information.

Using email language that is subjective, judgmental, unprofessional, pejorative, and/or labeling.

Examples:

- "I think Johnny has ADHD."
- "Overall, I think that Johnny is unmotivated/lazy."
- "I don't think there is anything wrong with Johnny except his negative attitude."
- "I think this child's problem is his home life."

Discussions involving severe problems, subjective comments, and any and all protected information (medical, psychological, psychiatric, Special Education, Section 504, and disciplinary matters) should occur in person or by telephone.

General **Best Practices** involving all email are as follows:

Writing emails:

- Use short, descriptive **Subject:** lines.
- Avoid lengthy, detailed email messages. Consider using an attachment for "How To" information, directions, procedures, processes, or similar types of information.
- Avoid unnecessary attachments or large file attachments such as multiple pictures, mini movies, etc. AVOID USING ALL CAPITALS.
- If using cc or bcc feature, take steps to inform the cc or bcc recipient of any action expected unless the action is explicit in the email. The bcc option is often used to avoid revealing recipient email addresses to the entire group receiving the email; otherwise, the bcc option should be used sparingly if at all.
- If you forward emails, state clearly what action you expect the recipient to take.
- Use the spell checker before you send out an email.
- If the content of an email is not of a public nature,
- Consider using another form of communication or
- Protect the information by using a password.
- Only mark emails as important if they really are important.

Replying to emails:

- Emails should be answered within a timely manner, and at minimum employees are expected to check email at least once per work day during their contract term.

- Responses should not reveal confidential information and should be professional.

Newsgroups/ListSers:

Users should exercise caution before subscribing to a listserv, newsletter or news group. This type of email may be overwhelming, and cancelling a newsgroup and/or newsletter subscription is often difficult if not unsuccessful.

Maintenance

- Delete email messages in a timely manner (except for those that are part of a litigation hold situation).
- Print email messages required for documentation.
- Messages in the Deleted Items folder will be automatically removed in 3 days.
- A more frequent manual deletion of items by the individual user is recommended.
- User deleted emails will be permanently purged in 7 days.
- Messages in the Sent Items folder will be removed in 90 days. A more frequent manual deletion of items by the individual user is recommended.
- Emails older than 365 days will be removed from all email folders.
- Email accounts are assigned a mailbox size quota of 500MB. Failure to stay at or below the quota will result in the user being unable to send or receive email.
- Avoid responding to requests in emails that could be “phishing” attempts.
- Avoid opening attachments that are suspicious or mass forwarding virus hoaxes.
- Check with the technology staff when in doubt of the suspicious nature of emails.
- At the discretion of the Director of Technology, maintenance items listed above may be modified for special circumstances or users accounts.

Electronic Social Networking, Instant Messaging including Texting

Electronic social networking and/or instant messaging such as but not limited to Twitter, IM, or texting, among staff and students is a particularly sensitive matter in a time when growing numbers of school employees maintain social networking accounts, email extensively in their personal lives, and are accustomed to using instant messaging services.

An absolute prohibition of communicating electronically with students seems excessive. On the other hand, teachers and school staff must maintain the highest standards should they choose to interact with students through electronic media. Below are some typical situations on which employees might need guidance.

Guidelines below are presented in a Q&A format.

Q: Is it ok for me to initiate electronic communications with a student?

A: If a teacher initiates overly personal contact with students outside of school, whether in person or electronically, he/she may create an impression of an unhealthy interest in students’ personal lives and may leave himself/herself open to an accusation of inappropriate conduct; therefore, caution should be exercised in this type of communication.

Q: What if I receive an email or other electronic message such as a text from a student?

A: This very much depends on the nature of the communication received. Texting, instant messaging, or “chat”-type communication with students for purposes other than school related communications is strongly discouraged. If a communication is received that appears to be a social greeting, an employee might do best just to acknowledge it in an appropriate way at school. A very brief acknowledging

electronic response might be appropriate in some circumstances. However, it is perfectly OK not to respond to such greetings. If an employee chooses not to respond, making an extra effort to greet the student cheerfully at school might be appropriate.

If a student sends a message with disturbing content, an employee should discuss this with his/her administrator or supervisor, including a school counselor in the discussion as needed.

If a student sends a message that appears to suggest an emergency, (an allegation of abuse or a student sharing suicidal thoughts or plans) try to contact an administrator or supervisor at once.

Q: What about Facebook accounts or other social networking sites? Should I respond to an invitation to become a student's "Friend"?

A: We recommend that employees not engage in online social networking with students unless the site is used for school information or academic reasons only. This would only be an issue, of course, if an employee chooses to maintain a Facebook or similar account. If an employee does so, we recommend that he/she be extremely cautious about the content of profiles and pages.

If an employee is strictly using a social networking site for school related topics and stays away from personal content, then these sites should be treated much like any other educational blog. However, the use of comments, "writing on walls," and so on would be likely to lead to major problems if an approval process is not in place before posting. Employees may find that it is easier to simply tell students that they have a policy not to accept students as "friends."

General Email Information

Virus Protection and Filtering

Incoming and outgoing emails sent to or received from the Tuscaloosa County School System exchange email server are scanned for viruses, spam, and content. However, users are expected to exercise caution when opening emails from unknown users or when using the web-based email client from home computers.

Incoming emails may be blocked if the message size is over 5MB or if there are multiple attachments that exceed this amount.

Disclaimer

Tuscaloosa County School System recommends that employees add a disclaimer to outgoing emails or automatically attach a disclaimer such as the one below to each email sent outside the school system. "This email and any files transmitted with it are confidential and intended solely for the use of the individual or entity to which they are addressed. If you have received this email in error please notify the system manager. Please note that any views or opinions presented in this email are solely those of the author and do not necessarily represent those of the Tuscaloosa County School System. Finally, the recipient should check this email and any attachments for the presence of viruses. The school system accepts no liability for any damage caused by any virus transmitted by this email."

System Monitoring

Users must have no expectation of privacy in anything they create, store, send, or receive on the Tuscaloosa County School System computer system. Emails can be monitored without prior notification if the Tuscaloosa County School System deems this necessary. If there is evidence that users are not adhering to the guidelines set out in this policy, the Tuscaloosa County School System reserves the right to take disciplinary action, including termination and/or legal action.

Email Accounts

TUSCALOOSA COUNTY POLICY MANUAL

Email accounts are assigned to new employees when their employment is approved by the Board of Education and when the new employee has read and signed acknowledgement and understanding of the Tuscaloosa County School System Technology Acceptable Usage Policy. All email accounts maintained on the Tuscaloosa County email and Internet communication systems are property of Tuscaloosa County School System. Tuscaloosa County School System maintains student accounts, employee accounts, and employee-sponsored accounts.

Passwords should not be given to other people and should be changed if the user believes his/her password is no longer secure. Email accounts are deleted immediately when employees retire, resign, or leave the school system for a period of six months or more. Only Tuscaloosa County School System employees are given email accounts. Upon request by the administration, Tuscaloosa County School System employee-sponsored accounts, such as PTA accounts, may be created. Employee-sponsored accounts are subject to these guidelines, and it is the responsibility of the sponsoring employee to educate the user of this and all other relevant technology-related policies and guidelines.

Electronic Communications and Internet access for Personal Use

Although Tuscaloosa County School System email and Internet communication systems are meant for school business, Tuscaloosa County School System allows the reasonable use of email and Internet for personal use if certain guidelines are adhered to:

- Personal use of email should not interfere with work.
- Personal emails must also adhere to the guidelines in this policy.
- Personal emails should be deleted regularly so as not to overburden the system.

The forwarding of chain letters, junk mail, inappropriate jokes, and executables is strictly forbidden. Do not send personal mass mailings.

Do not send emails for personal gain, to solicit business for friends, family, etc., or for political purposes.

All messages distributed via the school system's email system including personal emails, are Tuscaloosa County School System property.

Internet use is permitted for personal use by employees as long as the use does not violate any of the rules or regulations of this policy and it does not interfere with the employee's work or job performance. Such permissible examples would include Internet shopping, travel or vacation research, news reports, etc. Please note this form of activity is however logged and could be requested by administration for review.

Questions

If you have any questions or comments about these guidelines, please contact your principal or immediate supervisor. If you do not have any questions, the Tuscaloosa County School System presumes that you understand and are aware of the rules and guidelines and will adhere to them.

Web Page and Web Publishing Guidelines General Web Page Guidelines

Tuscaloosa County School System (TCSS) web pages are developed for curriculum and instructional use, school-authorized activities, or information about the Tuscaloosa County School System and its purpose.

- Text, graphics, audio, and/or video posted on any web-based page such as but not limited

- to web pages, wikis, on-line journals, blogs, Facebook, twitter sites, Moodle pages, Edmodo, glogs, voice threads, etc, qualify as "web pages."
- Web pages, pictures, and/or video/audio must adhere to *Tuscaloosa County School System Technology Usage Policy*.
 - TCSS web pages cannot be used for profit or commercial or political purposes. All posted work must be of publishable quality with regard to spelling, usage, and mechanics. All web page authors are responsible for the maintenance of their own pages, including but not limited to adding new content, updating existing content, and deleting outdated content.
 - All links should be checked regularly to make sure they are current and working. Pages that are not updated in a timely fashion, that contain inaccurate or inappropriate information, that violate copyright laws, or that contain links which do not work will be removed. The author will be notified.
 - Unfinished pages should not be posted until they are fully functional.
 - Staff and/or student work may be published only as it relates to a class project, course, or other school-related activity.
 - Written permission is obtained from the student and guardian via the *Technology Resource Agreement* before posting student work on the Internet.
 - No student's personal information, including but not limited to, phone numbers, email addresses, or mailing addresses may be posted on TCSS web pages.
 - Staff is prohibited from linking to personal blogs, journals, and/or personal web pages from class or organization web pages.
 - Employees should post and use school-sponsored email accounts for communicating with students and/or parents.
 - Web pages are subject to approval by the System Director of Technology and local Administrator and must adhere to the regulations and restrictions established by the Tuscaloosa County School System.
 - At minimum, each school's main page should include the school's name, address, phone number, fax number, and a link to Tuscaloosa County School System main page.
 - Each web page should contain a link back to the previous level in the school's site and a link to the site's main navigational page.
 - Pages that contain time-sensitive information, such as calendars, school events, staff information, etc., should be updated regularly.
 - Unauthorized use of copyrighted material is prohibited.
 - Links to sites that are not accessible inside the network (blocked by school filter) should not be used.
 - The System Technology staff and/or local school Administrator may remove any web page(s) or content that is deemed inappropriate.
 - "Guest books," "chat areas," "message boards," or similar tools must have curriculum value and should be evaluated by and approved by the System Director of Technology and local Administrator prior to use.

Technical Web Publishing Guidelines

- Pages should be sized so they will display properly in a variety of screen resolutions. Pages should be previewed and tested at least at "800 x 600" and "1024 x 768."
- Regular text entries on web pages should be limited to the standard fonts.
- Avoid color schemes or backgrounds that make the information on the page hard to read.
- Colors should be "web safe" as much as possible so that they will display.
- Photos should be sized and named appropriately. Photos should be in .jpeg format.
- Graphics should be used judiciously.

- The publisher may be asked to or the system or school's sub-site web editor may remove albums at any time if space or content becomes an issue.
- Animated GIF files should be used very sparingly and need to be relatively small. The amount, size, and type of graphics used have the most direct effect on the "load time" of web pages.
- Video and audio files may be used when they are appropriate and are compressed properly. They are generally large files that take long "load times" for the user and many times require some users (non-system networked machines) to have special plug-ins or viewers/players in order to view or hear the files.
- Web pages should be easy to navigate and quick to load. Paths of information should be clearly defined while allowing for non-sequential browsing.
- Web pages should not be overcrowded.
- Full screen images and multiple images should be avoided whenever possible.
- Web page content and links should be checked and updated frequently.

Publishing Student Information

- Individual students may be identified by full name unless permission to do so is denied by the parent or guardian in writing on the *Technology Resource Agreement* form. Full names may be used in reporting student participation in school sponsored extracurricular activities, achievements, and other positive recognitions.
- Group photographs of students may be identified by the group name.
- Student photos or videos of students may be posted on the web with parent or guardian permission as indicated on the *Technology Resource Agreement*.
- No other personally identifying information about a student such as email address, phone number, home address, etc., is allowed.

Electronics Purchasing and Disposal Guidelines

This procedure is intended to provide for the proper purchasing and disposal of technology-related electronic equipment (including but not limited to computers, televisions, printers, monitors, fax machines, copiers, cell phones, data projector bulbs, copiers, etc.) hereafter referred to as electronic equipment. For further clarification of the term "technology-related electronic equipment," contact the Tuscaloosa County School System (TCSS) system Director of Technology.

Purchasing Guidelines

All electronic equipment that will be used in conjunction with Tuscaloosa County School System technology resources or purchased, regardless of funding, should be purchased from an approved list or be approved by the system Director of Technology. Failure to obtain approval of properly configured equipment prior to purchase may result in lack of technical support or denied access to technology resources.

All electronic equipment is subject to Alabama bid laws.

All electronic equipment over \$250 should be inventoried in accordance with the Tuscaloosa County School System Finance Department guidelines using the approved Fixed Asset Form. It is the responsibility of the local school Administrator to inventory technology-related equipment used in the local school. The System Technology staff is responsible for ensuring that any network equipment, file servers, and central office computers, printers, etc. are inventoried using the Fixed Asset Form.

Disposal Guidelines

Equipment should be considered for disposal for the following reasons:

- end of useful life;
- lack of continued need;
- obsolescence;
- wear, damage, or deterioration;
- excessive cost of maintenance or repair.

The local school Administrator, System Director of Technology, and the Director of Technology of Finance must approve school disposals by discard or donation. Written documentation including Fixed Asset number, description, and serial number must be provided to the System Technology Office using the appropriate form.

Methods of Disposal

Once equipment has been designated and approved for disposal, it should be handled according to one of the following methods. It is the responsibility of the local school Administrator to modify the appropriate Fixed Asset Form to reflect any in-school transfers, in-system transfers, donations, or discards. The System Technology staff is responsible for modifying the appropriate Fixed Asset Form to reflect any transfers within the central offices, transfers of central office electronic equipment to local schools, central office donations, or central office discards.

Transfer/Redistribution

If the equipment has not reached the end of its estimated life, an effort should be made to redistribute the equipment to locations where it can be of use, first within an individual school or office and then within the system. Service requests may be entered to have the equipment moved and reinstalled and, in the case of computer equipment, to have it re-ghosted and re-installed.

Discard

All electronic equipment in the Tuscaloosa County School System must be discarded in a manner consistent with applicable environmental regulations. Electronic equipment may contain hazardous materials such as mercury, lead, and hexavalent chromium.

A system-approved vendor must be contracted for the disposal of all electronic equipment. The vendor must provide written documentation verifying the method used for disposal and a certificate stating that no data of any kind can be retrieved from the hard drive or any other component capable of storing data.

Under no circumstances should any electronic equipment be placed in the trash. Doing so may make Tuscaloosa County School System and/or the employee who disposed of the equipment liable for violating environmental regulations or laws.

Donation

If the equipment is in good working order but no longer meets the requirements of the site where it is located and cannot be put into use in another part of a school or system, it may be donated upon the written request of the receiving public school system's superintendent or non-profit organization's Director of Technology.

It should be made clear to any school or organization receiving donated equipment that TCSS is not agreeing to and is not required to support or repair any donated equipment. It is donated AS IS.

Before offering donated equipment, TCSS staff should make every effort to ensure that the equipment is in good condition and can be re-used. Microsoft licenses are not transferable outside the Tuscaloosa County School System.

Donations are prohibited to individuals outside the school system or to current faculty, staff, or students of Tuscaloosa County School System. The donation of or sale of portable technology-related equipment is permissible to retiring employees if the following criteria have been met: a) the portable equipment has been used solely by the retiring employee for over two years; b) the equipment will not be used by the employee assuming the responsibilities of the retiring employee; and c) the equipment has reached or exceeded its estimated life. All donations and/or sales must be approved by the Finance Director of Technology and Director of Technology.

Required Documentation and Procedures

For purchases, transfers and redistributions, donations, and disposal of technology-related equipment, it is the responsibility of the appropriate technology team member to create/update the Fixed Asset Form to include previous location, new school and/or room location, and to check the appropriate boxes for transfer or disposal information. When discarding equipment, remove the fixed asset tag from the equipment and attach it to the fixed asset form. Copies of the forms should be sent to the local school bookkeeper or designated system level bookkeeper and a spreadsheet including all relevant information sent to the system technology office.

When equipment is donated, a copy of the letter requesting the equipment should be on file with the System Technology Office prior to the donation.

Any equipment that is being donated should be completely wiped of all data. This step will not only ensure that no confidential information is released but also will ensure that no software licensing violations will inadvertently occur. For non-sensitive machines, all hard drives should be fully wiped using a wiping program approved by the System Technology Office followed by a manual scan of the drive to verify that zeros were written.

Remove any re-usable hardware that is not essential to the function of the equipment that can be used as spare parts: special adapter cards, memory, hard drives, zip drives, CD drives, etc.

A system-approved vendor **MUST** handle all disposals that are not redistributions, transfers, or donations. Equipment should be stored in a central location prior to pick-up. Summary forms must be turned in to the System Technology Office and approved by the Finance Director of Technology prior to the scheduled pick up day. Mice, keyboards, and other small peripherals may be boxed together and should not be listed on summary forms.

Digital Devices During the Administration of a Secure Test

The possession of a digital device (including but not limited to cell phones, MP3 players, cameras, or other telecommunication devices capable of capturing or relaying information) is **strictly prohibited** during the administration of a secure test. If a student is **observed in possession** of a digital device during the administration of a secure test, the device will be confiscated. If a student is **observed using** a digital device during the administration of a secure test, testing for the student will cease, the device will be confiscated and is subject to search, the student will be dismissed from testing, and the student's test will be invalidated. Additional disciplinary action may be taken by the school system.

Guidelines for the Search of Digital Device Seized During the Administration of a Secure Test:

- Assuming that a student is observed in the possession of or use of a digital device during the administration of a secure test, the device will be confiscated by the test administrator. "Smart phones" should temporarily be turned off to help prevent any remote-access data-wipe.

TUSCALOOSA COUNTY POLICY MANUAL

- The test administrator should deliver the device as soon as practicable to a school administrator.
- A "chain of custody" list should be kept to record everyone who had possession of the device and when the device was transferred to someone else. The device should be stored by the school administrator in a secure location until the next step is taken.
- For the purposes of determining whether a search of a digital device should take place, the school administrator should:
 - Learn the facts regarding the seizure of the device from the test administrator, and
 - Determine whether it is reasonable under all the circumstances to believe that the student could have been using the device to cheat or for some other unpermitted purpose.
- If the school administrator determines that the student was merely in possession of the digital device then it may be returned to the student in accordance with the Tuscaloosa County School System's procedure.
- If the school administrator believes that it is reasonable to suspect that the student was using the device for an impermissible purpose then he or she may search the device, limiting the search to only what is necessary to reasonably determine whether the student was cheating, copying secure test information, or violating a school rule.
- The school administrator should follow the local policy requirements regarding the search of student property.
- If no wrongful activity is discovered on the device then it may be returned to the student in accordance with the Tuscaloosa County School System's procedure.
- If wrongful activity is discovered on the device regarding the test at issue or, if other wrongful activity is inadvertently discovered on the device, then the school administrator should secure the device by storing it in a locked and secure location, and then notify the system test coordinator or Superintendent as appropriate.
- Following a search in which wrongful activity is discovered, and when the device is a "smart phone," the device should be turned off after the search to help prevent a potential remote-access data-wipe.
- Any disciplinary actions should be taken in accordance with the school system's disciplinary policy.
- Test irregularity reports should be completed in accordance with the Alabama State Department of Education's student assessment handbook.

The Tuscaloosa County Board of Education is committed to the task of maintaining the highest possible level of professional relations among members of the staff of the school system and of maintaining good morale among employees. Grievances and problems which may arise from time to time should be resolved at the lowest possible level that provides equitable and satisfactory solutions. The goal is to encourage the best possible relations among employees and to enhance morale. Persons who may become concerned in grievance matters are urged to work together constructively in a sincere effort to resolve their disagreements.

Whenever a Tuscaloosa County School System employee believes that he/she has a complaint, every effort is to be made to arrive at a satisfactory resolution of the problem on an informal basis. When this cannot be done, employees can resort to the more formal procedures as provided herein.

Definitions

Dismissals, terminations, transfers and any other procedures already established by law, as well as performance appraisals, including assessments, observations and evaluations, are not subject to the grievance procedures herein described.
- II. **Employee** – The term employee is considered to apply to anyone employed on a full time or part-time basis by the Tuscaloosa County Board of Education, with the exception of the Superintendent.
- III. **Supervisor** – This term refers to that individual assigned to direct the work efforts of a person or group of persons within an organizational element and who has both the authority over and responsibility for management in respect to the functions of a defined organizational element. pay.

XII. Complaint Procedure

- A. Informal Discussion – If an employee believes there is a basis for complaint, he/she shall discuss the complaint with his/her immediate supervisor (except in cases of discrimination or harassment involving the supervisor, in which case the complainant shall report to the Senior Director of Human Resources or other person designated by the Superintendent) within five (5) days of the occurrence of the alleged violation except in cases involving harassment or discrimination in which thirty (30) days will be allowed.
- B. Level One – If the complainant is not satisfied with the informal resolution, he/she may, within ten (10) days, file a formal complaint in writing and deliver it to his/her immediate supervisor or alternate. ANNUAL LEAVE OF ABSENCE

6.70.1

- I. A leave of absence is permission granted by the Tuscaloosa County Board of Education or allowed under its adopted policies for an employee to be absent from duty for a specified period of time with the right to return to employment upon the expiration of leave. Any absence of a member of the staff from duty shall be covered by leave duly authorized and granted. Leave shall be officially granted in advance and shall be used for the purposes set forth in the leave request. Leave for sickness or other emergencies may be deemed to be granted in advance if prompt report is made to the proper authority.
- II. Leave may be with or without pay as provided by law, regulations of the State Board of Education, and these rules. For any absence that is without pay, the deduction for each day of absence shall be determined by dividing the annual salary by the number of days/hours for the employment period.
- III. A leave shall not be granted to any Tuscaloosa County School System employee to accept other employment. Accepting employment while on a leave of absence may cancel the leave. The person on leave may be notified that he/she must return to work with the Tuscaloosa County Board of Education immediately, resign, or be terminated.
- IV. All requests for a leave of absence must be submitted to the Superintendent, in writing, with the additional approval of the employee's direct supervisor. Requests must be received by the Superintendent at least one (1) week prior to a monthly Board meeting. Upon the recommendation of the Superintendent, the Board may grant a leave of absence. Limitations of the leave shall be specified in the action taken by the Board. Only tenured or nonprobationary employees are eligible to request a leave of absence. The Superintendent or the Board may request additional documentation supporting the leave request.
- V. A Tuscaloosa County School System employee having leave for the year or for the remaining part thereof and who plans to return to duty the next school fiscal year shall send a copy of such notice to the administrative supervisor by April 15th of that fiscal year.
- VI. A leave of absence grants the employee the right to return to the system in a similar role, but does not guarantee the reappointment to the specific job held prior to the leave. Alabama teachers' tenure laws cover the specific aspects of leaves of absences and shall be followed in the Tuscaloosa County School System.
- VII. A leave of absence is limited to one (1) year. However, upon a showing of substantial hardship or extraordinary circumstances, the Board may grant a request to extend a leave of absence for one additional year.

MATERNITY LEAVE

6.70.11

An employee of the School System shall be eligible for maternity leave in accordance with the following provisions:

- I. Maternity Leave shall be without pay, except that accumulated sick leave days may be utilized in accordance with the State's sick leave law, i.e., an employee must notify her principal/supervisor on a daily basis when sick leave days are to be used for illnesses associated with pregnancy. However, once the attending physician determines that the employee can no longer perform expected duties and provide a written statement to that effect, sick leave days may be used at the discretion of the employee, i.e., an employee may use any portion of her accumulated sick leave days upon written notification of her principal/supervisor.
- II. Maternity Leave normally shall not extend over a period of time exceeding twelve (12) work weeks during any twelve (12) month period; however, under unusual circumstances additional leave days may be granted by the Board upon the recommendation of the Superintendent.
- III. Maternity Leave shall become effective under ordinary circumstances, when, (a) the employee requests and has such leave approved by the Board, or (b) the attending physician certifies in writing that it is in the best interest of the employee to take such leave; however, should the employee desire to begin maternity leave prior to the time the attending physician certifies in writing that it is in the best interest of the employee to take such leave, the Board, in an effort to protect the educational interest of students and the School System, reserves the right to delay granting of such leave until the next logical break in the academic year, i.e., six week/semester break.
- IV. Maternity Leave ends, under ordinary circumstances, when the employee requests to return to work and/or when the attending physician certifies that the employee is able to return to work. Normally, maternity leave will not extend beyond twelve (12) weeks for child birth. However, additional time may be granted when associated unusual circumstances arise.
- V. Maternity Leave shall not be counted as experience in determining placement on the salary schedule, except an employee who has worked more than one half (1/2) of his/her contract days during that scholastic school year shall be placed on the salary schedule on the step he/she would have reached had he/she completed the entire school year.
- VI. An employee returning to work from an approved maternity leave shall be restored to her former position or a position of like nature, except that a certified employee on returning from maternity leave shall be restored to her former position. Such employee shall maintain her tenure/permanent status or movement toward tenure/permanent status and all accruable benefits, except that days are not to be accrued for sick leave or annual leave while on maternity leave without pay.
- VII. An employee is required to perform all job-related duties outlined in her position description while employed, pregnancy notwithstanding.
- VIII. The Board assumes liability only for the regular safety it provides any employee. Thus, a pregnant employee shall assume liability for injuries she may incur that are outside of the Board's protection.
- IX. Entitlement to maternity leave expires at the end of the twelve (12) month period beginning on the date of such birth.
- X. The Superintendent or designee may require a doctor's statement to verify an employee's fitness to continue working or to return to work.

FAMILY AND MEDICAL LEAVE

6.70.3

- I. An eligible employee of the Tuscaloosa County Board of Education shall be granted up to a total of twelve (12) workweeks of unpaid family and medical leave during any 12-month period for one or more of the following reasons:
 - A. for the birth and care of the newborn child of the employee;
 - B. for placement with the employee of a son or daughter for adoption or foster care;
 - C. to care for an immediate family member (spouse, child, or parent) with a serious health condition; or
 - D. to take medical leave when the employee is unable to work because of a serious health condition.
- II. An eligible employee means one employed with the school system for at least 12 months and who has worked at least 1,250 hours over the previous 12 months.
- III. Spouses employed by the Tuscaloosa County Board of Education are jointly entitled to a combined total of 12 workweeks of family leave for the birth and care of the newborn child, for placement of a child for adoption or foster care, and to care for a parent who has a serious health condition.
- IV. If FMLA is for birth and care or placement for adoption or foster care, use of intermittent leave is subject to the Board's approval. Leave for birth and care or placement for adoption or foster care must conclude within 12 months of the birth or placement.
- V. FMLA leave may be taken intermittently whenever medically necessary to care for a seriously ill family member or because the employee is seriously ill and unable to work. When intermittent leave is needed to care for an immediate family member or the employee's own illness and is for planned medical treatment, the employee must try to schedule treatment so as not to unduly disrupt the employer's operation. When instructional employees seek intermittent leave in connect with a family or personal illness and when such leave would constitute at least twenty (20) percent of the total number of working days in the period during which the leave would extend, the Board may require the employee to take leave in a block (not intermittently) for the entire period or to transfer to an available alternative position with the school system that is equivalent in pay, for which the employee is qualified an best accommodates the intermittent situation. If an employee requests partial leave days for intermittent leave, the Board may require that the leave increment be held to the smallest increment payroll recognizes.
- VI. If an employee has available sick leave, vacation leave, or other applicable paid leave (with the exception of personal leave), the employee must utilize those forms of leave before taking unpaid leave under the FMLA. In that instance, the paid leave and the FMLA leave will run concurrently and the employee's twelve (12) weeks of unpaid FMLA leave will be reduced by the paid leave utilized, as long as the need for such leave results from one or more of the qualifying reasons under the FMLA.
- VII. Because the end of the semester is a critical time for both teachers and students, the following conditions apply to requests from instructional employees seeking to return from leave the last three weeks of the semester:
 - A. If the employee begins any category of FMLA five or more weeks prior to the end of the semester and the leave is more than three weeks, the Tuscaloosa County Board of education may require the employee seeking to return within the last three weeks to wait until the next semester.
 - B. If the employee begins any category of FMLA except personal sick leave less than five weeks before the end of the semester and the period of leave is greater than two weeks, the Tuscaloosa County Board of Education may require the employee seeking to return

within the last two weeks to wait until the next semester.

- C. If the employee begins any category of FMLA except personal sick leave three or fewer weeks before the end of the semester and the period of leave is greater than five working days, the Tuscaloosa County Board of Education may require the employee to wait until the next semester.
 - D. When an instructional employee's leave falls within one of the three categories above, the required additional leave (for example, the last two weeks of the semester in Category A) is considered part of the available twelve-week unpaid leave period per year.
- VIII. "Serious health condition" means an illness, injury, impairment or physical or mental condition that involves either:
- A. Any period of incapacity or treatment connected with inpatient care (i.e., an overnight stay) in a hospital, hospice, or residential medical-care facility, any period of incapacity or subsequent treatment in connection with such inpatient care; or
 - B. Continuing treatment by a health care provider which includes any period of incapacity (i.e., inability to work, attend school or perform other regular daily activities) due to:
 - 1. A health condition (including treatment therefore, or recovery there from) lasting more than three consecutive days, and any subsequent treatment or period of incapacity relating to the same condition that also includes
 - a. treatment two or more times by or under the supervision of a health care provider; or
 - b. one treatment by a health care provider with a continuing regimen of treatment.
 - 2. Pregnancy or prenatal care. A visit to the health care provider is not necessary for each absence; or
 - 3. A chronic serious health condition which continues over an extended period of time, requires periodic visits to a health care provider, and may involve occasional episodes of incapacity (e.g., asthma, diabetes). A visit to a health care provider is not necessary for each absence; or
 - 4. A permanent or long-term condition for which treatment may not be effective (e.g., Alzheimer's, a severe stroke, terminal cancer). Only supervision by a health care provider is required, rather than active treatment; or
 - 5. Any absences to receive multiple treatments for restorative surgery or for a condition which would likely result in a period of incapacity of more than three days if not treated (e.g., chemotherapy or radiation treatments for cancer).
- IX. "Health care provider" means:
- A. Doctors of medicine or osteopathy authorized to practice medicine or surgery by the state in which the doctors practice; or
 - B. Podiatrists, dentists, clinical psychologists, optometrists and chiropractors (limited to manual manipulation of the spine to correct a subluxation as demonstrated by X-ray to exist) authorized to practice, and performing within the scope of their practice, under state law; or
 - C. Nurse practitioners, nurse-midwives and clinical social workers authorized to practice, and performing within the scope of their practice, as defined under state law; or
 - D. Christian Science practitioners listed with the First Church of Christ, Scientist in Boston, Massachusetts; or
 - E. Any health care provider recognized by the employer or the employer's group health plan benefits manager.
- X. Job Restoration
- A. Upon return from FMLA leave, an employee shall be restored to the employee's original job, or to an equivalent job with equivalent pay, benefits, and other terms and conditions

of employment.

- B. In addition, an employee's use of FMLA shall not result in the loss of any employment benefit that the employee earned or was entitled to before using FMLA leave, nor be counted against the employee under a "no fault" attendance policy.
 - C. Under specified and limited circumstances where restoration to employment will cause substantial and grievous economic injury to its operations, the board may refuse to reinstate certain highly-paid "key" employees after using FMLA leave during which health coverage was maintained. In order to do so, the board must:
 - 1. Notify the employee of his/her status as a "key" employee in response to the employee's notice of intent to take FMLA leave;
 - 2. Notify the employee as soon as the board decides it will deny job restoration, and explain the reasons for this decision;
 - 3. Offer the employee a reasonable opportunity to return to work from FMLA leave after giving this notice; and
 - 4. Make a final determination as to whether reinstatement will be denied at the end of the leave period if the employee then requests restoration.
 - D. A "key" employee is a salaried eligible employee who is among the highest paid ten percent of employees of the board.
- XI. Employees seeking to use FMLA leave are required to provide 30-day advance notice of the need to take FMLA leave when the need is foreseeable and such notice is practicable.
 - XII. Employees shall be required to provide medical certification supporting the need for leave due to a serious health condition affecting the employee or an immediate family member. Second or third medical opinions (at the employer's expense) and periodic recertification; and periodic reports during FLMA leave may be required regarding the employee's status and intent to return to work.
 - XIII. The Board will maintain group health insurance coverage for an employee on FMLA leave whenever such insurance was provided before the leave was taken and on the same terms as if the employee has continued to work. Arrangements will need to be made for employees to pay their share of health insurance premiums while on leave. In some instances, the employer may recover premiums it paid to maintain health coverage for an employee who fails to return to work from FMLA leave.
 - XIV. During the FMLA leave period the employee is not entitled to unemployment compensation, even if the leave is unpaid.

DRUG-FREE WORKPLACE

6.72

It is the policy of the Tuscaloosa County Board of Education that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance in the Board's workplace is prohibited. Any employee violating this policy will be subject to disciplinary action, including termination of employment. The specifics of this policy are as follows:

- I. The Board does not differentiate between drug users and drug pushers or sellers. Any employee who gives or in any way transfers a controlled substance to another person or sells or manufactures a controlled substance while on the job or on or in Board property will be subject to disciplinary action, including termination of employment.
- II. The term "controlled substance" means any drug listed in 21 U.S.C., 812 and other federal regulations. Generally, these are drugs which have a high potential for abuse. Such drugs include, but are not limited to, heroin, marijuana, cocaine (including "crack"), and PCP. They also include "legal drugs" which are not prescribed by a licensed physician.
- III. Each employee is required by the Drug-Free Workplace Act of 1988 to inform the Superintendent within five (5) days after he/she is convicted for a violation of any federal or state criminal drug statute where such violation occurred on School Board property. A conviction means a finding of guilt (including a plea of *nolo contendere*) or the imposition of a sentence by a Judge or jury in any federal or state court.
- IV. If an employee is convicted of violating any criminal drug statute while in the workplace, he or she will be subject to disciplinary action, including termination of employment. Alternatively, the Board may require the employee to finish successfully a drug abuse program sponsored by an approved private or governmental institution.
- V. As a condition of further employment on any federal government grant, the Act requires all employees to abide by this policy.

DRUG AND ALCOHOL TESTING**6.80**

In accordance with the Federal Transportation Employee Testing Act of 1993, certain employees involved in the operating of Tuscaloosa County School System owned vehicles on a regular basis are required to submit to drug and alcohol testing. The Board, in compliance with the Act, has adopted the following provisions:

- I. All employees of the School System, including substitutes, who are required to hold a Commercial Drivers License (CDL) as a precondition to employment or to continued employment, will be subject to drug and alcohol testing. Such employees will be prohibited from performing assigned duties while under the influence of any prohibited drug or alcohol. While employees are prohibited from having any alcohol present in their systems while on duty, a Blood Alcohol Count (BAC) of .04 will be accepted as a presumptive evidence of intoxication. An employee who tests between .01 and .039 BAC will be removed from job related functions until they test below .01 or until their next duty period, which must be at least 24 hours.
- II. The proper use of medication prescribed by a physician is not prohibited; however, the Board prohibits the misuse of prescribed (or over-the-counter) medications and requires all employees using drugs at the direction of a physician (or over-the-counter drugs) to notify the Board's Medical Review Officer (MRO), or the employee's supervisor where these drugs may affect their job performance, such as causing drowsiness.
- III. Employees who are required to hold a CDL as a precondition to employment or to continued employment who refuse or do not pass a drug or alcohol test will be recommended for termination or removed from consideration for employment.
- IV. Employees testing positive by urinalysis or alcohol/breathalyzer test or requesting treatment may be referred to a mental health substance abuse counselor for an assessment of needs and possible referral for treatment. All such treatment shall be at the individual employee's expense.
- V. Drug and alcohol testing will include the following categories:
 - A. Pre-employment: (Post-Offer - This is to be interpreted as a conditional offer of employment.) Each person, after a conditional offer of employment has been made, will have to undergo a drug test before being employed in a position that requires the employee to hold the CDL.
 - B. Reasonable Cause Testing: Each employee that is required to hold the CDL as a precondition to employment or to continued employment will be subject to drug and alcohol testing based on reasonable cause as established by a supervisor through the use of objective evidence.
 - C. Post-Accident: Any employee who is required to hold the CDL as a precondition to employment or to continued employment that is involved in a reportable accident will undergo drug and alcohol testing within two (2) hours following any accident.
 - D. Random Testing: All employees required to hold a CDL as a precondition to employment or to continued employment will undergo testing on a random basis. Random testing will be administered in a number equal to or greater than 50 percent (drug screening) and 25 percent (alcohol screening) of the CDL work force, without advanced notice, in the first 12 months of testing. There will be no maximum number of samples that any one employee will be required to provide during the testing period. Employees refusing to be tested may be suspended pending a recommendation for termination.
- VI. Return to Duty Testing: Any employee who is required to hold a CDL as a precondition to employment or to continued employment and tests positive or refuses testing must pass a "Return to Duty Drug Test." In such instance, the Medical Review Officer must determine when and under

TUSCALOOSA COUNTY POLICY MANUAL

what conditions the employee may return to duty. Any employee subject to "Return to Duty Drug Testing" will be subject to random and/or unannounced drug testing for sixty (60) months after return to duty. Follow-up tests for alcohol are unannounced and at least six (6) tests must be conducted in the first 12 months after an employee returns to duty.

- VII. The Medical Review Officer is designated by the Board.
- VIII. Test results will not be released by the Board beyond the MRO without the individual's written authorization.
- IX. Procedures for drug testing shall be distributed to all affected employees. Receipt of Tuscaloosa County School System Drug Free Workplace regulations and procedures shall be acknowledged by employees on signed acknowledgement forms as required for initial and continued employment.

This report must show the number of days worked by each teacher/classified employee and the number of days absent and cause of absences for each monthly reporting period as determined by Payroll Office staff. The report must also show the names of any substitute used, the dates he/she served, and for whom he/she worked.

OVERTIME – NON-SUPERVISORY PERSONNEL**6.87**

It is the intent of the Tuscaloosa County Board of Education for its employees to perform the necessary tasks of their jobs during the regular designated work week.  - A. A "layoff" within the meaning of this policy is a separation from employment with the Tuscaloosa County Board of Education. However, employees who are laid off under this policy are eligible for recall to employment as conditionally provided in this policy. Moreover, layoffs are not terminations within the meaning of the Alabama Teacher Tenure or Fair Dismissal laws and are not subject to the procedural or substantive requirements thereof. The term "layoff" does not include or apply to the expiration of temporary, occasional, or "at-will" appointments or to decisions not to renew or extend employment beyond the expiration of annual or other specified terms of appointment.
- II. Certified Personnel
 - A. The Board, upon the recommendation of the Superintendent, hereby retains the sole and exclusive prerogative to eliminate certified staff positions consistent with the provisions of state statutes and this policy. Elimination of certified staff may result from the following reasons: decreases in student enrollment, changes in curriculum, financial exigency, consolidation, or reorganization of schools. Reduction in force shall be non-punitive and non-discriminatory.
 - B. Definitions:
 1. The term "days" shall mean days excluding Saturday, Sunday, and holidays.
 2. The term "teachers" is as defined by state statutes.
 3. The term "seniority" shall be determined by date of Board approval for employment.
 - C. Prior to commencing action to terminate teacher contracts under this procedure, the Board will attempt to effectuate the reduction in staff by:
 1. Voluntary retirements.
 2. Voluntary resignations.
 3. Voluntary leaves of absence.
 4. Voluntary transfers.
 5. Administration-initiated transfer of existing staff members.
 - D. If a teacher has attained tenured status, his/her contract may be terminated because of elimination of the position to which the teacher was appointed if no other position exists to which the certified employee may be appointed if certified and qualified. No tenured teacher shall be laid off when a position exists which is either vacant or occupied by a non-tenured teacher and for which the tenured teacher is qualified, certified, or immediately certifiable.
 - E. In making staff reduction decisions among non-tenured teachers, the Board will consider all relevant criteria but will place major emphasis upon the following:
 1. Qualification to teach particular subjects, as determined by certification, teaching experience in the subject matter, and educational background.
 2. Length of teaching service in the School System.
 3. Length of total service in education as a certified teacher.
 4. Type of certification, i.e., standard, provisional, etc.
 5. Teaching performance.

The name of any certified employee who for any reason wishes to be removed from the recall list will be posted on a Central Office bulletin board. In addition, if an employee refuses an offer of re-employment in a position for which he/she is certified, his/her name shall be removed from the recall list.
 - H. No new employee shall be hired to fill a position for which an employee on the recall list is qualified and certified or immediately certifiable. In cases where more than one employee on the recall list is qualified, certified, or immediately certifiable for a particular position to be filled, employees with tenure shall be given preference according to (F) above.
 - I. The names of personnel reduced in force shall be placed in a School System employment pool. Said personnel shall be given the opportunity in reverse order of their layoff to fill the first comparable employment vacancies for which they are qualified. Said personnel must accept or reject the offer of re-employment in writing within five (5) working days of receipt of offer. If a person in the employment pool refuses the first offer of re-employment pursuant to this policy, all rights of recall are forfeited.
 - J. No employee who has been laid off shall be entitled to payment or accrual of any compensation or fringe benefits whether or not he/she remains on the recall list. However, an employee who is re-appointed shall be entitled to reinstatement of any benefits earned or accrued at the time of layoff, and further accrual of salary increments and fringe benefits shall resume upon re-employment, except that the earning of tenure status shall be based on state statutes. No years of layoff will be credited as years of service for compensation or retirement purposes.
 - K. It is understood that a layoff is a termination of employment subject to administrative and/or judicial review in the manner set forth in the relevant statutes.
- III. Classified Personnel
- A. The Board, upon the recommendation of the Superintendent, hereby retains the sole and exclusive prerogative to eliminate classified staff consistent with the provisions of this policy. GOVERNMENTAL FUNDS

7.28

The following definitions will be used in reporting activity in governmental funds. The Tuscaloosa County Board of Education may or may not report all fund types in any given reporting period, based on actual circumstances and activity.

- I. The General Fund is used to account for and report all financial resources not accounted for and reported in another fund.
- II. Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.
- III. Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest, even if it is being accumulated for future years' payments. Debt Service Funds should be used to report resources if legally mandated.
- IV. Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Fund balances will be reported in governmental funds under the following five categories using the definitions provided by GASB Statement No. 54:

- I. Nonspendable fund balances include amounts that cannot be spent because they are either
 - A. not in spendable form or
 - B. legally or contractually required to be maintained in-tact. Examples of nonspendable fund balance reserves for which fund balance shall not be available for financing general operating expenditures include: inventories, prepaid items, and long-term receivables.
- II. Restricted fund balances consist of amounts that are subject to externally enforceable legal restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation. Examples of restricted fund balances include: restricted grants.
- III. Committed fund balances consist of amounts that are subject to a purpose constraint imposed by formal action of the Board before the end of the fiscal year and that require the same level of formal action to remove the constraint.
- IV. Assigned fund balances consist of amounts that are intended to be used by the school system for specific purposes. The Board authorizes the Superintendent or Chief School Finance Officer to make a determination of the assigned amounts of fund balance. Such assignments may not exceed the available (spendable, unrestricted, uncommitted) fund balance in any particular fund. Assigned fund balances require the same level of authority to remove the constraint.
- V. Unassigned fund balances include all spendable amounts not contained in the other classifications. This portion of the total fund balance in the general fund is available to finance operating expenditures.

When expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it shall be the policy of the Board to consider restricted amounts to have been reduced first. When an expenditure is incurred for the purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the Board that committed amounts would be reduced first, followed by assigned amounts and then

TUSCALOOSA COUNTY POLICY MANUAL

unassigned amounts.

The Tuscaloosa County Board of Education along with the Superintendent and Chief School Finance Officer will periodically review all restricted, committed, and assigned fund balances. The Chief School Finance Officer will prepare and submit an annual report of all restricted, committed and assigned funds for the Board of Education.

Uniform Guidance for Federal Programs

7.61.1

Federal funds received by the Tuscaloosa County Board of Education, including Child Nutrition Program Funds, are subject to the requirements of the Office of Management and Budget's Uniform Administrative Requirements, Cost Principles and Audit Requirements-Part 200. In accordance with those requirements, the following policies and procedures are hereby established:

Cash Management for Federal Funds

The Board will endeavor to minimize the time between the receipt of federal funds from the United States Treasury, the Alabama Department of Education, or other pass-through entity, and the disbursement of those federal funds. Federal funds will only be requested to meet immediate cash needs for reimbursement not covered by prior receipts and anticipated disbursements that are generally fixed, such as monthly program salaries and benefits. Disbursements will be made within twenty business days after receipt of funds.

The Chief School Financial Officer will maintain financial records that account for the receipt, obligation, and expenditure of each federal program fund. Cash balances for each federal program fund and for the aggregate of all federal program funds will be monitored daily by the Chief School Financial Officer or designee.

Board procedures to minimize the cash balances in federal program funds are expected to prevent the aggregate cash balances of federal program funds from earning \$500 or more for the fiscal year if maintained in interest-bearing accounts. The federal program funds, with the exception of Child Nutrition Program funds, will not be maintained in an interest-bearing bank account if the Chief School Financial Officer determines that banking requirements for minimum or average balances are so high that an interest-bearing account would not be feasible. Federal program funds will be maintained in insured checking accounts that are subject to the state requirements for public deposits under the SAFE program.

Determination of Allowable Costs

Before instituting a financial transaction that will require the expenditure of federal funds the federal program director and the Chief School Financial Officer or designee will determine that the proposed transaction meets the requirements for allowable costs for the federal program. Actions to determine allowable costs will assure that:

- The proposed expenditure is included in the federal program budget;
- The proposed expenditure is reasonable and necessary for the federal program;
- The proposed expenditure is consistent with procedures for financial transactions of the board including:
 - Purchase order approval procedures;
 - Contract review and approval procedures;
 - Applicable competitive purchasing procedures and;
 - Documentation supports allowability of transaction.

Before payments are made from federal funds the federal program director and the Chief School Financial Officer or designee will determine that the federal program expenditure complies with generally accepted accounting principles and complies with state, local, and federal laws, rules, and regulations.

Travel Costs

Travel costs are the expenses for transportation, lodging, subsistence, and related items incurred by board employees who are in travel status on official business of the board. The board's travel policy provides for reimbursement and payments for travel costs of employees paid from federal funds that is consistent with the travel costs for board employees paid from state or local funds.

Conflict of Interest

Generally, a conflict of interest exists when a board member, board employee, or agent of the board participates in a matter that is likely to have a direct effect on his or her personal and financial interests. A financial interest may include, but is not limited to, stock ownership, partnership, trustee relationship, employment, potential employment, or a business relationship with an applicant, vendor, or entity. A board member, board employee, or agent of the board may not participate in his or her official capacity in a matter that is likely to have direct and predictable effects on his or her financial interests.

A board member, board employee, or agent of the board will abide by the Federal and state laws and regulations that address conflict of interest standards. In general, the Federal rules provide that:

No employee, officer, or agent of the board shall participate in selection, or in the award or administration of a contract supported by Federal funds if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs, or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from the firm considered for a contract. The board's officers employees, or agents will neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subcontracts.

The board's conflict of interest policies include adherence to the Alabama Ethics Law, which defines conflict of interest as:

A conflict on the part of a public official or public employee between his or her private interests and the official responsibilities inherent in an office of public trust. A conflict of interest involves any action, inaction, or decision by a public official or public employee in the discharge of his or her official duties which would materially affect his or her financial interest or those of his or her family members or any business with which the person is associated in a manner different from the manner it affects the other members of the class to which he or she belongs.

A board member, board employee, or agent of the board may not review applications, proposals, or participate in the evaluation or selection process where his or her participation in the review process

would create the appearance that he or she is: (a) giving preferential treatment; (b) losing independence and impartiality; (c) making decisions outside official and appropriate channels; or (d) harming the public's confidence in the integrity of the board.

Situations and circumstances presenting an actual conflict of interest or the appearance of a conflict of interest should be brought to the immediate attention of the superintendent. A board employee, board member, or agent of the board who has knowledge of a possible conflict of interest should identify the conflict and notify the superintendent. The superintendent will document his or her actions related to the reported conflict of interest. Resolution can consist of disqualification, recusal, waiver, or other appropriate measures. Appropriate measures may include reporting a conflict of interest to the State Ethics Commission, the Alabama State Board of Education, or the appropriate federal agency.

Procurement of Property and Services

The board will follow state laws for the procurement of property and services. The primary state procurement laws for Alabama school boards are:

- *Alabama Competitive Bid Laws (Chapter 13B of Title 16, Code of Alabama 1975);*
- *Joint Information Technology Purchasing Agreement (Chapter 13B of Title 16, Code of Alabama 1975); and,*
- *Public Works Law (Title 39, Code of Alabama 1975).*

To the extent allowed by state laws, the board will utilize state, local, regional, and national purchasing agreements where appropriate for the procurement or use of goods and services. All procurement transactions are subject to the board's *Conflict of Interest* provisions and the procurement decisions of the board will:

- Avoid acquisition of unnecessary or duplicative goods and services;
- Use the most economical and efficient approach for acquisitions;
- Award acquisition contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of the proposed procurement;
- Consider contractor integrity, compliance with public policy, record of past performance, and financial and technical resources prior to awarding procurement contracts;
- Maintain records sufficient to document the history of the procurement; and,
- Conduct procurement transactions in a manner that provides full and open competition.

Procurement transactions for federal programs and child nutrition programs that are not subject to the state procurement laws, but exceed the aggregate amount of the federal micro-purchase threshold, will be obtained by utilizing price or rate quotes from two or more qualified sources. State procurement laws include requirements that comply with the other Uniform Administrative Requirements for procurement of property and services.

The board will request proposals for those professional service contracts (excluding architectural and engineering services) that are exempt under state procurement laws if the contracts exceed \$150,000 and will be paid from federal or child nutrition program funds. The board will utilize a team of three or

TUSCALOOSA COUNTY POLICY MANUAL

more qualified individuals to conduct a technical evaluation of proposals received and for selecting recipients. As a part of the evaluation, the individuals on the evaluation team will sign an assurance that each of the individuals is in compliance with the board's conflict of interest policy.

This policy also establishes an indirect rate cap for research conducted and grant sharing through institutional partnerships with the Tuscaloosa County School System (TCSS).

Indirect Cost Reimbursement - TCSS

All Board grant applications shall abide by the appropriate indirect costs using the rates established by the Alabama State Department of Education and published through the Indirect Cost Proposal for the given fiscal year.

The Alabama State Department of Education (SDE) has, in cooperation with the U.S. Department of Education, developed an indirect cost plan to be used by LEAs in Alabama. The SDE has been delegated the authority by the U.S. Department of Education to review indirect cost proposals and to approve indirect cost rates for LEAs (Education Department General Administrative Regulations (EDGAR) 34 CFR 75.561 (b)). OMB Title 2 CFR Part 200, Subpart E requires that all expenditures of an LEA be included in the preparation of an indirect cost plan. The SDE submits the proposed methodology to be used by LEAs when applying for rates to the U.S. Department of Education for its approval. LEAs then submit indirect cost proposals annually to the SDE for approval of new rates.

Indirect Cost Rate Agreement – Partnerships

From time-to-time TCSS will partner with an organization such as a local university or nonprofit.

Waived Indirect Costs – To work with TCSS, all partnering organization will elect not to request recovery of indirect costs. Recipients, subrecipients and partnering agencies are prohibited in charging TCSS an indirect cost expenditure. The applicant should write None Requested in the space allotted of the budget sheet.

Any exception to this procedure requires the approval of the Superintendent.

UNPAID MEAL CHARGES

8.42

Families are encouraged to complete meal benefits applications to determine eligibility for free or reduced meals for students. Neither students nor adults will be allowed to charge meals or la carte items. It is the responsibility of the parent/guardian to ensure that sufficient funds are available to pay for meals and extra items. All debt must be paid by the end of the school year.

Parents/Guardians of students who do not have sufficient funds will receive an email notification via an automated system when the lunch account for the student goes into a negative balance, with the notification generated and sent within 24-72 hours of this occurrence. Cafeteria Managers, Principals and their designees may also contact parents/guardians regarding student lunch account balances.

Adults are not allowed to charge or carry a negative balance for any food item.

It is a violation of federal policy for the Child Nutrition Program to carry a negative balance, therefore:

- Each School will set up a school debt account using non-public funds.
- Students charges will be monitored by the building principal.
- To ensure federal compliance; all debts are to be paid at the end of the 9-week reporting period either by the parent/guardian; or if circumstances warrant, the debt is to be paid from the school debt account.
- The principal and CNP manager will determine in what circumstances the school debt account is to be used.
- When using the school debt account, the CNP manager will use the POS software to make a note on the students account stating the amount drawn from the school debt account. A report will be generated for the building principal.
- When the school debt account is used, the Principal will then treat the debt as an unpaid school fee. Parents/guardians will be notified when this occurs.
- As the school debt account is depleted, the Principal will add funds.

Damages include the loss of sensitive or confidential data, intellectual property, damage to public image, or damage to critical Tuscaloosa County Board of Education internal systems, etc.

Scope

This policy applies to all Tuscaloosa County Board of Education employees, contractors, vendors, and agents where a computer workstation or network capable device is used to connect to the Tuscaloosa County Board of Education network. This policy applies to all remote access connections to the Tuscaloosa County Board of Education network including those remote access connections used to do work on behalf of the Tuscaloosa County Board of Education, including reading or sending email and viewing intranet web resources. Remote access implementations that are covered by this policy include, but are not limited to, dial-in modems, frame relay, ISDN, DSL, VPN, SSH, and capable modems, etc.

Policy

It is the responsibility of the Tuscaloosa County Board of Education employees, contractors, vendors and agents with remote access privileges to the Tuscaloosa County Board of Education corporate network to ensure that their remote access connection is given the same consideration as the user's on-site connection to the Tuscaloosa County Board of Education. General access to the Internet for recreational use by immediate household members through the Tuscaloosa County Board of Education Network on personal computers is not permitted. The Tuscaloosa County Board of Education employee is responsible to ensure that family members do not violate any Tuscaloosa County Board of Education policy, do not perform illegal activities, and do not use the network access for outside business interests. The Tuscaloosa County Board of Education employee bears responsibility for the consequences should the access be misused.

Requirements

- I. Secure remote access must be strictly controlled. Control will be enforced via one-time password authentication or public/private keys with strong pass-phrases.
- II. At no time should any Tuscaloosa County Board of Education employee provide their login password to anyone, not even family members.
- III. Tuscaloosa County Board of Education employees and contractors with remote access privileges must ensure that their Tuscaloosa County Board of Education owned or their personal computer or workstation, which is remotely connected to the Tuscaloosa County Board of Education corporate network, is not connected to any other network at the same time, with the exception of personal networks that are under the complete control of the user.
- IV. Tuscaloosa County Board of Education employees and contractors with remote access privileges to the Tuscaloosa County Board of Education corporate network must not use non-Tuscaloosa County Board of Education email accounts (i.e., Hotmail, Yahoo, AOL), or any other external resources to conduct Tuscaloosa County Board of Education business, thereby ensuring that official business is never confused with personal business.

- VIII. Organizations or individuals who wish to implement non-standard remote access solutions to the Tuscaloosa County Board of Education production network must obtain prior approval from the Tuscaloosa County Technology Operations Department.

Enforcement

Any employee found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.

Technical Support

Technical support for home users will not be supported after hours. Limited technical support will be provided for home users by the Technology Operations Department during established working hours but will not receive priority over school or government offices.

Release

Remote access users agree to be bound by this agreement unless written notification is provided to the Tuscaloosa County Board of Education, Human Resources Department. Non-acceptance of this agreement will deny access for home usage. Users of this agreement also accept to hold harmless agents of Tuscaloosa County Board of Education and agree to accept remote access “as is” with no warranty for server-ability or usage.

Term Definitions

- Remote User – Individuals or Administrators with proper security credentials that access the Tuscaloosa County Board of Education network from remote locations via the Internet, using secure protocols (i.e. Home users)
- Cable Modem – Cable companies such as AT&T Broadband provide Internet access over Cable TV coaxial cable. A cable modem accepts this coaxial cable and can receive data from the Internet at over 1.5 Mbps. Cable is currently available only in certain areas.
- Challenge Handshake Authentication Protocol (CHAP) – CHAP is an authentication method that uses a one-way hashing function. DLCID Data Link Connection Identifier (DLCI) is a unique number assigned to a Permanent Virtual Circuit (PVC) end point in a frame relay network, and has local significance only to that channel. Dial-in Modem-A is peripheral device that connects computers to each other for sending communications via the telephone lines. The modem modulates the digital data of computers into analog signals to send over the telephone lines, then demodulates back into digital signals to be read by the computer on the other end; thus the name “modem” for modulator/demodulator.
- Dual Homing – Dual homing is having concurrent connectivity to more than one network from a computer or network device. Examples include: Being logged into the corporate network via a local Ethernet connection, and dialing into AOL or another Internet service provider (ISP); being on a Tuscaloosa County Board of Education provided remote access home network, and connecting to another network, such as a spouse’s remote access. Configuring an ISDN router to dial into the Tuscaloosa County Board of Education and an ISP, depending on packet destination.

WELLNESS**8.62**

In continuance of its commitment to fostering healthy nutritional and physical habits that support student achievement and that promote the development of lifelong health and wellness, the Tuscaloosa County School System endorses the following programs, practices, and activities:

Nutrition Education and Promotion – Nutrition education that teaches the knowledge, skills, and values needed to develop healthy eating behaviors and nutrition promotion that promotes and reinforces student health will be integrated into the curriculum and offered throughout school campuses. The school environment should be aligned with healthy school goals to positively influence a student's understanding and habits as they relate to good nutrition and regular physical activity. TCSS will proactively comply with all federal and state nutrition and physical activity regulations.

Nutrition Standards – Schools will participate in available school meal programs. Child nutrition professionals will receive training consistent with USDA standards to assist them in providing students with access to a variety of affordable, nutritious, and appealing foods, and will provide a clean, safe, and pleasant dining experience. School staff will ensure students have adequate time to eat and access to free drinking water during meals and during the school day. All foods and beverages sold at school during school day will meet or exceed the nutrition standards identified by USDA and the State of Alabama Board of Education. Foods and beverages that are not part of the school meal program will not be sold within one hour of school meals. The applicable USDA Meal Standards and USDA Smart Snack Standards will be followed.

Physical Education and Physical Activity Opportunities – TCSS will offer physical education opportunities that include the components of a sound physical education program. Physical education will equip students with the knowledge, skills, and values necessary to maintain healthful lifelong physical activity. Physical education instruction will be aligned with the curriculum. All students will be provided the opportunity to participate regularly in supervised physical activities that are intended to maintain physical fitness and to impart the benefits of maintaining a physically active and healthy lifestyle.

Other School-Based Activities Designed to Promote Student Wellness – TCSS is committed to providing school environments that promote and protect children's health, well-being, and ability to learn by supporting healthy eating and physical activity. All foods and beverages utilized as fundraisers during the school day must be Smart Snack Compliant or have an exemption form completed. Schools are allowed thirty exemptions per school year. The completed Exempt Fundraisers Form must be kept on file at the school and with the Child Nutrition Program Director. Class parties and celebrations which involve foods and/or beverages provided to students during the school day are encouraged to include Smart Snack compliant items, such as fresh fruit, vegetables, and water. Schools should market healthy foods and beverages during the school day that are Smart Snack compliant. The school system will engage stakeholders such as students, parents, teachers, school representatives, board members, and community members in developing, implementing, monitoring, and reviewing nutrition and physical activity policies. Stakeholders may contact schools to increase participation in the development, review, or implementation of the wellness policy. The school's local wellness leader, in conjunction with the Child Nutrition Program Director, will periodically monitor and review the wellness policy. An assessment of the wellness policy will

occur at least every three years and be posted on the school system's website. All students will have opportunities to be physically active on a regular basis during the school day.

Administrative Implementation – TCSS shall annually approve a free and reduced-price meal program. Applications for Free and Reduced priced meal benefits are available on the district website or at the local school. The district shall ensure that students qualifying for free or reduced priced meal benefits are not overtly identified. It is the expectation that faculty and staff shall support the food service program and encourage children to eat a well-balanced meal each day. School employees are strongly encouraged to model healthy behaviors for students, including healthy eating and physical activity. Teachers are discouraged from using food as a reward or punishment.

The Superintendent is authorized to develop and implement administrative rules and directives that are consistent with this policy and to oversee the implementation and periodic review and update of the wellness policy based on input from teachers (including specialists in health and physical education), school nurses, parents and guardians, students, representatives of the school food service program, school board members, school administrators, and the public.

RECORDS RETENTION AND DISPOSAL

8.80

Document Preservation Plan and Litigation Hold for Electronic Records

The Board shall adopt a document preservation plan to ensure that when a lawsuit is filed or reasonably anticipated, it takes special precautions to prevent the loss of potentially-relevant electronic data. Electronic data includes all forms of electronic communications and records such as email, word processing, calendars, voice messages, videos, photographs and other digital information.

When a lawsuit is filed or reasonably anticipated, a litigation hold shall be issued to appropriate individuals, which shall define and identify records to be preserved and direct that the records be preserved and how to do so. A person receiving a litigation hold has a duty to preserve all records, whether existing or later created, in the person's possession or scope of responsibility that are identified in the litigation hold, effective immediately. A litigation hold suspends any board or divisional policies or procedures that might call for the destruction of electronic records under the recipient's control and protects and preserves all electronic records in their original electronic form. The board's duty to preserve records shall continue until the litigation, or the threat of litigation that prompted the litigation hold has ended.

After a lawsuit is filed and when the board receives a request from an opposing party for production of electronic records, the board's counsel and the board will determine the best approach to take in order to efficiently produce a complete and accurate response.
