2024 - 2025

We believe in an educational based athletic program and approach. The chances for success in school, and eventually the workplace are grounded in being present at school and in class (and eventually your workplace). School is the training ground to prepare students for academic and future success in life.

We believe the more our athletes are in class, the more they will learn and that higher grades and academic achievement will follow.

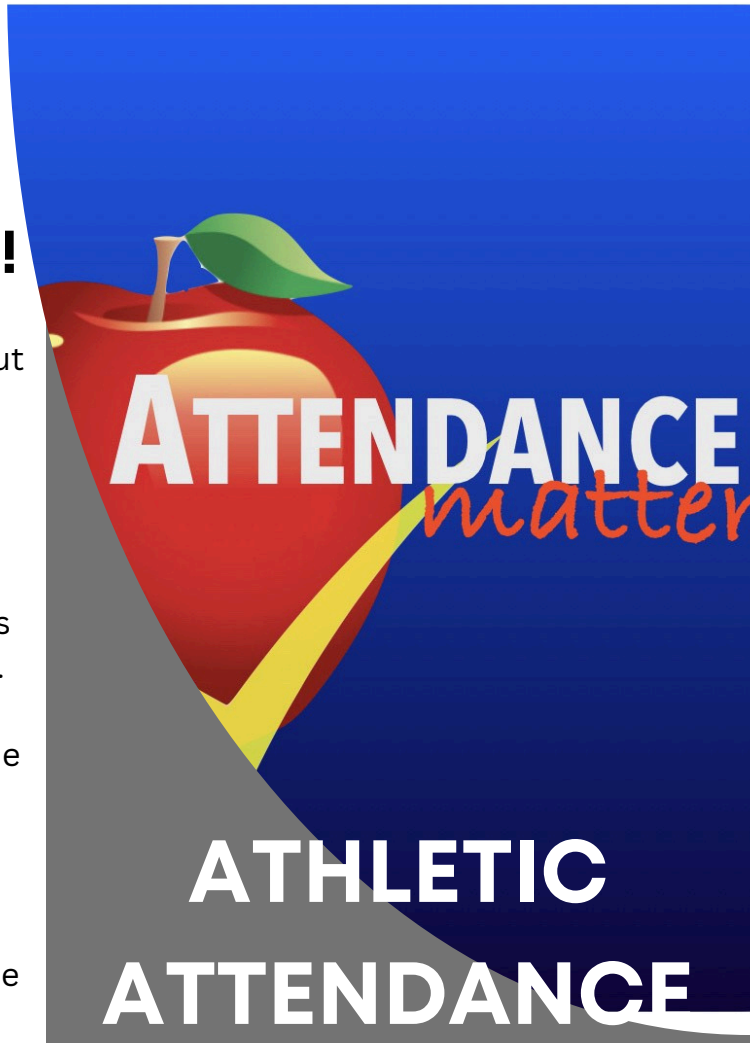

ATTENDANCE MATTERS ALL YEAR LONG!

Athlete attendance will also be tracked out of season.

Out of season attendance is the time between the first day of school and Monday of the first day of practice for winter & spring sports and consequences will be implemented during your season.

Out of season is also the time between the last competition and the last day of the school year. For fall sport athletes consequences will be implemented the following season. For some winter and spring athletes it may be implemented the following year depending on when absences occur.

10 – 18 unexcused out of season absences	**Athlete will start next season at Level 1 in consequences and absences**
19 or more unexcused out of season absences (10% or more of the school year.)	Athlete will start next season at Level 2 in consequences and absences
