Purpose and Mission of the Council: A local school health advisory council has been established to assist the District in ensuring that local community values and health issues are reflected in the District's health education instruction. A majority of members must be parents of students enrolled in the District and who are not employees of the district. One or classroom teachers, campus administrators, students, health-care professionals, members of the business community, law enforcement representatives, senior citizens, clergy, representatives of nonprofit health organizations, or representatives of another group may serve. See BDF(LEGAL) and EHAA(LEGAL). The council meets four times per year (twice per semester).
