The International School of San Francisco makes every effort to limit additional fees to voluntary or extracurricular activities, as well as certain consumables. These charges will be billed monthly.

Financial Aid. Limited funds are available each year to provide financial assistance to families that have demonstrated a financial need. Application forms are available on our website: www.internationalsf.org under Admissions. All information submitted is handled confidentially. Families should inquire about this option as soon as they apply to the School due the limited time frame to submit requests.

French National Scholarships. French nationals may be eligible for scholarships offered by the French Government. Requests must be submitted by the deadline determined by the French Consulate. For information, contact the French Consulate at **415-616-4920** or visit their website at www.consulfrance-sanfrancisco.org

The Business Office Staff is available to answer questions and offer assistance with payment options and funding alternatives, as well as in resolving billing matters related to student accounts. For information regarding financial assistance programs and payment plans, please contact: **Business Office** • **415-558-2032** • Fax: **415-558-2033** • or admins@internationalsf.org

Tuition is prorated on a monthly basis if a student joins International after the beginning of the academic year. Payments normally due by this date must accompany the enrollment agreement.

Please note that the only installment method of payment accepted by the Business Office for tuition and fees is through automated monthly withdrawals from a checking, savings or credit card account.

Should there be a failure to maintain timely payments per the financial arrangements agreed upon with The International School of San Francisco, finance charges may be assessed on any past due balance. A \$20 charge will be assessed for each returned check. On the first day of school, a student may not be admitted to class unless at least 20% of the annual tuition, and the Enrollment Fee (if applicable) have been paid. Students may not be reenrolled for the following school year while there are delinquent amounts outstanding.
