

- Using the OPS Windows Computer -

The OPS (Windows) computer is built into the Promethean ActivPanel and can be used to access all of your apps and content just like on your work laptop. Simply logon to the OPS computer with your district credentials and you will have everything at your fingertips, including your OneDrive files that sync from your laptop.

Step 1: Press the Source button in the unified menu or on the panel tray and press OPS.

Step 2: Swipe up to get the login screen and press "Other User".

Step 3: Use the Wireless Keyboard to login just like on your laptop. The switch is on the side.

Step 4: Once logged in, you will see your desktop emerge, Microsoft Teams will load and OneDrive will begin to sync your files. 😊
