

Charging Tower

30% of students come to class without a fully charged device. Charging devices in the classroom is not always convenient. Learning is put on pause when devices in the classroom cannot be conveniently charged.

To ensure safety standards, please do not plug the power tower to the Promethean Interactive Panel. 2 power strips connected is considered “Daisy Chaining” Read more on power strip safety - [ADA Compliance OSHA](#)

Value add

- **Versatile**

Nest the mobile charging station between a group of desks or easily move it everywhere in the classroom. The CUBE Tower™ adapts to the needs of the classroom.

- **The Beacon**

Inspiring classroom learning, the beacon allows educators to visibly see when the charging station is ready for use, charging classroom devices.

- **8 Outlets**

With 8 AC outlets on one CUBE Tower™, the mobile charging station can maximize power throughout the classroom, providing ultimate Active Charging™.

- **Charging Everywhere**

Educators can use the 20 ft. power cord to move the CUBE Tower™ everywhere in the classroom. There is no need to feel tied down to a wall outlet anymore.
