

STAY INVOLVED: KEEP YOUR CHILDREN SAFE ONLINE

Monitor Your Child's Social Media and Online Activity with These Apps

What to Know

In today's digital world, children and teens are spending more time on social media than ever before. As parents, it's crucial to stay informed and take an active role in monitoring their online presence, especially on apps like Snapchat. Below are some tools that can help you ensure your child's online safety. Simply scan the QR codes to learn more and download these apps.

Family Time

Enables app monitoring, social media control, and time management for children.

EyeZy

Specializes in tracking private conversations on Snapchat and other platforms.

Bark

Monitors social media, emails, texts, and alerts parents to potential risks.

mSpy

Tracks messages, calls, GPS, and Snapchat activity for deeper insights into social interactions.

Qustodio

Offers social media monitoring, app control, and time limits.

Norton Family

Controls social media access and filters inappropriate content.

Net Nanny

Allows parents to set app limits and block inappropriate social media content.

MMGuardian

Monitors Snapchat, calls, and messages while providing web filters and location tracking.

Its Time to Get Involved

Take action today by downloading one of these tools to help monitor your child's online activities. Together, we can ensure that their time online is safe, productive, and positive.
