

Instructional Personnel Evaluation System

Updated May 2024

Purpose

The purpose of this document is to provide the district with a template for its instructional personnel evaluation system that addresses the requirements of Section 1012.34, Florida Statutes (F.S.), and Rule 6A-5.030, Florida Administrative Code (F.A.C.). This template, Form IEST-2023, is incorporated by reference in Rule 6A-5.030, F.A.C., effective November 2023.

Instructions

Each of the sections within the evaluation system template provides specific directions but does not limit the amount of space or information that can be added to fit the needs of the district. Where documentation or evidence is required, copies of the source documents (e.g., rubrics, policies and procedures, observation instruments) shall be provided at the end of the document as appendices in accordance with the Table of Contents.

Before submitting, ensure the document is titled and paginated.

Submission

Upon completion, the district shall email this form and any required supporting documentation as a Microsoft Word document for submission to DistrictEvalSysEQ@fldoe.org.

Modifications to an approved evaluation system may be made by the district at any time. Substantial revisions shall be submitted for approval, in accordance with Rule 6A-5.030(3), F.A.C. The entire template shall be sent for the approval process.

Appendix E – Summative Evaluation Forms	67

Part I: Evaluation System Overview

Wakulla County School District (WCSB) Teacher Evaluation Program details the procedures for the instructional personnel evaluation system addressing the requirements of Section 1012.34, Florida Statutes (F.S.), and Rule 6A-5.030, Florida Administrative Code (F.A.C.). Instructional personnel receive an annual summative evaluation based on a combination of observational data (Instructional Practice Score), student performance data (Student Performance Score), and Deliberate practice. The purpose of the teacher evaluation system is to increase student learning performance by improving the quality of instructional, administrative, and supervisory service.

Part II: Evaluation System Requirements

System Framework

- ☒ The evaluation system framework is based on sound educational principles and contemporary research in effective educational practices.
- ☒ The observation instrument(s) to be used for classroom teachers include indicators based on each of the Florida Educator Accomplished Practices (FEAP) adopted by the State Board of Education.
- ☒ The observation instrument(s) to be used for non-classroom instructional personnel include indicators based on the FEAP, and may include specific job expectations related to student support.

Training

- ☒ The district provides training programs and has processes that ensure
 - Employees subject to an evaluation system are informed of the evaluation criteria, data sources, methodologies, and procedures associated with the evaluation before the evaluation takes place; and
 - Individuals with evaluation responsibilities and those who provide input toward evaluations understand the proper use of the evaluation criteria and procedures.

Data and Reporting

- ☒ The district provides instructional personnel the opportunity to review their class rosters for accuracy and to correct any mistakes.
- ☒ The district school superintendent annually reports accurate class rosters for the purpose of calculating district and statewide student performance, and the evaluation results of instructional personnel.
- ☒ The district may provide opportunities for parents to provide input into performance evaluations, when the district determines such input is appropriate.

District Procedures

- ☒ The district acknowledges that its established evaluation procedures set the standards of service to be offered to the public within the meaning of section 447.209, F.S., and are not subject to mandatory collective bargaining.
- ☒ The district's system ensures all instructional personnel, classroom and non-classroom, are evaluated at least once a year.
- ☒ The district's system ensures all newly hired classroom teachers are observed and evaluated at least twice in the first year of teaching in the district. Each evaluation must include indicators of student performance; instructional practice; and any other indicators of performance, if applicable.
- ☒ The district acknowledges that the instructional practice evaluation procedures and criteria under section 1012.34, F.S., do not preclude a school administrator from visiting and observing classroom teachers throughout the school year for the purposes of providing mentorship, training, instructional feedback, or professional learning.
- ☒ The district's system identifies teaching fields for which special evaluation procedures or criteria are necessary, if applicable.
- ☒ The district's evaluation procedures comply with the following statutory requirements in accordance with section 1012.34, F.S.
 - The evaluator must be the individual responsible for supervising the employee; the evaluator may consider input from other personnel trained on the evaluation system.
 - The evaluator must provide timely feedback to the employee that supports the improvement of professional skills.
 - The evaluator must submit a written report to the employee no later than 10 days after the evaluation takes place.
 - The evaluator must discuss the written evaluation report with the employee.
 - The employee shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file.
 - The evaluator must submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract.
 - The evaluator may amend an evaluation based upon assessment data from the current school year if the data becomes available within 90 days of the end of the school year.

Use of Results

- ☒ The district has procedures for how evaluation results will be used to inform the
 - Planning of professional learning; and
 - Development of school and district improvement plans.
- ☒ The district's system ensures instructional personnel who have been evaluated as less than effective are required to participate in specific professional learning programs, pursuant to section 1012.98(11), F.S.

Notifications

Instructional Evaluation System

- ☒ The district has procedures for the notification of unsatisfactory performance that comply with the requirements outlined in section 1012.34(4), F.S.
- ☒ The district school superintendent shall annually notify the Department of Education of any instructional personnel who
 - Receive two consecutive unsatisfactory evaluation ratings; or
 - Are given written notice by the district of intent to terminate or not renew their employment, as outlined in section 1012.34(5), F.S.

District Self-Monitoring

- ☒ The district has a process for monitoring implementation of its evaluation system that enables it to determine the following:
 - Compliance with the requirements of section 1012.34, F.S., and Rule 6A-5.030, F.A.C.;
 - Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability;
 - Evaluators provide necessary and timely feedback to employees being evaluated;
 - Evaluators follow district policies and procedures in the implementation of evaluation system(s);
 - Use of evaluation data to identify individual professional learning; and,
 - Use of evaluation data to inform school and district improvement plans.

Part III: Evaluation Procedures

In Part III, the district shall provide the following information regarding the observation and evaluation of instructional personnel. The following tables are provided for convenience and may be customized to accommodate local evaluation procedures.

1. Pursuant to section 1012.34(3)(b), F.S., all personnel must be fully informed of the criteria, data sources, methodologies, and procedures associated with the evaluation process before the evaluation takes place. In the table below, describe when and how the following instructional personnel groups are informed of the criteria, data sources, methodologies, and procedures associated with the evaluation process: classroom teachers, non-classroom teachers, newly hired classroom teachers, and teachers hired after the beginning of the school year.

Instructional Personnel Group	When Personnel are Informed	Method(s) of Informing
Classroom and Non-Classroom Teachers	Annually	Annual review, board approval process, administration training, manual posted on website.
Newly Hired Classroom Teachers	Annually	Annual review, new teacher orientation, administration training, manual posted on website.
Late Hires	Annually	Annual review, new teacher orientation, administration training, manual posted on website

2. Pursuant to section 1012.34(3)(a), F.S., an observation must be conducted for each employee at least once a year, except that a classroom teacher who is newly hired by the district school board must be observed at least twice in the first year of teaching in the school district. In the table below, describe when and how many observations take place for the following instructional personnel groups: classroom teachers, non-classroom teachers, newly hired classroom teachers, and teachers hired after the beginning of the school year.

Teacher Categories

Category I teacher: first three (3) years of hire within the district

Category II teacher: any member of the bargaining unit, not in Category I.

Instructional Practice Score

The Instructional Practice Score (IPS) is derived from evidence collected through formal observations. The below table articulates the frequency and timing for these observations:

Instructional Personnel Group	Number of Observations	When Observations Occur	When Observation Results are Communicated to Personnel
Classroom and Non-Classroom Teachers—Category II			
Category II teacher	1 Formal 2 walk throughs	Formal: 1 per school year Walk through: At least 1 per semester	All Observations are recorded in iObservation and immediately accessible to the teacher.
Classroom and Non-Classroom Teachers- Category I			

Instructional Evaluation System

Category I Teacher: hired before the beginning of the school year	2 Formal 4 Walk through	Formal: At least 1 per semester Walk through: 2 per semester	All Observations are recorded in iObservation and immediately accessible to the teacher.
Category I teacher: hired after 1 st quarter	2 Formal 3 Walk through	Formal: At least 1 per semester Walk through: 1 per quarter	All Observations are recorded in iObservation and immediately accessible to the teacher.
Category I teacher: hired after 2nd quarter	1 Formal 2 Walk Through	Formal: At least 1 per semester Walk through: 1 per quarter	All Observations are recorded in iObservation and immediately accessible to the teacher.
Category I Teacher: hired after 3 rd quarter	1 formal	By May 15th	All Observations are recorded in iObservation and immediately accessible to the teacher.

Instructional Evaluation System

3. Pursuant to section 1012.34(3)(a), F.S., a performance evaluation must be conducted for each employee at least once a year, except that a classroom teacher who is newly hired by the district school board must be evaluated at least twice in the first year of teaching in the school district. In the table below, describe when and how many summative evaluations are conducted for the following instructional personnel groups: classroom teachers, non-classroom teachers, newly hired classroom teachers, and teachers hired after the beginning of the school year.

For newly hired beginning teachers, their first evaluation score is calculated at the midpoint of the year (no later than February 1). This is based on one-third Instructional Practice Score, one-third Deliberate Practice Score, and one-third Student Performance Score.

Instructional Personnel Group	Number of Evaluations	When Evaluations Occur	When Evaluation Results are Communicated to Personnel
Classroom and Non-Classroom Teachers (Category II)			
Hired before the beginning of the school year	1	Instructional Practice Score (IPS) and Deliberate Practice Score (DPS) rating due by May 30 th The overall evaluation is broken up into three parts: Instructional practice score, deliberate practice score, and student performance score Summative Evaluation ratings by June 30th each year.	Summative evaluations results are shared with teachers by May 30th of each year for their IPS and DPS rating. The Summative Evaluation rating is the teacher's final evaluation that consists of all elements within our evaluation system and is what is used to calculate Pay for Performance incentives.
Hired after the beginning of the school year	1	Same as above	Same as above
Newly Hired Classroom Teachers (Category I)			
Hired before the beginning of the school year	2	Mid-Year Scores will be calculated and reviewed at the Mid-Year Conference. Instructional Practice score (IPS) and Deliberate Practice score (DPS) rating due by May 30 th The overall evaluation is broken up into three parts: Instructional practice score, deliberate practice score, and student performance scores Summative Evaluation ratings by June 30th each year.	Summative evaluations results are shared with teachers by May 30th of each year for their IPS and DPS rating. The Summative Evaluation rating is the teacher's final evaluation that consists of all elements within our evaluation system and is what is used to calculate Pay for Performance incentives.

Hired after the beginning of the school year	2	Same as above	Same as above

Part IV: Evaluation Criteria

A. Instructional Practice

In this section, the district shall provide the following information regarding the instructional practice data that will be included for instructional personnel evaluations.

1. Pursuant to section 1012.34(3)(a)2., F.S., at least one-third of the evaluation must be based upon instructional practice. In Wakulla County School District, instructional practice accounts for two-third (2/3) of the instructional personnel performance evaluation, resulting in 66.6%.
2. Description of the step-by-step calculation for determining the instructional practice rating for classroom and non-classroom instructional personnel, including performance standards for differentiating performance.

Marzano's Focused Teacher Evaluation Model is based on The Art and Science of Teaching framework and the meta- analytic research he has conducted over the past several decades. The first of its kind, this teacher evaluation model is not only based on studies that correlate instructional strategies to student achievement but is also grounded on experimental/control studies that establish a direct causal link between elements of the model and student results. The Marzano Teacher Evaluation Model identifies a complete set of practices directly related to improved student performance, organized into four domains that develop teacher expertise. Each domain builds on the previous one with direct links to create a causal chain that results in increased learning and achievement for all students.

The district uses Deliberate Practice as an additional performance indicator. Deliberate Practice applies to all classroom and non-classroom teachers. Deliberate Practice requires the evaluated staff and supervisor to jointly identify individualized goals for instructional growth, using the iObservation system. At the beginning of each school year, they will select 1 Marzano target element identified for improvement and professional development based upon the teacher's self- assessment and collaborative agreement of the supervisor and teacher or non-classroom teacher.

Deliberate practice is a way for teachers to grow their expertise through a series of planned action steps, reflections, and collaboration. Involved in the Deliberate Practice are setting goals, focused practice, focused feedback, observing and discussing teaching, and monitoring progress.

The Deliberate Practice process is completed by all teachers through the iObservation platform Teachers choose one area of focus (Target Element) from Marzano Targeted Instruction for which they will work on professionally that year. Teachers also use iObservation to track their growth progress throughout the year. The teachers' supervisor(s) will begin observing the selected Target Element when they are in the teacher's classroom for observations.

The Deliberate Practice Rating Score is determined by the amount of observed growth that takes place during the evaluation period from their starting performance level to the highest observed score. The teacher

Instructional Evaluation System

sets a starting performance level for their Target Element based on the combination of self-assessment date and the observation data from the previous year. The teacher is then observed on that Target Element at least once during the evaluation period. The highest score received on the Target Element from an observation during the evaluation period is what is used to determine the final score. The Deliberate Practice Rating Score is based on the Deliberate Practice Rating Score rubric below.

Highly Effective	Effective	Needs Improvement/ Developing	Unsatisfactory
Innovating	Applying	Developing	Beginning/ Not Using

In July 2024, Wakulla County School District will be trained and execute the Marzano Focused Teacher Evaluation Model.

Calculation of Instructional Practice (IPS) Score:

Calculation of the evaluation results uses all ratings collected in formal observations conducted throughout the school year. For classroom teachers, the data collected is specified in Wakulla County School District Curriculum Framework for Quality Instruction through iObservation. For non-classroom teachers, the data collected is specified in iObservation. For both classroom and non-classroom teachers all ratings are input in the iObservation System. iObservation then calculates the IPS score and converts it to one of four ratings as required by 1012.34 F.S. Ratings are Unsatisfactory, Needs Improvement/Developing, Effective and Highly Effective.

Rating	Score
Highly Effective	3.4-4.0
Effective	2.4-3.3
Needs Improvement/ Developing	1.5-2.3
Unsatisfactory	0.0-1.5

Marzano Observation Implementation		
Formal	<ul style="list-style-type: none"> 30-55 minutes Must be scheduled between the teacher and their observer for a specific date and time. Pre-Conference must be a face-to-face meeting. Post-Conference must be a face-to- face meeting. 	<ul style="list-style-type: none"> Specific written recommendations for improvement must be provided through the observations instrument in iObservation within a reasonable amount time of the observation occurring. Observations taking place immediately before or after Thanksgiving, winter and spring breaks are strongly discouraged. Teachers can be observed delivering live instruction during a face-to-face lesson.
Walkthroughs	<ul style="list-style-type: none"> Shall not count toward evaluative score. 	

Data Marks

- All 23 Elements are **NOT** required to be observed or scored in one observation, however using the FEAPS crosswalk, evaluating administrators will need to ensure all the FEAPS are observed through the course of the academic year.
- Dominant Elements should be the focus during an observation.

B. Other Indicators of Performance

In this section, the district shall provide the following information regarding any other indicators of performance that will be included for instructional personnel evaluations.

1. Pursuant to section 1012.34(3)(a)4., F.S., up to one-third of the evaluation may be based upon other indicators of performance.
2. Description of additional performance indicators, if applicable.
3. Description of the step-by-step calculation for determining the other indicators of performance rating for classroom and non-classroom instructional personnel, including performance standards for differentiating performance.

C. Performance of Students

In this section, the district shall provide the following information regarding the student performance data that will be included for instructional personnel evaluations.

1. Pursuant to section 1012.34(3)(a)1., F.S., at least one third of the performance evaluation must be based upon data and indicators of student performance, as determined by each school district. This portion of the evaluation must include growth or achievement data of the teacher's students over the course of at least three years. If less than three years of data are available, the years for which data are available must be used. Additionally, this proportion may be determined by instructional assignment. In Wakulla County Schools, performance of students accounts for one-third of the instructional personnel performance evaluation.
2. Description of the step-by-step calculation for determining the student performance rating for classroom and non-classroom instructional personnel, including performance standards for differentiating performance.

Student performance is an important component of the final evaluation of employees in Wakulla County School District. The Student Performance component will be weighted as 1/3 (33.4%) of the overall teacher evaluation. The evaluation rating for the Student Performance component will include Highly Effective, Effective, Needs Improvement/Developing, and Unsatisfactory.

Student Performance Score:

The Student Performance Measure comprises 1/3 (33.4%) of all teachers' evaluations for Wakulla County School District, whether newly hired or continuing with the district. The source of this student performance measure is derived from Individual Learning Target goals and/or state assessment, such as FAST and EOC. Each teacher's individual learning target goal/state assessment will vary based on the matched and qualified

students assigned to the teacher in relation to subject and grade level taught. Individual Learning Target/state assessments are derived from data based on proficiency and/or growth measures for state, national and international assessments, or proficiency rates and/or growth data based on district, curricular, or teacher assessments. The teacher and his/her evaluator will mutually agree on the individual learning target goal or state assessment data to be used. The overall student performance score will include individual learning target/state assessment data for the last 3 years including the current year and the two years immediately preceding the current year. If less than the three most recent years of data is available, then those available will be used.

At least one-third of the mid-year evaluation for newly hired classroom teachers will be based on student achievement or growth data per the individual learning target collected at semester or state assessment data agreed upon by teacher and administrator.

A teacher's final student performance score will be used in the summative evaluation calculation of the current year, unless agreed upon by the teacher and administration. Each subsequent year will add data to the model until the rating is based on three years of data. If a teacher was not employed with the school District for the previous three years, then only the annual student performance scores for the years employed will be used. Student performance score shall only be based on students assigned to the teacher and, for classroom teachers, will be determined from the Wakulla Roster Verification. Non-classroom teacher rosters will be determined by their assigned job function.

The student performance score will be calculated using a matched process (only those students who were enrolled with the teacher in the assessed subject during both the Survey 2 and Survey 3 RVT periods will be used in the student performance score calculation). Teachers who teach semester long courses will have a combined roster of both Survey 2 and 3. If a teacher starts after Survey 2, then the roster from Survey 3 will be used to calculate a student performance score.

Student Growth for Instructional Personnel without Assigned Students:

Both the instructional practice score and student performance score measure components are a part of the evaluation of non-classroom instructional personnel. Instructional practice is observed and evaluated by an administrator. Student performance measures are calculated using individual learning targets that are based on the function of each non-classroom instructional personnel's job as agreed upon between teacher and evaluating administrator.

D. Summative Rating Calculation

In this section, the district shall provide the following information regarding the calculation of summative evaluation ratings for instructional personnel.

Pursuant to section 1012.34(2)(e), F.S., the evaluation system for instructional personnel must differentiate across four levels of performance. Using the district's calculation methods and cut scores described above in sections A – C, illustrate how a second-grade teacher and a ninth-grade English language arts teacher can earn a highly effective and an unsatisfactory summative performance rating respectively.

Step-by-step calculation for determining the summative rating for classroom and non-classroom instructional personnel:

The Evaluation System is made up of three scoring components: Instructional Practice Score (IPS—2/3 of the evaluation 66.6%), Student Performance Score (SPS—1/3 of the evaluation: 33.4%) and

Instructional Evaluation System

Deliberate Practice Score (DPS—is part of the Instructional Practice section). The scoring system, along with the rating scale are depicted in the Teacher Evaluation Scoring Component Scale which indicates the final evaluation rating possibilities for all teachers.

Summative Rating Score and Rubric:

The Instructional Practice Score (IPS), Deliberate Practice Score (DPS), and Student Performance Score (SPS) portions of the calculation are combined according to the following method to produce the summative evaluation rating and score. For all instructional personnel, the Instructional Practice Score (IPS) will be two-third ($\frac{2}{3}$) of the summative evaluation score, which will include the ($\frac{1}{3}$) Deliberate Practice score (DPS) portion. The Student Performance score (SPS) will be one-third ($\frac{1}{3}$) of the summative evaluation score. This calculation will be used for both classroom teachers, classroom teachers newly hired by the district, and non- classroom teachers.

Rating	Score
Highly Effective	3.4 – 4.0
Effective	2.4 – 3.3
Needs Improvement/ Developing	1.5 – 2.3
Unsatisfactory	0.0-1.5

To better understand the combined scores please refer to these sample possible scenarios:

Example #1: Second Grade Teacher

- 4.0 Highly Effective for the Instructional Practice (IPS) Score ($\frac{1}{3}$)
- 3.0 Effective for the Student Performance (SPS) score ($\frac{1}{3}$)
- 4.0 Highly Effective for the Deliberate Practice (DPS) ($\frac{1}{3}$)

Measure	Rating	Score (Rating x $\frac{1}{3}$)
Instructional Practice Score (IPS)	4.0 - Highly Effective	1.332
Student Performance Score (SPS)	3.0 - Effective	1.000
Deliberate Practice Score (DPS)	4.0 - Highly Effective	1.332
Total		3.67

The Summative Rating would be rounded up to two decimal places to become 3.67 would fall into the Summative Rating of HIGHLY EFFECTIVE.

Example #2: Ninth Grade English Language Arts Teacher

- Unsatisfactory for the Instructional Practice (IPS) score
- Unsatisfactory for the Student Performance (SPS) score
- Unsatisfactory for the Deliberate Practice (DPS) score

Instructional Evaluation System

Measure	Rating	Score (Rating x 1/3)
Instructional Practice Score (IPS)	1.0 - Unsatisfactory	1/3
Student Performance Score (SPS)	1.0 - Unsatisfactory	1/3
Deliberate Practice Score (DPS)	1.0 - Unsatisfactory	1/3
Total		1.00

The Summative Rating would be rounded up to two decimal places to become 1.0, would fall into the Summative Rating of UNSATISFACTORY.

Appendix A – Evaluation Framework Standards

In Appendix A, the district shall include a crosswalk of the district's evaluation framework to each of the Florida Educator Accomplished Practices (FEAP).

Alignment to the Florida Educator Accomplished Practices	
Foundational Principles	
<i>The Florida Educator Accomplished Practices are based upon and further describe the below four (4) essential principles.</i>	
1. The effective educator creates a culture of high expectations for all students by promoting the importance of education and each student's capacity for academic achievement.	
2. The effective educator demonstrates deep and comprehensive knowledge of the subject taught.	
3. The effective educator exemplifies the standards of the profession.	
4. The effective educator acknowledges that all persons are equal before the law and have inalienable rights, and provides instruction that is consistent with the principles of individual freedom as outlined in s. 1003.42(3), F.S.	
Practice	Evaluation Indicators
1. Instructional Design and Lesson Planning	
<i>Applying concepts from human development and learning theories, the effective educator consistently:</i>	
a. Aligns instruction with state-adopted standards taking into consideration varying aspects of rigor and complexity;	Planning Standards-Based Lessons/Units, Aligning resources to Standards.
b. Sequences lessons and concepts to ensure coherence and required prior knowledge;	Planning Standards-Based Lessons/Units, Aligning resources to Standards.
c. Designs instruction for students to achieve mastery;	Planning Standards-Based Lessons/Units, Aligning resources to Standards.
d. Selects appropriate formative assessments to monitor learning;	Select appropriate formative assessment to monitor learning
e. Uses diagnostic student data to plan lessons;	Planning Standards-based Lessons/Units, Aligning Resources to Standards, Planning to Meet the Needs of Learners, select appropriate formative assessment to monitor learning
f. Develops learning experiences that require students to demonstrate a variety of applicable skills and competencies; and	Planning Standards-based Lessons/Units, Aligning Resources to Standards, Planning to Meet the Needs of Learners.
g. Provides classroom instruction to students in prekindergarten through grade 12 that is age and developmentally appropriate and aligned to the state academic standards as outlined in Rule 6A-1.09401, F.A.C., and is consistent with s. 1001.42(8)(c)3., F.S.	Planning Standards-Based Lessons/Units, Aligning resources to Standards.
2. The Learning Environment	
<i>To maintain a student-centered learning environment that is safe, organized, equitable, flexible, inclusive, and collaborative, the effective educator consistently:</i>	
a. Organizes, allocates, and manages the resources of time, space, and attention;	Aligning Resources to Standard(s), Organizing Students to Interact with Content, Establishing and Acknowledging

Instructional Evaluation System

	Adherence to Rules and Procedures, Using Engagement Strategies
b. Manages individual and class behaviors through a well-planned management system;	Organizing Students to Interact with Content, Establishing and Acknowledging Adherence to Rules and Procedures
c. Conveys high expectations to all students;	Communicating High Expectations for Each Student
d. Respects students' cultural linguistic and family background;	Establishing and Maintaining Effective Relationships, Communicating High Expectations for Each Student
e. Models clear, acceptable oral and written communication skills;	Providing Feedback and Celebrating Success, Establishing and Maintaining Effective Relationships, Communicating High Expectations for Each Student, Promoting Teacher Leadership and Collaboration
f. Maintains a climate of openness, inquiry, fairness and support;	Providing Feedback and Celebrating Success, Establishing and Maintaining Effective Relationships, Communicating High Expectations for Each Student, Promoting Teacher Leadership and Collaboration
g. Integrates current information and communication technologies;	Aligning Resources to Standard(s), Planning to Meet the Needs of Learners, Maintaining Expertise in Content and Pedagogy, Promoting Teacher Leadership and Collaboration
h. Adapts the learning environment to accommodate the differing needs and diversity of students while ensuring that the learning environment is consistent with s. 1000.071, F.S.;	Planning to Meet the Needs of Learners, Organizing Students to Interact with Content, Establishing and Maintaining Effective Relationships, Communicating High Expectations for Each Student, Maintaining Expertise in Content and Pedagogy
i. Utilizes current and emerging assistive technologies that enable students to participate in high-quality communication interactions and achieve their educational goals; and	Planning to Meet the Needs of Learners, Establishing and Maintaining Effective Relationships, Communicating High Expectations for Each Student, Maintaining Expertise in Content and Pedagogy
j. Creates a classroom environment where students are able to demonstrate resiliency as outlined in Rule 6A-1.094124, F.A.C.	Planning Standards-based Lessons/Units, Aligning Resources to Standard(s), Using Engagement Strategies, Establishing and Maintaining Effective Relationships

Instructional Evaluation System

3. Instructional Delivery and Facilitation	
<i>The effective educator consistently utilizes a deep and comprehensive knowledge of the subject taught to:</i>	
a. Deliver engaging and challenging lessons;	Planning to Meet the Needs of Learners, Using Questions to Help Students Elaborate on Content, Helping Students Practice Skills, Strategies, and Processes, Helping Students Examine Similarities and Differences, Helping Students Revise Knowledge, Organizing Students to Interact with Content, Using Engagement Strategies
b. Deepen and enrich students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter;	Using Questions to Help Students Elaborate on Content, Reviewing Content, Helping Students Practice Skills, Strategies, and Processes, Helping Students Examine Similarities and Differences, Helping Students Examine Their Reasoning, Helping Students Revise Knowledge, Helping Students Engage in Complex Tasks, Organizing Students to Interact with Content, Using Engagement Strategies
c. Identify gaps in students' subject matter knowledge;	Planning Standards-based Lessons/Units, Identifying Critical Content from the Standards, Using Formative Assessment to Track Progress
d. Modify instruction to respond to preconceptions or misconceptions;	Planning Standards-based Lessons/Units, Aligning Resources to Standard(s), Previewing New Content, Reviewing Content, Using Formative Assessment to Track Progress, Establishing and Maintaining Effective Relationships
e. Relate and integrate the subject matter with other disciplines and life experiences;	Planning Standards-based Lessons/Units, Aligning Resources to Standard(s), Using Engagement Strategies, Establishing and Maintaining Effective Relationships
f. Employ questioning that promotes critical thinking;	Using Questions to Help Students Elaborate on Content, Helping Students Practice Skills, Strategies, and Processes, Helping Students Examine Similarities and Differences, Helping Students Revise Knowledge, Helping Students Engage in Complex Tasks
g. Apply varied instructional strategies and resources, including appropriate technology, to provide comprehensible instruction, and to teach for student understanding;	Planning Standards-based Lessons/Units, Aligning Resources to Standard(s), Identifying Critical Content from the Standards, Previewing New

Instructional Evaluation System

	Content, Helping Students Process New Content, Using Questions to Help Students Elaborate on Content, Reviewing Content, Helping Students Practice Skills, Strategies, and Processes, Helping Students Examine Similarities and Differences, Helping Students Examine Their Reasoning, Helping Students Revise Knowledge, Helping Students Engage in Complex Tasks, Using Formative Assessment to Track Progress
h. Differentiate instruction based on an assessment of student learning needs and recognition of individual differences in students;	Planning to Meet the Needs of Learners, Identifying Critical Content from the Standards, Previewing New Content, Helping Students Process New Content, Using Questions to Help Students Elaborate on Content, Reviewing Content, Helping Students Practice Skills, Strategies, and Processes, Helping Students Examine Similarities and Differences, Helping Students Examine Their Reasoning, Helping Students Revise Knowledge, Helping Students Engage in Complex Tasks
i. Support, encourage, and provide immediate and specific feedback to students to promote student achievement; and,	Providing Feedback and Celebrating Success, Establishing and Maintaining Effective Relationships, Communicating High Expectations for Each Student
j. Utilize student feedback to monitor instructional needs and to adjust instruction.	Planning to Meet the Needs of Learners, Identifying Critical Content from the Standards, Previewing New Content, Helping Students Process New Content, Using Questions to Help Students Elaborate on Content, Reviewing Content, Helping Students Practice Skills, Strategies, and Processes, Helping Students Examine Similarities and Differences, Helping Students Examine Their Reasoning, Helping Students Revise Knowledge, Helping Students Engage in Complex Tasks
4. Assessment	
<i>The effective educator consistently:</i>	
a. Analyzes and applies data from multiple assessments and measures to diagnose students' learning needs, informs instruction based on those needs, and drives the learning process;	Planning to Meet the Needs of Learners, Using Formative Assessment to Track Progress, Communicating High Expectations for Each Student

Instructional Evaluation System

b. Designs and aligns formative and summative assessments that match learning objectives and lead to mastery;	Aligning Resources to Standard(s), Planning to Meet the Needs of Learners, Using Formative Assessment to Track Progress
c. Uses a variety of assessment tools to monitor student progress, achievement and learning gains;	Planning to Meet the Needs of Learners, Using Formative Assessment to Track Progress
d. Modifies assessments and testing conditions to accommodate learning styles and varying levels of knowledge;	Planning Standards-based Lessons/Units, Aligning Resources to Standard(s), Planning to Meet the Needs of Learners, Using Formative Assessment to Track Progress
e. Shares the importance and outcomes of student assessment data with the student and the student's parent/caregiver(s); and,	Planning to Meet the Needs of Learners, Providing Feedback and Celebrating Success, Communicating High Expectations for Each Student
f. Applies technology to organize and integrate assessment information.	Aligning Resources to Standard(s), Using Formative Assessment to Track Progress
5. Continuous Professional Improvement	
<i>The effective educator consistently:</i>	
a. Designs purposeful professional goals to strengthen the effectiveness of instruction based on students' needs;	Maintaining Expertise in Content and Pedagogy, Promoting Teacher Leadership and Collaboration
b. Examines and uses data-informed research to improve instruction and student achievement;	Maintaining Expertise in Content and Pedagogy, Promoting Teacher Leadership and Collaboration
c. Uses a variety of data, independently, and in collaboration with colleagues, to evaluate learning outcomes, adjust planning and continuously improve the effectiveness of the lessons;	Maintaining Expertise in Content and Pedagogy, Promoting
d. Collaborates with the home, school and larger communities to foster communication and to support student learning and continuous improvement;	Teacher Leadership and Collaboration
e. Engages in targeted professional growth opportunities and reflective practices; and,	Maintaining Expertise in Content and Pedagogy, Promoting Teacher Leadership and Collaboration
f. Implements knowledge and skills learned in professional development in the teaching and learning process.	Maintaining Expertise in Content and Pedagogy, Promoting Teacher Leadership and Collaboration

Instructional Evaluation System

6. Professional Responsibility and Ethical Conduct

Understanding that educators are held to a high moral standard in a community, the effective educator fulfills the expected obligations to students, the public and the education profession and adheres to:

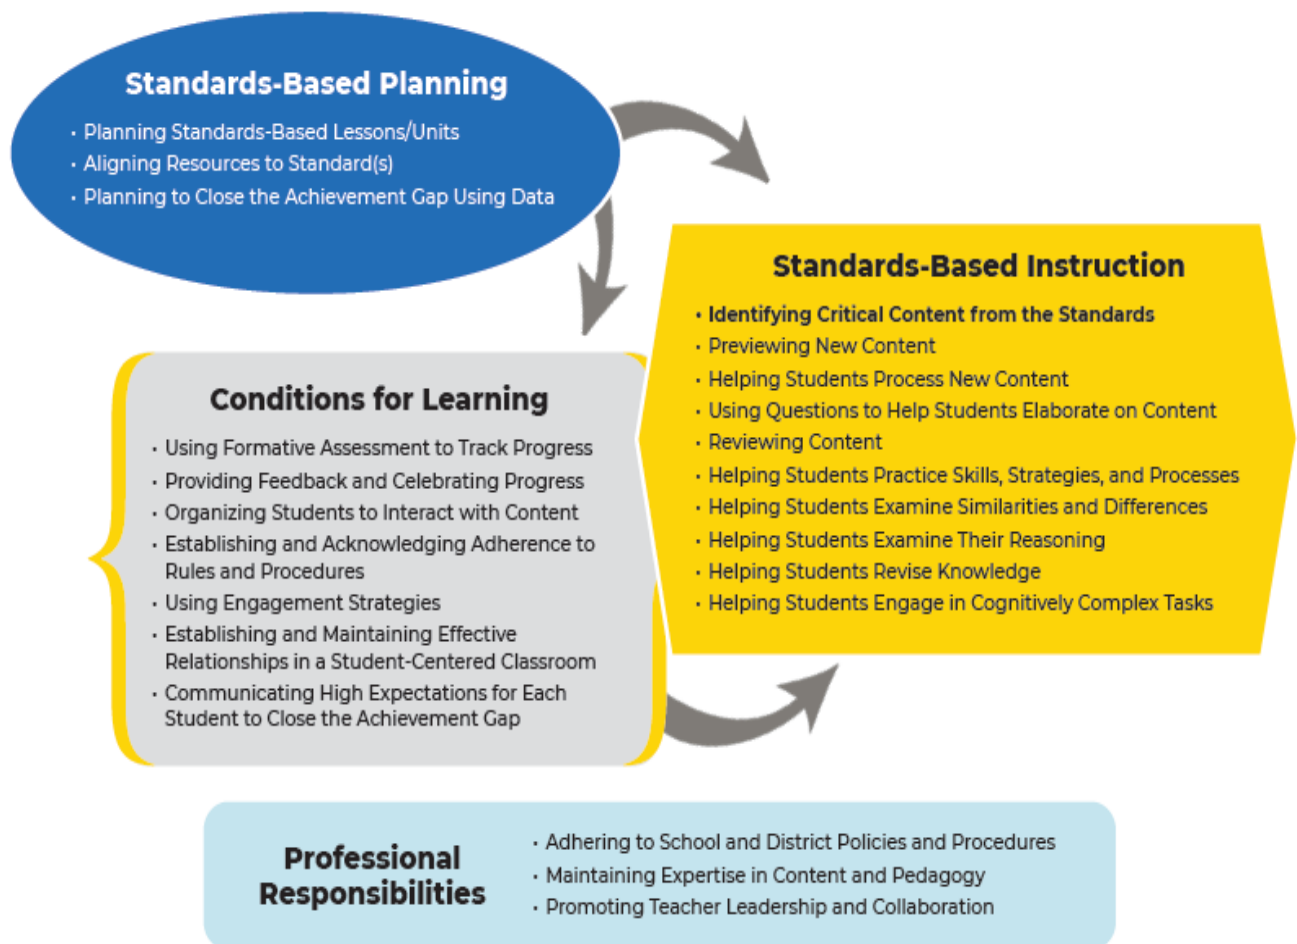

a. Guidelines for student welfare adopted pursuant to s. 1001.42(8), F.S., including the requirement to refrain from discouraging or prohibiting parental notification of and involvement in critical decisions affecting a student's mental, emotional, or physical health or well-being, unless a reasonably prudent person would believe that disclosure would result in abuse or neglect as defined in s. 39.01, F.S.;	Promoting Teacher Leadership and Collaboration/Adhering to School and District Policies and Procedures
b. The rights of students and parents enumerated in ss. 1002.20 and 1014.04, F.S.; and	Adhering to School and District Policies and Procedures
c. The Principles of Professional Conduct of the Education Profession of Florida, pursuant to Rule 6A-10.081, F.A.C.	Adhering to School and District Policies and Procedures

Appendix B – Observation Instruments for Classroom Teachers

In Appendix B, the district shall include the observation rubric(s) to be used for collecting instructional practice data for classroom teachers.

Promoting Teacher Leadership and Collaboration					

Domain: Standards-Based Planning

Element: Planning Standards-Based Lessons/Units

Focus Statement: Using established content standards, the teacher plans rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.

Desired Effect: Teacher provides evidence of implementing lesson/unit plans aligned to grade level standard(s) using learning targets embedded in a performance scale.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.

Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Aligns instruction with state-adopted standards taking into consideration varying aspects of rigor and complexity (A1a)	
	Sequences lessons and concepts to ensure coherence and required prior knowledge (A1b)	
	Designs instruction for students to achieve mastery (A1c)	
	Selects appropriate formative assessments to monitor learning (A1d)	
	Provides classroom instruction to students in prekindergarten through grade 12 that is age and developmentally appropriate and aligned to the state academic standards as outlined in Rule 6A-1.09401, F.A.C., and is consistent with s. 1001.42(8)(c)3., F.S. (A1g)	
	Relates and integrates the subject matter with other disciplines and life experiences (A3e)	
	Designs and aligns formative and summative assessments that match learning objectives and lead to mastery (A4b)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Makes no attempt to use established content standards to plan rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.	Attempts to use established content standards to plan rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.	Using established content standards, plans rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.	Using established content standards, plans rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning <i>and</i> provides evidence of implementing lesson/unit plans aligned to grade level standard(s) using learning targets embedded in a performance scale.	Helps others by sharing evidence of implementing lesson/unit plans aligned to grade level standard(s) using learning targets embedded in a performance scale <i>and</i> the impacts on student learning.

Optional Evidence

Example Planning Evidence

- ☐ Plans exhibit a focus on the essential standards required at the appropriate age or grade level
- ☐ Plans include a scale or learning progression that builds a progression of knowledge from simple to complex
- ☐ Plans identify learning targets aligned to the rigor of required standards
- ☐ Plans identify specific instructional strategies appropriate for the learning target
- ☐ Planned instruction and student tasks are aligned to both the content and the level of cognitive complexity of the learning target
- ☐ Lessons are planned with teachable chunks of content
- ☐ When appropriate, learning targets and unit plans include district scope and sequence
- ☐ Plans illustrate how the needs of all students are addressed in the classroom
- ☐ When appropriate, plans illustrate how Individualized Education Plans (IEPs)/personal learning plans and EL strategies are addressed in the classroom

Example Implementation Evidence

- ☐ Completed student assignments/work demonstrate that lessons are aligned to grade level standards/targets at the appropriate taxonomy level
- ☐ Completed student assignments/work demonstrate development of applicable mathematical practices
- ☐ Completed student assignments/work demonstrate grounding in real-world application
- ☐ Completed student assignments/work demonstrate how the needs of all students have been addressed in the lesson/unit
- ☐ Completed student assignments/work demonstrate how Individualized Education Plans (IEPs)/personal learning plans and EL strategies have been addressed in the lesson/unit
- ☐ Artifacts demonstrate the teacher helps others by sharing evidence of planning and implementing lesson/unit plans aligned to grade level standards (e.g. PLC notes, emails, blogs, sample units, discussion group)

Element: Aligning Resources to Standard(s)

Focus Statement: Teacher plan includes traditional and/or digital resources for use in standards-based units and lessons.

Desired Effect: Teacher implements traditional and/or digital resources to support teaching standards-based units and lessons.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.

Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Utilizes current and emerging/assistive technologies that enable students to participate in high-quality communication interactions and achieve their educational goals (A2i)	
	Applies varied instructional strategies and resources, including appropriate technology, to provide comprehensible instruction, and to teach for student understanding (A3g)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Makes no attempt to include traditional and/or digital resources for use in standards-based units and lessons in teacher plan.	Attempts to include traditional and/or digital resources for use in standards-based units and lessons in teacher plan.	Teacher plan includes traditional and/or digital resources for use in standards-based units and lessons.	Teacher plan includes traditional and/or digital resources for use in standards-based units and lessons <i>and</i> provides evidence of implementing traditional and/or digital resources to support teaching standards-based units and lessons.	Helps others by sharing evidence of including and implementing traditional and/or digital resources to support teaching standards-based units and lessons.

Optional Evidence

Example Planning Evidence

- ☐ Plans identify how to use traditional resources such as textbooks, manipulatives, primary source materials, etc. at the appropriate level of text complexity to implement the unit or lesson plan
- ☐ Plans integrate a variety of text types (structures) and both fiction and non-fiction text as appropriate
- ☐ Plans identify Standards for Mathematical Practice to be applied
- ☐ Plans identify how available digital resources will be used
 - Interactive whiteboards
 - Response systems
 - Voting technologies
 - Social networking sites, blogs, discussion boards
- ☐ When appropriate, plans identify how to use human resources, such as a co-teacher, paraprofessional, one-on-one tutor, mentor, etc. to implement the unit or lesson plan

Example Implementation Evidence

- ☐ Resources are implemented throughout the lesson as planned
- ☐ Planned traditional resources are utilized by students to engage in the lesson
- ☐ Traditional resources are appropriately aligned to grade level standards
 - Textbooks
 - Manipulatives
 - Primary source materials
- ☐ Planned digital resources are used by students to engage in the lesson
 - Interactive whiteboards
 - Response systems
 - Voting technologies
 - Social networking sites, blogs, discussion boards
- ☐ Planned resources include ones to which students can relate
- ☐ Artifacts demonstrate the teacher helps others by sharing evidence of planning and implementing supporting resources aligned to grade level standards (e.g. PLC notes, emails, blogs, sample units, discussion group)

Element: Planning to Close the Achievement Gap Using Data

Focus Statement: Teacher uses data to identify and plan to meet the needs of each student in order to close the achievement gap.

Desired Effect: Teacher provides data showing that each student makes progress toward closing the achievement gap.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.				
Status ✓ = Achieved	Required Indicator(s)			Evidence/Feedback
	Uses diagnostic student data to plan lessons (A1e)			
	Adapts the learning environment to accommodate the differing needs and diversity of students while ensuring that the learning environment is consistent with s. 1000.071, F.S. (A2h)			
	Identifies gaps in students' subject matter knowledge (A3c)			
	Modifies instruction to respond to preconceptions or misconceptions (A3d)			
	Differentiates instruction based on an assessment of student learning needs and recognition of individual differences in students (A3h)			
	Analyzes and applies data from multiple assessments and measures to diagnose students' learning needs, informs instruction based on those needs, and drives the learning process (A4a)			
	Modifies assessments and testing conditions to accommodate learning styles and varying levels of knowledge (A4d)			

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Makes no attempt to use data to identify and plan to meet the needs of each student in order to close the achievement gap.	Attempts to use data to identify and plan to meet the needs of each student in order to close the achievement gap.	Uses data to identify and plan to meet the needs of each student in order to close the achievement gap.	Uses data to identify and plan to meet the needs of each student in order to close the achievement gap and provides evidence of data showing that each student makes progress toward closing the achievement gap.	Helps others by sharing evidence of using data showing that each student makes progress toward closing the achievement gap.

Optional Evidence

Example Planning Evidence

- ☐ Plans are based on diagnostic data results
- ☐ Plans include potential instructional adjustments that will or could be made based on student evidence/data
- ☐ Plans show modifications made to assessments and accommodations used when testing based on students learning styles
- ☐ Plans include a process for how students will track their individual progress on learning targets
- ☐ A coherent record-keeping system is developed and maintained on student learning
- ☐ Plans take into consideration student needs (i.e. family resources for assisting with homework and/or providing other resources required for class)
- ☐ Plans take into consideration how to communicate with families with specific needs

Example Implementation Evidence

- ☐ Data collection is implemented as planned
- ☐ Planned student assignments/work reflect accommodations and/or adaptations used for individual or groups of students at the appropriate grade level targets
- ☐ Formative and summative measures indicate individual and class progress towards learning targets and modifications made as needed
- ☐ Completed student assignments/work reflect accommodations and/or adaptations for individual or groups of students at the appropriate grade level targets
- ☐ Completed student assignments/work show students track their individual progress on learning targets
- ☐ Communication about student progress is regularly sent home
- ☐ Artifacts demonstrate the teacher helps others by sharing evidence of how to use data to plan and implement lessons/units that result in closing the achievement gap (e.g. PLC notes, emails, blogs, sample units, discussion group)

Domain: Standards-Based Instruction

Element: Identifying Critical Content from the Standards (Required evidence in every lesson)

Focus Statement: Teacher uses the progression of standards-based learning targets (embedded within a performance scale) to identify accurate critical content during a lesson or part of a lesson.

Desired Effect: Evidence (formative data) demonstrates students know what content is important and what is not important as it relates to the learning target(s).

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.

Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Models clear, acceptable oral and written communication skills (A2e)	
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Uses the progression of standards-based learning targets embedded within a performance scale to identify accurate critical content during a lesson or part of a lesson, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Uses the progression of standards-based learning targets embedded within a performance scale to identify accurate critical content during a lesson or part of a lesson. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Identify a learning target aligned to the grade level standard(s)
- ☐ Begin and end the lesson with focus on the learning target to indicate the critical content of the lesson
- ☐ Provide a learning target embedded in a scale or learning progression that specify critical content from the standard(s)
- ☐ Relate classroom activities to the target and/or scale throughout the lesson
- ☐ Identify and accurately teach critical content
- ☐ Use a scaffolding process to identify critical content for each 'chunk' of the learning progression
- ☐ Use verbal/visual cueing, storytelling, and other techniques to bring attention to the critical content
- ☐ Ensure text complexity aligns to the critical content

Example Teacher Techniques for Monitoring for Learning

- ☐ Use a **Group Activity** to monitor that students know what content is important
- ☐ Use **Student Work** (Recording and Representing) to monitor that students know what content is important
- ☐ Use **Response Methods** to monitor that students know what content is important
- ☐ Use **Questioning Sequences** to monitor that students know what content is important

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students know what content is important. Student evidence is obtained as the teacher uses a monitoring technique.)

- ☐ Student conversation in groups focus on critical content
- ☐ Generate short written response (i.e. summary, entrance/exit ticket)
- ☐ Create nonlinguistic representations (i.e. diagram, model, scale)
- ☐ Student-generated notes focus on critical content
- ☐ Responses to questions focus on critical content
- ☐ Explain purpose and unique characteristics of key concepts/critical content
- ☐ Explain applicable mathematical practices in critical content
- ☐ When appropriate, responses involve explanatory content specific to their culture

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

- ☐ Reteach or use a new teacher technique
- ☐ Reorganize groups
- ☐ Utilize peer resources
- ☐ Modify the task
- ☐ Provide additional resources

Element: Previewing New Content

Focus Statement: Teacher engages students in previewing activities that require students to access prior knowledge as it relates to the new content.

Desired Effect: Evidence (formative data) demonstrates students make a link from what they know to what is about to be learned.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Engages students in previewing activities that require students to access prior knowledge as it relates to the new content, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Engages students in previewing activities that require students to access prior knowledge as it relates to the new content. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Facilitate identification of the basic relationship between prior ideas and new content (purpose for the new content)
- ☐ Use preview questions before instruction or a teacher-directed activity
- ☐ Use K-W-L strategy, anticipation guide, student brainstorming, preview questions or a variation
- ☐ Provide advanced organizer (e.g. outline, graphic organizer)
- ☐ Use motivational hook/launching activity (e.g. anecdote, short multimedia selection, simulation/demonstration, manipulatives)
- ☐ Use digital resources and/or other media to help students make linkages to new content
- ☐ Facilitate identification of previously seen mathematical patterns or structures

Example Teacher Techniques for Monitoring for Learning

- ☐ Use a **Group Activity** to monitor that students can make a link from prior learning to the new content
- ☐ Use **Student Work** (Recording and Representing) to monitor that students can make a link from prior learning to the new content
- ☐ Use **Response Methods** to monitor that students can make a link from prior learning to the new content
- ☐ Use **Questioning Sequences** to monitor that students can make a link from prior learning to the new content

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students can make a link from prior learning to the new content. Student evidence is obtained as the teacher uses a monitoring technique.)

- ☐ Identify basic relationship between prior content and new content
- ☐ Explain linkages with prior knowledge in individual or group work
- ☐ Make predictions about new content
- ☐ Summarize the purpose for new content
- ☐ Explain how prior standards or learning targets link to the new content
- ☐ Explain linkages between mathematical patterns and structure from previous grades/lessons and current content

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

- ☐ Reteach or use a new teacher technique
- ☐ Reorganize groups
- ☐ Utilize peer resources
- ☐ Modify the task
- ☐ Provide additional resources

Element: Helping Students Process New Content

Focus Statement: Teacher systematically engages student groups in processing and generating conclusions about new content.

Desired Effect: Evidence (formative data) demonstrates students can summarize and generate conclusions about the new content during interactions with other students.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Systematically engages student groups in processing and generating conclusions about new content, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Systematically engages student groups in processing and generating conclusions about new content. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Break content into appropriate chunks
- ☐ Employ formal group processing strategies
 - Jigsaw
 - Reciprocal teaching
 - Concept attainment
- ☐ Use informal strategies to engage group members in active processing
 - Predictions
 - Associations
 - Paraphrasing
 - Verbal summarizing
- ☐ Facilitate group members in summarizing and/or generating conclusions
- ☐ Facilitate recording and representing new knowledge
- ☐ Facilitate quantitative and qualitative reasoning of key mathematical concepts
- ☐ Stop at strategic points to appropriately chunk content based on student evidence and feedback

Example Teacher Techniques for Monitoring for Learning

- ☐ **Use a Group Activity** to monitor that students can summarize and generate conclusions about the content
- ☐ **Use Student Work** (Recording and Representing) to monitor that students can summarize and generate conclusions about the content
- ☐ **Use Response Methods** to monitor that students can summarize and generate conclusions about the content
- ☐ **Use Questioning Sequences** to monitor that students can summarize and generate conclusions about the content

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students can summarize and generate conclusions about the content. Student evidence is obtained as the teacher uses a monitoring technique.)

- ☐ Discuss, answer questions, and/or generate conclusions about the new content in groups
- ☐ Summarize or paraphrase the just learned content
- ☐ Record and represent new knowledge
- ☐ Make predictions about what they expect to learn next
- ☐ Summarize or draw conclusions from complex text and its academic language
- ☐ Use repeated reasoning and abstract, quantitative, or qualitative reasoning

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

- ☐ Reteach or use a new teacher technique
- ☐ Reorganize groups
- ☐ Utilize peer resources
- ☐ Modify task to appropriate chunk of content
- ☐ Provide additional resources

Element: Using Questions to Help Students Elaborate on Content

Focus Statement: Teacher uses a sequence of increasingly complex questions that require students to critically think about the content.

Desired Effect: Evidence (formative data) demonstrates students accurately elaborate on content.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Employs questioning that promotes critical thinking (A3f)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Uses a sequence of increasingly complex questions that require students to critically think about the content, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Uses a sequence of increasingly complex questions that require students to critically think about the content. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Use a sequence of increasingly complex questions (i.e. detail, category, elaboration- inferences, predictions, projections, definitions, generalizations) as it relates to the content (text) with appropriate wait time
- ☐ Ask students to provide evidence (i.e. prior knowledge, textual evidence) for their elaborations
- ☐ Present situations or problems that involve students analyzing how one idea relates to ideas that were not explicitly taught
- ☐ Model the process of using evidence to support elaboration
- ☐ Model processes and proficiencies to support mathematical elaboration

Example Teacher Techniques for Monitoring for Learning

- ☐ Use a **Group Activity** to monitor that students accurately elaborate on content
- ☐ Use **Student Work** (Recording and Representing) to monitor that students accurately elaborate on content
- ☐ Use **Response Methods** to monitor that students accurately elaborate on content
- ☐ Use **Questioning Sequences** to monitor that students accurately elaborate on content

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students accurately elaborate on content. Student evidence is obtained as the teacher uses a monitoring technique.)

- ☐ Answer detail and category questions about the content
- ☐ Answer elaborative questions about the content and provide evidence to support elaborations
- ☐ Identify basic relationships between ideas and how one idea relates to another
- ☐ Discussions and student work demonstrate students can make well-supported elaborative inferences
- ☐ Discussions are grounded in evidence from text, both literary and informational
- ☐ Discussions and student work provide evidence of mathematical elaboration

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

- ☐ Rephrase questions/scaffold questions
- ☐ Modify task
- ☐ Provide additional resources

Element: Reviewing Content

Focus Statement: Teacher engages students in brief review of content that highlights the cumulative nature of the content.

Desired Effect: Evidence (formative data) demonstrates students know the previously taught critical content.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Engages students in a brief review of content that highlights the cumulative nature of the content, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Engages students in a brief review of content that highlights the cumulative nature of the content. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Begin lesson with a brief review of previously taught content
- ☐ Use a scaffolding process to systematically show the cumulative nature of the content
- ☐ Use specific strategies to help students identify basic relationships between ideas and consciously analyze how one idea relates to another
 - Brief summary
 - Problem that must be solved using previous information
 - Questions that require a review of content
 - Warm-up or bell-ringer activity
- ☐ Ask students to demonstrate increased fluency and/or accuracy of previously taught processes

Example Teacher Techniques for Monitoring for Learning

- ☐ Use a **Group Activity** to monitor that students know the previously taught critical content
- ☐ Use **Student Work** (Recording and Representing) to monitor that students know the previously taught critical content
- ☐ Use **Response Methods** to monitor that students know the previously taught critical content
- ☐ Use **Questioning Sequences** to monitor that students know the previously taught critical content

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students know the previously taught critical content. Student evidence is obtained as the teacher uses a monitoring technique.)

- ☐ Identify basic relationships between current and prior ideas and consciously analyze how one idea relates to another
- ☐ Summarize the cumulative nature of the content
- ☐ Response to class activities demonstrates students recall previous content (e.g. artifacts, pretests, warm-up activities)
- ☐ Explain previously taught concepts
- ☐ Demonstrate increased fluency and/or accuracy of previously taught processes

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

- ☐ Reteach or use a new teacher technique
- ☐ Reorganize groups
- ☐ Utilize peer resources
- ☐ Modify task
- ☐ Provide additional resources

Element: Helping Students Practice Skills, Strategies, and Processes

Focus Statement: When the content involves a skill, strategy, or process, the teacher engages students in practice activities that help them develop fluency and alternative ways of executing procedures.

Desired Effect: Evidence (formative data) demonstrates students develop automaticity with skills, strategies, or processes.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.

Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	When the content involves a skill, strategy, or process, the teacher engages students in practice activities that help them develop fluency and alternative ways of executing procedures, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	When the content involves a skill, strategy, or process, the teacher engages students in practice activities that help them develop fluency and alternative ways of executing procedures. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Review and model how to execute the skill, strategy, or process
- ☐ Engage students in massed and distributed practice activities that are appropriate to their current ability to execute a skill, strategy, or process
 - Guided practice if students cannot perform the skill, strategy, or process independently
 - Independent practice if students can perform the skill, strategy, or process independently
- ☐ Employ “worked examples” or exemplars
- ☐ Provide opportunity for practice immediately prior to assessing skills, strategies, and processes
- ☐ Provide opportunity for students to refine and shape knowledge by encountering a task or problem in a different context
- ☐ Provide opportunity for purposeful homework that focuses on practice of a skill, strategy, or process

Example Teacher Techniques for Monitoring for Learning

- ☐ Use a **Group Activity** to monitor that students develop automaticity with skills, strategies, or processes
- ☐ Use **Student Work** (Recording and Representing) to monitor that students develop automaticity with skills, strategies, or processes
- ☐ Use **Response Methods** to monitor that students develop automaticity with skills, strategies, or processes
- ☐ Use **Questioning Sequences** to monitor that students develop automaticity with skills, strategies, or processes

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students develop automaticity with skills, strategies, or processes. Student evidence is obtained as the teacher uses a monitoring technique.)

- ☐ Execute or perform the skill, strategy, or process with increased confidence and competence
- ☐ Artifacts (i.e. worksheets, written responses, formative data) show fluency and accuracy are increasing
- ☐ Explanation of mental models reveals understanding of the strategy or process
- ☐ Use problem-solving strategies based on their purpose and unique characteristics
- ☐ Demonstrate deepening of knowledge and/or increasing accuracy through group interactions
- ☐ Explain how the use of a problem-solving strategy increased fluency and/or accuracy

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

- ☐ Reteach or use a new teacher technique
- ☐ Reorganize groups
- ☐ Utilize peer resources
- ☐ Modify task
- ☐ Provide additional resources

Element: Helping Students Examine Similarities and Differences

Focus Statement: When presenting content, the teacher helps students deepen their knowledge of the critical content by examining similarities and differences.

Desired Effect: Evidence (formative data) demonstrates student knowledge of critical content is deepened by examining similarities and differences.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	
	Deepens and enriches students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter (A3b)	
	Relates and integrates the subject matter with other disciplines and life experiences (A3e)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	When presenting content, the teacher helps students deepen their knowledge of critical content by examining similarities and differences, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	When presenting content, the teacher helps students deepen their knowledge of critical content by examining similarities and differences. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Use comparison, classifying, analogy, and/or metaphor activities to examine similarities and differences
- ☐ Use activities to identify basic relationships between ideas that deepen knowledge to examine similarities and differences
- ☐ Ask students to summarize what they have learned from the activity
- ☐ Ask students to linguistically and nonlinguistically represent similarities and differences
- ☐ Ask students to make conclusions after the examination of similarities and differences
- ☐ Ask students to look for and make use of mathematical structure to recognize similarities and differences
- ☐ Facilitate the use of digital and traditional resources to find credible and relevant information to support examination of similarities and differences

Example Teacher Techniques for Monitoring for Learning

- ☐ **Use a Group Activity** to monitor that student knowledge of content is deepened by examining similarities and differences
- ☐ **Use Student Work** (Recording and Representing) to monitor that student knowledge of content is deepened by examining similarities and differences
- ☐ **Use Response Methods** to monitor that student knowledge of content is deepened by examining similarities and differences
- ☐ **Use Questioning Sequences** to monitor that student knowledge of content is deepened by examining similarities and differences

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that student knowledge of content is deepened by examining similarities and differences. Student evidence is obtained as the teacher uses a monitoring technique.)

- ☐ Student work on similarities and differences includes student summary of learning (e.g. making conclusions and/or responding to questions) to indicate deeper understanding of content
- ☐ Response to questions indicate examining similarities and differences has deepened understanding of content
- ☐ Make conclusions after examining evidence about similarities and differences
- ☐ Present evidence to support their explanation of similarities and differences
- ☐ Artifacts/student work indicate students have used digital and traditional resources to provide evidence of similarities and differences

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

- ☐ Reteach or use a new teacher technique
- ☐ Reorganize groups
- ☐ Utilize peer resources
- ☐ Modify task
- ☐ Provide additional resources

Element: Helping Students Examine Their Reasoning

Focus Statement: Teacher helps students produce and defend a claim (assertion of truth or factual statement) by examining their own reasoning or the logic of presented information, processes, and procedures.

Desired Effect: Evidence (formative data) demonstrates students identify and articulate errors in logic or reasoning and/or provide clear support for a claim (assertion of truth or factual statement).

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.

Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	
	Deepens and enriches students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter (A3b)	
	Relates and integrates the subject matter with other disciplines and life experiences (A3e)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Helps students produce and defend a claim (assertion of truth or factual statement) by examining their own reasoning or the logic of presented information, processes, and procedures, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Helps students produce and defend a claim (assertion of truth or factual statement) by examining their own reasoning or the logic of presented information, processes, and procedures. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Analyze errors to identify more efficient ways to execute processes or procedures
- ☐ Model the process of making and supporting a claim
- ☐ Model constructing viable arguments and critiquing the mathematical reasoning of others
- ☐ Ask students to examine logic of a response (e.g. group talk, peer revisions, debated, inferences)
- ☐ Use specific strategies (e.g. faulty logic, attacks, weak reference, misinformation) to help students examine and analyze information for errors in content or their own reasoning
- ☐ Ask students to examine and analyze the strength of support presented for a claim in content or in their own reasoning
 - Statement of a clear claim
 - Evidence for the claim presented
 - Qualifiers presented showing exceptions to the claim
- ☐ Involve students in taking various perspectives by identifying the reasoning behind multiple perspectives

Example Teacher Techniques for Monitoring for Learning

- ☐ Use a **Group Activity** to monitor that students identify and articulate errors in logic or reasoning and/or provide clear support for a claim
- ☐ Use **Student Work** (Recording and Representing) to monitor that students identify and articulate errors in logic or reasoning and/or provide clear support for a claim
- ☐ Use **Questioning Sequences** to monitor that students identify and articulate errors in logic or reasoning and/or provide clear support for a claim

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect to identify and articulate errors in logic or reasoning and/or provide clear support for a claim. Student evidence is obtained as the teacher uses a monitoring technique.)

- ☐ Analyze errors or informal fallacies (i.e. in individual thinking, text, processing, procedures)
- ☐ Articulate support for a claim and/or errors in reasoning within group interactions
- ☐ Summarize new insights resulting from analysis
- ☐ Artifacts/student work indicate students can identify errors in reasoning or make and support a claim
- ☐ Artifacts/student work indicate students have used textual evidence to support their claim
- ☐ Mathematical arguments and critiques of reasoning are viable and valid
- ☐ Artifacts/student work indicate identification of common logical errors, how to support claims, use of resources, and/or how multiple ideas are related

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

- ☐ Reorganize groups
- ☐ Utilize peer resources
- ☐ Modify task
- ☐ Provide additional resources

Element: Helping Students Revise Knowledge

Focus Statement: Teacher helps students revise previous knowledge by correcting errors and misconceptions as well as adding new information.

Desired Effect: Evidence (formative data) demonstrates students make additions, deletions, clarifications, or revisions to previous knowledge that deepen their understanding.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Engages students in revision of previous knowledge by correcting errors and misconceptions as well as adding new information, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Engages students in revision of previous knowledge by correcting errors and misconceptions as well as adding new information. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Engage groups or the entire class in an examination of how deeper understanding changed perceptions of previous content
- ☐ Guide students to identify alternative ways to execute procedures
- ☐ Guide students to use repeated reasoning and make generalizations about patterns seen in the content
- ☐ Utilize reflection activities to cultivate a growth mindset
- ☐ Prompt students to summarize and defend how their understanding has changed based on new learning
- ☐ Prompt students to update previous entries in their notes or digital resources to correct errors after activities such as examining their reasoning or examining similarities and differences
- ☐ Guide students in a reflection process

Example Teacher Techniques for Monitoring for Learning

- ☐ Use a **Group Activity** to monitor that students deepen understanding by revising their knowledge
- ☐ Use **Student Work** (Recording and Representing) to monitor that students deepen understanding by revising their knowledge
- ☐ Use **Response Methods** to monitor that students deepen understanding by revising their knowledge
- ☐ Use **Questioning Sequences** to monitor that students deepen understanding by revising their knowledge

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students deepen understanding by revising their knowledge. Student evidence is obtained as the teacher uses a monitoring technique.)

- ☐ Explain what they are clear about and what they are confused about
- ☐ Corrections are made to written work (e.g. reports, essay, notes, position papers, graphic organizers)
- ☐ Groups make corrections and/or additions to information previously recorded about content
- ☐ Explain previous errors or misconceptions about content
- ☐ Revisions demonstrate repeated reasoning and generalizations about patterns seen in the content
- ☐ Reflections show clarification in thinking or processing

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

- ☐ Reteach or use a new teacher technique
- ☐ Utilize peer resources
- ☐ Modify task
- ☐ Provide additional resources

Element: Helping Students Engage in Cognitively Complex Tasks

Focus Statement: Teacher coaches and supports students in complex tasks that require experimenting with the use of their knowledge by generating and testing a proposition, a theory, and/or a hypothesis.

Desired Effect: Evidence (formative data) demonstrates students prove or disprove the proposition, theory, or hypothesis.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	
	Deepens and enriches students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter (A3b)	
	Relates and integrates the subject matter with other disciplines and life experiences (A3e)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Coaches and supports students in complex tasks that require experimenting with the use of their knowledge by generating and testing a proposition, a theory and/or a hypothesis, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Coaches and supports students in complex tasks that require experimenting with the use of their knowledge by generating and testing a proposition, a theory, and/or a hypothesis. The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

<p>Example Teacher Instructional Techniques</p> <ul style="list-style-type: none"> <input type="checkbox"/> Based on the prior content and learning, model, coach, and support the process of generating and testing a proposition, proposed theory, or hypothesis <input type="checkbox"/> Ask students to design how they will test and analyze the strength of support for their proposition, theory, or hypothesis <input type="checkbox"/> Provide prompt(s) for students to experiment with their own thinking <input type="checkbox"/> Observe, coach, and support productive student struggle and perseverance <input type="checkbox"/> Coach students as they engage with an explicit decision-making, problem-solving, experimental inquiry, or investigation task that requires them to <ul style="list-style-type: none"> • Generate conclusions • Identify common logical errors • Present and support propositions, theories, or hypotheses • Navigate digital and traditional resources

Domain: Conditions for Learning

Element: Using Formative Assessment to Track Progress

Focus Statement: Teacher uses formative assessment to facilitate tracking of student progress on one or more learning targets.

Desired Effect: Evidence (formative data) demonstrates students identify their current level of performance as it relates to standards-based learning targets embedded in the performance scale.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.

Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Identifies gaps in students' subject matter knowledge (A3c)	
	Utilizes student feedback to monitor instructional needs and to adjust instruction (A3j)	
	Designs and aligns formative and summative assessments that match learning objectives and lead to mastery (A4b)	
	Uses a variety of assessment tools to monitor student progress, achievement and learning gains (A4c)	
	Applies technology to organize and integrate assessment information (A4f)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Uses formative assessment to facilitate tracking of student progress on one or more learning targets, but less than the majority of students are displaying the desired effect.	Uses formative assessment to facilitate tracking of student progress on one or more learning targets. The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Help students track their individual progress toward the learning target (i.e. charts, graphs, data notebooks)
- ☐ Ask students to provide evidence of and explain their progress toward the learning target
- ☐ Facilitate individual conferences regarding use of data to track progress
- ☐ Use formative measures to chart individual and/or class progress toward learning targets using a performance scale
- ☐ Use formative assessment that reflects awareness of a variety of differences represented in the classroom
- ☐ Use technology to organize and review data
- ☐ Use a variety of assessments to determine students' progress toward the learning target and/or standard

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students identify their current level of performance. Student evidence is obtained during group activities and/or student work.)

- ☐ Systematically update their status on the learning targets using a chart, graph, or data notebook
- ☐ Describe their status relative to learning targets and unit standards (e.g. exit ticket, summary)
- ☐ Individual conferences document that students provide artifacts and data regarding their progress toward learning targets
- ☐ Demonstrate autonomy in providing evidence of progress on learning targets

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

- ☐ Utilize peer resources
- ☐ Modify task
- ☐ Provide additional resources

Element: Providing Feedback and Celebrating Progress

Focus Statement: Teacher provides feedback to students regarding their formative and summative progress as it relates to learning targets and/or unit goals.

Desired Effect: Evidence (formative data) demonstrates students continue learning and making progress towards learning targets as a result of receiving feedback.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Supports, encourages, and provides immediate and specific feedback to students to promote student achievement (A3i)	
	Shares the importance and outcomes of student assessment data with the student and the student's parent/caregiver(s) (A4e)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Provides feedback to students regarding their formative and summative progress as it relates to learning targets and/or unit goals, but less than the majority of students are displaying the desired effect.	Provides feedback to students regarding their formative and summative progress as it relates to learning targets and/or unit goals. The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Provide specific feedback to students regarding formative and/or summative data as it relates to learning targets
- ☐ Celebrate individual student progress when formative/summative data indicate gains in achieving learning targets
- ☐ Celebrate as groups make progress toward learning targets
- ☐ Implement a systematic, ongoing process to provide feedback
- ☐ Use a variety of ways to celebrate progress toward learning targets (not general praise)
 - Show of hands
 - Certificate of success
 - Round of applause
 - Academic praise
 - Digital media
- ☐ Share assessment data with student and student's family

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students continue learning and make progress towards learning targets. Student evidence is obtained during group activities and/or student work.)

- ☐ Use feedback to revise or update work to help meet their learning target
- ☐ Show signs of pride regarding their accomplishments in the class (e.g. body language, work production, quality of work)
- ☐ Show signs of pride regarding development of mathematical practices
- ☐ Initiate celebration of individual success, group success, and that of the whole class
- ☐ Surveys indicate students want to continue making progress

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

- ☐ Utilize new methods to celebrate success
- ☐ Provide additional opportunities to give feedback

Element: Organizing Students to Interact with Content

Focus Statement: Teacher organizes students into appropriate groups to facilitate the learning of content.

Desired Effect: Evidence (formative data) demonstrates students process content (i.e. new, going deeper, cognitively complex) as a result of group organization.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.

Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Develops learning experiences that require students to demonstrate a variety of applicable skills and competencies (A1f)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Organizes students into appropriate groups to facilitate the processing of content, but less than the majority of students are displaying the desired effect.	Organizes students into appropriate groups to facilitate the processing of content. The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Organize students into pre-planned or ad hoc groups during individual lessons
- ☐ Establish routines for student grouping and interaction for the expressed purpose of processing content
- ☐ Provide guidance regarding group interactions and critiquing the reasoning of others
- ☐ Provide guidance on one or more cognitive skills appropriate for the lesson
- ☐ Utilize assignments or tasks at the appropriate taxonomy level of content
- ☐ Provide guidance on one or more interpersonal skills, such as
 - Taking various perspectives
 - Interacting responsibly
 - Handling controversy and conflict resolution
- ☐ Use various group processes and activities to reflect the taxonomy level of the learning targets

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students process content as a result of group organization. Student evidence is obtained during group activities and/or student work.)

- ☐ Work within groups with an organized purpose
- ☐ Interact responsibly and respectfully critique the reasoning of others
- ☐ Actively ask and answer questions about the content (i.e. assignments or tasks)
- ☐ Add their perspectives to discussions
- ☐ Explain individual student and/or group thinking about the content
- ☐ Take responsibility for the learning of peers and self

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

- ☐ Reorganize groups
- ☐ Utilize peer resources
- ☐ Modify task
- ☐ Provide additional resources

Element: Establishing and Acknowledging Adherence to Rules and Procedures

Focus Statement: Teacher establishes classroom rules and procedures that facilitate students working cooperatively and acknowledges students who adhere to rules and procedures.

Desired Effect: Evidence (formative data) demonstrates students know and follow classroom rules and procedures (to facilitate learning) as a result of teacher acknowledgment.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.

Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Manages individual and class behaviors through a well-planned management system (A2b)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Establishes classroom rules and procedures that facilitate students working cooperatively and acknowledges students who adhere to rules and procedures, but less than the majority of students are displaying the desired effect.	Establishes classroom rules and procedures that facilitate students working cooperatively and acknowledges students who adhere to rules and procedures. The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Involve students in designing classroom routines and procedures to develop a student-centered classroom
- ☐ Use classroom meetings to review and process rules and procedures to ensure adherence
- ☐ Remind students of rules and procedures
- ☐ Ask students to restate or explain rules and procedures
- ☐ Provide cues or signals when a rule or procedure should be used
- ☐ Recognize potential sources of disruption and deal with them immediately
- ☐ Consistently exhibit “withitness” behaviors
- ☐ Recognize and/or acknowledge students or groups who follow rules and procedures
- ☐ Organize physical layout of the classroom to facilitate work in groups and easy access to materials

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students know and follow classroom rules and procedures. Student evidence is obtained during group activities and/or student work.)

- ☐ Follow clear routines during class
- ☐ Explain and/or model classroom rules and procedures
- ☐ Respond appropriately to teacher direction and/or guidance regarding rules and procedures
- ☐ Recognize and comply with cues and signals by the teacher
- ☐ Self-regulate behavior while working individually and in groups
- ☐ Describe the classroom as an orderly and safe environment
- ☐ Describe the teacher as fair and responsive to individual students
- ☐ Move purposefully about the classroom and efficiently access materials

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

- ☐ Modify rules and procedures
- ☐ Seek additional student input
- ☐ Reorganize physical layout of the classroom

Element: Using Engagement Strategies

Focus Statement: Teacher uses engagement strategies to engage or re-engage students with the content.

Desired Effect: Evidence (formative data) demonstrates students engage or re-engage as a result of teacher action.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Organizes, allocates, and manages the resources of time, space, and attention (A2a)	
	Integrates current information and communication technologies (A2g)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Uses engagement strategies to engage or re-engage students with the content, but less than the majority of students are displaying the desired effect.	Uses engagement strategies to engage or re-engage students with the content. The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Take action or use specific strategies to re-engage students
- ☐ Use academic games
- ☐ Manage response rates
- ☐ Use physical movement
- ☐ Maintain a lively pace
- ☐ Demonstrate intensity and enthusiasm for the content
- ☐ Use friendly controversy
- ☐ Provide opportunities for students to talk about themselves as it relates to the content
- ☐ Present unusual or intriguing information about the content

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students engage or re-engage as a result of teacher action. Student evidence is obtained during group activities and/or student work.)

- ☐ Behaviors show the engagement strategy increases engagement
- ☐ Student-centered tasks and processes produce high levels of engagement
- ☐ Engage in the critical content with enthusiasm
- ☐ Actions show students are motivated and/or inspired by the teacher's engagement strategies
- ☐ Multiple students or the entire class respond to questions posed by the teacher
- ☐ Artifacts/student work indicate students are engaged in the critical content

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

- ☐ Vary engagement technique
- ☐ Reorganize groups
- ☐ Modify task
- ☐ Utilize peer resources
- ☐ Vary resources

Element: Establishing and Maintaining Effective Relationships in a Student-Centered Classroom

Focus Statement: Teacher behaviors foster a sense of classroom community by acknowledging and respecting each student.

Desired Effect: Evidence (student action) shows students feel valued and part of the classroom community.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Respects students' cultural linguistic and family background (A2d)	
	Maintains a climate of openness, inquiry, fairness and support (A2f)	
	Creates a classroom environment where students are able to demonstrate resiliency as outlined in Rule 6A-1.094124, F.A.C. (A2j)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Teacher behaviors foster a sense of classroom community by acknowledging and respecting each student, but less than the majority of students are displaying the desired effect.	Teacher behaviors foster a sense of classroom community by acknowledging and respecting each student. The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Encourage students to share their thinking, input, and perspectives
- ☐ Relate content-specific knowledge to students' lives
- ☐ Use students' interests to highlight or reinforce interpersonal skills (e.g. cultivating a growth mindset)
- ☐ Compliment students regarding academic and personal accomplishments
- ☐ Engage in conversations with students about events in their lives outside of school
- ☐ When appropriate, use humor and/or playful dialogue with students
- ☐ Permit opportunities for students to demonstrate perseverance
- ☐ Use nonverbal signals (e.g. smile, nod, "high five", pat on shoulder, thumbs up, fist bump, silent applause, eye contact)
- ☐ Remain calm and objective in response to inflammatory situations or student misconduct

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that their actions show they feel valued and part of the classroom community. Student evidence is obtained during group activities and/or student work.)

- ☐ Contribute to a positive classroom community through interactions with peers
- ☐ Demonstrate willingness to engage in discussion and answering questions in class
- ☐ Demonstrate verbal and nonverbal behaviors that indicate they feel accepted by their teacher
- ☐ Respond positively to verbal and/or nonverbal interactions with the teacher
- ☐ Readily share their perspectives and thinking with the teacher
- ☐ Describe their teacher as respectful and responsive to the specific needs of each student

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

- ☐ Seek additional input from students
- ☐ Seek additional resources for self and students
- ☐ Utilize peer resources

Element: **Communicating High Expectations for Each Student to Close the Achievement Gap**

Focus Statement: Teacher exhibits behaviors that demonstrate high expectations for each student to achieve academic success.

Desired Effect: Evidence (student surveys, interviews, work) shows the teacher expects each student to perform at their highest level of academic success.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Conveys high expectations to all students (A2c)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy was called for but not exhibited.	Strategy was used incorrectly or with parts missing.	Exhibits behaviors that demonstrate high expectations for each student to achieve academic success, but less than the majority of students are displaying the desired effect.	Exhibits behaviors that demonstrate high expectations for each student to achieve academic success. The desired effect is displayed in the majority of students.	Based on student evidence, implements adaptations to achieve the desired effect by more than 90% of the students.

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Use methods to ensure each student is held responsible for participation in classroom activities
- ☐ Ask all levels of questions of each student at the same rate and frequency
- ☐ Probe each student to correct inaccurate answers and to provide evidence of their conclusions
- ☐ Chart questioning patterns to ensure each student is asked questions with the same frequency
- ☐ Track grouping patterns to ensure each student has the opportunity to work and interact with other students
- ☐ Does not allow negative or sarcastic comments about any student
- ☐ Identify students for whom expectations are different and the various ways in which these students have been treated differently
- ☐ Allow students who become frustrated during questioning to collect their thoughts and have an opportunity to answer at a later point in the lesson
- ☐ Require perseverance and productive struggle in solving problems and overcoming obstacles

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that their teacher expects each student to perform at their highest level of academic success. Student evidence is obtained during group activities and/or student work.)

- ☐ Artifacts/student work show the teacher holds each student to the same level of expectancy as others for drawing conclusions and providing sources of evidence
- ☐ Treat each other with care and respect
- ☐ Actions show students avoid negative thinking about personal thoughts and actions
- ☐ Take risks by offering incorrect or alternative answers
- ☐ Participate in classroom activities and discussions
- ☐ Demonstrates perseverance and productive struggle in solving problems and overcoming obstacles

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

- ☐ Modify questioning techniques and patterns
- ☐ Reorganize seating patterns and groups
- ☐ Reflect on student interactions and change teacher behaviors

Domain: Professional Responsibilities

Element: Adhering to School and District Policies and Procedures

Focus Statement: Teacher adheres to school and district policies and procedures.

Desired Effect: Teacher adheres to school and district rules and procedures.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Guidelines for student welfare adopted pursuant to Section 1001.42(8), F.S., including the requirement to refrain from discouraging or prohibiting parental notification of and involvement in critical decisions affecting a student's mental, emotional, or physical health or well-being, unless a reasonably prudent person would believe that disclosure would result in abuse, abandonment, or neglect as defined in Section 39.01, F.S. (B2a)	
	The rights of students and parents enumerated in Sections 1002.20 and 1014.04, F.S (B2b)	
	The Principles of Professional Conduct of the Education Profession of Florida, pursuant to Rule 6A-10.081, F.A.C. (B2c)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Makes no attempt to adhere to school and district policies and procedures.	Attempts to adhere to school and district policies and procedures, but adherence is inconsistent.	Adheres to school and district policies and procedures.	Adheres to school and district policies and procedures <i>and</i> articulates how they adhere to school and district policies and procedures.	Helps others by sharing evidence of how to support school and district policies and procedures.

Optional Evidence

Example Teacher Evidence <ul style="list-style-type: none"> <input type="checkbox"/> Perform assigned duties <input type="checkbox"/> Fulfill responsibilities in a timely manner <input type="checkbox"/> Follow policies, regulations, and procedures (e.g. bullying, HR plans, sexual harassment) <input type="checkbox"/> Maintain accurate records (e.g. student progress, attendance, parent conferences) <input type="checkbox"/> Understand legal issues related to colleagues, students, and families (e.g. special needs, equal rights) <input type="checkbox"/> Maintain confidentiality of colleagues, students, and families <input type="checkbox"/> Demonstrate personal integrity and ethics <input type="checkbox"/> Use social media appropriately

Element: Maintaining Expertise in Content and Pedagogy

Focus Statement: Teacher continually deepens knowledge in content (subject area) and classroom instructional strategies (pedagogy).

Desired Effect: Teacher provides evidence of developing expertise in content area and classroom instructional strategies.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Designs purposeful professional goals to strengthen the effectiveness of instruction based on students' needs (B1a)	
	Examines and uses data-informed research to improve instruction and student achievement (B1b)	
	Engages in targeted professional growth opportunities and reflective practices (B1e)	
	Implements knowledge and skills learned in professional development in the teaching and learning process (B1f)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Makes no attempt to deepen knowledge in content area and classroom instructional strategies.	Attempts to deepen knowledge in content area and classroom instructional strategies.	Continually deepens knowledge in content (subject area) and classroom instructional strategies (pedagogy).	Continually deepens knowledge in content and classroom instructional strategies <i>and</i> provides evidence of developing expertise in content area and classroom instructional strategies.	Helps others by sharing evidence of how to develop expertise in content area and classroom instructional strategies.

Optional Evidence

Example Teacher Evidence <ul style="list-style-type: none"> <input type="checkbox"/> Participate in professional development opportunities <input type="checkbox"/> Demonstrate content expertise and knowledge in the classroom <input type="checkbox"/> Consistently implement instructional elements at or above the teacher's demonstrated competency level <input type="checkbox"/> Engage with mentors from subject area experts or highly effective teachers <input type="checkbox"/> Actively seek help and input from appropriate school personnel to address issues that impact instruction <input type="checkbox"/> Demonstrate a growth mindset and/or seeks feedback <input type="checkbox"/> Implement a deliberate practice or professional growth plan <input type="checkbox"/> Identify new ways to improve student achievement <input type="checkbox"/> Uses a reflection process for analysis of specific strengths and weaknesses of individual lessons and units <input type="checkbox"/> Explains the differential effects of specific classroom strategies on closing the achievement gap <input type="checkbox"/> Reflect on how teacher observational data is correlated to student achievement data <input type="checkbox"/> Identifies specific areas of strengths and weaknesses within instructional strategies or conditions for learning <input type="checkbox"/> Keeps track of identified focus areas for improvement within instructional strategies or conditions for learning

Element: Promoting Teacher Leadership and Collaboration

Focus Statement: Teacher promotes teacher leadership and a culture of collaboration.

Desired Effect: Teacher provides evidence of teacher leadership and promoting a school-wide culture of professional learning.

Required indicators may be verified during planning and/or reflection conferences, as well as during observation. All required indicators must receive feedback at least once during the year.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Shares the importance and outcomes of student assessment data with the student and the student's parent/caregiver(s) (A4e)	
	Uses a variety of data, independently, and in collaboration with colleagues, to evaluate learning outcomes, adjust planning and continuously improve the effectiveness of the lessons (B1c)	
	Collaborates with the home, school and larger communities to foster communication and to support student learning and continuous improvement (B1d)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Makes no attempt to promote teacher leadership and a culture of collaboration.	Attempts to promote teacher leadership and a culture of collaboration.	Promotes teacher leadership and a culture of collaboration.	Promotes teacher leadership and a culture of collaboration and provides evidence of promoting leadership as a teacher and promoting a school-wide culture of professional learning.	Helps others by sharing evidence of how to promote teacher leadership and a culture of collaboration.

Optional Evidence

Example Teacher Evidence <ul style="list-style-type: none"> <input type="checkbox"/> Contribute and share expertise and new ideas with colleagues to enhance student learning in formal and informal ways <input type="checkbox"/> Actively participate in Professional Learning Community meetings <input type="checkbox"/> Serve as an appropriate role model (i.e. mentor, coach, presenter, researcher) regarding specific classroom strategies and behaviors <input type="checkbox"/> Work cooperatively with appropriate school personnel to address issues that impact student learning <input type="checkbox"/> Promote positive conversations and interactions with teachers and colleagues <input type="checkbox"/> Foster collaborative partnerships with parents to enhance student success in a manner that demonstrates integrity, confidentiality, respect, flexibility, fairness, and trust <input type="checkbox"/> Encourage parent involvement in classroom and school activities <input type="checkbox"/> Use multiple means and modalities to communicate with families <input type="checkbox"/> Serve as a student advocate in the classroom, school, and community <input type="checkbox"/> Participate in school and community activities as appropriate to support students and families <input type="checkbox"/> Serves on school and district-level committees <input type="checkbox"/> Works to achieve school and district improvement goals
--

Appendix C – Observation Instruments for Non-Classroom Instructional Personnel

In Appendix C, the district shall include the observation rubric(s) to be used for collecting instructional practice data for non-classroom instructional personnel.

Student is generically used to represent anyone the instructional support member is supporting, including: PreK-12 students, adult students, faculty, staff, colleagues, parents, or community members.

School/District is generically used to represent students, teachers, staff, district personnel, or other colleagues in the instructional support member's area of responsibility.

DOMAIN 1: PLANNING AND PREPARING TO PROVIDE SUPPORT

	0	1	2	3	4
Establishing and Communicating Clear Goals for Supporting Services					
Helping the School/District Achieve Goals					
Using Available Resources					

DOMAIN 2: SUPPORTING STUDENT ACHIEVEMENT

	0	1	2	3	4
Demonstrating Knowledge of Students					
Helping Students Meet Achievement Goals					
If applicable	Planning Standards-Based Lessons/Units				
	Identifying Critical Content				
	Using Questioning Strategies				
	Facilitating Groups				
	Managing Student Behavior				
	Using Engagement Strategies				

DOMAIN 3: CONTINUOUS IMPROVEMENT OF PROFESSIONAL PRACTICE

	0	1	2	3	4
Reflecting and Evaluating Personal Performance					
Using Data and Feedback to Support Changes to Professional Practice					

DOMAIN 4: PROFESSIONAL RESPONSIBILITIES

	0	1	2	3	4
Demonstrating Knowledge of Professional Practice (Area of Expertise)					
Promoting Positive Interactions with Colleagues and Community					
Adhering to School and District Policies and Procedures					
Supporting and Participating in School and District Initiatives					

Domain 1: Planning and Preparing to Provide Support

Element: Establishing and Communicating Clear Goals for Supporting Services

Focus Statement: Instructional support member establishes and communicates clearly stated goals, based on area of professional responsibility, to indicate the support and services provided to the school/district.

Desired Effect: School/district knows the supporting services provided by the instructional support member.

The focus statement and all required indicator(s) below must be verified to fulfill requirements of this element at the Developing level.				
Status ✓ = Achieved	Required Indicator(s)		Evidence/Feedback	
	Focus Statement			
	Designs purposeful professional goals to strengthen the effectiveness of instruction based on students' needs (B1a)			

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy and required indicators were called for but not exhibited.	Strategy and required indicators were used incorrectly or with parts missing.	Meets all required indicators AND establishes and communicates clearly stated goals, based on area of professional responsibility, to indicate the support and services provided to the school/district.	Meets all required indicators AND establishes and communicates clearly stated goals, based on area of professional responsibility, to indicate the support and services provided to the school/district <i>and</i> monitors if the school/district knows the supporting services provided.	Provides evidence of helping others by sharing how support goals were successfully established and communicated to the school/district.

Instructional Evaluation System

Element: Using Available Resources

Focused Statement: Instructional support member identifies and uses available resources (to include traditional materials, technology, school, community, and district sources) to provide supporting services to the school/district.

Desired Effect: The use of available resources provides supporting services to the school/district.

The focus statement and all required indicator(s) below must be verified to fulfill requirements of this element at the Developing level.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Focus Statement	
	Organizes, allocates, and manages the resources of time, space, and attention (A2a)	
	Integrates current information and communication technologies (A2g)	
	Utilizes current and emerging assistive technologies that enable students to participate in high-quality communication interactions and achieve their educational goals (A2i)	
	Applies varied instructional strategies and resources, including appropriate technology, to provide comprehensible instruction, and to teach for student understanding (A3g)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy and required indicators were called for but not exhibited.	Strategy and required indicators were used incorrectly or with parts missing.	Meets all required indicators AND identifies and uses available resources to provide supporting services to the school/district.	Meets all required indicators AND identifies and uses available resources to provide supporting services to the school/district <i>and</i> monitors if use of available resources provides supporting services to the school/district.	Provides evidence of helping others by sharing how they used available resources to provide support services to the school/district.

NU B D A I	

Domain 2: Supporting Student Achievement

Element: Demonstrating Knowledge of Students

Focus Statement: Instructional support member demonstrates knowledge of the unique needs of students in the school/district.

Desired Effect: Instructional support member provides appropriate services to support the unique needs of students in the school/district.

The focus statement and all required indicator(s) below must be verified to fulfill requirements of this element at the Developing level.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Focus Statement	
	Identifies gaps in students' subject matter knowledge (A3c)	
	Utilizes student feedback to monitor instructional needs and to adjust instruction (A3j)	
	Designs and aligns formative and summative assessments that match learning objectives and lead to mastery (A4b)	
	Uses a variety of assessment tools to monitor student progress, achievement and learning gains (A4c)	
	Applies technology to organize and integrate assessment information (A4f)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy and required indicators were called for but not exhibited.	Strategy and required indicators were used incorrectly or with parts missing.	Meets all required indicators AND demonstrates knowledge of the unique needs of students in the school/district.	Meets all required indicators AND demonstrates knowledge of the unique needs of students in the school/district and monitors if services appropriately support the unique needs of students in the school/district.	Provides evidence of helping others by sharing how they provided services to appropriately support the unique needs of students in the school/district.

Instructional Evaluation System

Element: Helping Students Meet Achievement Goals

Focus Statement: Instructional support member helps ensure equal access to critical curriculum by helping to remove barriers that impede student achievement.

Desired Effect: Barriers are removed to help students meet achievement goals.

The focus statement and all required indicator(s) below must be verified to fulfill requirements of this element at the Developing level.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Focus Statement	
	Uses diagnostic student data to plan lessons (A1e)	
	Conveys high expectations to all students (A2c)	
	Adapts the learning environment to accommodate the differing needs and diversity of students while ensuring that the learning environment is consistent with s. 1000.071, F.S. (A2h)	
	Modifies instruction to respond to preconceptions or misconceptions (A3d)	
	Differentiates instruction based on an assessment of student learning needs and recognition of individual differences in students (A3h)	
	Supports, encourages, and provides immediate and specific feedback to students to promote student achievement (A3i)	
	Analyzes and applies data from multiple assessments and measures to diagnose students' learning needs, informs instruction based on those needs, and drives the learning process (A4a)	
	Modifies assessments and testing conditions to accommodate learning styles and varying levels of knowledge (A4d)	
	Shares the importance and outcomes of student assessment data with the student and student's parents/caregiver(s) (A4e)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)

Element: Planning Standards-Based Lessons/Units
(If Applicable)

Focus Statement: Using established content standards, the instructional support member/teacher plans rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.

Desired Effect: Instructional support member provides evidence of implementing lesson/unit plans aligned to grade level standard(s) using learning targets embedded in a performance scale.

The focus statement and all required indicator(s) below must be verified to fulfill requirements of this element at the Developing level.		
Status ✓ = Achieved	Required Indicator(s)	Evidence/Feedback
	Focus Statement	
	Aligns instruction with state-adopted standards taking into consideration varying aspects of rigor and complexity (A1a)	
	Sequences lessons and concepts to ensure coherence and required prior knowledge (A1b)	
	Designs instruction for students to achieve mastery (A1c)	
	Selects appropriate formative assessments to monitor learning (A1d)	
	Develops learning experiences that require students to demonstrate a variety of applicable skills and competencies (A1f)	
	Provides classroom instruction to students in prekindergarten through grade 12 that is age and developmentally appropriate and aligned to the state academic standards as outlined in Rule 6A-1.09401, F.A.C., and is consistent with s. 1001.42(8)(c)3., F.S. (A1g)	
	Relates and integrates the subject matter with other disciplines and life experiences (A3e)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)

United States History	US History EOC
Other Social Studies Core Courses (9-12)	Individual Learning targets approved by the principal
Other Science Core Courses (9-12)	Individual Learning targets approved by the principal
ROTC	Pass & Review
CTE Courses	Industry Certification Exam
Elective (9-12)	Individual Learning targets approved by the principal
District Non-Classroom Instructional Personnel	Individual Learning targets approved by the principal or Industry Certification Exam

Appendix E – Summative Evaluation Forms

In Appendix E, the district shall include the summative evaluation form(s) to be used for instructional personnel.

SUMMATIVE EVALUATION FORM for INSTRUCTIONAL PERSONNEL

The Instructional Practice Score (IPS), Deliberate Practice Score (DPS) and Student Performance Score (SPS) portions of the calculation are combined according to the following method to produce the summative evaluation rating and score. For all instructional personnel, the Instructional Practice (IPS) Score will be one-third of the summative score-33.3%. The Deliberate Practice Score (DPS) portion of the instructional evaluation will be one-third-33.3%. The Student Performance (SPS) Score will be one-third of the summative evaluation score-33.4%. This calculation will be used for both classroom teachers, classroom teachers newly hired by the district and non-classroom teachers.

Rating	Score
Highly Effective	3.4-4.0
Effective	2.4-3.3
Needs Improvement/Developing	1.5-2.3
Unsatisfactory	0.0-1.4

Name of Score Portion	Rating
Instructional Practice Score (IPS)	One-third of total score (33.3%)
Deliberate Practice Score (DPS)	One-third of total score (33.3%)
Student Performance Score (SPS)	One-third of total score (33.4%)
Total Score (IPS + DPS + SPS)	Add all three scores together (100%)
Summative Score (average of 3 scores)	Final score
Rating (please mark)	HE <input type="checkbox"/>
	E <input type="checkbox"/>
	NI/DEV <input type="checkbox"/>
	IN <input type="checkbox"/>
