5th Grade News

"We are Responsible, Respectful, and Safe!"

September 17, 2024

ELA

In ELA this week, students will continue working in their Magnetic workbooks, which leads our Reading Curriculum. The main focus this week is Inferencing and Compare/Contrast. Students will also continue Opinion writing, using our Writing 360 Curriculum.

PLEASE have your child read for 30 minutes daily.

Stewart/Snellings homerooms will have a reading log to complete as they read.

Science

This week we will be reviewing for our first **DISTRICT ASSESSMENT [Friday]**. These help to show GMAS readiness for our different science topics throughout the year. **Students received a study packet yesterday and are encouraged to read through it daily this week.**

Math

This week, we will continue concepts of place value. We will extend the learning to the metric system. How many meters are there in a kilometer? How many centimeters does it take to make a meter?

Homework will be due September 19.

Upcoming Dates/Announcements

Sept. 18 - Picture Day
Sept. 26 - Kona Ice
Sept. 30 - Club Letters Due back to School
Oct. 4-8 - Fall Break [No School]
