

STUDENT SUPPORTS

SCHOOL COUNSELOR

I can help with:

- questions about school, support during school transitions
- your child's feelings, behavior, and social needs
- academic planning
- referrals to people in our school's team to help with specific needs
- connections to more intensive mental health supports and outside resources

SCHOOL SOCIAL WORKER

I can help with:

- student mental health (coping skills, depression, anxiety, ADHD, stress management, navigating change) and crisis support during school hours
- connecting families with community-based physical and mental health services (both paid and free supports)
- connecting families with resources (school supplies, financial supports)

MENTAL HEALTH CLINICIAN

I can help with:

- supporting student mental health and well-being and crisis support during school hours
- teaching you more about why your child feels/thinks/acts the way they do and how you can support them
- connecting your child with support at school or in the community

SCHOOL NURSE

I can help with:

- making a plan to support your child's medical needs at school
- screening your child's vision and hearing and connecting you with resources
- your child's immunization record and connecting you with resources

CLINIC AIDE

I can help with:

- your child's illness or injury during the school day
- completing forms if your child needs medication at school
- daily support of your child's medical plan/needs

SCHOOL PSYCHOLOGIST

I can help with:

- monitoring student academic and behavioral progress
- serving as mental health professionals that support students emotionally, behaviorally and socially
- conducting psychological and academic assessments
