

There is one binder containing thirteen sections of policies. These sections are:

### SECTIONS

- A -- SCHOOL DISTRICT ORGANIZATION**
- B -- SCHOOL BOARD OPERATIONS**
- C -- GENERAL SCHOOL ADMINISTRATION**
- D -- FISCAL MANAGEMENT**
- E -- BUSINESS MANAGEMENT**
- F -- FACILITY EXPANSION PROGRAM**
- G -- PERSONNEL (certified and noncertified)**
- H -- NEGOTIATIONS**
- I -- INSTRUCTIONAL PROGRAM**
- J -- STUDENTS**
- K -- GENERAL PUBLIC RELATIONS**
- L -- INTERORGANIZATIONAL RELATIONS**
- M -- RELATIONS WITH OTHER EDUCATION AGENCIES**

The system's ultimate success depends on using these policies daily to guide administrators and other staff, as a management tool to facilitate school board operations and actions.

The coding or "tracking" of terms is by letter rather than by number. Letter (alpha) encoding offers two major advantages over number coding. A letter system offers more flexibility. The code has available 26 separate letters to use compared to only ten digits. A letter system requires no decimal points. This tends to reduce the likelihood of errors in reproduction and filing.

### **The Index**

The index is designed to help the user find the subject described in the appropriate policy.

#### Building Closure Process

The board, by adoption of a resolution, may close any school building at any time it determines the closure would improve the school system of the district. The board may close more than one school building in one resolution. Such a resolution shall require a majority vote of the members of the board and shall require no other approval.

Prior to adopting a resolution closing any school building, the board shall call and hold a hearing on the proposal. The notice of such hearing shall include the reasons for the proposed closing, the name of any affected school building, and the name of any school building to which the involved students shall be reassigned. Such notice also shall include the time, date, and place of the public hearing to be held on the proposal. Such notice shall be published at least once each week for two consecutive weeks in a newspaper of general circulation in the school district. The last publication shall be at least 10 but not more than 20 days prior to the date of the public hearing.

At any such hearing, the board shall hear testimony as to the advisability of the proposed closing, and a representative of the board shall present the board's proposal for such closing. Following the public hearing, or any continuation of such hearing, and after considering all of the testimony and evidence presented or submitted at the public hearing, the board shall determine whether the school building should be closed to improve the school system of the unified school district.

#### State Board Administrative Review

If a valid request is made not later than 45 days after the adoption of a resolution to close a school building or buildings, the state board of education shall conduct an administrative review of the resolution and issue an advisory determination, not later than 45 days after receipt of the request, to the school district that states whether the school district's resolution is reasonable under the totality of the circumstances.

The board designates the Executive Director of Marketing and Media as its Freedom of Information Office. The Freedom of Information Officer shall have the authority to establish and maintain a system of records in accordance with the Kansas Open Records Act and other applicable laws. The board further assigns the Executive Director of Marketing and Media, to handle requests for records and to serve as the custodian of the records. The custodian shall prominently display and distribute or otherwise make available to the public a brochure concerning record access in the form prescribed by the local Freedom of Information Officer.

#### Types of Records

A public record means any recorded information, regardless of form or characteristics, which is made, maintained, kept by, or in the possession of the district, including those exhibited at public board meetings.

#### Central Office Records

Records maintained by the superintendent shall include, but may not be limited to, the following: financial, personnel, and property (both real and personal) owned by the district.

#### Building Records

Records maintained by the building principals shall include, but may not be limited to, the following: activity funds, student records, and personnel records. (See [JR et seq.](#))

Public Access

All records, except those subject to exception by the Kansas Open Records Act, shall be open to inspection by the general public during regular office hours of any school or the district office. The superintendent will establish procedures for making records available on normal business days when district offices are closed. The district may charge and require advance payment of a fee for providing access to or furnishing copies of public records.

Requests for access to open records shall be made in writing to an official custodian of district records. The official custodian shall examine each request to determine whether the record requested is an open record or is subject to an exception of the Kansas Open Records Act that would allow the record to remain closed. The custodian may also refuse to provide access to a public record or to permit inspection if a request places an unreasonable burden in producing public records or if the custodian has reason to believe that repeated requests are intended to disrupt other essential functions of the district. The custodian shall either grant or deny each request.

If the custodian does not grant the request, the person requesting the record shall receive a written explanation of the reason for the denial within three days of the request, if an explanation is requested. If the requester disagrees with the explanation, the freedom of information officer shall settle the dispute.

Each request for access to a public record shall be acted upon as soon as possible, but not later than the end of the third business day following the date that the request is received. If the request is not acted on immediately,

the custodian shall inform the requester, within the three-day window, when and where the open record will be made available.

Each custodian shall file all requests and their dispositions in the appropriate office and make reports as requested by the superintendent or the board.

**Copies of Records**

Copies of open records shall be available upon written request, unless otherwise specified in Kansas or federal law. Requestors may only make abstracts or obtain copies of public records to which they have access under the Kansas Open Records Act. The district shall not be required to provide copies of radio or recording tapes or discs, video tapes, films, pictures, slides, graphics, illustrations, or similar audio or visual items or devices, unless such items or devices were shown or played during open session of a district board meeting. Similarly, the district shall not be required to provide such items or devices which are copyrighted by a person other than the board. Furthermore, nothing in the Kansas Open Records Act requires the district to electronically make copies available by allowing a requestor to obtain copies by inserting, connecting, or otherwise attaching an electronic device provided by the requestor to the computer or other electronic device of the district.

Advance payment of the expense of providing access to or furnishing copies of open records shall be borne by the requestor. Under no circumstances shall the documents be allowed out of their usual building location without approval of the official custodian.

The board may prescribe reasonable fees for providing access to or furnishing copies of public records, subject to the following:

- \* in the case of fees for copies of records, the fees shall not exceed the actual cost of furnishing copies, including the cost of staff time required to make the information available and printing fees of 20 cents per page, as applicable;
- \* in the case of fees for providing access to records maintained on computer facilities, the fees shall include only the cost of any computer services, including staff time required.

Revenue from copying open records will be deposited in the district's general fund.

Disposition

All district office records shall be kept for at least the minimum length of time required by law.

The clerk or Director of Student Support Services is designated as the official custodian of all board and district office records maintained by the district. Each building principal is designated as official custodian of all records maintained at the building level. In addition to those records required by law, the clerk shall be responsible for preparing and keeping other records necessary for the district's efficient operation.

The investment of school district monies shall be the responsibility of the superintendent, business manager, and/or the district treasurer.

Any monies not immediately required for the purposes for which the monies were collected or received may be invested as provided by current statute.

Posting Securities

All investments of district monies shall be secured to 100% of the amount of district monies by F.D.I.C. coverage, a pledge of direct federal obligations, or direct guaranteed federal agency deposits in accordance with requirements of state law. Exceptions to the required posting of securities shall be only as provided by law and with approval of the board.

All offerings of monies for investment shall state the amount to be invested and the maturity date of each investment.

All banks and savings and loan associations (hereafter "financial institution(s)") with main or branch offices located within the district and the county or counties in which part of the district is located shall be given an opportunity to respond to requests for proposals on monies offered for investment. All responses shall be directed to the superintendent (or designee) and shall be specified on the basis of simple interest.

Distribution of monies for investment shall be as follows:

The treasurer or other person designated by the board shall inform each eligible financial institution of the total amount of money to be invested on a specified date and the maturity date of the investment. Each financial institution responding shall submit a single proposal of the rate of interest it would pay on all or part of the funds to be invested.

Monies shall be invested with the financial institution offering the highest interest rate in such amount as the financial institution will accept, and any remaining amounts shall be invested with the financial institution(s) offering the next highest interest rates in such amounts as it will accept until all funds offered for investment are invested. No financial institution shall be eligible to receive any funds in the same offering at a rate lower than its proposal rate.

No proposal less than the most recently determined investment rate as defined in K.S.A. 12-1675a shall be accepted unless otherwise authorized by K.S.A. 12-1675. No funds will be invested for maturities of more than two years.

Any monies not otherwise invested in eligible financial institutions located in the district due to their inability, for whatever reason, to accept the funds, shall be invested in secured deposits in financial institutions which have offices located in counties in which a part of the school district is located.

Any monies not invested in financial institutions in the district or located in counties in which a part of the school district is located may be invested as authorized by Kansas law.

Monies available for reinvestment as a result of maturities may be reinvested with the financial institution holding such monies provided the financial institution agrees to pay the same or higher rate as that offered by the highest proposal at the time the requests for proposals were accepted.

In the event of identical high proposals, the allocation of monies to be invested between the financial institutions offering the high proposals shall be at the discretion of the superintendent.

The treasurer shall record the following information: the date of each request for proposal; the name of each financial institution notified; the name of

the officer notified; the proposal, the amount of monies the financial institution is willing to accept at the rate proposed.

To be eligible to receive invested funds or deposits from the district, any otherwise eligible financial institution shall have on file in the office of the district treasurer a letter requesting its inclusion in any request for proposal and providing proper assurance of compliance with requirements of applicable laws and board policy relating to maintenance of proper security and assurance of its membership in good standing consistent with current federal regulations. Use of buses and other school vehicles by the district shall conform to current law. School buses and other school vehicles will not be loaned, leased or subcontracted to any person, groups of persons, or organizations except as allowed by law subject to board approval.

Liability

All school vehicles will be adequately insured.

Safety

For the purposes of this policy, “school transportation provider” is defined to include school bus drivers, school passenger vehicle drivers, and other school employees who may transport students.

Every school transportation provider shall have a valid driver’s license. Such drivers shall have full authority and responsibility for the passengers riding in school vehicles.

Students or other persons riding in school buses or school vehicles who violate district policy or bus and/or school vehicle rules will be reported to the proper administrator. Violations of these policies and/or rules may result in disciplinary action by school officials or reports to law enforcement as appropriate.

Speed Limits

The board may set speed limits for district buses, which may be lower than state-allowed maximum speed limits.

Safety Inspection

The superintendent or the superintendent's designee shall be responsible for bus and other transportation inspections.

Defects found in school vehicles shall be repaired as soon as possible. The director of transportation shall be responsible for keeping school vehicles in good operating condition.

#### Scheduling and Routing

Scheduling and routing shall be the responsibility of the superintendent or the superintendent's designee.

Bus and transportation schedules and routing maps will be updated annually prior to the start of school.

#### Records

Every school transportation provider will keep accurate records pertaining to each assigned vehicle. The types of records shall be developed by the superintendent or the superintendent's designee.

Any record developed by the administration for the purpose of monitoring vehicle use will include, but may not be limited to, the following information: miles driven each trip, gas and oil usage, purpose of the trip, destination, time of departure, and time of return. Such records will be signed by each driver at the conclusion of each trip and submitted to the person responsible for collection of these records. An annual summary report will be used in the compilation of the district's budget. A copy of the annual report may be given to the board on or before the regular board meeting in June or upon request.

#### Licensing of Drivers

It shall be the responsibility of all school transportation providers to provide proof of a valid driver's license appropriate for the vehicle(s) to be driven for the district to the superintendent or the superintendent's designee at the

beginning of each school year. If a school transportation provider's license is suspended or revoked at any time, the suspension or revocation shall be reported to the superintendent and the employee shall immediately cease driving a school vehicle and transporting students.

School transportation providers shall be provided access to this policy annually.

#### Housing of School Vehicles

All school vehicles shall be housed in areas designated by the superintendent. Buses may be housed in the district's central storage area or assigned to a designated driver who may then house the bus as directed.

If district vehicles are assigned to designated employees, the employee shall be responsible for the proper care, maintenance, and housing of the vehicle at a district-owned site while on school business, or at the employee's residence.

#### Transportation to Summer Athletic Events

The board authorizes the superintendent to approve the use of school buses or other school vehicles in transporting district students to summer athletic activities such as, but not limited to, camps, 7-on-7, and summer league games.

Any staff requests for such use shall be submitted to the superintendent or the superintendent's designee at least 14 days prior to the activity and shall include information concerning the time, date, and duration of trip; the purpose of the transportation; the projected number of students requiring

transportation for such event; the type of bus(es) or vehicle(s) requested; which district staff member(s) will be accompanying the student(s) on such trips; and whether or not additional school transportation providers would be required to provide such transport.

The superintendent may grant or deny such requests after taking into consideration the following factors: 1) the expense of providing requested transport; 2) the availability of funds for such purpose; 3) the availability of adequate school staff to chaperone and/or provide transportation; 4) the availability of and/or the coverage of liability insurance for this purpose; 5) priority of assignment and availability of necessary vehicles; 6) Title IX and other fairness considerations in granting use or repeated use to a particular group of student participants; and 7) other good cause as determined by the superintendent or superintendent's designee.

Groups allowed use of district buses may not travel outside Kansas.

Special uses will not be approved without insurance coverage.

The board may allow the following special uses for district owned buses:

- Parents and/or other adults when traveling to or from school-related functions or activities;

**EE Food Services Management (See [EBBD](#))**

**EE**

A supervisor may be hired by the board to oversee the district's food service program.

Sanitation Inspections

The building principal shall inspect each lunchroom to ensure that proper sanitation procedures are being followed.

Records

The supervisor shall be responsible for keeping food service records required by state and federal laws and regulations.

The supervisor shall be under the direct supervision of the superintendent or designee and shall have control over all aspects of the district's food service programs subject to board policy, rules and state and federal regulations.

Meal Prices

Meal prices shall be determined by the board.

Free or Reduced Price Meals

Parents or guardians of students attending schools participating in federal school meal programs must be informed of the availability of reimbursable school meals and provided with information about eligibility and the process for applying for free or reduced-price meals on or before the start of school each year. Access to this policy will be provided to parents or guardians when they receive information regarding eligibility and applying for free or reduced price meals.

Unpaid Meal Charges

The district's meal charging requirements are as follows.

A charge account for students paying full or reduced price for meals may be established with the district. Students at this high school level may charge no more than 10 days' worth of meals to their account. Charging of a la carte, snack milk or extra items to any account will not be permitted. At the Elementary and Middle School level, meals will not be denied.

Parents must notify the school to stop food service for their elementary or middle school student.

When the charge levels identified in this policy have been met, a student's meal account becomes delinquent. The student will be allowed to purchase a meal if the student pays for the meal when it is received. Students who have delinquent accounts and cannot pay out of pocket for a meal will be provided a regular, reimbursable meal from the cafeteria menu, which shall be charged to the student's timelines provided herein; debt collection proceedings will begin in accordance with board policy DP.

## **EE Food Services Management**

**EE-**

At least one verbal and one written warning shall be provided to a student and the student's parent or guardian prior to reaching the delinquent debt threshold outlined herein. Access to this policy will be provided to the student's parent or guardian with the written warning. If payment of the negative balance is not received within 5 working days of the delinquent debt threshold being attained, the debt will be turned over to the superintendent or superintendent's designee for collection in accordance with board policy DP. If the debt is not paid within 10 days of mailing the final notice of the negative account balance under policy DP, it shall be considered bad debt for the purposes of federal law concerning unpaid meal charges.

Payments for school meals may be made at the school or district office, at the point of service of school meals, or online at [www.usd475.org](http://www.usd475.org). Students, parents, and guardians of students are encouraged to prepay meal costs.

The district will provide a copy of this unpaid meal charges policy to all households at or before the start of school each year and to families and students that transfer into the district at the time of transfer. The terms of this policy will also be communicated to all district staff responsible for enforcing any aspect of the policy, a copy of the policy will be posted in district meal service facilities, and the policy will be made available on the district's website and social media accounts. Records of how and when it is communicated to households and staff will be retained.

The Board of Education embraces energy conservation and believes it to be our responsibility to ensure that every reasonable effort is made to conserve energy and natural resources while exercising sound financial management.

We recognize the importance of adopting an energy conservation policy to govern this program. We also affirm the implementation of this policy will be the joint responsibility of the board, administration, faculty, staff, students, support personnel, and Cenergistic. Success is based on cooperation amid all groups.

To ensure the overall success of our behavior-based energy conservation program, the following areas will be emphasized:

- A designated campus Administrator will be accountable for energy conservation on his/her campus with Energy Specialist teams conducting energy audits and providing timely feedback.
- All personnel at each campus are expected to make a positive contribution to maximize energy conservation and produce real energy savings.
- Cenergistic will implement its energy conservation program primarily through an energy management team led by the Energy Specialist(s) in accordance with “Energy Guidelines” that will be adopted by administration and will define the “rules of engagement” for our energy program.
- Accurate records of energy consumption and cost will be maintained by the Energy Specialist for each campus to provide verifiable performance results on the goals and progress of the energy conservation program.

Further, to promote a safe, healthy learning environment and to complement the energy conservation program, each campus shall review and adhere to the energy conservation and building management guidelines for its facilities and systems, including HVAC, building envelope, and moisture management.

Whereas the Board is responsible for overseeing the operations and fiscal accountability of each institution under its governance,

Whereas the Board embraces energy conservation and desire for the District to become a nationwide institutional leader in energy conservation as part of our social responsibility to respect our natural resources,

Whereas the Board has engaged Cenergistic to use its expertise to develop and implement a comprehensive, behavior-based energy conservation program across the District,

Therefore, the Board directs the Superintendent and his/her agents to develop and implement short and long range strategies to maximize energy conservation.

**SECTIONS**

Roles of Districts, Schools, Parents/Guardians, and Students

The roles of District, families, and students regarding travel to and from school are as follows:

- a. District/Schools. The role of District and individual schools is to encourage safe travel to and from school, and to encourage active transportation. Notwithstanding certain exceptions, District and individual schools assume no liability for injuries or other damages, including property damage, that may occur while a student is in transit to and from school.
- b. Parents and Guardians. The role of parents and guardians is to make informed decisions about which mode of transportation best suits their student in light of (i) the student's personality, age, maturity, physical and cognitive development, and decision-making abilities, and (ii) the street, traffic, crime, and other relevant conditions likely to be encountered by the student when traveling to and from school. Parents and guardians are legally responsible and otherwise accountable for their student's safety and well-being when the student is traveling to and from school.
- c. Students. The role of students is to be safe and responsible while traveling to and from school, following state and local law and the rules established by their families, and obeying school rules while traveling on school campus. Students should act as good role models for their peers by observing traffic and safety rules, caring for property, and being courteous to others.

District Task Force

District shall establish a Safe Routes to School District Task Force ("Task Force") to develop and implement strategies grounded in the "Five E's" (education, encouragement, engineering, enforcement, and evaluation) that address Safe Routes to School planning, funding, and policies. Specifically, the Task Force shall undertake the following:

- \* Evaluate the current policies and resources that support or inhibit safe and convenient transportation to or from school;
  - \* Ensure that resources for the Safe Routes to School program are distributed equitably across District schools and that any prioritization takes into account, among other things, personal and traffic safety concerns, crash data, infrastructure deficiencies, equity issues such as free/reduced lunch status, and existing and potential patterns of students walking and bicycling to school;
  - \* Promote the Safe Routes to School program throughout District;
  - \* Identify and pursue available funding (federal/state grants and other sources) to support Safe Routes to School; and
  - \* Evaluate the efficacy of District's Safe Routes to School policies, programs and activities.

### Traffic Safety Education

District encourages individual schools **to work with law enforcement** to provide traffic safety education and trainings on active transportation skills for all students and teachers. District recommends that pedestrian skills and safety workshops occur in kindergarten and bicycle skills and safety workshops occur in fourth grade.

### Walk to School Day and Other Promotional Activities

District supports events that encourage students to engage in active transportation to and from school and that promote active, healthy lifestyles for the community at large. Events may include Walk to School Days, Bike to School Days and School Walk-a-Thons.

### Enforcement

improve implementation; and (iii) what amendments are needed to improve the Policy's success. District shall prepare a report detailing its findings and proposals to enact any necessary amendments. The report shall be made available to the public and district task force.

#### Incorporation into Student and Parent Handbooks

All schools will have a link to the district's Safe Routes to School Policy from their Student and Parent Handbooks.

#### Incorporation into School Wellness Policy

This Safe Routes to School Policy is hereby incorporated into District's School Wellness Policy. District shall ensure that the School Wellness Policy reflects this addition.

#### Limiting Restrictions on Active Transportation

District acknowledges that the choice of which mode of transportation to use when traveling to and from school rests with students and/or their families, rather than with District or individual schools.

#### Student Arrival and Dismissal

District recognizes that ensuring student safety is especially critical during student arrival and dismissal times due to (i) increased automobile and bus traffic volume, and (ii) the potential for conflicts between different modes of transportation, which creates particular danger for those engaging in active transportation. Accordingly, District schools should strive to improve the safety of all modes of transportation during these time periods by separating active transportation from other forms of transportation as much as possible. Potential options may include, but are not limited to: establishing remote drop-off locations, car-free zones, single lanes for drop-offs and pick-ups, and early dismissal for active transporters.

Bicycles, Scooters, and Skateboards on Campus

District, in partnership with individual schools, shall designate active transportation routes to and from school grounds that provide for convenient travel to exterior access points (i.e. crosswalks, bike lanes, etc.). Although District cannot guarantee that all such routes will be completely safe at all times, District shall consider relevant factors, such as traffic patterns and dismissal times, to designate routes that are most likely to be safe.

Busing

District acknowledges that busing may play a significant role in supporting student learning and meeting District's educational and equity objectives.

School Design

District acknowledges that school design can have a significant impact on both the safety and number of students that engage in active transportation to and from school. Accordingly, when constructing a new school or renovating an existing school, District shall:

- \* Accommodate the safety and convenience of students, staff, and visitors, including those with disabilities, in arriving and departing by different modes of transportation, including but not limited to walking, bicycling, public transportation, school buses, and private automobiles; and
- \* Minimize conflicts between those engaging in active transportation, school buses, and private automobiles by providing, at a minimum, safe crossings of parking lots and other areas of potential conflict

School Travel Plan: Moving Beyond the Bus

District encourages that each school adopt a School Travel Plan that addresses all modes of active transportation and related safety, access, and parking issues. The plans shall also include goals, strategies, and objectives for increasing active transportation among students and staff, including those with disabilities. At a minimum, the School Travel Plan shall contain a map identifying the school, streets surrounding the school, existing traffic controls, established pedestrian and bicycle routes, pedestrian crossings, school and municipal bus routes and bus stops, and any other infrastructure or plans that facilitate routes which separate active commuters from motor vehicles, with the goal of minimizing risk of injury and maximizing the safety and convenience of active transportation.

In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or the superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity to submit written or oral evidence relevant to the complaint and to provide names of potential witnesses who may have useful information.
- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy shall be forwarded to the complainant and the respondent within 30 days after the filing of the complaint. If the investigator anticipates a determination will not be issued within 30 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline for completion. In no event shall the issuance of the written determination be delayed longer than 10 days from the conclusion of the investigation.
  - If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
  - If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

**Formal Complaint Appeal**

- The appeal officer will issue a written determination of the complaint's validity on appeal and a description of its resolution within 30 days after the appeal is filed.

If it is determined at any level that discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

Definitions

The following definitions apply to the district in responding to complaints of sexual discrimination including sexual harassment as defined by Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Act Against Discrimination.

The decision-maker shall not be the Title IX Coordinator or investigator.

"Domestic violence" includes crimes of violence committed by a person who is a current or former spouse, partner, person with whom the victim shares a child,

The Title IX Coordinator's responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering

relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

The Title IX Coordinator, any investigator, decision-maker, or any person who facilitates an information resolution process shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including by avoiding prejudice of the facts, conflicts of interest, and bias. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators shall receive training on issues of relevance of questions and evidence in order for them to create investigative reports that fairly summarize relevant evidence.

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to their immediate supervisor, building administrator, or Title IX Coordinator. Employees who fail to report complaints or incidents of sexual harassment to appropriate district official may face disciplinary action. District officials who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness, and persistence. Behaviors which are unacceptable but do not constitute harassment may also result in employee discipline.

If discrimination or harassment has occurred, the district will take prompt, remedial action to stop it and prevent its reoccurrence.

The Title IX Coordinator shall promptly respond in a meaningful way to any reports of sexual discrimination including sexual harassment of which the district has actual knowledge as follows:

- \* Contact the complainant within 10 business days and discuss the availability of supportive measures, with or without the filing of a formal complaint, and consider the complainant's wishes as to supportive measures; and
- \* inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

#### Support Measures

The district will treat the complainant and respondent equitably by offering supportive measures. These non-disciplinary and non-punitive measures will be offered as appropriate, as reasonably available, and without cost to the complainant or the respondent. Supportive measures are designed to restore or preserve equal access to the education program or activity without unreasonably burdening the other party. "Supportive Measures" shall include, but not be limited to, measures designed to protect the safety of all parties, to protect the district's educational environment, or to deter sexual harassment. These measures may

include counseling , extensions of deadlines or course-related adjustments, modifications of work or class schedules, escort services, mutual restriction on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring, and other similar measures. The Title IX Coordinator is responsible for coordinating the effective implementation of support measures.

**The Formal Complaint**

No investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

A formal complaint is a document filed by the complainant or signed by the Title IX Coordinator alleging sexual harassment and requesting an investigation. The procedures for filing a formal complaint are as follows:

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.
- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the Title IX Coordinator may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware

- of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- An investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by a qualified individual designated by the Title IX Coordinator, or another individual appointed by the board. The investigation shall be thorough. All interested persons, including the complainant and the respondent, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

#### Formal Complaint Notice Requirements

Upon filing of a formal complaint, the district shall provide written notice to the known parties including

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
  - the identities of the parties involved, if known;
  - the conduct allegedly constituting sexual harassment; and
  - the date and location of the alleged incident, if known.
- The district's investigation procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;

- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, notice of the additional allegations shall be provided to known parties.

#### Formal Complaint Investigation Procedures

To ensure a complete and thorough investigation and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied with an advisor of the party's choice;
- Provide written notice of the date, time, location, participants, and purpose of any interview, meeting, or hearing at which a party is expected to participate;
-

- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondent;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

#### Formal Complaint Investigation Report

The investigator shall prepare an investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors for review and response.

Before completing the investigative report, the investigator must send each party and their advisors the investigative report for review and allow the parties 10 days to submit a written response for the investigator's consideration.

#### Decision-Maker's Determination

Upon receiving the investigator's report, the decision-maker must make a determination regarding responsibility and afford each party the opportunity to submit written, relevant questions that the parties want asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- Describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- Include the findings of fact supporting the determination;
- Address any district policies and/or conduct rules which apply to the facts;
- A statement of, and rational for, the result as to each allegation, including a determination regarding responsibility and
- The procedures and permissible bases for the complainant and/or respondent to appeal the determination.

The written determination may, but is not required to, recommend disciplinary sanctions and any remedies designed to preserve access to the educational program or activity that may be provided by the district to the complainant.

A copy of the written determination shall be provided to both parties simultaneously.

The range of disciplinary sanctions and remedies may include, but may not be limited to, supportive measures, short term suspension, long term suspension, expulsion for students, and/or termination for employees. Complainants and respondents shall be treated equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment

has been made. The Title IX Coordinator is responsible for the effective implementation of any remedies.

If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

If the investigation results in a recommendation that an employee be suspended with or without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and/or state law will be followed.

Records relating to complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed, or on the date the opportunity for an appeal expires.

#### Appeals

The complainant or respondent may appeal the decision-maker's determination regarding responsibility or a dismissal of a formal complaint, on the following base:

- Procedural irregularity that affected the outcomes;
- New evidence that was not reasonably available at the time that could affect the outcome; and/or
- The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 10 days after the date of the written determination. Appeals shall be a

review of the record by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the Investigator, or the decision-maker from the original determination.

The appeal decision-maker will issue a written decision within 30 days after the appeal is filed. The appeal decision-maker will describe the result of the appeal and the rationale for the result.

The appeal decision-maker shall:

- Review the evidence gathered by the investigator, the investigator's report, and the original decision-maker's determination;
- Notify both parties in writing of the filing of an appeal and give them an opportunity to submit further evidence in writing;
- Not have a conflict of interest or bias for or against complainant or respondent and receive the required training;
- Issue a written decision and the rationale for the decision within 30 days after the appeal is filed;

Describe the result of the appeal and the rationale for the result in the decision; and

- Provide the written decision simultaneously to both parties and to the Title IX Coordinator.

#### Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- The parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the investigation of the formal complaint and be informed of any consequences resulting from participating in the informal resolution process;
- The parties voluntarily and in writing consent to the informal resolution process; and
- The informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the proposed resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. Within 20 days after the complaint is resolved in this manner, the Title IX Coordinator shall contact the complainant to determine if the resolution of the matter remains acceptable. If the matter is not resolved, or if the individual does not believe the resolution remains acceptable within 20 days after the informal resolution document is executed, the individual or the Title IX Coordinator may proceed with the formal complaint process.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or appeal.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

Initiation of a complaint of sexual harassment in good faith will not adversely affect the job security or status of an employee, nor will it affect his or her compensation. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation proceeding, or hearing involving sex discrimination including sexual harassment is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including termination of employment.

To the extent possible while still following the above procedures, confidentiality will be maintained throughout the investigation and resolution of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to provide supportive measures to both parties, to take appropriate corrective action, and to provide due process to the complainant and the respondent.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be posted in each district facility, shall be published in employee handbooks, and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting information notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees. In addition, the district is required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

The building principal shall allow a student to be interviewed by DCF or law enforcement representatives on school premises to investigate suspected child abuse and shall act as appropriate to facilitate the agency's access to the child and to protect the student's interests during the process. State law grants the investigating agency the authority to determine whether a school employee may be present while the interview is being conducted, taking into account the child's best interests. If asked to sit in on the interview by the agency representative conducting it, the building principal or designee thereof shall oblige such request in order to provide comfort to the child throughout the process and to facilitate the investigation.

Cooperation Between School and Agencies

Principals shall work with DCF and law enforcement agencies to develop a plan of cooperation for investigating reports of suspected child abuse or neglect. To the extent that safety is not compromised, law enforcement

officers investigating complaints of suspected child abuse or neglect on school property shall not be in uniform.

**Reporting Procedure**

The employee shall promptly report to the local DCF office or law enforcement if DCF is closed. It is recommended the building administrator also be notified after the report is made.

If the building principal has been notified, the principal shall immediately notify the superintendent that the initial report to DCF has been made. If appropriate, the principal may confer with the school's social worker, guidance counselor or psychologist. At no time shall the principal or any other staff member prevent or interfere with the making of a suspected child abuse report.

If available, the following information shall be given by the person making the initial report: name, address and age of the student; name and address of the parents or guardians; nature and extent of injuries or description of neglect or abuse; and any other information that might help establish the cause of the child's condition.

Any personal interview or physical inspection of the child by any school employee shall be conducted in an appropriate manner with an adult witness present.

State law provides that anyone making a report in good faith and without malice shall be immune from any civil liability that might otherwise be incurred or imposed.

Adopted by Board on 08/14, Revised 02/16

**SECTIONS**

The board of education is committed to limiting the use of Emergency Safety Intervention (“ESI”), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student's conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school’s code of conduct, school safety plan, or student handbook. Notice of the online availability of this policy shall be provided to parents during enrollment each year.

#### Definitions

“Area of purposeful isolation” means any separate space, regardless of any other use of that space, other than an open hallway or similarly open environment.

“Campus police officer” means a school security officer designated by the board of education of any school district pursuant to K.S.A. 72–6146, and amendments thereto.

“Chemical Restraint” means the use of medication to control a student’s violent physical behavior or restrict a student’s freedom of movement.

“Emergency Safety Intervention” is the use of seclusion or physical restraint, but does not include physical escort or the use of time-out.

“Incident” means each occurrence of the use of an emergency safety intervention.

“Law enforcement officer” and “police officer” mean a full-time or part-time salaried officer or employee of the state, a county, or a city, whose duties include the prevention or detection of crime and the enforcement of criminal or traffic law of this state or any Kansas municipality. This term includes a campus police officer.

“Legitimate law enforcement purpose” means a goal within the lawful authority of an officer that is to be achieved through methods or conduct condoned by the officer’s appointing authority.

“Mechanical Restraint” means any device or object used to limit a student’s movement.

“Parent” means: (1) a natural parent; (2) an adoptive parent; (3) a person acting as a parent as defined in K.S.A. 72-3122(d)(2), and amendments thereto; (4) a legal guardian; (5) an education advocate for a student with an exceptionality; (6) a foster parent, unless the student is a child with an exceptionality; or (7) a student who has reached the age of majority or is an emancipated minor.

“Physical Escort” means the temporary touching or holding the hand, wrist, arm, shoulder, or back of a student who is acting out for the purpose of inducing the student to walk to a safe location.

“Physical Restraint” means bodily force used to substantially limit a student’s movement, except that consensual, solicited, or unintentional contact and contact to provide comfort, assistance, or instruction shall not be deemed to be physical restraint.

“Purposefully isolate” when used regarding a student, means that school personnel are not meaningfully engaging with the student to provide instruction and any one of the following occurs:

1. Removal of the student from the learning environment by school personnel;
2. Separation of the student from all or most peers and adults in the learning environment by school personnel; or
3. Placement of the student within an area of purposeful isolation by school personnel.

“School resource officer” means a law enforcement officer or police officer employed by a local law enforcement agency who is assigned to a district through an agreement between the local law enforcement agency and the district.

“School security officer” means a person who is employed by a board of education of any school district for the purpose of aiding and supplementing state and local law enforcement agencies in which the school district is located but is not a law enforcement officer or police officer.

“Seclusion” means placement of a student for any reason other than for in-school suspension, detention, or any other appropriate

disciplinary measure in a location where both of the following conditions are met:

- \* School personnel purposefully isolate the student; and
- \* the student is prevented from leaving, or has reason to believe, that the student will be prevented from leaving the area of purposeful isolation.

“Time-out” means a behavioral intervention in which a student is temporarily removed from a learning activity without being secluded.

#### Prohibited Types of Restraint

All staff members are prohibited from engaging in the following actions with all students:

- Using face-down (prone) physical restraint;
- Using face-up (supine) physical restraint;
- Using physical restraint that obstructs the student’s airway;
- Using physical restraint that impacts a student’s primary mode of communication;
- Using chemical restraint, except as prescribed treatments for a student’s medical or psychiatric condition by a person appropriately licensed to issue such treatments; and
- Use of mechanical restraint, except:
  - Protective or stabilizing devices required by law or used in accordance with an order from a person appropriately licensed to issue the order for the device;

- Any device used by a certified law enforcement officer to carry out law enforcement duties; or
- Seatbelts and other safety equipment when used to secure students during transportation.

#### Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to affect physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

#### ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition shall be indicated in a written statement from the student's licensed health care

provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. In spite of the provisions of this subsection, a student may be subjected to ESI if not subjecting the student to ESI would result in significant physical harm to the student or others.

#### Use of Seclusion

When a student is placed in seclusion, a school employee shall see and hear the student at all times. The presence of another person in the area of purposeful isolation or observing the student from outside the area of purposeful isolation shall not create an exemption from otherwise reporting the incident as seclusion. When a student is placed in or otherwise directed to an area of purposeful isolation, the student shall have reason to believe that the student is prevented from leaving.

If the area of purposeful isolation is equipped with a locking door designed to prevent a student from leaving the area of purposeful isolation, the door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the area of purposeful isolation, or in case of emergency, such as fire or severe weather.

An area of purposeful isolation shall be a safe place with proportional and similar characteristics as those of rooms where students frequent. Such area shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

**Training**

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

**Notification and Documentation**

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include:

- The events leading up to the incident;
- student behaviors that necessitated the ESI;
- steps taken to transition the student back into the educational setting;
- the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI;
- space or an additional form for parents to provide feedback or comments to the school regarding the incident;
- a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents;  
and
- email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year:

- A copy of this policy which indicates when ESI can be used;
- a flyer on the parent's rights;

- information on the parent’s right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and
- information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas.

Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent’s written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent’s preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state

department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. The documentation shall include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,
- Whether the student had a section 504 plan at the time of the incident, and
- Whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis.

## **GAAF Emergency Safety Interventions**

**GAAF-11**

At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

### **Reporting Data**

District administration shall report ESI data to the state department of education as required.

### **Parent Right to Meeting on ESI Use**

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed

in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the

board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30<sup>th</sup> day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

For the purposes of this policy, it shall not be deemed assisting in obtaining a new job if the aforementioned individuals or entities participate in the routine transmission of administrative and personnel files in accordance with law and this policy.

The district will participate in workers compensation as required by current statute. The combined workers' compensation benefits and salary received under allowed paid leave shall not exceed one full day's pay.

All employees of the district shall be covered by workers compensation. Workers compensation coverage is provided for all employees regardless of assignment, length of assignment, and/or hours worked per day. Benefits are for personal injury from accident or industrial diseases arising out of and in the course of employment in the district.

An injured employee must notify the designated employer's workers compensation coordinator or, if the coordinator is unavailable, his or her supervisor, either orally or in writing within 30 days of the accidental injury or repetitive trauma in order to be eligible for benefits. If the individual no longer works for the district, the former employee has 20 calendar days after the individual's last day of employment with the district to report an injury suffered during a work-related accident or repetitive trauma.

The workers compensation plan will provide coverage for medical expenses and wages to the extent required by statute to those employees who qualify; however, the amount of workers compensation benefits and paid leave benefits shall not exceed a regular daily rate of pay. An employee using paid leave in combination with workers compensation will be charged for one full or partial day of paid leave, as provided for in the applicable leave policy or the negotiated agreement, for each day of absence until the employee's paid leave is exhausted.

Any employee who is off work and drawing workers compensation benefits shall be required to provide the designated workers compensation coordinator with a written doctor's release before the employee is allowed to return to work. In addition, should the employee be released to return to work by a doctor and fail to do so, all benefits under paid leave shall terminate, and those benefits under workers compensation shall be restricted as provided by current statute.

Whenever an employee is absent from work and is receiving workers compensation benefits due to a work-related injury or is receiving district paid disability insurance, the employee may use available paid leave to supplement the workers compensation or district paid disability insurance payments. Workers compensation benefits and FMLA benefits provided in a board approved plan shall run concurrently if both are applicable.

In no event shall the employee be entitled to a combination of workers compensation benefits, district paid disability insurance, and salary in excess of his/her full salary. Available paid leave may be used for this purpose until 1) available paid leave benefits are exhausted; 2) the employee returns to work; 3) the employee is released by the medical provider and a position is offered by the employer, but the employee declines to return to work; or 4) employment is terminated. Paid leave shall be deducted on a pro rata amount equal to the percentage of salary paid by the district.

### Testing

The board, through its designated workers compensation coordinator, may require employees who claim or are involved in an

accident in the course of employment to submit to a post-injury chemical test. This includes instances where the district administration or workers compensation coordinator has actual knowledge of an accident whether the employee has or has not requested medical treatment. If an employee refuses to submit to an employer requested post-injury chemical test, the employee forfeits all related workers compensation benefits as provided in K.S.A. 44-501(b)(1)(E). Testing and procedures used thereafter shall conform to all relevant Kansas statutes.

Choice of Physician

The board shall have the right to choose a designated health care provider to provide medical assistance to any employee who suffers an injury while performing their job. However, if the injured employee chooses to go to a medical provider other than the designated provider, the recovery for such expenses shall be limited to \$800.00.

An employee afflicted with a communicable disease dangerous to the public health may be excluded from district owned or operated property for the duration of the contagiousness in order to give maximum health protection to other school employees and to students.

The employee shall be allowed to return to duty upon recovery from the illness, when the employee is no longer contagious as authorized by the employee's physician or local health officer, or after the expiration of any period of isolation or quarantine.

The board reserves the right to require a written statement from the employee's physician or local health officer indicating that the employee is free from all symptoms of the communicable disease.

If a school employee has been diagnosed as having a communicable disease and the superintendent has been notified by the employee, the superintendent or the superintendent's designee shall determine whether a release shall be obtained from the employee's physician or local health officer before the employee returns to duty.

Decisions regarding the type of employment setting for an employee with a communicable disease shall be made by the superintendent or the superintendent's designee based upon consideration of the physical condition of the employee and the following factors:

This leave shall normally be unpaid leave. However, if the employee has any paid vacation, personal, or sick leave that is available for use because of the reason for the leave, the paid leave shall be used concurrently with the annual family and medical leave. During the period of any unpaid family and medical leave, the board shall continue to pay the employer's share of the cost of group health benefits in the same manner as paid immediately prior to the leave. Any employee portion of the cost shall be paid by the employee to the clerk of the board on the payroll date or other time as the employee and superintendent may agree prior to the commencement of the leave. The board may terminate group health coverage if the employee's portion of the payment is not received within 30 days of the due date, so long as written notice of the delinquency in payment and the notice of intent to terminate coverage are sent at least 15 days prior to the termination.

When leave is foreseeable, the employee shall give written notice 30 days in advance. If leave is not foreseeable, notice will be given as soon as is practicable.

Upon the employee providing notice of need for leave, the employer will notify the employee of the following within 5 business days, absent extenuating circumstances:

If the leave is for a reason other than the employee's serious health conditions or for a qualifying exigency as described in section (5) above, the superintendent may require an instructional employee to continue leave until the end of a semester, if:

1. the leave begins in the last five (5) weeks of a semester, will last more than two (2) weeks and the return to work would occur in the last two

**GARID    Uniformed Service Leave**

**GARID**

Employees are entitled to leave under the Uniformed Services Employment and Reemployment Act of 1994. The Act applies to uniformed service that began on or after December 12, 1994, or uniformed service that began before December 12, 1994, if the employee was a reservist or National Guard member who provided notice to the employer before leaving work. The Act only applies to commissioned officer corps of the National Oceanic and Atmospheric Administration whose service began on or after December 23, 2020, or were actively engaged in service on December 23, 2020.

Reemployment rights extend to persons who have been absent from work because of “service in the uniformed services.” Service in the uniformed services means the performance of a duty on a voluntary or involuntary basis in a uniformed service as outlined below.

<u>TYPE OF UNIFORM SERVICE</u>	<u>TYPE OF DUTY</u>
United States Army, Navy, Marine Corps, Air Force, Space Force, and Coast Guard	Active duty, active duty for training, initial active duty for training, inactive duty training, a period for which a person is absent from a position of employment for the purpose of an examination to determine the fitness of the person to perform any such duty
Reserves of the United States Army, Navy, Marine Corps, Air Force, Space Force, and Coast Guard	Active duty, active duty for training, initial active duty for training, inactive duty training, a period for which a person is absent from a position of employment for the purpose of an examination to determine the fitness of the person to perform any such duty, performing funeral honors duty
Army National Guard or Air National Guard	Active duty, active duty for training, initial active duty for training, inactive

	duty training, full-time National Guard duty, state active duty for a period of 14 days or more, state active duty in response to a national emergency or major disaster declared by the President, state active duty in response to a major disaster, absence from work for an examination to determine a person's fitness for any of the above types of duty, performing funeral honors duty

System Members of the National Urban Search and Rescue Response System	Participation of the System member in exercises, pre-incident staging, major disaster and emergency response activities, and training events sponsored or sanctioned by the Administrator
Intermittent Personnel Appointed to the Federal Emergency Management Agency	Service to the Federal Emergency Management Agency or to train for such service
Any Other Category of Persons Designated by the President in a Time of War or National Emergency	Active duty, active duty for training, initial active duty for training, inactive duty training, a period for which a person is absent from a position of employment for the purpose of an examination to determine the fitness of the person to perform any such duty

The employee may be absent for up to five (5) years for uniformed service and retain reemployment rights. There are, however, exceptions which can exceed the five (5) years limit. Reemployment protection does not depend on the timing, frequency, duration, or nature of an individual's service. The law enhances protections for disabled veterans including a requirement to provide reasonable accommodations and up to two (2) years to return to work if convalescing from injuries received during service or training.

The returning employee is entitled to be reemployed in the job that they would have attained had they not been absent for uniformed service, with the same seniority, status and pay, as well as other rights and benefits determined by seniority. If necessary, the employer must provide training or retraining that enables the employee to refresh or upgrade their skills so they can qualify for reemployment. While the individual is performing uniformed service, he or she is deemed to be on a furlough or leave of absence and is entitled to the non-seniority rights accorded other individuals on non-USERRA leaves of absence. Individuals performing uniformed service of more than 30 days may elect to continue employer sponsored health care for up to 24 months at a cost of up to 102 percent of the full premium. For uniformed service of less than 31 days, health care coverage is provided as if the individual had never left. All pensions which are a reward for length of service are protected.

An individual must provide advance written or verbal notice to their employer for any uniformed service. Notice may be provided by the employee or by the branch of the uniformed service in which the individual will be serving.

**GARID Uniformed Service Leave**

**GARID-4**

Notice is not required if uniformed service necessity prevents the giving of notice; or if the giving of notice is otherwise impossible or unreasonable.

Accrued vacation or annual leave may be used (but is not required) while performing uniformed service. The individual's timeframe for returning to work is based upon the time spent in uniformed service.

<u>TIME SPENT IN UNIFORMED SERVICE</u>	<u>RETURN TO WORK OR APPLICATION FOR REEMPLOYMENT</u>
Less than 31 days:	Must return at the beginning of the next regularly scheduled work period on the first full day after release from service, taking into account safe travel home plus an eight (8) hour rest period.
More than 30 but less than 181 days:	Must submit an application for reemployment within 14 days of release from service.
More than 180 days:	Must submit an application for reemployment within 90 days of release from service.

The individual's separation from service must be under honorable conditions in order for the person to be entitled to reemployment rights. Documentation showing eligibility for reemployment can be required. The employer has the right to request that an individual who is absent for a period of service of 31 days or more provide documentation showing:

- The application for reemployment is timely;
- the five-year service limitation has not been exceeded; and,
- separation from service was under honorable conditions.

**GARID Uniformed Service Leave**

**GARID-5**

If documentation is not readily available or does not exist, the individual must be reemployed. However, if after reemploying the individual, documentation becomes available that shows one or more reemployment requirements were not met, the employer may terminate the individual, effective immediately. The termination does not operate retroactively.

Questions regarding uniformed service leave should be directed to Veterans' Employment and Training Service, U.S. Department of Labor.

Kansas law also requires reemployment if an individual is called to active duty by the state.

**GAT Staff Use of Communication Devices (See [IIBG](#) and [IIBGC](#)) GAT**

The board encourages district employees to use technology, including communication devices, to improve efficiency and safety. The district expects all employees to use communication devices in a responsible manner that does not interfere with the employee's job duties. Employees who violate district policies and procedures governing the use of communication devices may be disciplined, up to and including termination, and may be prohibited from possessing or using communication devices while at work. Communication devices may not be used in any manner that would violate the district's policy on student-staff relations.

**Definitions**

“Communication device” is defined to include all portable devices that send or receive calls or text messages, allow the retrieval of email, or provide access to the Internet. Communication devices shall include, but may not be limited to cell phones, smart phones, iPads, and tablets.

“Use/Using” for the purposes of this policy mean answering or talking on the phone; sending or responding to a text, e-mail, or other communication; opening and viewing pictures or digital recordings; opening and listening to music or audio communications; accessing social media websites; playing games on such device; continuously checking a communication device; or any activity with a communication device that interferes with the employee’s job duties or appropriate supervision of students.

**General Use**

The district prohibits employees from using any communication device that interrupts or disrupts the performance of duties by the employee or otherwise interferes with district operations, as determined by the employee's

supervisor. This prohibition applies regardless of whether the communication device used is owned by the employee or provided by the district. Employees are responsible for keeping communication devices secure and, if possible, password protected.

Supervision of students and the provision of academic instruction are priorities in the district, and employees who are responsible for supervising and/or providing academic instruction to students must concentrate on these tasks at all times. Employees shall not use communication devices when they are responsible for supervising students or when their doing so interrupts or interferes with classroom instruction unless any of the following conditions occurs:

- The device is being used to instruct the students being supervised at the time;
- The use is necessary to the performance of an employment-related duty;
- The employee has received specific and direct permission from a supervisor to do so; or
- There is an emergency.

Even when these conditions exist, the employee is responsible for obtaining assistance in adequately supervising students during the approved use so that students are supervised at all times.

Use in Vehicles

Regardless of other provisions of this policy, unless there is an emergency, employees shall not use communication devices when:

- Driving district-provided vehicles;

**GAT Staff Use of Communication Devices**

**GAT-3**

- Operating a vehicle in which a student is being transported when the transportation is provided as part of the employee's job; or
- Supervising students who are entering or exiting a vehicle, crossing thoroughfares, or are otherwise attempting to safely reach their destinations.

Even in emergency situations, employees should first take all possible safety precautions before using communication devices. Employees are subject to local, state, and federal laws governing use of cell phones while driving and will be solely responsible for all traffic violation liabilities resulting from their use of a phone while driving.

**Use of District-Provided Communication Devices**

The district may provide communication devices and service to some employees to assist them in carrying out their employment-related duties on and off district property. Use of a district-provided communication device is a privilege. The superintendent or designee has sole discretion as to which employees will be provided communication devices and may recall any previously issued communication device. Employees do not have any expectation of privacy in district-provided communication devices or any information stored on them, and such devices may be confiscated and searched at any time.

Employees are expected to exercise reasonable care to protect district-provided communication devices from damage or theft and must report any such incidents immediately. The district may require employees to reimburse the district for any damage or theft that was the result of the employee's negligence. Users of district-provided communication devices must abide by any use limitations included in the district's service contract.

Personal Use of District-Provided Communication Devices

Personal use of district-provided communication devices is permissible as long as the use does not exceed the limits of the applicable plan. An employee whose use exceeds plan limitations will be required to reimburse the district for all expenses beyond those covered by the plan and may have privileges suspended or revoked unless the employee can show that all use was for employment-related duties and the device was not used for personal reasons. The amount of personal use of a communication device or service paid for under E-Rate can be no greater than the cost allocation submitted in the request for the E-Rate discount.

Staff Bring Your Own Device Policy

Use of employees' personal communication devices during work hours shall be in a responsible manner that does not interfere with the employee's job duties. Such personal communication devices may only be used by the staff member and are not for student use. The security of personal computing devices is solely the responsibility of the staff member. Any loss resulting from damage or theft of personal communication devices in the school setting is not the responsibility of the district.

Advance notification to a parent or guardian must include:

- A copy of the test, questionnaire, survey, or examination that is to be administered;
- Information on how the parent or guardian may provide written consent to authorize the student to take such test, questionnaire, survey or examination;

- The name of the company or entity that produces or provides the test, questionnaire, survey or examination to the school; and

For written consent to be accepted, timely notice in compliance with the requirements of this policy must be provided, and the parent or guardian must have had an opportunity to review the information contained in the notice. Written consent must be provided separately for each individual test, questionnaire, survey, or examination that is to be administered. Prior to administering any such test, questionnaire, survey, or examination, a copy of it must posted and maintained on the district's website.

A student has the right to refuse to take any test, questionnaire, survey, or examination as described herein at any time, regardless of receipt of parent or guardian consent to participate. Prior to administering any such test, questionnaire, survey, or examination, each student, shall be informed that such student has the right to refuse to take it and that the student will not suffer any adverse consequences based on refusal to participate.

No personally identifiable student data shall be collected through any such test, questionnaire, survey, or examination.

If the designated staff member is unable to verbally notify the parent or guardian of the student and obtain consent after reasonable attempts to do so, the designated staff member may administer the risk assessment or screening tool without such consent. If a risk assessment or screening tool is administered without the parent or guardian's consent, as soon as contact with the parent or guardian is made, the designated staff member shall notify the parent or guardian of the administration of such assessment or screening tool and provide to the parent or guardian all information obtained from the risk assessment or screening tool administered to the student.

**IF**

All textbooks, instructional materials and the selection criteria for district media center materials shall be subject to board approval.

Textbooks and instructional materials shall support the district's instructional program. Media center materials shall support and supplement the curriculum, promote wise use of leisure time, develop literary discrimination and appreciation, and encourage students to become productive citizens.

Selection Criteria: Textbooks and Instructional Materials

Textbooks and instructional materials shall provide:

- An effective education for all students;
- factual knowledge, literary appreciation, aesthetic values and ethical standards;
- practice for students to develop abilities in critical thinking, communication, mathematics, and science skills;
- information which helps students develop an appreciation of American cultural, ethnic and racial diversity, and balanced views concerning international, national, state, and local issues and problems; and
- sufficient flexibility for meeting the special needs of individuals and groups.

The superintendent shall develop selection procedures which meet the above criteria, which shall include a review of available material by appropriate staff members.

Selection Criteria: Media Center Materials

Materials shall be chosen for accuracy, artistic quality, format, and

authoritativeness. Materials shall be chosen on various reading levels presenting different points of view, including current issues.

Books and other media materials shall be evaluated before purchase, either through direct examination or by using reputable, unbiased, professionally prepared selection tools.

The media center(s) shall obtain, process, and circulate materials and equipment and provide references and other services to students and faculty. Media specialists shall work toward providing resources so that students have an opportunity to achieve high levels of performance.

#### Collection Development

The media collection shall be developed systematically, be well balanced in coverage of subjects, and include various types of materials and diverse content in multiple formats.

The collection shall reflect, enhance, and complement the broad interests represented in the curriculum. The collection should be large enough to allow materials to be placed in classrooms for extended periods of time.

#### Challenges of Materials

Any student, parent, or legal guardian of a student currently enrolled in the district having a complaint about textbooks, media center, or other instructional materials shall meet with the teacher, media specialist, or principal. If the concern is addressed to a teacher or media specialist, they shall report the matter to the principal. If the matter cannot be resolved, the principal shall notify the superintendent and ask the complainant to complete a request for review form which is available through building principals or at the district office. After

receiving the completed form, the superintendent shall review and consider the request.

If the issue outlined in the request is not resolved after review by the superintendent, the requester may seek review by the board.

In determining whether to forward a challenge to a review committee, the board shall consider the following factors:

- The basis of the challenge;
- Whether the material has been previously challenged and reviewed pursuant to this process; and
- Whether it is necessary to submit it for additional review.

If the board chooses not to submit the challenge to the review committee, the superintendent will notify the requestor of the board's decision. If the board chooses to submit the challenge to a review committee, it shall forward all appropriate written materials necessary to the review committee.

#### Composition of Review Committee

When a review committee is established to handle requests for review concerning textbooks, media center, or instructional materials, the review committee shall be composed of:

The building principal, library media specialist, two subject area specialists, two community members, and one student. If the request for review proposes that the material is inappropriate for minors, the student representative may be left off the committee. The superintendent shall be responsible for appointing review committee members, unless otherwise determined by the board on a case-by-case basis.

**Purview of Review Committee**

The review committee shall examine and evaluate the material as a whole, consider the district's policy, procedures, and philosophy for selection of textbook, instruction materials, and media center materials; weigh strengths and weaknesses; and form opinions based upon the selection criteria.

**Written Report**

Within 30 days of receiving access to the challenged materials, the review committee shall review the material and prepare a written report containing conclusions and recommendations for the board of education.

If the board receives simultaneous challenges of multiple material or if circumstances render the 30-day timeline impracticable, the board may extend the committee's deadline to complete its review.

No reviews will be conducted during summer break or when school is not in session for one week or longer. The timeline for any review shall be tolled during such breaks.

**Board Review and Action**

The board shall review the recommendation of the review committee within 30 days of receipt thereof and may accept the review committee's recommendation, reject the review committee's recommendation, or make its own determination regarding the challenged book or material.

The decision of the board is final.

**Removing Challenged Materials**

Challenged materials may be removed from use during the review period at the discretion of the superintendent.

Impact of Simultaneous or Repeated Requests

If more than one request for review is received simultaneously, or, if one or more requests for review is received while another review is pending, timelines established in this policy may be extended by the superintendent or the board to allow the requests to be processed in turn. When more than one request for review is received for the same book or material, such requests may be consolidated to reduce redundancy in review of any stage of this process.

If a book or material has been reviewed by a review committee, it will not be eligible for an additional review for at least one year from the date the board took action on the previous challenge of the material.

## **IIA Performance-Based Credits**

**IIA**

A student may earn credits towards high school graduation by demonstrating mastery of the course outcomes through a performance instrument. The standards for designing and passing the performance instrument shall be set sufficiently high to ensure credits earned by such means shall be equivalent to those offered in the framework of the Carnegie unit.

A written request to “test out” of a class must be submitted prior to the beginning of each semester/year. A student may not request to “test out” of a class in which he or she is currently enrolled or has been enrolled.

The request is to be evaluated within 30 school days by a review committee composed of: a building administrator, a school counselor, a faculty member appointed by the principal, and the students’ parent(s) or guardian(s).

If the request is approved, the course instructor will have 30 school days to design a performance instrument that reflects mastery of all course outcomes. Commercially available instruments may be used if they cover all course objectives. A performance instrument shall be approved by the principal. The principal, in consultation with the instructor, will determine the setting and the timelines for the administration of the instrument, as well as the criteria for successful completion of those tasks.

The student has 10 school days in which those designated tasks developed by the teacher and approved by the administration must be performed.

Credit for such classes shall be awarded only on a pass/fail basis. Students will be allowed only one opportunity to “test out” of any particular class. It will not be the responsibility of the school or the instructor to provide instructional and/or review time for the student. However, the outcomes, as noted in the district curriculum guide, and class syllabus will be made available.

**Graduation Credit Through Integrated Coursework**

The board may allow graduation credit for integrated academic or career and technical education course work. The teacher awarding academic credit shall be fully licensed and may work collaboratively with another instructor to develop a course plan for instruction. The teacher shall monitor the student's progress and level of achievement. The plan will be reviewed periodically to maintain rigor and relevance.

**Credit Through Alternative Educational Opportunities**

Students enrolled in grades six through twelve may earn course credits through alternative education opportunities with sponsoring entities. For the purpose of this policy, terms have the following meanings.

- "Alternative educational opportunity" means instruction that primarily occurs outside the classroom with a sponsoring entity.
- "Sponsoring entity" means a business, not-for-profit organization, nonprofit organization, trade association, parent of a student, teacher, or administrator that partners with a school district to provide an alternative educational opportunity to students.

**Eligibility Requirements for Sponsoring Entities**

The board may accept a proposal from a sponsoring entity if the alternative educational opportunity provided by the sponsoring entity provides an additional learning opportunity for students through a work-based, pre-apprenticeship, apprenticeship, internship, industry certification, or community program; and either the proposal is approved by the state board of education as an alternative educational opportunity, or it complies with the requirements of this policy regarding such opportunities.

**Requirements for the Provision of Alternative Educational Opportunities**

Each approved alternative educational opportunity with a sponsoring entity shall be managed and directed by a licensed teacher employed by the school district. The teacher may work collaboratively with the principal, the sponsoring entity, or another teacher to develop a course plan for instruction with learning outcomes identified. The teacher shall monitor the student's progress and level of achievement based on this plan. The plan will be reviewed periodically and adjusted as needed to promote a quality learning experience. The principal shall provide a report annually, or as requested, to the superintendent evaluating the additional educational opportunity provided to participating students and making recommendations to the superintendent on continuation, termination, or modification of the opportunity.

**Process for Submitting a Proposal for an Additional Educational Opportunity**

Sponsoring entities wishing to partner with the district to provide additional educational opportunities to students, shall submit a proposal to the superintendent outlining the contact information and credentials of the person(s) that would be working directly with the student participants in this experience; educational goals for the partnership; any time, place, manner, and number of participant restrictions regarding how the learning opportunity would be provided; proposed learning outcomes for participating students; and any details regarding prerequisite coursework, certification, or experience a candidate for this experience should possess prior to entering the program.

**Criteria for Evaluating Such Proposals**

Prior to making a recommendation to the board on whether the district should partner with or continue to partner with a sponsoring entity, the superintendent shall review the proposed alternative educational opportunity in comparison with the board approved curriculum and goals, consulting other staff members as necessary in that process. Before recommending action to continue such partnership from year-to-year, the superintendent may seek and shall review any available reports on the opportunity provided by the principal in accordance with this policy.

The board should consider the recommendation of the superintendent in determining whether to partner with or continue partnership with a sponsoring entity. In order for the board to partner with a sponsoring entity and to maintain such partnership, the sponsoring entity must first meet the eligibility requirements as outlined in the policy.

Additional considerations weighing into the decision to partner with a sponsoring entity may include, but may not be limited to; whether the learning experience meets the curricular, rigor, and relevance needs of the student and/or the district; qualifications, experience, reputation, and responsibility of the sponsoring entity and/or individuals that would be working directly with students; related costs for the district, regarding the provision of transportation, equipment, human resources to monitor the experience, etc.; space and time constraints if the experience will be provided in district facilities; student and staff safety; the need for and/or availability of insurance coverage, as applicable; effect on other district course offerings and activities; and student interest. As the welfare of students is of paramount importance to the board, the district reserves the right

to complete background checks on any individuals working directly with students on behalf of the sponsoring entity and to base decisions on entering or exiting such a partnership, in whole or in part, on the results thereof.

Determining the Course Credit that May Be Earned Through These Opportunities

The superintendent may develop procedures for review of the experience and the award of credit in accordance with board approved curriculum. The superintendent may award credit for the experience as deemed appropriate for district elective offerings based on meeting local standards for those offerings. In order for any alternative educational experience to be approved for credit in a state-required course, such experience must meet all applicable statutory, regulatory, and Kansas State Board of Education approval standards for award of such credit.

State Reporting Requirements

The superintendent or the superintendent's designee shall make reports to the Kansas State Department of Education as required thereby. Such reports will include information regarding the alternative educational opportunities offered at each school, the names of sponsoring entities, the number of students participating in such opportunities, and credits earned.

Resident Students

A "resident student" is any child who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. Children who are "homeless" as defined by Kansas law and who are located in the district will be admitted as resident students. For purposes of this policy, "parent" means the natural parents, adoptive parents, step-parents and foster parents. For purposes of this policy, "person acting as a parent" means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Non-resident Students

Details concerning the enrollment and continued enrollment process for nonresident students may be found in board policy JBCC.

Enrollment Restriction

Unless approved in advance by the board, no student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times, and communication to parents and to the public.

Part-Time Students

The board allows any child to enroll part-time in the school district to allow the student to attend any courses, programs, or services offered by the school district if the child:

- Is also enrolled in a nonaccredited private elementary or secondary school or in any other private, denominational, or parochial school as required by law;
- Requests to enroll part-time in the school district; and
- Meets the age of eligibility requirements for school attendance.

District administrators shall make a good faith attempt to accommodate scheduling requests of students enrolling in the school district in these situations but shall not be required to make adjustments to accommodate every such request.

Part-time students, other than those specified previously in this policy may enroll with the administration's permission if they complete all paperwork in a timely fashion and are in attendance no later than September 15<sup>th</sup> of the current school year. Such part-time students may be admitted only to the extent that staff, facilities, equipment, and supplies are available, and the students follow the district's student conduct policies and rules.

Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of the Secretary of the Department for Children and Families, or other documentation which the Board determines to be

satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript or similar pupil records or data, or other documentary evidence the board deems satisfactory.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

#### Enrollment Information

The enrollment documentation shall include a student's permanent record card with a student's legal name as it appears on the birth certificate, or as changed by a court order and the name, address, telephone number of the lawful custodian. The records shall also provide proper proof of identity.

#### Assignment to a School Building, Grade Level, or Classes

Unless otherwise provided herein, the superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the superintendent.

If required by law, students placed in foster care or students who are homeless may be educated in their "school of origin" instead of the building

corresponding to the assigned attendance area. (For definition of “school of origin”, see regulations for JBCA and JBCB.)

Assignment to a particular grade level or particular classes shall be determined by the building principal based on the educational abilities of the student. If the parents disagree, the principal’s decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

Transferring Credit

In middle school and high school, full faith and credit shall be given to units earned in other accredited schools at the time the student enrolls in the district, unless the principal determines there is valid reason for not doing so. For online credit approval procedures after enrollment, see board policy IIBGB.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools will be placed by the principal. Initial placement will be made by the principal after consultation with parents or guardians and guidance personnel. Final placement shall be made by the principal based on the student’s documented past educational experiences and performance on tests administered to determine grade level placement.

# **JBCB FOSTER CARE STUDENT REGULATIONS**

## **Foster Care Student Regulations To Aid In Implementation of Federal Law**

**NOTE:** This document MUST be approved by board action to become policy. File with clerk, distribute to principals, and duplicate as necessary in district newsletters and other documents.

The Every Student Succeeds Act (“ESSA”) addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education (“KSDE”), and the Kansas Department for Children and Families (“DCF”) to ensure the educational stability of students in foster care.

For the purposes of these regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

### Transportation of Students in Foster Care

ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster care in his or her school of origin (when in the student’s best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. Also, they must address how additional costs will be absorbed. Therefore, if there are any additional costs incurred to maintain a

## **JBCB FOSTER CARE STUDENT REGULATIONS**

foster care student in his or her school of origin, the district will provide the transportation if:

1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

### Additional Costs

“Additional costs” reflect the difference between what the district would spend to transport a student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

### School of Origin

The “school of origin” is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student’s best interest to stay at that school.

### Best-Interest Determination

DCF will make the final decision regarding whether it is in a student’s best interest to remain in the school of origin. District staff may be asked to provide information on the “educational best interest” of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individual with Disabilities Education Act or for students on Section 504 accommodation plans, it is recommended that relevant team members should be consulted in the

When a student is absent from school, an attempt shall be made to contact the parent or guardian to determine the reason for the absence. The principal has been designated to determine the acceptability and validity of excuses presented by the parent(s) or the student.

Procedures for notifying parents on the day of a student's absence shall be published in the student handbook.

Excused/Unexcused Absences

The definition of "excused absence" includes the following:

- Personal illness;
- Health-related treatment, examination, or recuperation;
- Serious illness or death of a member of the family (principal may require a doctor's report);
- Obligatory religious observances;
- Required court appearance;
- College visits when scheduled with a counselor;
- Participation in a district-approved or school sponsored activity or course;
- Absences prearranged by parents and approved by the principal or designee; and
- Students of active duty military personnel may have additional excused absences at the discretion of the principal for visitations relative to leave or deployment.

All absences which do not fit into one of the above categories would be considered an unexcused absence. A student serving a period of suspension or expulsion from the district shall not be considered inexcusably absent.

**Significant Part of a School Day**

If a student misses two or more hours of the school day, this shall be considered a significant part of the day.

Significant Part of the school day, for the purpose of truancy, is defined in procedures.

**Make-Up Work**

It is the student's responsibility to obtain make-up assignments from teachers following an excused or unexcused absence.

Adopted by Board 07/15; 09/15

**[SECTIONS](#)**

Unless reporting would violate the terms of any memorandum of understanding between the district and the authority to which reports would be made. The building principal shall report students who are inexcusably absent from school to the appropriate authority.

Truancy is defined as any three consecutive unexcused absences, any five unexcused absences in a semester or seven unexcused absences in a school year, whichever comes first. Truancy shall not apply to students who have attained a high school diploma, a general educational development credential, or a high school equivalency credential. Exceptions also exist for students attending the Kansas academy of mathematics and science and for students who are part of a recognized church or religious denomination objecting to a regular public high school education under circumstances specified in state law.

For truancy purposes, being enrolled and continuously attending a public school; a private, denominational, or parochial school taught by a competent instructor for a period of time which is substantially equivalent to the period of time public school is maintained in the school district in which the private, denominational, or parochial school is located; or a combination of attendance in both a public school and a private, denominational, or parochial school may satisfy compulsory attendance requirements. School year means the period from July 1 to June 30.

Students who are absent without a valid excuse for a significant part of

any school day shall be given an unexcused absence for truancy accounting purposes considered truant.

Prior to reporting to either the Department for Children and Families (if the student is under 13) or the county or district attorney (if the student is 13 or more years of age but less than 18 years of age), a letter shall be sent to the student's parent(s) or guardian notifying them that the student's failure to attend school without a valid excuse shall result in the student being reported truant.

Waiver of Compulsory Attendance Requirements

Students 16 or 17 years of age may be exempt from compulsory attendance regulations if;

\* The student is regularly enrolled in and attending a program recognized by the board as an approved alternative educational program.

\* the parent(s) or person acting as parent provides written consent to allow the student to be exempt from the compulsory attendance requirement and the student and the student's parent or person acting as a parent attend the counseling session required by law and signs the appropriate consent and waiver form;

\* the student is not subject to truancy law in accordance with law or this policy;

\* the child is regularly enrolled and continuously attending school as required by law and is concurrently enrolled in a postsecondary educational institution; or

\* the student is exempt from compulsory attendance requirements pursuant to a court order.

Involvement of Law Enforcement

Law enforcement officers may return truant children to the school where the child is enrolled, to the child’s parent or guardian, or to another location designated by the board to address truancy issues.

Reporting to Parents

If a truant child is returned to school by a law enforcement official, the principal shall notify the parent or guardian.

Dual Enrollment Students

Eligible students who are enrolled in a board-approved dual enrollment program shall not be considered truant for the hours during the school day they attend classes at a Regent’s university, community college, technical college, vocational educational school or Washburn University.

Principals are authorized to search students if there is reasonable suspicion that district policies, rules or directives are being violated. Strip searches shall not be conducted by school authorities. All searches by the principal shall be carried out in the presence of another adult witness.

The student shall be told why a search is being conducted. The student shall be requested to empty items such as, but not limited to, pockets, purses, shoulder bags, book bags and briefcases. The principal shall attempt to call the student's parent/s and may call law enforcement. Building administrators, school security officers, and/or others designated by the superintendent may conduct investigations and question students about violation of school rules, the student conduct code, and/or law. Unless otherwise provided herein, such investigators shall not be required to contact the student's parent, guardian, or representative prior to questioning and may request law enforcement, school resource officer(s), and/or school security officer(s) for assistance in conducting the investigations.

If there is reason to believe a violation of a criminal law has been committed, the building administrator, the superintendent's designee, and/or school security officer with authorization of the superintendent or the superintendent's designee shall notify the appropriate law enforcement agency of criminal conduct as provided in law and/or board policy and may request further investigation of the alleged violation.

When a school resource officer or campus police officer initiates an investigation of a potential violation of criminal law by a student on the officer's own initiative and not at the behest of a building administrator or the designee of the superintendent, such officer will notify the building administrator and/or designee who will make a reasonable attempt to contact the student's parent, guardian, or representative prior to initiating questioning.

#### Coordination with Law Enforcement

School administrators and/or school security officers shall meet at least annually with local law enforcement officials to discuss the district's policies and rules regarding law enforcement contacts with the district and reporting of potential criminal acts at school or school activities.

Notification of Investigations Conducted by Law Enforcement Officers

When law enforcement officers initiate an investigation involving questioning of a student on a topic unrelated to a report of child abuse or neglect or to the identity of the student during school hours the building administrator shall make a reasonable attempt to contact a parent, guardian, or representative of the student(s) prior to such questioning. Notification or attempted notification of a parent, guardian, or representative shall be documented by the administrator involved. If a student's parent, guardian, or representative is not present during such questioning of a student, the principal may be present unless otherwise specified in law or board policy.

Child Abuse and Identity Investigations Conducted by Law Enforcement Officers

The administration shall cooperate with law enforcement officers who are conducting investigations of suspected child abuse or neglect or concerning the student's identity. For any investigations concerning known or suspected child abuse or neglect, school staff shall follow the procedures outlined in board policy GAAD instead of the requirements of this policy.

Law Enforcement Initiated Investigations at School

In cases not involving the investigation of known or suspected child abuse or neglect or involving the student's identity, law enforcement officers shall not be permitted to initiate and conduct investigations involving the questioning of students during school hours unless the student's parent or guardian has given the school permission to allow the questioning, a valid warrant has been presented to the building administrator for such purpose, or in

demonstrated emergency situations. If a demonstrated emergency is found, the building administrator shall require identification of law enforcement officials and reasons for the interrogation or investigation of a student. If the building administrator is not satisfied with either the identification or the reason, the request shall not be granted. The building administrator shall attempt to notify the superintendent and the officer's superiors of the reasons for the refusal.

Taking Students Into Custody

Students shall not be voluntarily released by school officials to law enforcement authorities unless the student has been placed under arrest or taken into custody by law enforcement, school resource officers, campus police officers; or Department for Children and Families ("DCF") authorities pursuant to a child abuse investigation. Except as otherwise specified in this policy, a reasonable effort shall be made to notify the student's parent, guardian, or representative when students are removed from school for any reason. Parents shall not be notified by school officials when their child is taken into custody by DCF, school resource officers, campus police officers, and/or law enforcement as a result of allegations of abuse or neglect and there is reason to believe sharing the information may lead to harm of the child or others. Except as provided above and/or as specified in a court order or arrest warrant, if a student is taken into custody by a law enforcement officer, school resource officer, or campus police officer, building administrators shall make a good-faith effort to contact the student's parent or guardian. Notification efforts shall be documented.

When a student has been taken into custody or arrested on school premises without prior notification to the building administrator, the school staff present shall ask the law enforcement officer to notify the building administrator of the circumstances as quickly as possible and shall themselves contact the building administrator with any information they have regarding the child being taken into custody. School resource officers and campus police officers are expected to contact the building administrator as soon as practicable after taking a student into custody.

#### Disturbance of School Environment

Law enforcement officers may be requested to assist in controlling disturbances at school and, if necessary, to take students or other persons into custody.

For the purposes of this policy, students will not be deemed to be “taken into custody” when they are being questioned by a school resource officer, school security officer, and/or campus police officer about a violation of state law, county resolutions, city ordinances, board policy or regulation, and/or school rules on property owned, occupied, or operated by the school district or at the site of a function sponsored by the school district.

Any school employee who receives a complaint of discrimination or harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building

principal. If the building principal is the alleged harasser, the report shall be made to the district compliance coordinator. Complaints alleging discriminatory and/or harassing conduct on the part of the superintendent shall be addressed to the board of education. Any general student complaint, not alleging an act of discrimination, shall be resolved under the district's general complaint procedures in policy KN.

Except as otherwise provided in this policy or board policies GAAC, JGEC, or KNA regarding complaints of discrimination on the basis of sex or regarding child nutrition programs, complaints about discrimination, including complaints of harassment, will be resolved through the following complaint procedures.

**Informal Procedures**

The building principal shall attempt to resolve complaints of discrimination or harassment in an informal manner at the building level. Any school employee who receives a complaint of such discrimination or harassment from a student, another employee, or any other individual shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution of the complaint and forward this record to the district compliance coordinator. Within 20 days after the complaint is resolved in this manner, the principal shall contact the complainant to determine if the resolution of the matter remains acceptable.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Formal Complaint Procedures

- A formal complaint shall be filed in writing and contain the name and address of the person filing the complaint. The complaint shall briefly describe the alleged violation. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved through the informal procedures described herein, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board may appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or the superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity to submit written or oral evidence relevant to the complaint and to provide names of potential witnesses who may have useful information.

- A written determination of the complaint’s validity and a description of the resolution shall be issued by the investigator, and a copy forwarded to the complainant and the respondent within 30 days after the filing of the complaint. If the investigator anticipates a determination will not be issued within 30 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline for completion. In no event, shall the issuance of the written determination be delayed longer than 10 days from the conclusion of the investigation.
  - If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
  - If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

**Formal Complaint Appeal**

- The complainant or respondent may appeal the determination of the complaint.
- Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board or the superintendent, or by the board itself.

- The request to appeal the resolution shall be made within 20 days after the date of the written determination of the complaint at the lower level.
- The appeal officer shall review the evidence gathered by the investigator at the lower level and the investigator's report and shall afford the complainant and the respondent an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed.
- The appeal officer will issue a written determination of the complaint's validity on appeal and a description of its resolution within 30 days after the appeal is filed.

The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education or the Kansas Human Rights Commission.

When these screenings cannot be performed by district staff, the board authorizes the superintendent to identify healthcare service providers to provide them. Such healthcare service providers shall be required to enter into a contract with the district prior to providing any screenings or other services to students in the school setting.

### Vision Screenings

Basic vision screenings shall be provided to students without charge according to the following schedule:

- Annually for every child participating in IDEA part B programs;
- At least once each school year for students in kindergarten and grades one, two, three, five, seven, and ten;

While not part of the board provided vision screening program, each student needing assistance in achieving mastery of basic reading, writing, and mathematics skills shall be encouraged to obtain an eye examination by an optometrist or ophthalmologist to determine if the student suffers from conditions impairing the ability to read. Expense for such an examination, if not reimbursed through Medicaid, private insurance, or any other governmental or private program, shall be the responsibility of the student's parent or guardian.

#### Hearing Screening

Each year hearing screening procedures will be conducted for students in their first year of school attendance in the district. Such procedures will be provided for other students at a frequency of not less than once every three years unless otherwise specified by state law. Students known to have hearing difficulties and students referred by teachers, parents, and/or physicians will be screened regardless of grade level.

Under certain conditions, hearing screening services are provided for students residing within district boundaries who are enrolled in accredited non-public schools. These services are coordinated between the administration of the accredited nonpublic school and district administration and require a request from the student's parent or guardian. Implementation of the program for nonpublic school students follows the same guidelines as for district students.

The results of the test and, if necessary, the desirability of examinations by a qualified physician shall be reported to the parents or guardians of students screened.

Dental Screenings

Free dental inspections will be provided to students annually, planned for by designated school staff, and conducted by appropriate dental care providers. A certificate of the result of a school dental inspection, together with suggestions of requirements for the curing of any defects found, shall be made by the dental care provider making such inspection. One copy of this certificate is to be furnished to the child examined, and another will be filed with the clerk of the board. No dental work other than the inspection and provision of the certificate shall be performed by the examining dental care provider without the consent of the parents or guardian of the child.

Selected Screenings

Other screening procedures may be deemed appropriate and beneficial to students. Designated staff will assist in the planning and implementation of other screening programs following standard procedures.

**JGEC Sexual Harassment (see [GAAC](#), [GAAD](#), [GAF](#), [JDDC](#) and [KN](#)) JGEC**

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination on the basis of sex, including sexual harassment. The district does not discriminate on the basis of sex in admissions, employment, or the educational programs or activities it operates and is prohibited by Title IX from engaging in such discrimination. Discrimination on the basis of sex, including sexual harassment will not be tolerated in the school district. Discrimination on the basis of sex of employees or students of the district in any district education program or activity is strictly prohibited.

Sexual harassment is unlawful discrimination on the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Act Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs, or events within the United States.

It shall be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Sexual harassment shall include conduct on the basis of sex involving one or more of the following: (1) A district employee conditioning the provision of an aid, benefit, or service of the district on an individual's participation in unwelcomed sexual conduct; (2) unwelcomed conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's educational program or activity; or (3) sexual assault, dating violence, domestic violence, or stalking.

**JGEC Sexual Harassment (see [GAAC](#), [GAAD](#), [GAF](#), [JDDC](#) and [KN](#)) JGEC-2**

Sexual harassment may result from verbal or physical conduct or written or graphic material. Sexual harassment may include, but is not limited to: verbal harassment or abuse of a sexual nature; pressure for sexual activity; repeated remarks to a person, with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning a student's grades, participation in extra-curricular activities, etc.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. Complaints of sexual harassment will be promptly investigated and resolved. Any person may make a verbal or written report of sex discrimination by any means and at any time.

The Executive Director of Personnel Services, 123 North Eisenhower, 785-717-4000, has been designated to coordinate compliance with nondiscrimination requirements contained in Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, and the Kansas Act Against Discrimination. Information concerning the provisions of these Acts, and the rights provided thereunder, are available from the Title IX Coordinator. Inquiries about the application of Title IX to the district may be referred to the Title IX Coordinator, to the Assistant Secretary for Civil Rights at the U.S. Department of Education, Office of Civil Rights, 400 Maryland Avenue, SW< Washington D.C., 20202-1100, (800) 421-3481, or at [OCR@ed.gov](mailto:OCR@ed.gov); or both.

Response to Harassment Complaints

The district takes all reports of sexual harassment seriously and will respond meaningfully to every report of discrimination based on sex, including sexual harassment, of which the district has actual knowledge.

Any students who believe that he or she has been subjected to sexual harassment should report the alleged harassment to the building principal, another administrator, the guidance counselor, the Title IX Coordinator, or another licensed staff member. All employees receiving reports of sexual harassment from a student shall notify the Title IX Coordinator.

Definitions

**JGEC Sexual Harassment** (see [GAAC](#), [GAAD](#), [GAF](#), [JDDC](#) and [KN](#)) **JGEC-4**  
conduct occurred and provides an opportunity for the parties and their representatives to prepare written questions to be answered by the other party. The decision-maker shall not be the Title IX Coordinator or investigator.

“Domestic violence” includes crimes of violence committed by a person who is a current or former spouse, partner, person with whom the victim shares a child, or who is or has cohabited with the victim as a spouse or partner, by a person similarly situated to a spouse of the victim under Kansas or applicable federal law, or by any other person against an adult or youth victim having protection from such person’s acts by Kansas or applicable federal law.

A “formal complaint” means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment.

The “investigator” is the person who carries out the investigation after the formal complaint is filed and conducts interviews of the witnesses, collects and documents evidence, and drafts an investigative report.

The “Title IX Coordinator” is the individual designated at the district level who has responsibility to coordinate compliance with Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, and the Kansas Act Against Discrimination. The Title IX Coordinator’s responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

The Title IX Coordinator, any investigator, decision-maker, or any person who facilitates an informal resolution process shall not have a conflict of interest or bias for or against the complainant or respondent.

These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including by avoiding prejudgment of the facts, conflicts of interest, and bias. Decision-makers shall receive

**JGEC Sexual Harassment (see [GAAC](#), [GAAD](#), [GAF](#), [JDDC](#) and [KN](#)) JGEC-16**  
**Informal Resolution Process**

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- The parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, and information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process, resume the investigation of the formal complaint, and be informed of any consequences resulting from participating in the informal resolution process;
- The parties voluntarily and in writing consent to the informal resolution process; and
- The informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

**JGEC Sexual Harassment (see [GAAC](#), [GAAD](#), [GAF](#), [JDDC](#) and [KN](#)) JGEC-17**

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the proposed resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. Within 20 days after the complaint is resolved in this manner, the Title IX Coordinator shall contact the complainant to determine if the resolution of the matter remains acceptable. If the matter is not resolved, or if the individual does not believe the resolution remains acceptable within 20 days after the informal resolution document is executed, the individual or the Title IX Coordinator may proceed with the formal complaint process.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or appeal.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies, including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

The filing of a complaint or otherwise reporting sex discrimination including sexual harassment shall not reflect upon the individual's status or grades. Any act of retaliation or discrimination against any person who has filed

**JGEC Sexual Harassment (see [GAAC](#), [GAAD](#), [GAF](#), [JDDC](#) and [KN](#)) JGEC-18**

a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving sex discrimination, including sexual harassment, is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and the complaint procedures including how to report or file a formal complain of sex discrimination or sexual harassment shall be posted in each district facility, shall be published in student handbooks, and on the district's website as directed by Title IX Coordinator. Notification of the policy may include posting informational notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees. In addition, the district is required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

**[SECTIONS](#)**

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination, including harassment, on the basis of race, color or national origin or disability. Discrimination or harassment on the basis of race, color or national origin (“racial harassment”) or on the basis of disability (“disability harassment”) shall not be tolerated in the school district. Racial or disability harassment of employees or students of the district in any district education program or activity is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. Disability harassment is unlawful discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. All forms of racial or disability harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events.

It shall be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Prohibited conduct under this policy includes racially or disability-motivated conduct which:

- Affords a student different treatment, solely on the basis of race, color, national origin, or disability, in a manner which interferes with or limits the ability of the student to participate in or benefit from the services, activities or programs of the school;
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile academic environment; or

- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with a student's academic performance or ability to participate in or benefit from the services, activities or programs of the school.

Racial or disability harassment may result from verbal or physical conduct or written graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of racial or disability harassment and take prompt corrective action to end the harassment.

Any student who believes he or she has been subject to racial or disability harassment or has witnessed an act of alleged racial or disability harassment, should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of racial or disability harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal.

If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The building principal shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable student

conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct. The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially or disability motivated.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

An employee who witnesses an act of racial or disability harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the compliance coordinator shall report such conduct to the appropriate law enforcement or DCF authorities.

To the extent possible confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting racial or disability harassment shall not reflect upon the student's status or grades. Any act of retaliation against any person who has filed a complaint or testified, assisted, or

participated in an investigation proceeding, or hearing involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy shall be posted in each district facility and shall be published in student handbooks and on the district's website as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually, if applicable.

## **JGFGA Administration of Emergency Opioid Antagonists**

**JGFGA**

Kansas law creates standards governing the use and administration of emergency opioid antagonists approved by the U.S. Food and Drug Administration (“FDA”) to inhibit the effects of opioids and for the treatment of an opioid overdose. Any first responder or school nurse is authorized to possess, store, distribute, and administer emergency opioid antagonists as clinically indicated, provided that all personnel with access to emergency opioid antagonists are trained in proper protocol.

Similarly, Kansas law allows a patient or bystander (meaning a family member, friend, caregiver, or other person in a position to assist a person who the bystander believes to be experiencing an opioid overdose) to acquire and utilize emergency opioid antagonists.

Therefore, to prioritize student health and safety in its schools, programs, and activities, the board authorizes the district to obtain, store, and administer naloxone, Narcan, and/or other opioid antagonists for emergency use in its schools. The school nurse or other properly trained staff member may administer such medication in emergency situations. Opioid antagonists may be available during the regularly scheduled school day. They may be available at other times at the discretion of the superintendent.

The board establishes the following rules governing the utilization and administration of emergency opioid antagonists, such as, but not necessarily limited to, naloxone and Narcan, by members of district staff.

### **Training**

First Aid for Opioid Overdose must be obtained by each school nurse and other staff members designated by the superintendent to respond to potential opioid overdose situations. In addition, all district staff members with access to emergency opioid antagonists shall be trained, at a minimum, on the following:

- Techniques to recognize signs of an opioid overdose;
- Standards and procedures to store, distribute, and administer an emergency opioid antagonist;
- Emergency follow-up procedures, including the requirement to summon emergency ambulance services either immediately before or immediately after administering an emergency opioid antagonist to a patient; and
- Inventory requirements and reporting any administration of an emergency opioid antagonist to the school nurse or another healthcare provider.

## **JGFGA Administration of Emergency Opioid Antagonists**

**JGFGA-2**

District staff members personally acquiring such products for use as a patient or bystander are encouraged to inform the school nurse or the superintendent's designee, so that they may be trained in proper protocol and included in the school or district's crisis response plan regarding potential opioid overdose.

### Procurement of the Product

The school nurse or other staff member(s) designated by the superintendent will be responsible for the procurement of the product.

### Storage

The following storage protocols shall be followed:

- The product will be clearly marked and stored in an accessible place at the discretion of the school nurse or the superintendent's designee.
- The product will be stored in accordance with the manufacturer's instructions to avoid extreme cold, heat, and direct sunlight.
- Inspection of the product shall be conducted at least quarterly.
- The individual responsible for the product's safekeeping shall check, document, and track the expiration date found on the box and replace the product once it has expired.

### Use of the Product

In case of a suspected opioid overdose, the school nurse, designee, or other individual shall follow the protocols outlined in the training or product instructions.

### Follow-up

- After administration of the product, the school nurse, or other designated staff, will report appropriate information to emergency services, parents (guardians), central office personnel, and if determined necessary, the patient will be transported to a hospital.
- The school nurse or other designated staff will complete the designated incident report and file the report with the school nurse or district office, whichever is applicable.

In certain circumstances when medication is necessary in order that the student remain in school, the school may cooperate with parents in the supervision of medication that the student will use. Medications should be inventoried every semester. Out-of-date stock should be returned to parent or destroyed.

Over-the-counter medications should not be maintained on any school premises, including athletic areas, unless written parent permission to administer is obtained.

The building administrator may choose to discontinue the administration of medication provided that the parents or medical person are notified in advance of the date and the reasons for the discontinuance.

After medication is administered, students should be observed for possible reactions to the medication. This observation may occur at the site of administration or in the classroom as a part of the normal routine.

This policy shall be shared with all local physicians and dentists where practicable. Forms should also be made available to the health care providers in the community.

An individual record should be kept of each medication administered. The record should include student identification, date prescribed, name of medication, time and date(s) administered, signature of person administering and section for comments.

school hours. The student's parent or guardian shall annually complete and submit to the school any written documentation required by the school, including the treatment plan prepared by the student's health care provider. Permission forms shall be updated during enrollment.

### Employee Immunity

**KH Gifts and Bequests (See [DFK](#), [FC](#), [GAJ](#) and [JL](#))**

**KH**

All gifts and bequests given to the schools shall become the property of the district. A gift is defined as any financial donation or donation of property, personal service, structures, equipment or furnishing. Donors may be individuals, groups, organizations, or businesses. Prospective donors shall contact the facility principal and superintendent before publicly announcing a gift to a school or to the school district in order for the administration to consider the appropriateness of the gift.

To be acceptable, a gift must have a purpose consistent with that of the district, place no restrictions on the board, not be inappropriate or harmful to the best education of students, and not be in conflict with any provision of the district policy or public law.

The board authorizes the superintendent to accept gifts which do not require any expense for installation, special operations or maintenance if the value of the gift is \$5000 or less. Gifts which exceed \$5000, those involving installation costs to the board or those that would cause additional operating costs shall be referred to the board with a recommendation from a screening committee appointed by the superintendent. The screening committee's report will recommend acceptance or rejection with accompanying reasons for the recommendation. Gifts that require alteration of school facilities must have approval of the board.

**Books, Equipment and Other Materials**

Gifts of books and instructional materials will be accepted if the books and materials meet the same standards of selection as those applied to selection of instructional materials and library books and if the gift will not influence the

purchasing of similar books or materials from the donor. Donated equipment must be reviewed by the superintendent to determine acceptability in regard to safety, compatibility with existing equipment, programs and/or materials, installation and maintenance costs, and general impact upon the curriculum.

#### Exclusions

Under no circumstances shall gifts or bequests to the district or to a particular school be given or left with school officials without the approval of the superintendent. Once a gift has been accepted, it becomes the property of the district. **KK Disposal of District Property (See [DFM](#))**

**KK**

Except when disposing of a building as defined herein, the board may dispose of district property in a manner the board deems to be in the district's best interest. Whenever such excess district property is to be sold at auction, all sales shall be to the highest bidder. No credit shall be extended.

When disposing of any school district property, neither the board nor its agent shall refuse to sell, lease, or convey any interest in a building or property to a prospective buyer or lessee solely because the prospective buyer or lessee may use or intends to use the building or property as a nonpublic school building.

**Disposal of a School District Building**

For the purpose of this policy, terms have the following meanings.

- "Building" means any building that was used in any prior school year as an attendance center for students enrolled in kindergarten or any of the grades one through 12.
- "State agency" means any state agency, department, authority, institution, division, bureau, or other state government entity.

Within 30 days after the board of education adopts a resolution to dispose of a building, the board shall submit written notice of its intention to dispose of such building to the legislature. Such notice shall be filed with the chief clerk of the house of representatives and the secretary of the senate and shall contain the following:

- A description of the school district's use of such building immediately prior to the decision to dispose of such building;
- the reason for such building's disuse and the decision to dispose of such building;
- the legal description of the real property that is to be disposed; and
- a copy of the resolution adopted by the board of education.

Upon receipt of the notice, the legislature may adopt a concurrent resolution stating the legislature's intention that the state acquire the building in the following manner. Such concurrent resolution shall include:

- The name of the school district that owns such building;
- the information contained in the written notice as outlined herein; and
- the state agency that intends to acquire such building and the intended use of such building upon acquisition.

If the notice is received by the legislature during a regular legislative session, the legislature shall have 45 days to adopt such a concurrent resolution.

**KK Disposal of District Property (See [DFM](#))**

**KK-2**

If the notice is received when the legislature is not in regular session, then not more than 45 days after the notice is received by the legislature, the legislative coordinating council may deny the legislative option for the state to acquire the building. If the legislative coordinating council denies this option, the district may proceed with disposing of the building in accordance with Kansas law. If the legislative coordinating council does not deny the option for the state to acquire the building within the 45-day period, then the legislature shall have 45 days from the commencement of the next regular session to adopt a concurrent resolution as outlined herein.

Upon adoption of a concurrent resolution, the state agency named in such resolution shall have 180 days to complete the acquisition of such building and take title to the real property. Upon request of the state agency acquiring the building, the legislative coordinating council may extend the 180-day period for a period of not more than 60 days.

The board shall not sell, gift, lease or otherwise convey the building or any of the real property described in the written notice or take any action or refrain from taking any action that would diminish the value of such property during the 180-day period or any extension thereof.

If the legislature does not adopt a concurrent resolution as described herein within the 45-day period or if the state agency does not take title to the property within the 180-day period or any extension thereof, the school district may proceed with disposition of such property in such manner and upon such terms and conditions the board deems to be in the best interest of the district. Conveyances of the buildings and real property described on any legislative notice described herein shall be executed by the president of the board and attested to by the clerk.

School district buildings not meeting the definition of "building" as defined herein, may be disposed of in any manner deemed to be in the best interest of the district by the board, without need for legislative notice under this policy.

### General Complaints

The board encourages all complaints regarding the district to be resolved at the lowest possible administrative level. If the investigation and determination procedures of a complaint are not regulated in another board policy or the negotiated agreement, as applicable, it will be designated a general complaint subject to processing under this policy. Whenever a general complaint is made directly to the board as a whole or to a board member as an individual, it will be referred to the administration for study and possible resolution.

### Informal Procedures

The building principal shall attempt to resolve general complaints in an informal manner at the building level. Any school employee who receives a general complaint shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution of the complaint and forward this record to the district compliance coordinator. Within 20 days after the complaint is resolved in this manner, the principal shall contact the complainant to determine if the resolution of the matter remains acceptable.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Formal Complaint Procedures

- A formal complaint shall be filed in writing and contain the name and address of the person filing the complaint. The complaint shall briefly describe the alleged violation. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved through the informal procedures of this policy, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board may appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or the superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity to submit written or oral evidence relevant to the complaint and to provide names of potential witnesses who may have useful information.
- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy will

be forwarded to the complainant and the respondent within 30 days after the filing of the complaint. If the investigator anticipates a determination will not be issued within 30 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline for completion. In no event shall the issuance of the written determination be delayed longer than 10 days from the conclusion of the investigation.

- If the investigation results in a recommendation that a student or staff member be subject to discipline, the specifics will not be included in the written determination provided to the parties to protect the privacy rights of the student or staff member.
- If the investigation results in a recommendation that student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
- If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.
