

The St. Mark's Class of 2024 walked our halls for a combined total of 285 years. We are thrilled to send these 39 students into the world of high school, where we know they will do great things!

Alex Curran

First Year at St. Mark's: Preschool 2s

"The best thing about St. Mark's is the community. St. Mark's is so small you see almost the whole school every day so everyone is a familiar face."

Sam Friedberg

First Year at St. Mark's: 6th Grade

"History and science most prepare you for life after middle school. Mr. Grimes is good at teaching us the laws and our rights, and Dr. Hodgson is good at teaching us how things work."

Ryan Das

First Year at St. Mark's: 2nd Grade

"Don't take your 8th grade year for granted and try to make the best memories you can during your last year here."

Ryan Gudimetla

First Year at St. Mark's: Preschool 3s

"The best thing about St. Mark's, to me, is the dedication the teachers have to maximizing students' success, and my peers who I have formed strong friendships with."

Timothy Davidson

First Year at St. Mark's: 6th Grade

"The best things about St. Mark's are the teachers and the environment on the campus."

Sidney Hatfield

First Year at St. Mark's: Pre-K

"I really enjoy the size of the classes and how each one is only 45 minutes long."

Walker Evans

First Year at St. Mark's: Preschool 2s

"The best thing about St. Mark's is the community."

Sophia Hays

First Year at St. Mark's: Preschool 3s

"Language Arts prepares you most for life after middle school because once you get a job you will want to know how to write properly and speak well so people will take you seriously."
