

Welcome to your Chromebook!!

This is your Chromebook. Please check it out to get familiar with the different things about it.

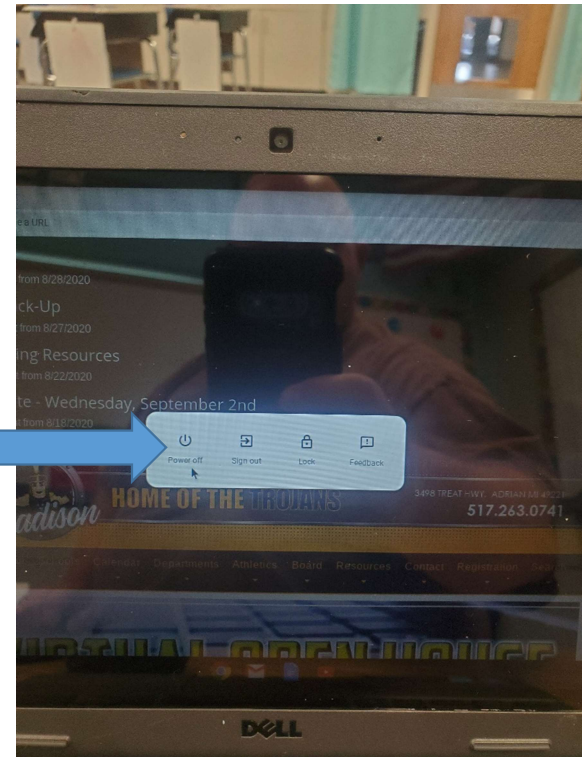

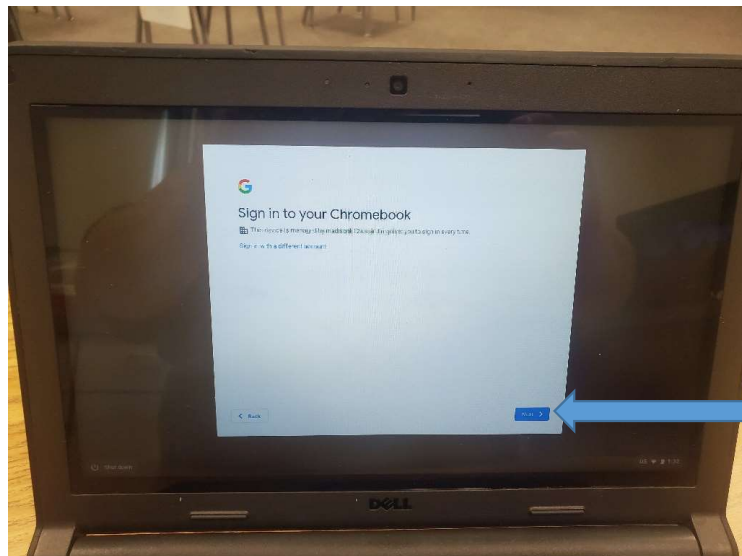

The arrow is pointing at the power button. Please find and press it to turn on the device.

When you are done push the power button for about 2 seconds.

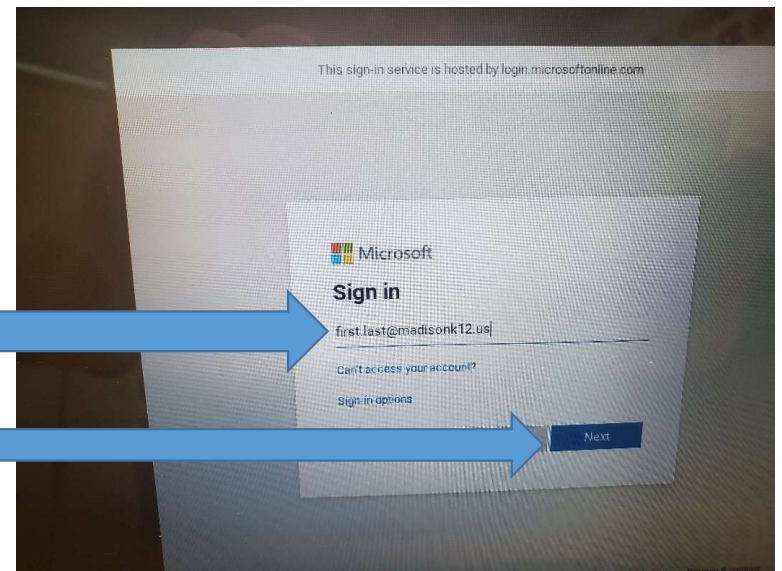

This screen will pop up when you push the power button. Click on the Power Off button with the mouse. Make sure to plug in to charge.

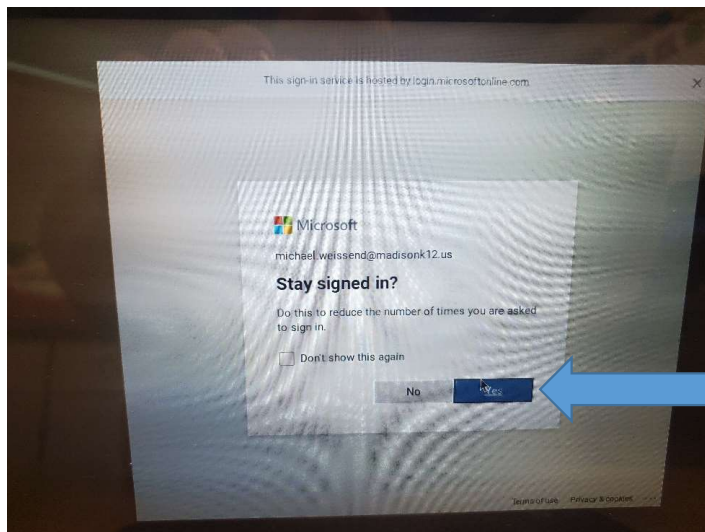

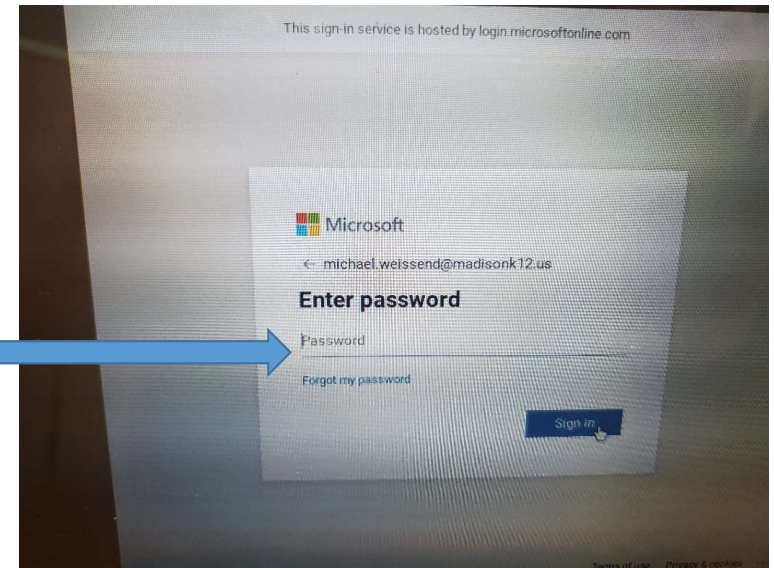

When you see this screen please push the “Next >” button in the bottom right corner.

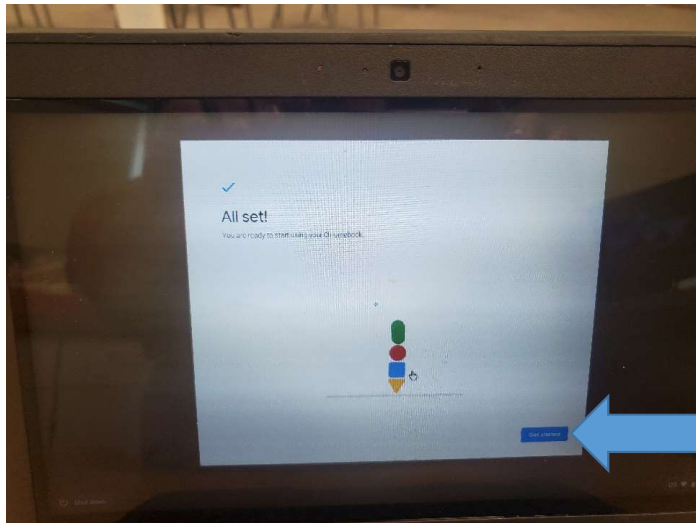

On this screen you will type in the username of the student. This will be the format of **firstname.lastname.madisonk12.us**
Once you type in the students user name push the “Next” button.

Here you will put in the students password.
This will be provided by the school.

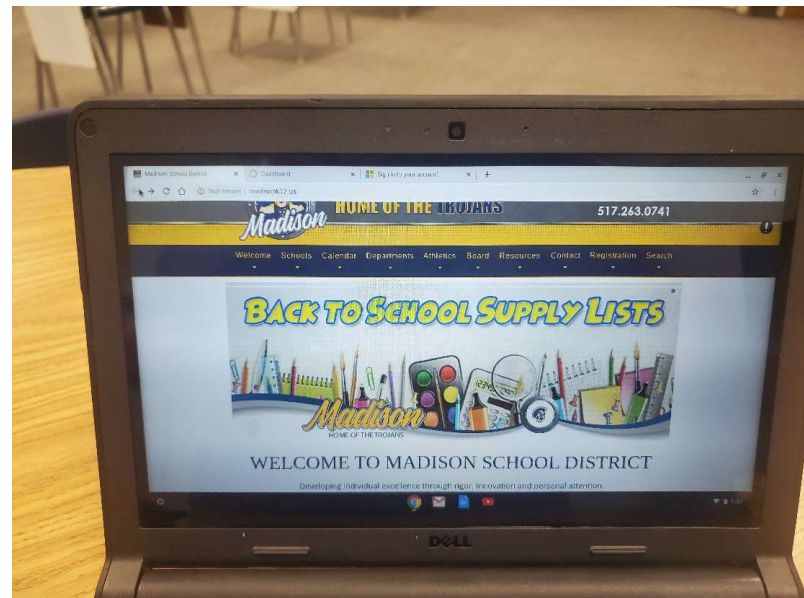

If this screen comes up push
the yes button.

Click the "Get started button"

This is the page that will open up after signing in. You can get to where you need to get from here.

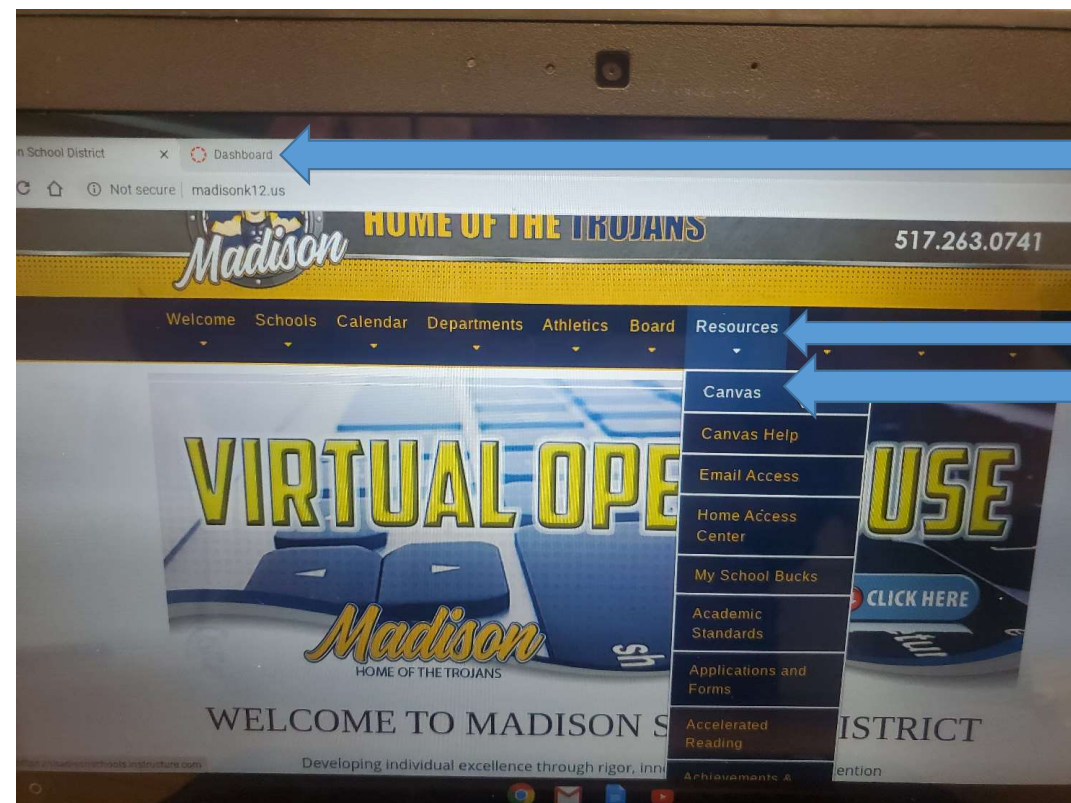

Here is where you go to get to canvas.

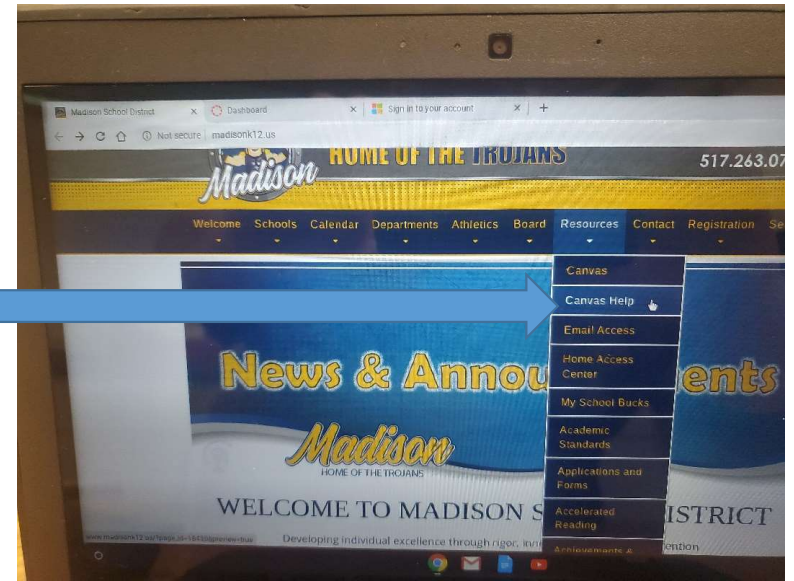

You can click on the tab at the top of the page that says Dashboard.

You can also click on the resource tab and then go to Canvas.

The first time you open Canvas you may need to sign in using the same information you used to sign into the Chromebook. After that it will keep you signed in so just clicking on the Canvas spots will open up your classroom.

If you need help with using the Chromebook or doing things in Canvas this link will provide many different help topics you can look up. If you have any other questions you can contact your child's teacher directly.

You can access many different topics using the page to the left. There are documents you can print or videos you can watch to help. Again if you still have questions please contact your child's teacher directly.
