OPEN HOUSE

OPEN HOUSE

Open House is Wednesday, September 18, from 6:30 - 8:30

On Wednesday, September 18, at 6:30 pm, we will host our annual Back to School Open House event here at North Point. All students and their parents/guardians are invited to attend. This event will allow you to meet your child's teachers and hear about the expectations and exciting things your child will experience in each class this year. Teachers will share their grading policies, classroom expectations, testing, and CTE certification information, as well as additional items important to each specific class.

Parents/Guardians will follow their child's A-day schedule and B-day schedule as outlined below.

The school will not provide schedules, so please plan to access this information by:

- Referencing ParentVue (it is recommended that parents screenshot schedules to avoid having to connect to the internet)

- Have your students screenshot their schedule and share it with you
- Asking your child to write down his/her schedule
- Whatever method you choose, be sure you can view the teacher names and room numbers

The evening will begin with a welcome from Principal Daniel Kaple in your child's 1A class. Please report to class 1A at 6:25 pm. Announcements will be made throughout the evening to dismiss to the next class (no bells). There will be 5 minutes between classes. Open House is not intended for parent-teacher conferences. If you wish to speak to a teacher at length regarding your child, please contact your child's school counselor to set up a parent-teacher conference. We look forward to seeing all of you on Wednesday evening, September 18th.

North Point spirit wear will be available for sale on September 18 from 5:00 pm - 6:00 pm, near the main office.

MENTAL HEALTH UPDATES

Good mental health is important for everyone, and as important as physical health to our quality of life. Mental health is not simply the absence of mental illness, but also means having the skills necessary to cope with life's challenges. If ignored, mental health problems can interfere with children's learning, development, relationships and physical health.
