

Loading a Printer

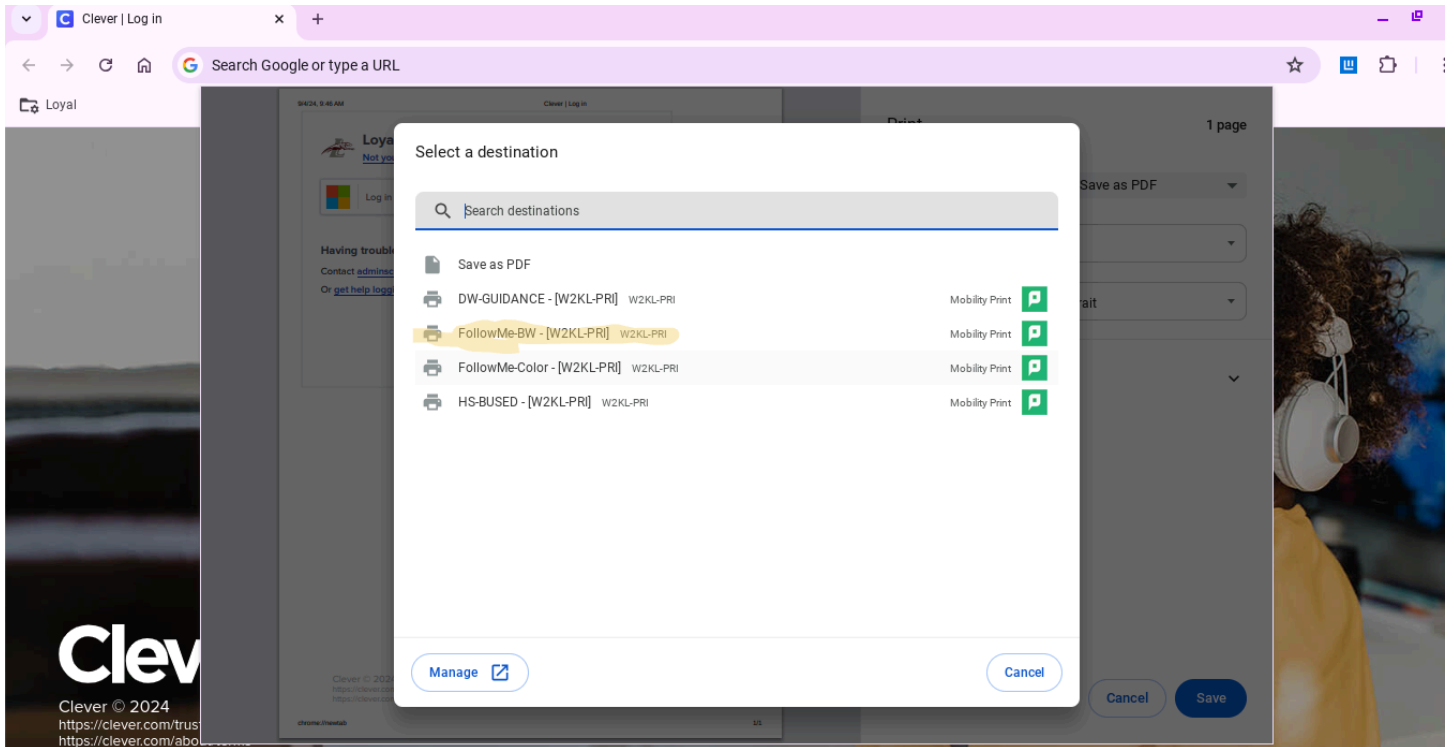

First, you'll want to go to the three dots on the top right and hit print, or you can press **CTRL** and **P** at the same time.

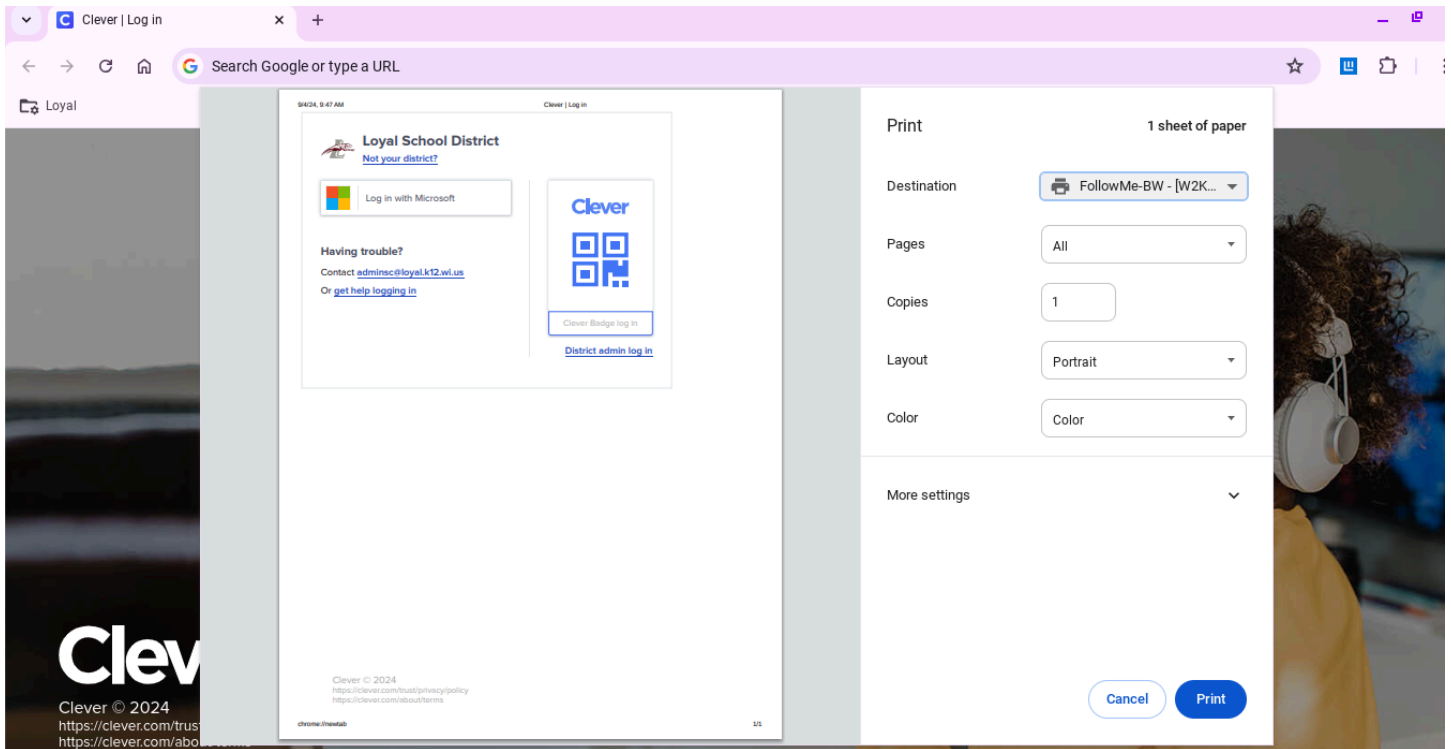

Then you'll want to click see more...

You'll want to click on the followme-BW

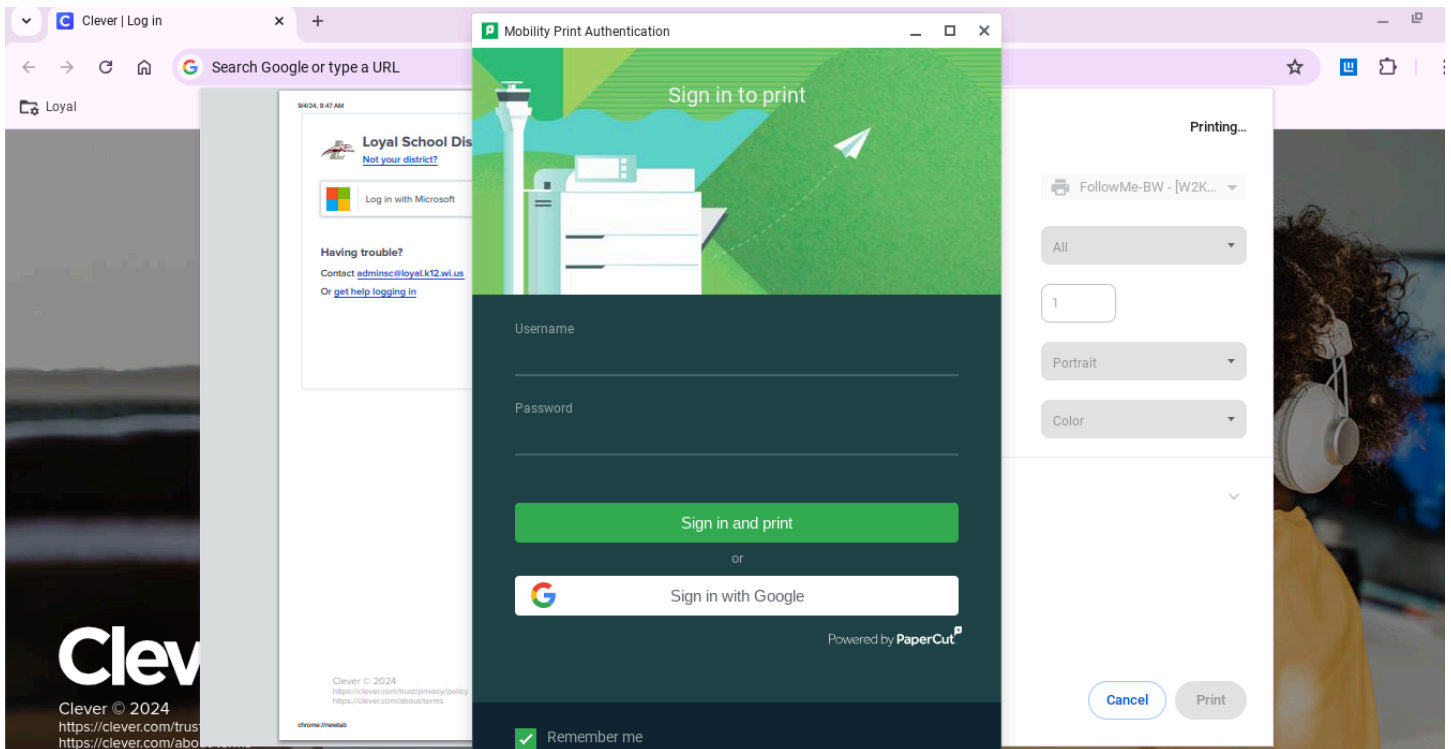

Your print page will now look like this, with the printer you need listed

(Some of you will be able to hit print from this spot, others it will ask for the following, again this only happens once)

On this screen, click sign in with google, and then click your name and continue

It will close everything and install itself, where you can go back and print as normal, and it will show up and work as it should.
