

## Your dental network

Most BlueDental plans allow you to use any dental provider for services. But there are advantages to using a dentist in your plan's provider network. In-network dentists work closely with us to offer more convenient and cost-effective care.

Here are some reasons to visit a BlueDental in-network provider:

- 1** In-network dentists agree to provide services at discounted rates. You are not responsible for any charges above the discounted rates.
- 2** Your out-of-pocket costs are lower with an in-network dentist.
- 3** Your in-network dentist will file all claim forms for you. If you use an out-of-network dentist, you may be required to pay up front and file a claim yourself to receive reimbursement.
- 4** We personally review every provider in our network, so you can count on professional, courteous care.

### Find a dentist online

Visit [floridabluedental.com/find-a-dentist](https://floridabluedental.com/find-a-dentist) to find an in-network dentist quickly and easily. When searching the directory, be sure to enter your dental plan name as indicated on your ID card.

If you already have a dentist but haven't had a preventive visit in the past six months, make an appointment with your dentist today!
