

COMMUNITY ENGAGEMENT OPPORTUNITY

Nonnewaug High School partnered with EdAdvance to provide select students with Teen Mental Health First Aid Training.

New this year, is an effort to engage our Woodbury and Bethlehem communities in QPR training.

We would love for you to join us one evening this Fall/Winter.

QPR is a 1.5-hour suicide prevention training program designed to teach community stakeholders to recognize and refer someone at risk of suicide, the warning signs of a suicide crisis, and how to respond by following three steps:

- Q**uestion the individual's desire or intent regarding suicide;
- P**ersuade the person to seek and accept help;
- R**efers the person to appropriate resources.

QPR is the most widely distributed gatekeeper training program in the world.

Mental Health First Aid Trainings are certification programs developed by the National Council for Mental Wellbeing.

Date and Time TBD.
