INDEPENDENT AUDITORS' REPORT

To the Board of Education Unified School District of Marshfield Marshfield, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Unified School District of Marshfield, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Unified School District of Marshfield's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Unified School District of Marshfield, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, Wisconsin Retirement System pension schedules, Wisconsin Retirement System local retiree life insurance fund schedules, and OPEB healthcare defined benefit schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America. which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Unified School District of Marshfield's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards and schedule of state financial assistance are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and State Single Audit Guidelines, and are also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards, and the schedule of state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the

basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 18, 2021, on our consideration of the Unified School District of Marshfield's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Unified School District of Marshfield's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Unified School District of Marshfield

Management Discussion and Analysis

As management of the Unified School District of Marshfield ("District"), we offer readers of the District's basic financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2021. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the District's basic financial statements which follow this narrative.

FINANCIAL HIGHLIGHTS

Total governmental activities revenue was \$58,531,405 including \$19,868,348 of property taxes and \$29,066,896 of general state and federal aid. Total governmental activities expenditures were \$49,474,947; including \$27,620,478 for direct instruction.

The District's financial status, as reflected in total net position, increased by \$9,091,725.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements are comprised of 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition, other information supplementary to the basic financial statements is provided.

The basic financial statements consist of two kinds of statements that present different views of the District's financial activities.

- The Statement of Net Position and Statement of Activities provide information on a district-wide basis. The statements present an aggregate view of the District's finances. District-wide statements contain useful long-term information as well as information for the just completed fiscal year.
- The remaining statements are *fund financial statements* that focus on individual parts of the District. Fund statements generally report operations in more detail than the district-wide statements.

The *notes to the financial statements* provide further explanation of some of the information in the statements and provide additional disclosures so statement users have a complete picture of the District's financial activities and position.

Required supplementary information further explains and supports the financial statements by including a comparison of the District's budget data for the year, and other post employment schedule of funding progress and schedule of employer contributions.

The major features of the District's financial statements, including the activities reported and the type of information contained is shown in the following table.

Major Features of the District-wide and Fund Financial Statements

	D: (: () \ / : :	E 15' '10' '
	District-Wide	Fund Financial Statements
	Statements	Governmental
Scope	Entire District	The activities of the District that are not fiduciary, such as instructional, and support services.
Required financial statements	Statement of net position. Statement of activities.	Balance sheet and statement of revenues, expenditures and changes in fund balance.
Basis of accounting and measurement focus	Accrual accounting. Economic resources focus.	Modified accrual accounting. Current financial resources focus.
Type of asset and liability information	All assets and liabilities, both financial and capital, short-term and long-term.	Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter. No capital assets or long-term liabilities included.
Type of inflow and outflow information	All revenues and expenses during the year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability are due and payable.

DISTRICT-WIDE STATEMENTS

The district-wide financial statements are the *Statement of Net Position* and *Statement of Activities*. These statements present an aggregate view of the District's finances in a manner similar to private-sector business. Both statements include functions that are supported principally by property taxes and intergovernmental revenues, called *governmental activities*. Functions that are intended to recover all or a significant portion of costs through user fees and charges (*business type activities*) are not included because the District does not have any of these activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of sources of funding and spending on particular programs and to demonstrate compliance with various regulatory requirements. Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debt) or to show that it is properly using certain revenues (like capital project funds).

The District has one kind of fund:

• Governmental funds - The District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for funding future basic services. Governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Governmental funds information does not report on long-term commitments as is reported on the district-wide statements.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Table 1, below, provides a summary of the District's net position for the year ended June 30, 2021 compared to 2020. The District's combined net position increased by \$9,091,725.

Increase in net position	<u>\$</u>	9,092	\$	9,284	-2.1%
Note: Totals may not add due to rounding.					

Table 2 provides summarized operating results and their impact on net position.

The District relies primarily on state and federal aids (50%) and property taxes (34%) to fund governmental activities. These two funding sources make up 84% of the total revenues.

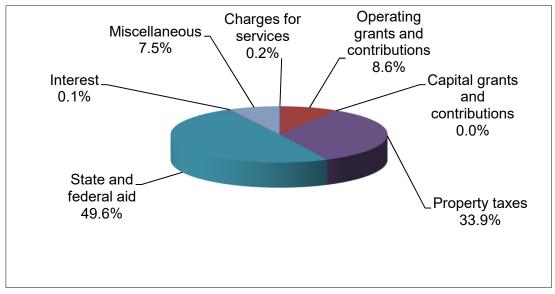

Table 3 presents the cost of the six major district activities. The table reports each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost reflects the financial burden that was placed on the District's taxpayers by each of these functions.

		Table 3 Governmenta ousands of do

Total	<u>\$</u>	44,299	\$	43,956	0.8%			
Note: Totals may not add due to	roun	ding.						

The cost of all governmental activities this year was \$49,474,947. Individuals who directly participated or benefited from a program offering paid for \$115,798 of the costs. Federal and state governments subsidized certain programs with grants and contributions of \$5,060,489. The net cost of governmental activities, \$44,298,660, was financed by general revenues of the District.

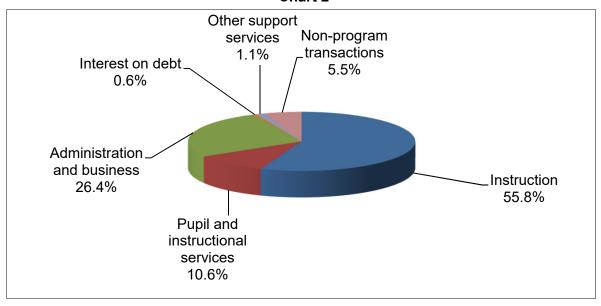

The composition of governmental revenues by source and expenditures by type are illustrated below.

Governmental Activities Revenue by Type Chart 1

Note: Totals may not add to 100% due to rounding.

Governmental Activities Expenditure by Type Chart 2

Note: Totals may not add to 100% due to rounding.

FINANCIAL ASPECTS OF THE DISTRICT'S FUNDS

The District completed the year with a total governmental fund balance of \$17,537,506 up from last year's ending fund balance of \$14,789,948.

The general fund had an increase in fund balance of \$1,892,327.

The other governmental funds had a fund balance increase of \$692,395.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District reviews an interim budget in May for the subsequent year (beginning July 1st). Consistent with current state statutes and regulations an original budget is adopted in October, following determination of official enrollment and certification of general state aids. Generally, the original budget is not significantly modified.

While the District's final budget for the general fund anticipated that expenditures would exceed revenues by \$0 the actual results for the year show a \$1,892,327 excess of revenues over expenditures.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2021, the District had invested \$60,022,084 in capital assets, including land, land improvements, buildings and equipment (See Table 4). Total accumulated depreciation on these assets is \$23,498,692. Asset acquisitions for governmental activities totaled \$571,301. The District recognized depreciation expense of \$1,138,872 for governmental activities. Detailed information about capital assets can be found in the notes to the financial statements.

(net	of depred	Table de Capital Assistion, in th	sets	nds of dollars)

Accumulated depreciation		(23,499)		(22,395)	4.9%	
Total	\$	36,523	\$	37,119	-1.6%	

Long-Term Debt

At year-end, the District had \$29,643,882 in bonds payable and other long-term debt outstanding (see Table 5). Detailed information about the District's long-term liabilities is presented in the notes to the financial statements.

		Table ing Long-Te thousands o	erm O	•	
		To	tal		Total % change
		2021		2020	2020 - 2021
General obligation debt Other	\$	9,679 19,965	\$	11,791 19,790	-17.9% 0.9%
Total	\$	29,644	\$	31,581	-6.1%
Note: Totals may not add du	e to roundi	ng.			

The District retired \$2,112,246 of bonds and notes payable during the year and other transactions, largely related to post employment benefits, decreased total debt by \$1,937,163.

Debt of the District is secured by an irrepealable tax levy adopted by the School Board at the time of issuance. Wisconsin state statutes require that the first property tax receipts be segregated for annual debt service payments.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Currently known circumstances that will impact the District's financial status in the future are:

The District had an actuarial study conducted to identify its unfunded other post employment benefit liability. As of June 30, 2020, the most recent actuarial study, the unfunded actuarial accrued liability balance is \$12,716,697.

The State of Wisconsin has an open enrollment law that allows students to attend school districts of their choice with few restrictions. The state adjusts each district's general aid payment based on the number of students who transfer. This year 320 non-resident open enrollment students attended the Unified School District of Marshfield with 152 Unified School District of Marshfield students attending other schools through the open enrollment program. The number of incoming students exceeds outgoing students by 168. It is important for the District to maintain the quality of instruction and physical property to remain competitive in the open enrollment environment.

Enrollment decreased for the 2020-2021 school year by 91 students.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mr. Pat Saucerman, Director of Business Services, Unified School District of Marshfield, 1010 E. 4th Street, Marshfield, WI 54449.

UNIFIED SCHOOL DISTRICT OF MARSHFIELD MARSHFIELD, WISCONSIN

NOTES TO THE BASIC FINANCIAL STATEMENTS

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2021

NOTE 1 - Summary of Significant Accounting Policies

The financial statements of the Unified School District of Marshfield (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

Reporting Entity - The Unified School District of Marshfield is organized as a unified school district governed by an elected seven-member school board. The District operates grades 4K through grade 12. The District is comprised of all or parts of twelve taxing districts.

The District's basic financial statements do not include any components units, as defined in GASB 14 and amended by GASB 39 and GASB 61, as there are no organizations which meet the criterion. The criterion for including a legally separate organization as a component unit is the degree of financial accountability the District has with the organization. A financial benefit or burden relationship needs to be present between the primary government and that organization for it to be included in the reporting entity as a component unit.

The following circumstances set forth the District's financial accountability for a legally separate organization: the District is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the District. The District may be financially accountable if an organization is fiscally dependent on the District regardless of whether the organization has (1) a separately-elected governing body, (2) a governing body appointed by a higher level of government, or (3) a jointly-appointed governing body. In addition, the primary government may determine, through exercise of management's professional judgment, that the inclusion of an organization that does not meet the financial accountability criteria is necessary in order to prevent the reporting entity's financial statements from being misleading.

Basis Of Presentation

District-Wide Statements

The statement of net position and the statement of activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 1 - Summary of Significant Accounting Policies - Continued

Fund Financial Statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds; each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The District reports the following major governmental fund:

General Fund - is used for all financial activity that is not required to be accounted for in another fund. This is the District's primary operating fund.

Measurement Focus and Basis of Accounting

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

Cash and Investments - The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. All funds share common (pooled) checking and investment accounts unless regulations require separate investment accounts, such as the debt service fund.

Investments are stated at fair value, if applicable, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income.

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 1 - Summary of Significant Accounting Policies - Continued

Investment income on commingled investments of municipal accounting funds is allocated based on average investment balances.

Property Tax Levy - Under Wisconsin law, personal property taxes and first and second installments of real estate taxes are collected by city and village treasurers who then make proportional settlement with the school district and county treasurer for those taxes collected on their behalf. Third installments of real estate taxes and delinquent taxes are collected by the county treasurer who then makes settlement with the city, town, village, and school districts before retaining any for county purposes. Taxes collected by the township are made in two installments, the first by the town, and the second by the county treasurer.

The District's property taxes are levied on or before November 1 on the equalized property valuation certified by the Department of Revenue. As permitted by a collecting municipality's ordinance, taxes may be paid in full or in two or more installments with the first installment payable the subsequent January 31, and a final payment no later than the following July 31. The District is paid by the collecting municipality its proportionate share of tax collections received through the last day of the preceding month on or before January 15, and by the 20 of each subsequent month thereafter. On or before August 20, the county treasurer makes full settlement to the District for any remaining balance. The County assumes all responsibility for delinquent real property taxes.

Property taxes are recognized as revenue in the period for which the taxes are levied. The 2020 tax levy is used to finance operations of the District's fiscal year ended June 30, 2021. All property taxes are considered due on January 1, when an enforceable lien is assessed against the property and the taxpayer is liable for the taxes. All taxes are collected within 60 days of June 30 and are available to pay current liabilities.

Accounts Receivable - Accounts receivable are recorded at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

Due To/From Other Funds - During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as due to and from other funds. The amounts reported on the statement of net position for receivable/payable from external parties represents amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for amounts due to and due from within the same fund type.

Interfund Transactions - Non-exchange transactions which are not borrowing/lending (will not be repaid) are recorded as operating transfers, and exchange transactions are recorded as revenues and expenses. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers.

Prepaids - Prepaid items represent payments for goods or services for which benefits extend beyond June 30.

A nonspendable fund balance has been recognized in governmental funds for these non-liquid assets to signify a portion of fund balance is not available for other subsequent expenditures.

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 1 - Summary of Significant Accounting Policies - Continued

Inventories - Inventories are valued at cost using the first-in/first-out method. The costs of inventories are recorded as expenditures when consumed rather than when purchased.

A nonspendable fund balance has been recognized in governmental funds for these non-liquid assets to signify a portion of fund balance is not available for other subsequent expenditures.

Capital Assets - Capital assets are reported at actual cost or estimated historical costs, based on appraisals conducted by an independent third-party professional appraisal firm. Donated assets are reported at estimated fair market value at the time received.

Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the district-wide statements are as follows:

	Capitalization Threshold	Depreciation <u>Method</u>	Estimated <u>Useful Life</u>
Buildings	\$ 5,000	Straight-line	50 years
Building improvements	\$ 5,000	Straight-line	20-25 years
Site improvements	\$ 5,000	Straight-line	10-20 years
Furniture and equipment	\$ 5,000	Straight-line	5-15 years
Computer and related technology	\$ 5,000	Straight-line	5-10 years
Library books *	\$ 5,000	Straight-line	10 years

^{*} For purposes of determining the capitalization threshold for this item the District groups all purchases for the year.

Debt Premiums and Discounts - In the government-wide financial statements, debt premiums and discounts are amortized over the life of the debt. Long-term debt is reported net of the applicable debt premium or discount.

In the fund financial statements, premiums and discounts are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

Compensated Absences - The District's policy permits employees to accumulate earned, but unused vacation and sick pay benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the government-wide statements. A liability for those amounts is recorded in the government funds only if the liability has matured as a result of employee resignations or retirements. The liability for compensated absences includes salary related benefits where applicable.

Pensions - For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 1 - Summary of Significant Accounting Policies - Continued

this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post Employment Benefits (OPEB) - The fiduciary net position of the local retiree life insurance fund (LRLIF) has been determined using the flow of economic resources measurement focus and the accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources, and deferred inflows of resources related to other post employment benefits, OPEB expense (revenue), and information about the fiduciary net position of the LRLIF and additions to/deductions from LRLIFs fiduciary net position have been determined on the same basis as they are reported by LRLIF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows and Inflows of Resources - In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expenditure) until then. The District has three items that qualify for reporting in this category. They are the deferred charge on refunding, Wisconsin Retirement System pension, and Wisconsin Retirement System local retiree life insurance fund (LRLIF) reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The Wisconsin Retirement System pension and Wisconsin Retirement System LRLIF results from changes in its actuarial studies and is amortized over the average of the expected remaining service lives of participants.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position which applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The District has three type of items, Wisconsin Retirement System pension, Wisconsin Retirement System pension, Wisconsin Retirement System LRLIF, and OPEB healthcare, which qualify for reporting in this category. The Wisconsin Retirement System pension, Wisconsin Retirement System LRLIF, and OPEB healthcare result from changes in its actuarial studies and is amortized over the average of the expected remaining service lives of participants.

Estimates - The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Net Position Classifications - Net position represents the difference between the total assets and deferred outflows of resources and the total liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement for those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Fund Balance Classifications - The District classifies its fund equity as follows: 1) nonspendable fund balance consists of equity not in a spendable form or is legally or contractually required to be maintained intact, 2) restricted fund balance consists of equity constrained to specific purposes by their providers,

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 1 - Summary of Significant Accounting Policies - Continued

externally imposed by creditors, constitutional provisions or by enabling legislation, 3) committed fund balance consists of equity constrained to specific purposes by the District itself, using its highest level of decision making authority - Board of Education policies, 4) assigned fund balance consists of equity the governing body intends to use for a specific purpose, intent can be expressed by the governing body. The Board of Education has authorized the Director of Business Services to assign fund balances through its fund balance policy and 5) unassigned fund balance consists of equity available for any purpose.

When net losses occur, it is the District's policy to record the net loss against unassigned fund balance, then assigned fund balance, then committed fund balance and lastly to restricted fund balance. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

NOTE 2 - Cash and Investments

State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, state obligations, U.S. Treasury obligations, U.S. agency issues, repurchase agreements and other investments secured by federal securities, high grade commercial paper, and the local government pooled-investment fund administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States and the local government pooled-investment fund. No significant violations of these restrictions occurred during the year.

As of June 30, 2021, the District had the following investment:

<u>Investment</u>	Weighted Average Maturities	<u>Fair Value</u>
Wisconsin Investment Series Cooperative	Less than one year	\$ 2,099
Certificate of deposit	Less than one year	657,248
Certificate of deposit	More than one year	<u>598,000</u>
Total	•	\$ 1,257,347

Determining Fair Value - The District categorizes its fair value measurement within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District has the following recurring fair value measurement:

1) Wisconsin Investment Series Cooperative is determined based on published market quotations (level 2 inputs).

Income Allocation - Interest income is generally allocated to the fund that owns the certificate of deposit, money market account, savings account, and investment.

Interest Rate Risk - State statutes limit investments in commercial paper, corporate bonds, and mutual bond funds to mature or may be tendered for purchase at the option of the holder within not more than seven years of the date acquired. The District has an investment policy that does not further limit investment maturities as a means of further managing its exposure to fair value losses arising from increasing interest rates.

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 2 - Cash and Investments - Continued

Credit Risk - State statutes limit investments in commercial paper, corporate bonds, and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The District as an investment policy that would further limit its investment choices. The Wisconsin Investment Series Cooperative is not rated.

Custodial Credit Risk - Deposits - Custodial credit is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District does have a deposit policy for custodial credit risk. The State of Wisconsin's Public Deposit Guarantee Fund created under Chapter 34 of the Wisconsin Statutes protects the municipality's designated public depositories against any losses of public funds up to \$400,000 subject to the total amount of the Guarantee Fund available. As of June 30, 2021, \$12,139,590 of the District's bank balance of \$13,519,086 was exposed to custodial credit risk as uninsured, pledged collateral, collateralized by a letter of credit.

NOTE 3 - Capital Assets

Capital asset balances and activity for the year ended June 30, 2021 were as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets not being depreciated:				
Land	\$ 1,039,420	\$ -	\$ -	\$ 1,039,420
Construction in progress	10,826,307		(10,826,307)	<u> </u>
Total capital assets not being depreciated	11,865,727		(10,826,307)	1,039,420
Capital assets being depreciated:				
Land improvements	2,483,546	2,853,530	-	5,337,076
Buildings and improvements	39,094,779	8,395,040	(16,090)	47,473,729
Equipment	6,070,180	149,038	(47,359)	6,171,859
Total capital assets being depreciated	47,648,505	11,397,608	(63,449)	58,982,664
Less accumulated depreciation for:				
Land improvements	(1,627,123)	(85,722)	-	(1,712,845)
Buildings and improvements	(16,394,844)	(861,542)	1,475	(17,254,911)
Equipment	(4,373,120)	(191,608)	33,792	(4,530,936)
Total accumulated depreciation	(22,395,087)	(1,138,872)	35,267	(23,498,692)
Total capital assets being depreciated, net of accumulated depreciation	25,253,418	10,258,736	(28,182)	35,483,972
net of accumulated depreciation	25,255,410	10,230,730	(20, 102)	35,465,972
Capital assets, net of accumulated depreciation	\$ 37,119,145	\$10,258,736	\$ (10,854,489)	\$ 36,523,392

Depreciation expense was charged to governmental functions as follows:

Total				\$ 9,678,890

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 4 - Long-Term Obligations - Continued

Note Anticipation Notes - On April 25, 2019, the District issued taxable Note Anticipation Notes for the purpose of providing interim financing for the purpose of paying the cost of an athletic facility capital improvement project. The notes are offered with a draw feature that allows the District to draw funds as needed to pay project costs. The notes bear an interest rate of 3.19% and the District pays interest on the outstanding amount, rather than the entire amount. The notes are due on April 1, 2024 but can be paid off at any time. As of June 30, 2021, the balance due was \$0 and there is \$1,949,999 available to the District. During the current year the District did not draw from the note.

General Obligation Debt Limit Calculation - The 2020 equalized valuation of the District as certified by the Wisconsin Department of Revenue is \$2,417,344,134. The legal debt limit and margin of indebtedness as of June 30, 2021 in accordance with section 67.03(1)(b) of Wisconsin Statutes follows:

Debt limit (10% of \$2,417,344,134)	\$ 241,734,413
Deduct long-term debt applicable to debt margin	(9,678,890)
Amount available in debt service fund	
Margin of indebtedness	\$ 232,055,523

Maturities of Long-Term Obligations - Aggregate cash flow requirements for the retirement of long-term principal and interest are as follows:

				Notes Payable - Direct					Leas			
Year Ending	 Bor	ıds		Bo	orrowing ar	nd Pl	acement		Direct Pla	acen	nent	
June 30	 Principal		Interest	F	Principal		nterest		Principal	I	nterest	Total

2025	2,255,000		63,863		40,634		1,808		40,978		869	2,403,152
2026	 730,000		15,513		41,528		914				_	 787,955
	\$ 9,480,000	\$	558,427	\$	198,890	\$	13,318	\$	912,278	\$	33,727	\$ 11,196,640

The District leases \$2,229,304 of equipment under direct placement leases.

NOTE 5 - Wisconsin Retirement System Pension

General Information about the Pension Plan

Plan Description - The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at https://etf.wi.gov/publications/cafr.htm.

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30. 2021

NOTE 5 - Wisconsin Retirement System Pension - Continued

Vesting - For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits Provided - Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

Post-Retirement Adjustments - The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment	Variable Fund Adjustment
2011	(1.2)	11
2012	(7)	(7)
2013	(9.6)	9
2014	4.7	25
2015	2.9	2
2016	.5	(5)
2017	2	4
2018	2.4	17
2019	-	(10)
2020	1.7	21

Contributions - Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for General category employees, including Teachers, Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 5 - Wisconsin Retirement System Pension - Continued

merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$1,632,753 in contributions from the employer.

Contribution rates as of June 30, 2021 are:

Employee Category	Employee	Employer
General (including teachers,	6.75%	6.75%
executives, and elected officials)		
Protective with Social Security	6.75%	11.65%
Protective without Social Security	6.75%	16.25%

Pension Liabilities, Pension Expense (Revenue), Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability (asset) of (\$9,358,517) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2019 rolled forward to December 31, 2020. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension liability (asset) was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2020, the District's proportion was 0.14990084%, which was a decrease of 0.00354658% from its proportion measured as of December 31, 2019.

For the year ended June 30, 2021, the District recognized pension expense (revenue) of (\$1,023,541).

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 13,544,648	\$ 2,917,492
Net differences between projected and actual earnings on pension plan investments	-	17,569,854
Changes in assumptions	212,269	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	9,662	67,254
Employer contributions subsequent to the measurement	_	
date	807,117	ı
Total	\$ 14,573,696	\$ 20,554,600

\$807,117 reported as deferred outflows of resources related to pension resulting from the WRS employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2022. Other amounts reported as deferred

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 5 - Wisconsin Retirement System Pension - Continued

outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense (revenue) as follows:

	Deferred Outflows
Year Ending	and (Inflows) of
June 30	Resources
2022	\$ (1,747,997)
2023	(483,820)
2024	(3,199,577)
2025	(1,356,627)
Thereafter	-

Actuarial Assumptions - The total pension liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2019
Measurement Date of Net Pension Liability (Asset)	December 31, 2020
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7%
Discount Rate:	7%
Salary Increases:	
Inflation	3%
Seniority/Merit	.1% - 5.6%
Mortality:	Wisconsin 2018 Mortality Table
Post-retirement Adjustments*	1.9%

^{*} No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. The total pension liability for December 31, 2020 is based upon a roll-forward of the liability calculated from the December 31, 2019 actuarial valuation.

Long-Term Expected Return on Plan Assets - The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Allocation Targets and Expected Returns As of December 31, 2020

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 5 - Wisconsin Retirement System Pension - Continued

		Long-Term	
		Expected	Long-Term
	Asset	Nominal Rate	Expected Real

Total Variable Fund	100	7.1	4.6

New England Pension Consultants Long-Term US CPI (Inflation) Forecast 2.4%
Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations

Single Discount Rate - A single discount rate of 7% was used to measure the total pension liability for the current and prior year. This single discount rate is based on the expected rate of return on pension plan investments of 7% and a municipal bond rate of 2% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2020. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 7% expected rate of return implies that a dividend of approximately 1.9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability (asset) calculated using the discount rate of 7 percent, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6 percent) or 1-percentage-point higher (8 percent) than the current rate:

	1% Decrease to Discount Rate (6%)	Current Discount Rate (7%)	1% Increase to Discount Rate (8%)
District's proportionate share of the net pension liability (asset)	\$ 8,908,011	\$ (9,358,517)	\$ (22,775,146)

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 5 - Wisconsin Retirement System Pension - Continued

Pension Plan Fiduciary Net Position - Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements.

Payables to the Pension Plan - The District reported a payable of \$99,282 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2021.

NOTE 6 - Wisconsin Retirement System Local Retirement Life Insurance Fund

General Information about the Other Post Employment Benefits

Plan Description - The LRLIF is a multiple-employer defined benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides post-employment life insurance benefits for all eligible employees.

OPEB Plan Fiduciary Net Position - ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at http://etf.wi.gov/publications/cafr.htm.

Benefits Provided - The LRLIF plan provides fully paid life insurance benefits for post-age 64 retired employees and pre-65 retirees who pay for coverage.

Contributions - The Group Insurance Board approves contribution rates annually, based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post-retirement benefit.

Employers are required to pay the following contributions based on employee contributions for active members to provide them with basic coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, they must continue paying the employee premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates as of June 30, 2021 are:

Coverage Type	Employer Contribution
50% post retirement coverage	40% of employee contribution
25% post retirement coverage	20% of employee contribution

Employee contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating employees must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The employee contribution rates in effect for the year ended December 31, 2020 are as listed below:

During the reporting period, the LRLIF recognized \$17,246 in contributions from the employer.

OPEB Liabilities, OPEB Expense (Revenue), Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEBs

At June 30, 2021, the District reported a liability (asset) of \$4,757,613 for its proportionate share of the net OPEB liability (asset). The net OPEB liability (asset) was measured as of December 31, 2020, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of January 1, 2020 rolled forward to December 31, 2020. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the OPEB plan relative to the contributions of all participating employers. At December 31, 2020, the District's proportion was 0.864907%, which was an increase of 0.004447% from its proportion measured as of December 31, 2019.

For the year ended June 30, 2021, the District recognized OPEB expense of \$580,475.

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual experience	\$ -	\$ 227,017
Net differences between projected and actual earnings on		
OPEB plan investments	69,267	-
Changes in assumption	1,850,779	326,437
Changes in proportion and differences between employer		
contributions and proportionate share of contributions	24,031	38,835
Employer contributions subsequent to the measurement date	-	-
Total	\$ 1,944,077	\$ 592,289

Zero was reported as deferred outflows related to OPEB resulting from the LRLIF Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (asset) in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (revenue) as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 6 - Wisconsin Retirement System Local Retirement Life Insurance Fund - Continued

	Deferred Outflows
Year Ending	and (Inflows) of
June 30	Resources
2022	\$ 254,109
2023	246,618
2024	238,903
2025	215,770
Thereafter	396,388

Actuarial Assumptions - The total OPEB liability in the January 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	January 1, 2020
Measurement Date of Net OPEB Liability (Asset)	December 31, 2020
Actuarial Cost Method:	Entry Age Normal
20 Year Tax Exempt Municipal Bond Yield:	2.12%
Long-Term Expected Rate of Return:	4.25%
Discount Rate:	2.25%
Salary Increases:	
Inflation	3%
Seniority/Merit	.1% - 5.6%
Mortality:	Wisconsin 2018 Mortality Table

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. The total OPEB liability for December 31, 2020 is based upon a roll-forward of the liability calculated from the January 1, 2020 actuarial valuation.

Long-Term Expected Return on Plan Assets - The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A- Bonds (as a proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

Local OPEB Life Insurance Asset Allocation Targets and Expected Returns As of December 31, 2020

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 6 - Wisconsin Retirement System Local Retirement Life Insurance Fund - Continued

			Long-Term Expected
		Target	Geometric Real Rate
Asset Class	Index	Allocation %	of Return %
US Credit Bonds	Barclays Credit	50	1.47
US Mortgages	Barclays MBS	50	.82
Inflation	2.2		
Long-term Expected Rate of	4.25		

The long-term expected rate of return and expected inflation rate remained unchanged from the prior year at 4.25% and 2.2% respectively. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

Single Discount Rate - A single discount rate of 2.25% was used to measure the total OPEB liability for the current year, as opposed to a discount rate of 2.87% for the prior year. The significant change in the discount rate was primarily caused by the decrease in the municipal bond rate from 2.74% as of December 31, 2019 to 2.12% as of December 31, 2020. The plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total OPEB liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payments to the extent that the plan's fiduciary net position is projected to be available to make projected future benefit payments of current plan members through December 31, 2036.

The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contributions are made by plan members retiring prior to age 65.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount Rate - The following presents the District's proportionate share of the net OPEB liability (asset) calculated using the discount rate of 2.25 percent, as well as what the District's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (1.25 percent) or 1-percentage-point higher (3.25 percent) than the current rate:

	1%	Decrease to			1%	Increase to
	Dis	count Rate	Curre	nt Discount	Dis	count Rate
		(1.25%)	Rate	e (2.25%)		(3.25%)
District's proportionate share of		•		•		
the net OPEB liability (asset)	\$	6,471,714	\$	4,757,613	\$	3,461,288

Payables to the Pension Plan - The District reported a payable of zero for the outstanding amount of contributions to the OPEB plan required for the year ended June 30, 2021

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 7 - Interfund Activity

Interfund transfers for the year ended June 30, 2021 were as follows:

<u>Transfer From</u>	<u>Transfer To</u>	 <u>Amount</u>
General	Non-referendum debt service	\$ 128,529
General	Referendum debt service	14,537
General	Long-term capital improvement	 600,000
		\$ 743,066

Generally, transfers are used to move revenue from the fund that collects them to the fund that the budget requires to expend them and use unrestricted revenue collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 8 - Post Employment Benefits Other Than Pensions

Plan Description - The other post employment benefits (OPEB) other than pensions is a single-employer defined benefit OPEB plan. Benefit terms are established by employee handbooks and may be modified by the Board of Education. The plan is administered by the District and included in the District's financial statements.

Benefits Provided - For administrators at least age 55 with 7 years of service in the District (15 years of service in the District for level 5 administrative staff), the District will distribute a dollar amount into a health reimbursement arrangement (HRA). The annual amount will be either the current family rate or 25% of the total distribution, whichever is greater. If the distribution is less than the current family premium rate, the total balance will be deposited into the account. The value of the benefit is based on the original date of hire and is subject to proration based on years of employment with the District and administrative level.

For professional staff at least age 55 with 15 years of service and hired prior to July 1, 2012, the District will distribute a dollar amount into a HRA. The annual amount will be either the current family rate or 25% of the total distribution, whichever is greater. If the distribution is less than the current family premium rate, the total balance will be deposited into the account. For employees who retire prior to July 1, 2021, \$15,000 will distributed for each year until the employee is eligible for Medicare. For all other eligible employees who retire on or after July 1, 2021, the value of the benefit will be based on the employee's retirement date. The value of the benefit, regardless of retirement date, will be subject to proration based on years of employment with the District.

Part-time employees will receive a prorated benefit.

Employees Covered - As of the June 30, 2021 measurement date, the following employees were covered by the benefit terms. The plan is not closed to new entrants.

Inactive employees or beneficiaries currently receiving benefits	203
Inactive employees entitled to but not yet receiving benefits	-
Active employees	<u>446</u>
Total	649

Contributions - The Board of Education has the authority to establish the contribution requirements for the plan. The Board establishes contribution rates based on premiums and an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the unfunded accrued liability. For the year ended June 30, 2021, contribution

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 8 - Post Employment Benefits Other Than Pensions - Continued

rates for Plan members were \$0 - \$1,405 per participant per month and \$0 - \$2,182 from the District, depending on the type of retiree plan. Plan members receiving benefits contributed \$588,091 and the District contributed \$231,551 to the plan.

Actuarial Assumptions - The OPEB healthcare liability in the July 1, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	June 30, 2019
Measurement Date:	June 30, 2021
Actuarial Cost Method:	Entry Age Normal - Level %
Discount Rate:	2.25%
Salary Increases:	3%
Mortality:	Wisconsin 2018 Mortality Table
	7.5% decreasing by .5% every year to
Medical Care Cost Trend:	6.5%, then by .1% every year down to
	5%, and level thereafter

The actuarial valuation was based upon the data provided by the District and utilized the premium rate history of the District's medical plans as well as the trends used in the prior valuation and projected a stream of expected premium rates for each year in the future based on the data as of June 30, 2020. Actuarial assumptions are based upon an experience study conducted in 2018 using Wisconsin Retirement System experience from 2015 - 2017.

The OPEB liability for June 30, 2021 is based upon an update of the liability calculated from the June 30, 2019 actuarial valuation. There were no material changes in assumptions or benefit terms which occurred between the actuarial valuation date and the measurement date.

Long-Term Expected Return on Plan Assets - The long-term expected rate of return on plan investments was determined by expected future real rates of return (expected returns, net of plan investment expense and inflation) developed for each major asset class. There are no plan assets.

Discount Rate - A discount rate of 2.25% was used to measure the total OPEB healthcare liability. This discount rate was based on a 20 year municipal bond rate. The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rates. Based on these assumptions, the plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB healthcare liability.

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 8 - Post Employment Benefits Other Than Pensions - Continued

Changes in the OPEB Healthcare Liability

	Increa	ase (Decrease)
	OPE	B Healthcare Liability
Beginning balance	\$	13,732,166

Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB Healthcare

For the year ended June 30, 2021, the District recognized OPEB healthcare expense of \$1,417,458.

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB healthcare from the following sources:

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 8 - Post Employment Benefits Other Than Pensions - Continued

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 5,381,090
Changes in assumptions	-	5,227,231
Net differences between projected and actual earnings on		
pension plan investments	-	-
Employer contributions subsequent to the measurement		
date	-	-
Total	\$ -	\$ 10,608,321

Zero reported as deferred outflows related to OPEB healthcare resulting from contributions subsequent to the measurement date will be recognized as a reduction on the OPEB healthcare liability (asset) in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB healthcare will be recognized in expense as follows:

Year ending June 30	Deferred Outflows and (Inflows) of
	Resources
2022	\$ (2,119,828)
2023	(2,119,828)
2024	(2,119,828)
2025	(2,119,828)
2026	(2,119,826)
Thereafter	\$ (9,183)

Payables to the OPEB Healthcare Plan - The District reported a payable of zero for the outstanding amount of contributions to the OPEB Healthcare plan required for the year ended June 30, 2021.

NOTE 9 - Fund Balances and Net Position

Portions of fund balances and net position are not available for current appropriation or expenditures as follows:

Governmental Fund	<u>Purpose</u>	<u> </u>	<u>Amount</u>
Nonspendable			
General	Prepaid expenses	\$	56,368
Food service	Inventory and prepaid expenses	\$	32,250
Restricted

Long-term capital improvements	DPI regulation	\$ 1	,254,792
Assigned	•		
Special revenue	Specific expenses	\$	506,671

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 9 - Fund Balances and Net Position - Continued

Governmental Activities

Restricted

Special revenue	Specific student group expenses	\$ 118,281
Capital projects	DPI regulation	\$ 1,254,792
Other activities	Self-insurance	\$ 193,476
Other activities	Common school fund	\$ 2,909
Other activities	Wisconsin Retirement System	\$ 9,358,517

NOTE 10 - Risk Management

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; employee health and accident claims; and natural disasters. For all risks of loss, the District's policy is to purchase commercial insurance, except for self-insured dental benefits. Settled claims have not exceeded commercial coverage in any of the past three years and there has been no significant reduction in insurance coverage from coverage in the prior year.

NOTE 11 - Commitments and Contingencies

The District has a service agreement with Cooperative Education Service Agency #5 for services to be provided to the District in 2021-2022. Expected costs are \$501,031.

The District is negotiating a transportation agreement with estimated cost for the following school years:

2021-2022	\$2,317,639
2022-2023	2,433,521
	\$4,751,160

The District is aware some older buildings contain some level of asbestos in which they will incur removal costs upon remodeling, selling, or abandoning these buildings at some future date. However, at this point, the District does not feel they have enough information to reasonably estimate the fair value of the asset retirement obligation and have not recorded a liability.

From time to time, the District is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the District's Attorney that the likelihood is remote that any such claims or proceedings will have a material effect on the District's financial position or results of operations.

NOTE 12 - Limitation of School District Revenue

Wisconsin statutes limit the amount of revenue that school districts may derive from general school aids and property taxes. The limitation does not apply to revenue needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following: (a) a resolution of the school board or by a referendum prior to August 12, 1993 and (b) a referendum on or after August 12, 1993.

NOTES TO THE BASIC FINANCIAL STATEMENTS - Continued JUNE 30, 2021

NOTE 13 - Self-Funded Insurance

The District established a self-funded dental benefit plan for its employees. The plan administrators are responsible for the approval, processing, and payment of claims, after which they bill the District for reimbursement. The District is also responsible for an administrative fee. The plan reports on a fiscal year ending June 30.

Accounting and budgeting requirements for the plan are established by the Wisconsin Department of Public Instruction. The plan is accounted for in the general fund and other funds of the District.

The District has no stop-loss coverage for dental care coverage of the plan.

The District has reported a liability of \$161,153, which represents reported and unreported claims which were incurred on or before June 30, 2021, but were not paid by the District as of that date. Changes in the claims liability for the years ended June 30, 2021 and June 30, 2020 are as follows:

	Yea	ır Ended	Yea	ır Ended
	<u>June</u>	e 30, 2021	<u>June</u>	e 30, 2020
Beginning liability balance	\$	193,476	\$	186,014
Claims and changes in estimates		640,468		626,488
Claim payments		(672,791)		(619,026)
Ending liability balance	\$	161,153	\$	193,476

Claim payments are principally funded through charges to employees, which are paid through payroll deductions, and employer contributions to the dental plan.

The District did not receive an actuarial certification for the self-insured dental plan related to the adequacy of reserves, rates, or financial soundness of the plan.

NOTE 14 - Change in Accounting Principle

The change in accounting principles adjustment of \$162,836 on the statement of activities, statement of revenues, expenditures and changes in fund balances - governmental funds, and combining statement of revenues, expenditures and changes in fund balances - nonmajor funds is due to the adoption of Governmental Accounting Standards Board Statement No. 84 *Fiduciary Activities*.

NOTE 15 - Coronavirus (COVID-19)

The World Health Organization declared the spread of COVID-19 a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. COVID-19 may impact various parts of the District's operations including costs for emergency preparedness, virtual school, shortages of personnel, and potential delays in revenue collections.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION ON BUDGETARY ACCOUNTING AND CONTROL JUNE 30, 2021

<u>NOTE 1 - Budgetary Information</u> - Budgets are adopted each fiscal year for all funds in accordance with Section 65.90 of the Wisconsin Statutes, using the budgetary accounting basis prescribed by the Wisconsin Department of Public Instruction. The legally adopted budget and budgetary expenditure control is exercised at the function level. Reported budget amounts are as originally adopted or as amended by a Board of Education resolution.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Based upon requests from District staff, the District Administration recommends budget proposals to the Board of Education.
- 2. The Board of Education prepares a proposed budget including proposed expenditures and the means of financing them for the July 1 through June 30 fiscal year.
- 3. A public notice is published containing a summary of the budget and identifying the time and place where a public hearing will be held on the proposed budget.
- 4. Pursuant to the public budget hearing, the Board of Education may alter the proposed budget.
- 5. After the Board of Education (following the public hearing) adopts the budget, no changes may be made in the amount of tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire Board of Education.
- 6. Appropriations lapse at year-end unless authorized as a carryover by the Board of Education. The portion of fund balance representing carryover appropriations is reported as a committed or assigned fund balance.
- 7. Encumbrance accounting is not used by the District.
- 8. Budgets are adopted on a basis consistent with generally accepted accounting principles.

NOTE 2 - Excess of Actual Expenditure Over Budget - The following expenditure classifications were in excess of \$1,000 over budget.

General/Special Education	Instructional staff services	\$ 136,080
General/Special Education	Other support services	10,635
General/Special Education	Debt service principal	21,329
General/Special Education	Capital outlay	131,640
General/Special Education	Transfer to/from other funds	316,079

NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE JUNE 30, 2021

NOTE 1 - Basis of Presentation

The accompanying schedules of expenditures of federal awards and state financial assistance include the federal and state grant activity of the Unified School District of Marshfield. The information in these schedules is presented in accordance with the requirements of Uniform Guidance and *State Single Audit Guidelines*. Therefore, some amounts presented in these schedules may differ from amounts presented in or used in the preparation of the financial statements.

NOTE 2 - Summary of Significant Accounting Policies

Expenditures reported on the schedules are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable and are limited as to reimbursement.

NOTE 3 - Special Education and School Age Parents Program

2020-2021 eligible costs under the State Special Education Program are \$5,853,589.

NOTE 4 - Food Distribution Program

Non-monetary assistance is reported in the schedule of federal awards at the fair market value of the commodities received and used.

NOTE 5 - 10% De Minimis Cost Rate

Elected not to use.

UNIFIED SCHOOL DISTRICT OF MARSHFIELD MARSHFIELD, WISCONSIN

OTHER REPORTS

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education Unified School District of Marshfield Marshfield, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Unified School District of Marshfield, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Unified School District of Marshfield's basic financial statements and have issued our report thereon dated November 18, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Unified School District of Marshfield's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Unified School District of Marshfield's internal control. Accordingly, we do not express an opinion on the effectiveness of the Unified School District of Marshfield's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant

deficiencies. We consider the 2021-001 and 2021-002 deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Unified School District of Marshfield's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Unified School District of Marshfield's Responses to Findings

Unified School District of Marshfield's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Unified School District of Marshfield's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND STATE SINGLE AUDIT GUIDELINES

To the Board of Education Unified School District of Marshfield Marshfield, Wisconsin

Report on Compliance for Each Major Federal and State Program

We have audited the Unified School District of Marshfield's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and *State Single Audit Guidelines* that could have a direct and material effect on each of the Unified School District of Marshfield's major federal and state programs for the year ended June 30, 2021. The Unified School District of Marshfield's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Unified School District of Marshfield's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and *State Single Audit Guidelines*. Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Unified School District of Marshfield's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Unified School District of Marshfield's compliance.

Opinion on Each Major Federal Program

In our opinion, the Unified School District of Marshfield complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal or state programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the Unified School District of Marshfield is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Unified School District of Marshfield's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each federal and state program and to test and report on internal control over compliance in accordance with Uniform Guidance and *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Unified School District of Marshfield's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance and *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.

Auditee qualified as low-risk auditee?	X Yes No		

Section II - Financial Statements Findings and Questioned Costs

2021-001 - Preparation of Financial Statements

Program: District-Wide

<u>Criteria</u>: Adequate internal controls necessitate personnel to have knowledge and training which would enable them to prepare financial statements (and footnotes) in accordance with generally accepted accounting principles (GAAP).

Condition: Personnel cannot prepare GAAP basis financial statements.

Questioned Costs: Not applicable.

<u>Context</u>: Personnel have adequate knowledge and experience in governmental accounting and interim reporting requirements; however, their limited knowledge and lack of training limits their ability to prepare GAAP basis financial statements.

Effect: This weakness could result in the possibility of undetected errors and irregularities.

Information: Isolated instance.

Prior Year Finding: This was a prior year audit finding numbered 2020-001.

<u>Recommendation</u>: Obtain adequate training to prepare GAAP basis financial statements or use external sources to prepare the financial statements.

<u>Management's Response</u>: Due to the complexities involved with preparing GAAP basis financial statements, management has weighed the cost-benefit of training personnel or hiring a certified public accounting (CPA) firm. Management has concluded to hire a CPA firm.

2021-002 - Significant Audit Adjustments

Program: District-Wide

SCHEDULE OF FINDINGS AND QUESTIONED COSTS - Continued JUNE 30. 2021

Criteria: Generally accepted accounting principles.

<u>Condition</u>: Significant audit adjustments were required to prevent the District's financial statements from being misstated.

Questioned Costs: Not applicable.

Context: Internal controls did not identify that an adjustment should be recorded.

<u>Effect</u>: This weakness could result in undetected errors and irregularities and misstated interim financial reports.

Information: Isolated instance.

Prior Year Finding: This was a prior year audit finding numbered 2020-002.

<u>Recommendation</u>: Improve the District's financial reporting internal controls to prevent these types of adjustments from occurring in the future. Document which accounting procedures are needed to be completed on a recurring basis to detect significant adjustments.

<u>Management's Response</u>: The District will incorporate financial reporting internal controls to detect significant adjustments, prevent misstated financial statements and increase the accuracy of the interim financial reports used by management.

Section III - Federal and State Award Findings and Questioned Costs

None

Unified School District of Marshfield

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS AND CORRECTIVE ACTION PLAN JUNE 30, 2021

Summary Schedule of Prior Audit Findings

2020-001 - Preparation of Financial Statements - Repeat. Initially occurred 6/30/08.

2020-002 - Significant Audit Adjustments - Repeat. Initially occurred 6/30/17.

Corrective Action Plan

2021-001 - Preparation of Financial Statements - Contact: Pat Saucerman, Business Manager. Completion date: N/A. Due to the complexities of governmental reporting in accordance with GAAP, i.e. financial statements and related disclosure reporting, District management has weighed the cost benefit of training current staff or hiring a Certified Public Accountant on staff for the purposes of preparing the external financial statements in accordance with GAAP. District management has concluded to outsource the preparation of the external financial statements and related disclosures to their certified public accounting firm, which is an acceptable practice according to *Government Auditing Standards*. District management will review and approve the externally prepared financial statements.

2021-002 - Significant Audit Adjustments - Contact: Pat Saucerman, Business Manager. Completion date: June 30, 2022. The District will improve its financial reporting internal controls by reconciling accounts on a recurring basis to prevent significant audit adjustments. District management will review and approve the audit adjustments.
