

A2STEAM Mighty 5s News

August 29, 2024

What's been happening at school?

This week we have been learning about how to use the many different learning spaces in our classroom, outside, as well as in Music, Art, Library and PE! It has been so much fun-I am sure you can see this from the pictures. More news next week!

NEEDS:

Please send an extra bag of clothing inside your child's backpack. We are pretty busy here, and you never know what might come up!

Play and Work, Inside and Out

Making Choices in the Classroom

Our classroom is filled with choices. Each learning center has a number of spots, and the Mighty 5s are learning how to make another choice when their first choice is not available. This can be challenging at 4 or 5 years old, and some students have been disappointed when the center they want to go to is already full. At this time of the school year, we have many learning centers that allow for the development of friendships and support language learning. Our Mighty 5s are getting comfortable at school, and each day is easier.
