Parent Leadership Council: 9/11/24

Ice breaker: What's your superpower?

Attendees

Heather, EHE, Treasurer
Patricia Tamacia: EHE, advisory and equity chair; SHS theater boosters
Jenny Perez, co VP EHE
Jenn Dery, EHE, co-VP, interim president
Lauren Beech, art docent chair, EHE
Kristin, EHE, secretary
Kyle, DEE, secretary
Audrey Welch, DEE, president
Amanda Henderson, DVE, VP
Ashley, DVE, President
Kasey, MLE, treasurer
Lauren, sumner band parent association (kids go to DVE)
Laurie Dent, supt
Matt Guilanians, bond project manager
Allison Hollingsworth
Bill Pugh
Elle Warmuth
Bill Gaines

Online attendees
Nicole Simon: fundraising for VFE
Karli Henry: officer for VFE
Allison Warmington: Secretary for MMS

Laurie Dent: Prop 1 Facts and Info Presentation

Job today is to educate, inform
Know, Value, Support
CFAC recommended the bond package to the school board
Need a bond now: We're currently over capacity -- 148% capacity, DEE; put 8 portables at THE
Projected to grown by 16% in 10 years; need space to accommodate
Take care of the basics: 1967 boiler at pool, for example; repair leaking roofs, improve plumbing
Do now will be cheaper than if we wait
SHS gym, too small and not ADA compliant
Need turf fields: safer, year-round, lighted and community can use them
Improved traffic

Post grad readiness: biotech classes with anatomage table; culinary programs, core plus aerospace; can't add anymore classes like these until we have space to do so
Save money in the long run; stat on what 2020 bond would cost today

Matt: Bond projects (that CFAC selected)

SHS
Finished Phase 1; Bond includes "west wing" and the east side housing arts and athletics;
Standard H pattern with long corridor that runs all the way through
SHS doesn't have capacity issue, but age/condition issue; old and cobbled together
Pool built in 1969
Phase 1 is designed to be expanded; to add phase 2
Huge multi sport athletic field and giant parking lot

Question: How long will it take to complete SHS?
4-6 years total, which includes:

- 18 months of design
- 8 mo of permitting
- 18 months to build

(4-year cycle)

We have to pay off old bonds in order to issue new bonds, so the tax bill remains flat.
Spaced out projects over 10 years.

BLHS and SHS are high priorities on the list
New middle school timed for when new demographic wave hits

BLHS

Never really had a front; give a prominent entry
10 classrooms; redo all fields; intersection improvement

New middle school

South of DEE
Modern design, similar to SHS phase 1
Developer will build the "gray part" (refer to image)

THE
Building designed to be expanded
That's why the portables are in the front because the expansion goes in the back

DVE & DEE: Turf field
LRE & CWE: Same schools, great bones; improvements:

- Modernize front office and security vestibules
- Eliminate exterior doors to classrooms
- Install access controls
- Install teaching walls to classrooms
- Study traffic and student pickup and drop off facilities for safety

Clean energy: State requirements; to be more energy efficient

Cost
$732 million
Average tax rate remains the same/steady from last 5 years and next 5 years
The rate won't change, but you'll still pay more.

When does the last bond expire: Bonds drop off incrementally

What if you live in an apartment: Landlord would adjust
The owner of the apartment building would get a notice

Need 60% plus 1
Please vote

Questions:
You can email communications@sumnersd.org

Amanda: CFAC -- can we say that we had a parent from every school in the district? No, people had to apply. We didn't receive applications from a parent from every school. We had good representation from the hill and valley.

Amanda: Next time try and have a rep for each school.
Matt: It's hard to get people to apply.

EHE:
Raised 10K back to school!

DEE: building team, rebranded, new website, picnic, chalk the walk, open house, fall fun run, fall festival

DVE: 35 members; lots of volunteers for picture day; reached out to new first grade parents, first pta meeting on the 26th; first chick fil a night/ watch dogs on 17th, trunk or treat on 29th; read a thon in November

MLE:

All new pta board; new ap; a lot of events planned for the year; new fundraiser -- fun run; talk about doing book vending machine

Band: had a parking lot sale at the high school; that's how they kick off the year; give us money from the get go; fall family photo; launching coffee fundraiser in October; new facebook page (SHS band and color guard)

VFE
Fall walk a thon; fun events, quality over quantity
