

## 2210 CURRICULUM DEVELOPMENT

The Superintendent shall be responsible to the Board for the development of curriculum to meet identified student needs. The Board shall ensure that curriculum and instruction are content-rich and aligned to the most recent revision of the New Jersey Student Learning Standards (NJSLS). In addition, the Board shall ensure that appropriate instructional adaptations are designed and delivered English language learners, gifted and talented students, and for students with disabilities. Instruction shall be designed to engage all students and modified based on student performance.

The curriculum shall include:

1. Interdisciplinary connections throughout;
2. Integration of 21st century skills;
3. A pacing guide;
4. A list of instructional materials, including various levels of text at each grade;
5. Benchmark assessments; and
6. Modifications for special education students, English language learners, and gifted students.

Professional development plans shall support the implementation of the curriculum. Professional development opportunities shall be offered that further the improvement of teachers' understanding of the content and pedagogy related to their teaching assignment. Professional development shall also promote individual and collaborative professional learning with adequate and consistent time for teachers to work together in and across content areas and grade levels to review student work, analyze classroom assessments and other achievement data, critique lesson plans, and solve instructional problems.

The Superintendent shall establish procedures for curriculum development that ensure the effective participation of teaching staff members; students, as appropriate to their age and grade; parents; the community; members of the Board; and the use of all available resources. Care shall be taken that certified staff shall not be assigned to teach material outside the limits of their certification and endorsements.

The Superintendent shall report to the Board the objectives, evaluative criteria, and costs of each proposed program before seeking Board adoption. New programs and courses of study shall not be acted upon by the Board until the meeting following their presentation, in order for Board members to have an opportunity to review the proposed program.

## Criteria for Curriculum Approval

Criteria by which the Board will judge the acceptability of new course offerings include:

1. Does it address an identified student need?
2. Is it relevant to the Board's philosophy and goals and does it offer real possibilities for progress toward these goals?
3. Does it satisfy the requirements of the Board's school and classroom practices prohibiting bias and stereotyping?
4. If the proposed course replaces an existing program, what defect in the previous program is it designed to overcome?
5. Does it include measures for determining progress?
6. Does it address the necessary study skills?
7. Has it been thoroughly studied and/or tested by district staff or by another district? What were the results?
8. Has a curriculum guide been completed? If not, when can it be expected?
9. Have the accompanying textbooks, electronic textbooks, and other materials been recommended to the Board?
10. Have the costs and time of implementation been reviewed, including inservice training?

A plan for updating curriculum shall be developed and implemented. The Superintendent shall report annually on all progress in curriculum development and the implementation of the curriculum plan at the time of the Board's annual adoption of curriculum.

Adopted: 17 January 2023
