

B. CONFERENCE/DISCUSSION AGENDA – continued

B-17, Update on Current Work of the Superintendent’s Early Learning Task Force – continued

- America’s Vanishing Potential!
- Latino and African-American
- What Really Works?
- Preschool Benefits Long-Term
- Early Learning Programs In FUSD
- Task Force Objective
- Composition of the Task Force
- Focus Areas
- Process for Developing Recommendations
- Task Force Meetings

An opportunity was provided to hear questions/concerns from members of the Board and staff was available to respond.

Member Vang requested the names of sites that have Pre-schools. Associate Superintendent Tucker stated that they will provide the Board with the information in a Board Communication. Member Vang recommended they include Community Based Organizations and feels the need to have someone who really represents the community, the need of the school and to add diversity. Associate Superintendent Tucker stated that the information has been noted. Member Moore inquired the number of students they would serve if they had all the resources available. Associate Superintendent Tucker stated that they will provide the Board with the information in a Board Communication.

For the record, there was general discussion by the members of the Board on this agenda item with no action taken. Comments were made by Members Vang, Mills, Ryan, Moore, President Asadoorian, and Superintendent Hanson.

A copy of the PowerPoint is available in the Board Office upon request or on the district website.

Student Board Member Moua departed the Board meeting at 9:15 pm.

B-19, Long-Range Master Plan for Fresno High School for Incorporation into the District’s Facilities Master Plan - Bullard High School Long-Range Master Plan was pulled and deferred to another Board meeting.

APPROVED, as recommended, the long-range high school master plan for Fresno High that will incorporate into the district-wide Facilities Master Plan approved by the Board in April 2009. The Facilities Master Plan is a “living” document, intended to be monitored and amended as necessary. Approval of the high school master plan does not commit the district to specific future projects, but like the overall Facilities Master Plan provides guidance as project implementation progresses. Development of the high school master plans has included extensive site and community feedback/input. There is no direct financial impact.

B. CONFERENCE/DISCUSSION AGENDA – continued**B-19, Long-Range Master Plan for Fresno High School for Incorporation into the District's Facilities Master Plan – continued**

Assistant Superintendent Temple and Executive Director LeBlanc provided the members of the Board with the long-range high school master plan for Fresno High School.

The presentation covered the following:

- Site Master Planning
- Process and Timeline Starting July 2010
- Process and Timeline through April 2011
- Campus Needs Identified
- Board Action Recommended

An opportunity was provided to hear questions/concerns from members of the Board and staff was available to respond.

Member Mills inquired the replacement of the portables. Executive Director LeBlanc stated there will be a replacement of 20 portables and the need to update the Measure Q plan to reflect the change. Member Mills stated that under Measure Q, this will include fixing the acoustic in Royce Hall, snack bar, library and the administration building, but also include the upgrade to the entrance. Executive Director LeBlanc stated that was correct and mentioned that there are areas that need continued discussion which includes the entry way with the fence along Echo street and will be refining the facade of the two buildings, and working with Tree Fresno on the process to move forward with the trees along Echo. Member Mills stated that the vast majority of the community will be pleased to have the two bunkers removed and replaced with two new buildings. Also in addition to what is listed, the community is requesting the additions to the long-range concept with the replacement of the perimeter chain-link fence and in the future the modernization of the locker rooms and at some point Fresno High would like to include a bank at the site. Executive Director LeBlanc noted the additions.

Member Moore inquired when staff will return with the Bullard long-range plan. Executive Director LeBlanc stated that they plan to return to the Board in the springtime. Member Moore inquired further information on the ORG funds.

Member Mills moved for approval of the Fresno High long-range plan with the additions noted for the record and the Measure Q priority plans with the additional replacement of the portables, seconded by Member Ryan, which carried a 5-0-4 vote, *with Member Moore stepping away when the motion was taken and Member Davis and Student Board Members Moua and Perkins absent.*

A copy of the PowerPoint is available in the Board Office upon request or on the district website.

Long-Range Master Plans for Bullard High School and Fresno High School

Site Master Planning

- Purpose of long-range master planning
- Site master plans guided by district-wide Facilities Master Plan
- Community and school site engagement opportunities
