NURSE'S CORNER

School Nurse - Mrs. M. Brock, RN

September is [National Suicide Prevention Month](#), a time to raise awareness, spread hope and share essential resources. "Mental wellbeing" is a state of thriving. It is the foundation of living a strong, healthy and fulfilling life.

Practice Self-Compassion

As you support others through their mental health challenges, it's important to remember that your own wellbeing matters too. One effective way to take care of yourself is by practicing self-compassion. This means treating yourself with the same kindness and understanding that you would offer to a good friend.

Here's how to practice self-compassion:

1. Acknowledge your feelings: When you're feeling overwhelmed or stressed, take a moment to recognize your emotions without judgment. It's OK to feel this way, and it's a natural part of

being human.

2. Speak kindly to yourself: Notice your inner dialogue and replace self-critical thoughts with affirming and supportive ones. For instance, instead of thinking, "I'm not doing enough," try, "I'm doing my best, and that's enough."
3. Take mindful breaks: Set aside time each day for activities that help you recharge and center yourself. Whether that means taking a short walk, deep breathing, or a few moments of quiet reflection, these breaks can help reduce stress and boost your resilience.
4. Seek support: Don't hesitate to reach out to others when you need help. Just as you support those around you, allow yourself the same privilege. Talking with a trusted friend, mentor or counselor can provide valuable perspective and comfort.

Suicide Prevention Month: A Resource Guide

In 2022, nearly 49,476 people in the U.S. died by suicide — an average of one person [every](#) 11 minutes — according to the Centers for Disease Control and Prevention (CDC). Suicide is the [second leading](#) cause of death among people aged 10-14, and the 12th leading cause of death overall in the U.S. And for every suicide death, the CDC says, 275 people seriously entertained thoughts of suicide. Call or text 988 for 24/7 access to trained crisis counselors who can help people experiencing mental health-related distress, including thoughts of suicide, mental health or substance use crisis, any other kind of emotional distress. Here is a [resource guide](#) to help yourself or someone in your life.

Sylvia Mendez

A lot of people know about *Brown v. Board of Education*. In that 1954 court case, judges ruled against segregation in all U.S. schools. But before that, there was *Mendez v. Westminster*. Sylvia Mendez was just 8 years old when she and her siblings were turned away from an all-white school. Mendez's parents were from Mexico and Puerto Rico. In 1945, they sued four school districts in California — and won! California became the first state to end school segregation. Mendez went on to work as a nurse. After that, she found a love of activism and continued to speak out for equal rights.

MEDIA LITERACY AND YOU

Media literacy is the ability to identify different types of media and understand the messages they're sending. Kids take in a huge amount of information from a wide array of sources, far beyond the traditional media (TV, radio, newspapers, and magazines) of most parents' youth. There are text messages, memes, viral videos, social media, video games, advertising, and more. But all media shares one thing: Someone created it. And it was created for a reason. Understanding that reason is the basis of media literacy.

(<https://www.common sense media.org/articles/what-is-media-literacy-and-why-is-it-important>)

A digital citizen is a person who develops the skills and knowledge to effectively use the internet and other **digital** technology, especially in order to participate responsibly in social and civic activities.

How can I create media balance in my life?

<https://youtu.be/USiHaqNfwK4>

Teach students to conduct data mines (on themselves).

Students should do this every 3-6 months. While many will Google their names, we need to teach them to dig deeper. Here are some general guidelines to follow:

- Log out of internet browsers before searching (staying logged in can affect the results).
- Search (using quotation marks) full legal names, nicknames and usernames.
- Search Google Images with names/usernames.
- Use multiple browsers, such as Chrome, Bing, Yahoo, Safari and Firefox.
- Look beyond the first page of the results. Go at least five pages deep until the name/username no longer appears. Take note of what kind of results appear (presentations/social media/images/etc.).

Stress the importance of digital maintenance.

- Remind students to backup Drive files, important emails, smartphone photos/apps/etc. at least once a month.
- Reiterate the importance of logging out of accounts, not simply closing the browser window.

LAPTOP INFORMATION AND CARE

•Students are not allowed to use personal devices at school. All students must use a school issued device during the school to complete assignments. Visit the media center to check out a laptop if you do not have a school issued device.

***Remember to bring your charged laptop to school daily and keep up with your charger!**

*Always keep your laptop closed when you need to walk with your laptop and it's not in the carrying case.

•Never carry your laptop while open or lift the laptop by the screen/monitor! Handling your laptop in this manner can damage your screen.

•Do not place paper/objects between your keyboard and monitor, it will crack your screen!

•Keep drinks and liquids away from your computer. A spill can damage the hard drive and the motherboard. These type of damages may cost the same price as a new laptop to replace, Please be careful!
