Meet the Staff

Mr. Hernandez is a teacher who loves to inspire and be someone you can look up to. Hernandez also has someone of his own who he looks up to which is his mom. His mom is a very strong woman who raised 3 kids on her own, worked in the fields, & was very smart, wise, and taught very good lessons to her kids. This is what led to him respecting women even more. His biggest reward is when he sees students and people he's been around, showing goodness and kindness towards others.

Q: Would you rather live without netflix, or without youtube?

"I prefer watching comedy, regional dances from Mexico, and "how to" videos on Youtube over Netflix."

Q: What is something people do not know about you?

He shares mostly everything & tries not to keep anything private. Whatever he accomplishes & people know is good, is not something he would go around showing off.

Q: If you could travel anywhere in the world, where would you go?

Why?

He would love to travel to Africa, and visit Kenya, specifically Nairobi. He is interested in african culture and even more when he found out he was african.

Q: What was the coolest thing about growing up in the projects?

His favorite was the sense of community. He stated his community was all about sharing and looking out for each other in the neighborhood. It had a real strong sense of community. Now in his new neighborhood he feels like it's more different and distant from how the projects were.

Senior Sunrise

Senior Sunrise is an event for the graduating class where students gather together at the quad in the morning to eat breakfast & enjoy moments together as the last year of high school with the participation in fun activities.

Mexican Heritage Day

INDEPENDENCIA DE
MEXICO

Salsa Competition

KCHS celebrated Mexican independence day because it commemorates a battle cry given by Catholic priest Miguel Hidalgo in 1810, which called Mexicans to rebel against the Spanish army and gain independence.
