**HOW CAN TEACHERS ACCESS
STUDENT STAAR/EOC DATA IN
TEACHER ACCESS CENTER?**

- Inside Teacher Access center, click a course name to be taken to the Roster Screen:
- Once in the Roster Screen, locate the student whose data you wish to view.

The Research Portal contains data for all Texas students who participated in statewide test administrations. This data is available to analyze state assessment results. Based on accountability rules, state assessment results within the Research Portal vary slightly from the data used for accountability calculations. To access accountability data, please visit the [Texas Performance Reporting System](#).

TEACHER DATA PORTAL OF THE TEXAS ASSESSMENT MANAGEMENT SYSTEM

- Became operational in October 2011.
- Fulfilled legal requirement for school districts to provide teacher access to student assessment data.
- Districts could apply for a waiver to use a local data portal instead.
- CFISD applied and was granted the waiver.

- The Teacher Data Portal of the Texas Assessment Management System is no longer active.
- The state now uses the Central Reporting System through Cambium (testing vendor) to post student data.
- CFISD uses Teacher Access Center to provide data directly to teachers.
- The state waiver is no longer relevant. However, it is still “on the books.”

“JUST IN CASE” WAIVER VOTE

- CFISD may apply for a waiver from not using the Teacher Data Portal of the Texas Assessment Management System since STAAR and EOC data are provided to teachers via the Teacher Access Center.
