Regarding: Facility Improvement Projects Update

The purpose of this communication is to provide the Board information regarding Measure X and Measure M projects, potential impacts of the pandemic on project implementation, and the status of CTE projects and grant applications.

Measure X

Attached is the most recent Measure X Potential Projects Tracking Log, with updated projected Board award dates and total estimated project costs. The planned softball/baseball facility improvements at Bullard, Edison and Sunnyside were pushed to a late winter targeted Board award to commence the projects after conclusion of the sports seasons. This also reduces demands on the Purchasing team.

Measure M

On November 20, 2019 the Board approved priority projects for Measure M investment. Targeted timelines for potential Measure M projects are being developed in alignment with considerations for Measure M project recommendations: baseline campus expectations; facilities needed for program changes/expansion; suitability of facilities for programs; facility/system age, condition and expected life cycle; alignment with high school master plans; facility condition data; safety/security needs; and staff and community needs. Project implementation will depend on funding availability and Board approval.

Consistent with the Measure M priority to invest in outdated/unsuitable classrooms, the first Measure M project in design development is improvement of classrooms and a science lab at Yosemite Middle School. When modernization work was done at Yosemite in the mid-2000s, funding limitations resulted in the exclusion of two classroom wings and a lab classroom. The new project will bring those facilities to the same level as the previously modernized classrooms. Also underway is initial conceptual design of a new cafeteria for Ericson Elementary School.

Adoption of a resolution certifying the results of the Measure M election is recommended on the May 6, 2020 Board meeting agenda. Measure M received 60% voter approval.

Impact of COVID-19

The current conditions may impact the construction industry, including local projects. For some school projects, there is a benefit to building or performing maintenance/repair work while campuses are not occupied and contractors do not have to work around school schedules and activities. However, the pandemic also presents challenges to the construction industry:

- There may be impacts on construction project bid pricing, as contractors face uncertainties.

- Division of the State Architect timelines are being extended, as the staff adjusts to working remotely and processes such as “over the counter” approvals are not currently available.
- There may be delay or disruption to the building materials supply chain, particularly for non-domestic materials.
- At any time, a project could experience a temporary stoppage to address health and safety concerns. All Fresno Unified contractors have received formal notification of required job site safety measures, which include physical distancing and use of personal protective equipment.

Project design timelines are currently unchanged, as local architect and engineer professionals continue servicing Fresno Unified and surrounding districts.

CTE Projects and Funding

Subsequent to the Board’s action to prioritize potential Measure M projects, the likelihood of receiving State grant funding for CTE projects at Edison and Sunnyside increased, based on grant application scoring results. The Edison and Sunnyside projects were not identified for Measure M funding; therefore, they would need to be prioritized by the Board to move forward.

The charts below provide the status of CTE grants and projects.

Board Member Input on Projects

As requested, staff will provide opportunities for Board members to understand and provide input on projects in development. In the coming weeks, Board members will be contacted to ascertain interest in scheduling time to remotely review planning for projects in the conceptual design phase: Fresno High auxiliary gym; McLane auxiliary gym; and Bullard perimeter fencing.

If you have questions or need further information, please contact Karin Temple at 457-3134 or Alex Belanger at 457-6126.
