

October 1, 2024

Dear Parent or Guardian:

Under Impact Aid Section 7003, Bethel School District is entitled to federal funds for the operation and maintenance of our school facilities. These funds compensate the District for the loss of local tax dollars from tax exempt federal property in our area.

In order to obtain these funds each year we must have a signed form for every student who has a parent or guardian who lives or works on federal property. Therefore, we ask you to complete the brief survey, sign, and submit it by November 15, 2024. Should you have more than one child in Bethel schools, please complete a separate survey form for each child. The school district only reports the number of students living with families who live on and/or work on federal property. We do not report information about any individual students so all information will be kept confidential.

Bethel School District more information including a letter from the Joint Base Lewis McCord Garrison Commander urging your participation in this form on our website please see <https://www.bethelsd.org/programs-departments/business-office/impact-aid>. If you have any questions regarding this survey, please contact Joanne Klein in our Business Office at (253)800-2213.

Thank you for completing the survey.

Sincerely,

Brian Lowney
Interim Superintendent
